Rambling Around Town

RAIN FAILED TO DAMPEN THE spirit of the Decoration Day holiday in town as local legionnaires, firemen and Boy Scouts co-operated for the first time with Millburn organizations in a parade and exercises at cemeteries in both towns . . . garbage collection coming on the holiday caused considerable confusion as residents, not certain whether collection is made on that day, failed either to get their refuse out on the curbs or were late in doing so . . . we're informed that when a holiday falls on collection day in the future, the municipal scavenger will call, regardless . . . so in the future it will be wise to remember the tip . . . it is understood that a card with regulations as to the manner in which garbage is to be bundled, carted, etc. will soon be seen around town for the benefit of householders . . . the new wagon of George W. Parsell, Jr., local milkman, makes a neat appearance with its light color . . . Rev. Harry Y. Murkland, new pastor at the Methodist Church, at one time scribbled out sport stories and managed a baseball team while holding a pastorate in a church in Upper New York State . . . the new dominie is a "regular feller" and no doubt some day in the absence of the Rambling Reporter, who must some time take a vacation, perhaps may be persuaded to fill in . . . the new township maps of Arthur H. Lennox, township engineer, will be distributed in town tomorrow so be sure to grab your copy . . . it is quite handy with a description of buildings in Springfield clearly outlined . . . in case of rain, the maps will be handed out at some later date . . . it is declared in local political circles the Republican rift has been harmoniously cleared up and then there are reports it has not . . . perhaps the united front of the Collins-Lowden feud early this week which resulted in a peaceful state after Sheriff Collins was elected chairman, may help to mend the dissension in town . . .

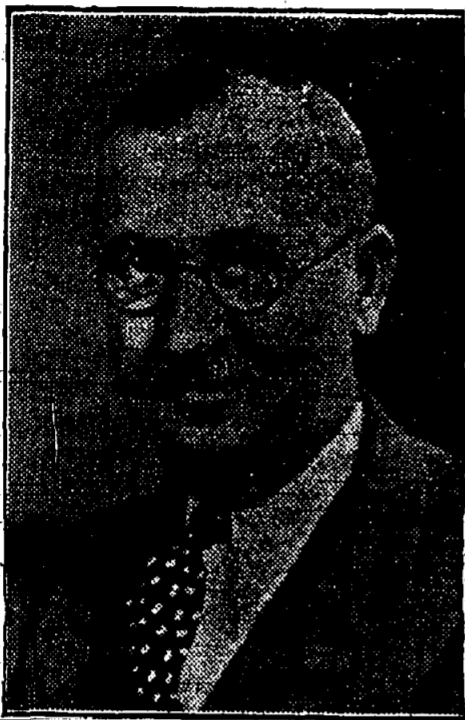

W. C. T. U. SESSION TONIGHT

Mrs. Edwin D. Pannell and Mrs. Fred A. Brown are representing the local W. C. T. U. at the county executive board meeting in Roselle tonight. The Young People's Branch is making plans to hold a silver medal declamatory contest on June 16. The Union County prize-winning essays have been forwarded to the N. J. State director of scientific temperance instruction in Passaic. Springfield W. C. T. U. members are interested since a local pupil won a county prize, to be awarded and announced later.

To Entertain Classmates

Miss Elizabeth H. Gunn, daughter of Mr. and Mrs. John E. Gunn of 69 Morris avenue, will entertain twelve classmates of her sophomore class of St. Elizabeth College at her home Monday at a luncheon-bridge.

Collins Elected G. O. P. Chairman

SHERIFF C. WESLEY COLLINS

Sheriff C. Wesley Collins was elected chairman of the Republican County Committee at the annual meeting in Elizabeth Monday. Sheriff Collins, "organization candidate," defeated Mayor Francis V. Lowden of Roselle-233 to 167. Mayor Lowden was then made first vice-chairman. On Lowden's motion the election of Sheriff Collins was made unanimous.

Prior to Lowden's election as first vice-chairman he pledged himself to strive for harmony, but said he was still of the opinion that a paid county official should not be chairman.

