Selis Flags

The library committee of Our Lady of Lourdes Parish, Mountainside, is currently conducting a sale of American flags. The purpose of the project is to revive the patriotic practice of displaying "Old Glory" on national holidays and to raise funds for the new school library. The flags, offered below retail price, may be purchased by calling AD 3-3993.

Report Shows Dramatic In Shareowning Population

for Metropolitan Newark, for New Jersey and for the na-tion showed dramatic increases in the last three years, Keith Funston, president of the New York Stock Ex-

change, reported this week. Metropolitan Newark covering Union, Essex and Morris counties — has an estimated 377,000 shareowners, an increase of 68,500, or 22 per cent, from the 308,500 investors reported in the previous New York Stock Exchange Census in 1962.

The Newark area currently ranks eighth in shareownership among the nation's mametropolitan areas, unchanged since 1962. One out of five persons in the Newark metropolitan area is a shareowner, unchanged from three years ago.

The state with an estimated 1,086,000 shareowners in early registered a gain of 184,000, or 20 per cent, from the 902,000 investors reported in 1962. The state's shareowning population has increased 532,000, or 96 per cent from the total reported nine

New Jersey's gain of 184,000 was topped only by Califor-nia's 503,000 and Texas, with a rise of 227,000. The increase also pushed the state past the million-shareowner mark, a distinction shared with California, New York, Pennsylvania and Illinois.

The state currently ranks fifth in total shareownership, unchanged from 1962 and 1956. One out of six New Jersey residents is a shareowner, compared with one out of seven in 1962 and one out of 10 in 1956.

The nation's shareowners more than triple the 1952 total, with a new high in early 1965 of 20,120,000. This represents a gain of 18 per cent from three years agon when 17,010,000 shareowners were reported. This continues the average growth rate of more than one million investors a year since 1952.

The survey, the fifth conducted by the Exchange estimates not only the number of individuals who own stock of publicly held U. S. corporations, but principal personal characteristics as well. The first study in 1952 estimated 6,490,000 shareowners, with subsequent surveys estimated 8,630,000 in 1956 and 12,490,-000 in 1959.

In one of the most dramatic findings the number of minors who own shares nearly tripled from 450,000 to 1,280,-000 since_1962. The 1959 Census showed only 197,000 shareowners under the age of 21. Minors now account for 6.5 per cent of the nation's shareowners. The rise in the number of minors who own stockis due in large part to legislation enacted in recent years which makes it easier for par-

gifts to minors. Another significant result was the emorgence of California as the nation's largest single shareowning state. In moving into the top spot with an estimated net gain of 503,-000 stock owners since 1962. California surpassed the longtime leader, New York, 2,-540,000 to 2,407,000.

Other highlights of the Census report — "Shareowner-ship U.S.A." — include: . One out of every six adults in the United States is

a shareowner, compared with

one out of 16 in 1952.

. . . An estimated 12.4 milindividuals hold shares listed on the New York Stock Exchange, up 13 per cent and accounting for nearly half the growth in investors since 1962. Owners of only investment company shares rose by 48 per cent, from 2.2 million to 3.2 million, while individuals who own only other unlisted stocks increased 23 per cent, from 2.6 million to 3.1

million.
... Women continue to outnumber men among the nation's adult shareowning population. As in 1962, the percentage breakdown was 51 per cent women, 49 per cent men. Among investors under 21 years old, however, male shareowners outnumber females, 55.1 per cent to 44.9

. . The striking increase in shareownership among American children was the outstanding change in the pattern of ownership by age. At the opposite side of the age scale, shareowners 65 years and over increased by 28 per cent and now account for 16.9 per cent of the total shareowning pop-

we take pride. High quality berries are still available but the peak of the season will be passed, this week, No one needs any exense other than delicious flayor to enjoy strawberries but they are a good source of vitamin C. For serving fresh, one quart

of strawberries should provide four to five servings. For freezing, two-thirds of a quart will yield one pint of frozen strawberries. Those ambitious enough to tackle a whole crate will not 20-24 pints of frozen berries.

Grapes, pears and plums enjoy a much longer season than berries and cherries. Plenty of plums are in sight for 1965, as California's crop is just slightly below last year's record, Beauty, Duarte, Santa Rosa and Tragedy are among the important varieties.

The news is less good for pears. The cold wel weather during bloom is responsible for a short supply of Bartletts And since more than half of all pears grown are canned, shoppers for canned pears may find a price rise resulting from the smaller crop of fresh pears.

Thompson Seedless, a greenish white elongated grape, is the leading variety. More than 40 per cent of all table grapes produced here are Thompson Scedless. More than half of the world's raisins and 95 per cent Californias are made from this variety.

Take advantage of the reason. Freeze some. Select firm ripe berries. in cold water, drain, hull. Pack in either syrup or sugar. Small whole beiries pack best in sugar syrup made with three to four cups sugar sugar, use one cup of sugar to eight or nine cups of hulled strawberries. Use a rubber spatula to mix berries and ingar. Package and freeze.

Henry Kolar helped his father build a house-by hand-from the foundation up, and without power tools! This experience more than anything else set Kolar on the road to a real esate career. "It was an education, something that I couldn't get out of a hundred books," he laims today. "I certainly became awfully familiar with what went into a house."

Kolar grew up in Elizabeth, attending local schools. After graduating from Thomas Jefferson High School he served for two years in the U.S. Navy. The experience with home construction followed his Navy service. Shortly thereafter, Kolar an-That's right, this modern bungalow is realistically priced and ideal for the right family!