Sheriff Collins succeeds Edward Bauer, register of deeds and mortgages, as Republican chairman.

AUTO STOLEN FROM VISITOR IN TOWN

Police report that a sedan, owned by William L. Dempsey of Edgewood avenue, West Orange, was stolen from Springfield Wednesday night. Mr. Dempsey was visiting friends in the vicinity of Mountain and Hillside avenues when the theft was reported.

LEGION TEAM DEFEATED

The Springfield Junior League Baseball nine lost at Hillside Saturday, 5-2, in a game called at the end of the fifth inning due to confusion in the use of the Hillside diamond. The teams, both sponsored by American Legion posts, were scheduled to start play early to be

HIGHER RECEIPTS IN 1933 TAX COLLECTIONS

Tax collections due yesterday, the last day in which the first half of 1933 assessments are due indicate that Springfield will show a favorable record.

Although no figures are available as of amounts collected yesterday, Tax Collector William Hoppaugh announced that compared to 1932, collections in current taxes are about \$5,000 higher in 1933 based on collections made during the month of May.

The 1932 total collections for May

was \$42,303.29 of which \$12,158.74 was for sewer assessments. This compares with a total this year in May collections of \$40,995.82 of which \$5,948.57 is for sewer assessments. Thus, the current taxes are higher. In addition, about \$15,000 in prepaid taxes have been collected earlier this year for discount purposes which would ordinarily be collected at this time.

More definite figures will be released next week, Mr. Hoppaugh reported.

P. T. A. to Hold Final Meeting

The final meeting of the Parent-Teacher Association for this season will be held Monday night at 8 o'clock in the James Caldwell School. Officers for the ensuing year will be elected. Mrs. Charles G. Nelson, president, will preside. Meetings will be resumed again in the Fall.

Members of the Glee Club will present a French operetta, "Nifty Shoppe." Miss Ann Herche, musical director, will be in charge. A group of men, members of the P.T.A. directed by Herald A. Jones, will present a monologue, "The Lamentable Tragedy of Julius Caesar."

Following the program, a social hour will be held and refreshments served. The hospitality committee headed by Mrs. Alfred G. Trundle, will be in charge.

Secret Marriage Announced Here

Mr. and Mrs. Erwin Houck, of 65 Meisel avenue, wish to announce the marriage of their daughter, Miss Eleanor Mabel Houck, to Richard Gordon Thorn, son of Mr. and Mrs. Harris E. Thorn, of Beacon N. Y. The marriage took place April 9 at the parsonage of the Rev. M. A. L. Hirsch, of 236 South Seventh street, Newark. The couple are planning a week's stay at the home of the bridegroom's parents and, upon their return, will make their residence in Irvington.

The game finished at 2 o'clock but due to a delay in which the contest started late and field had to be vacated at that time to permit other teams to play, the game came to an abrupt halt.

All Feminine Cast Seen in "Scoops," Newspaper Comedy, to be Shown Here

"Scoops," a three-act newspaper comedy, will be presented by the Ty-Ax Club of the Presbyterian Church in the chapel next Wednesday evening at 8:15.

The cast follows: Dorothy Bartlett, woman's editor, by Ruth Kaufman; Isabel Masterson, society editor "Peggy Whipple," by Lillian Drake; Mary Jones, sob sister by Dorothy Pierson; Lucille Bird, feature writer "Aunt Martha Jane," by Ruth Cushing; Ruth Kimball, star reporter, by Anna Wagner; Poll, office girl, Ruth Hinze; Mrs. Crawford Montgomery and Miss Mill-cent Forthingham, both in society, by Gertrude Douglas and Margaret Quimby and the factory girls, played by Elizabeth Hinze, June Grimm, Alberta Schramm and Helen Duboise. The role

of Miss Clay, a detective, is played by Dorothy Cook. Mrs. Arthur Lamb is director.

The plot concerns a newspaper office where Aunt Martha Jones writes advice to the love-lorn. There is a strike at Cooper's Mills. A supposed kidnapping of the mill-owner's daughter adds to the tale and the newspaper staff is desperately trying to scoop their fellow-workers in finding the missing girl. Ruth, the star reporter, lands a front-page scoop, gets a \$1,000 award and wins out. The cast is unusual in that all its members are girls, although one part, that of a man from the other end of a telephone wire, who is not seen, is nevertheless important. Tickets for the play are on sale at twenty-five cents.

Permit For Beer Garden in Morris Ave. is Held Over

Referred to Police Committee— As Town Board Talks About New Licenses

The Township Committee Wednesday night referred an application for a permit to operate a beer garden in the Quinzel Building, 230 Morris avenue to the police committee. Chairman Cannon believed a public hearing should be held. The application was made by Albert Bischoff of Newark. The chairman said the location of the proposed beer garden was near churches and in the center of the business section.

The committee granted Edward W. Brustick of Newark a permit to sell beer at Maple avenue and Seven Bridges road. Committeeman Trundle voted against the application, pointing out the committee had not taken action on pending applications from township residents and stating these should have precedence. Cannon agreed.

Charles D. Horster, recently named general utility man in charge of road and scavenger work, will have three unemployed assistants at \$3 a day, it was announced. Horster will receive \$25 a week and will supervise garbage collection, formerly handled by an out-of-town contractor.

Memorial Service Held By D. of A.

Impressive memorial services were held in the Methodist Episcopal Church Sunday night before an overcrowded gathering attending exercises of the Daughters of America of Union County. Rev. Dr. Harry M. Murkland, pastor, delivered an inspirational address which featured the occasion. The choir sang several selections and a display of colors was presented with county officers participating. Mrs. Edna Paterson of Elizabeth, state deputy, read the 57th Psalm and a prayer was offered by the chaplain, Mrs. Jennie MacCloud of Roselle Park, state deputy. The roll call was read by Mrs. Adella Meisel of Springfield, state deputy, and Miss Juanita Gross gave a solo. Taps were played by Harry Stewart, Jr., and Mrs. Josephine Murray of Roselle Park, district deputy, read the eulogy.

D. of A. members from councils throughout the county attended.

Third, and 14,354 for the fourth place holder, another General Motors car in a higher price range than the first three, the statement read.

Of Chevrolet's total registrations for the first quarter, 14,278 were truck units representing 45.5 per cent of all trucks registered by the industry in the period. The total compares with 7,956 trucks titled by the second leading manufacturer, Is was claimed.

Every one of the first three months shows a surprisingly uniform number of Chevrolet registrations, the banking situation in late February and Marc neutralized the normal seasonal upturn at that time. In January, Chevrolet registered 34,809 units, in the shorter month of February 30,441, and in March with its banking troubles, 31,371.

In the first quarter the industry registered 259,376 new units in the domestic market. Chevrolet's percentage of 37.2 of the total compares with 35.7 in the same period last year, the statement observed.

Gasoline Price Will Rise Today

Gasoline dealers in Springfield and other parts of North Jersey expect a general boost in prices today and for the next few days. It is reported in the trade that the Standard Oil Co. of New Jersey would increase its retail price 3 1/2 cents per gallon effective today. This would give a new posted price of 16.4 cents a gallon, with a cash price of 14.4 cents.

Such an increase would be followed by other large companies. It is doubtful, however, that this will mark the end of the gasoline price war in North Jersey.

One of the leaders in rate cutting has been the Warner-Quinlan Co. At its Linden offices today it was said the Standard Oil increase probably would be followed by Warner-Quinlan, but this would not mean that Warner-Quinlan prices would equal Standard, but rather that Warner-Quinlan prices probably would be increased proportionately to those by other companies. In Newark the rate war has brought Warner-Quinlan gas down to 9.9 while other gases sold for 10.9. The low of the rate fight was reached by stations between Elizabeth and Linden, which dropped Warner-Quinlan gas to 7.9.

General Increase Likely
A general increase of Standard Oil prices is expected by the trade throughout the East. When this move is made other of the larger oil companies will follow.

The price war resulted from chaotic conditions in the East Texas oil fields. Independent marketers have been offering East Texas gasoline for several weeks at low prices in competition with leading North Jersey companies. Recent indications, however, are that the East Texas supply may be curbed by the Texas Railroad Commission.

There have been rumblings of a price increase for some time. The Standard Oil Co. of New York announced May 11 that a new marketing policy would govern the establishment of its price structure. Back of the revision in Standard prices is said also to lie the new gasoline which will be placed on the market today.

CHEVROLET SALES OUTDISTANCE ALL

Registrations of new Chevrolet passenger cars and trucks in the first quarter this year accounted for 37.2 per cent of the total of the industry and exceeded the combined registrations of the next three leading makes, according to a statement released by the Chevrolet Motor Company.

In the three months Chevrolet titled 96,621 new units as compared with 47,509 new cars and trucks for the second-place make, 29,823 for the

Selena Royle is one of the stars of John Golden's production of Rachel Crother's highly successful comedy, "When Ladies Meet." Earl Larrimore, one of the Theater Guild's prized performers and Selena Royle's husband, did not play for a time, and so generally went around to take her home after the evening performance. Like many husbands waiting for their wives, he found a small nearby speak-easy, where the bartender was tough, but the beer good. In fact, in the course of several evenings, the two men became friendly and discussed things in general. But one evening, when Mr. Larrimore dropped in for his usual ten minute chat, he found some strangers at the bar and a rather silent host. The strangers were men of keen and hard glance. Their stare was fixed, cold and questioning. The bartender spoke up as one of them moved to block the door.

"I know him," he said. "Friend of mine. An actor."

The eyes of the visitors thawed and Mr. Larrimore was regarded with considerably more favor. This induced further volubility in his sponsor, the bartender.

"These lads," he explained, "are just in from Chicago and they like to know who's in a place with them. It just might be somebody unfriendly."

Mr. Larrimore trusted that they would perceive he was delighted to know them. He trusted they would have something to remove the dust from the larynx after their long trip. The whole atmosphere radiated good will. They asked him things concerning his profession. He didn't know just how far it was best to go in displaying a like interest. Finally he said:

"I am going to ask a favor of you gentlemen. In my next show I am

supposed to play a gangster. I'd like to do it right; make it a real part. I want you, who have been around a lot, to advise me. How shall I make up; and what shall I wear?"

Seriously and critically, the visitors regarded him. They looked him over with the care a purchaser might bestow on a considered automobile. At last, they reached a decision and the apparent leader spoke for them all. "Don't," he said earnestly, "change a thing."

There have been a lot of statistics published in the Manhattan telephone directory. They will tell you how much paper is required to print it, how many subscribers are listed in it and how much distance would be covered if the subscribers or the book, I forget which, were laid end to end. But they have left out some very important figures. In this Manhattan directory, for example, there is or are, be exact and as the case may be, 1 Rod, 5 Yard, 1 Foot, 3 Foot, 25 Foote, no Feet, but 2 Inch. Furthermore, there is, or are, 1 Arm, 9 Legg, 14 Finger and 34 Hand, not apparently including Charlie Hand, who is now living at the Biltmore. Many Hands make light work, which may be why the Democratic campaign went so well, although Charlie was the only Hand assigned to both Mr. Garner and Mr. Smith. There are a round dozen Head in the directory, a Braine and a Liver.

Owen Davis writes plays about as fast as Clarence Buddington Kelland writes short stories. That's record speed. George Jessel and a friend once met Mr. Davis on a morning walk, and the friend asked Jessel if he knew whether the playwright was engaged in any work.

"When I saw him," said Jessel, "he had stooped over to tie a shoe lace. It just happened that he saw a pencil that somebody had dropped on the sidewalk, and before he straightened up he had written two new plays."

exalted rank—their copper encircled necks, stretched to unbelievable lengths by rings superimposed constantly from birth to maturity.

Outstanding among the features of this golden jubilee tour of "the greatest show on earth," is The Durbar, gorgeous, dazzling, bejeweled reproduction of India's great coronation ceremonial at Delhi, where thousands of potentates with their royal elephants and huge oriental retinues parade for the pleasure of the newly crowned ruler of Great Britain and India their vast wealth as symbolized by gem-studded trappings on elephants and horses, by their native forces and lavishly garbed households. Over 2,000 people and animals take part in the Durbar, and its background is opulent and bizarre with imported Hindu temples, tangas, carved gold cars and royal howdahs.

Among the other features are the Marcellus' Flying Ballet Plastique from Paris; the great Vabanque in Con Colleano, returned from his re-

cent European triumphs as the tumbling, forward somersaulting star of the tight wire, the incredible Alfredo Codona, world's only triple mid-air somersaulting star to a catch; the Wallendas and Gretomas, dome-height tight wire thrillers; the Uyanos, the Yacops, the Danwills, the Rubios, and the Ben Hamids, leading unit of fifty in the quadruple somersaulting acrobatic displays; the great Rieffenschach, Walters and Davenport bareback riding stars; Dorothy Herbert, sensational equestrienne; Lucilla Leers, aerial gymnast; Al Powell, fly air girl star accomplishing a double-and-a-half somersault to a catch; Hugo Zacchini, human projectile. The Hugony sisters, Maximo, and scores of others. One hundred of the best known clowns will make merry in the concourse of the world's largest tent, arrive on four long trains of 100

The great combined circus will bring over 1,600 people an 50 elephants, 1,009 menagerie animals and 700 horses.

FOR FAILURE-PROOF BANKING STRUCTURE

Speaker Outlines Threefold Cooperation Between Bankers, Government Officials and the Public to Maintain Bank Standards

TWO elements beside the bankers themselves are required in order to give the nation universally the type of banking it should have, Francis H. Sisson, president of the American Bankers Association, declared in a recent address. He said that the efficiency of government officials upon whom the people rely to supervise the banks properly, and the patronage of the people themselves are factors in the kind of banks a community shall have.

"There can be no question that the people of the United States should have banks immune from failure and wholly free from bad or questionable banking," Mr. Sisson said. "It is not enough, as President Roosevelt has said, that while some bankers had been incompetent or dishonest, this was not true in the vast majority of our banks. A situation should exist in which there is not even a small minority of bankers open to question. There should be no room for dishonesty or incompetency to exercise any influence in banking anywhere."

"While bad-faith and bad management enter the human factor in all types of business, their effects in banking should be surrounded by such special safeguards as to render them no longer a factor in bank failures. The responsibility for bringing this about, however, cannot rest upon the bankers alone, for the means to accomplish it are not wholly in their hands. There are other essential elements."

"One is the efficiency of government supervision. Since we rely so greatly upon supervision, it may, unless it is of the highest order in safeguarding the public interest, create a sense of false security. Supervision should render bad banking impossible, but it has failed to do so. There was supervision by presumably the highest type of bank supervisors in every one of the instances of questionable banking that has shocked the attention of the country during the past three years. Therefore a thorough strengthening of supervision is clearly called for if the people are to rely on it to the fullest extent for the protection of their interests."

The Public's Part

"Another essential factor in maintaining good banks involves the part played by the public in banking. There is certainly a responsibility on the people themselves to support that type of banker whose rigid adherence to sound principles makes a sound bank, rather than to give their patronage to the easy going banker who may be easier to do business with, but whose methods create a weak bank."

"Bank customers are charged with a great responsibility in protecting the safety of their banks in respect to their utilization of the assets of the banks as borrowers. Banks have failed because many of their loans and securities, created in good faith by bankers in cooperation with the business interests of the country, proved unsound under subsequent conditions. An unsound loan is created by the borrower as well as the banker. A bank is only as sound as its community, and this applies also to the banking structure as a whole in relation to the economic condition of the nation as a whole."

"A bank is truly a semi-public institution, but in a reciprocal sense—it has its obligations to the public, but so has the public equal obligations to the bank. No one who has not sound banking principles at heart has any business in a bank whether as a banker or as a customer."

"The banker is a semi-public servant. He is charged with the heaviest of responsibilities and obligations that occur in our economic life. But he can meet these fully only through the cooperation of good laws, good public officials who are empowered to exercise authority over his bank, and good business methods on the part of business men generally who utilize his bank. Only through such cooperation by elements in our nation's community

Advertising Aids Business Revival

NEW YORK—Aggressive concerns are expanding business by effective advertising despite depressed business conditions, declared A. W. Diller, advertising counsel, at a bankers' conference here recently.

"Is 1933 a good year in which to advertise?" Mr. Diller asked. "Yes, if 1933 is a good year to stay in business, to reinforce the public's confidence in you, to put more business on the books. There is now business to be had today and aggressive companies are getting it. But new business will come in only if you go out for it. Advertising certainly goes out for it."

"Will people read newspaper advertisements these days? They will read anything that interests them. There are plenty of present-day arguments for business."

Advertising Mistakes

A QUESTION before many of us is what change of advertising policy, if any, should be made in view of present financial and business conditions. It is perfectly natural for us to give consideration to some degree of retrenchment, but it is dangerous to let reduction in expenditure be such as to bring about a real gap in the continuity of the advertising. It is a common mistake for some advertisers to think that they can turn advertising on and off, like water from a faucet, and expect it to become immediately effective whenever they are prepared to resume operations. Advertising does not work that way. Temporary conditions should not influence us to make too serious inroads on the program of advertising, which can be wisely conceived only on a long term basis.—Francis H. Sisson, President American Bankers Association.

Jeanne D'Arc of Royal Blood, Says Magazine

Paris.—What was the famous "secret" of Jeanne d'Arc, France's heroic woman savior who was burned at the stake by the English?

Is it true that this famous "secret" of which the Maid of Domremy spoke so frequently was the fact that in her veins ran the royal blood of France? In a sensational article, the *Mercure de France*, a monthly magazine that corresponds in dignity to the *Atlantic Monthly*, asserts that this relationship existed, that the Maid of Orleans was, in fact, of the blood royal.

This is what she whispered to Charles VII, this is why the king's confessor had her escorted to headquarters by all the grands seigneurs of France, this is why implicit obedience was so willingly given her.

In presenting this question, together with proof and deduction, the *Mercure de France* has loosed a controversy that is attracting wide attention.

"The course is simply a period of rest and recuperation for students unable to take strenuous exercise," S. N. Ekdahl, the instructor, said.

Canada The Year Round Playground

Every Season Offers a Variety of Attractions

FISHING - HUNTING - CANOEING
SWIMMING - GOLFING - CAMPING
SKIING - TOBOGGANING - SKATING

SEE CANADA THIS YEAR

THE majority of Americans probably do not realize what a remarkable range of vacation territory is provided by our neighbor to the north. How many have first-hand knowledge regarding the variety of attractions of Canada's provinces? Some have gone abroad to seek a holiday, forgetting that this continent is unequalled in the exceptional variety of its recreational resources.

Recreational Areas Easily Accessible

It is so easy to travel to Canada that a motor tour is a recreation which every car owner may readily undertake. All the developed and much of the undeveloped part of the Dominion is easily accessible by train, boat, or automobile. Canada is served by two of the world's greatest railway systems and a number of smaller lines. The equipment and service are of the highest standard. Steamers built specially for pleasure cruising afford many interesting trips along the coast and on the extensive inland water system of lakes, rivers and canals. Good roads lead to practically all scenic and sports territories. Canada's road system includes many thousands of miles of surfaced highways, well equipped with direction signs and danger signals. Tourist accommodation, from campsite to hotel, is available almost everywhere.

Parks Cover Large Area

National and provincial parks in Canada cover nearly 25,000 square miles. They are areas which have been withdrawn from exploitation and are being preserved in their

original state of virgin beauty and wildness, for purposes of pleasure and recreation.

Summer Resorts Numerous and Varied

Throughout the Dominion there are many summer resort districts which offer a wide range of attractions and accommodation. On the Atlantic coast, in the provinces of New Brunswick, Nova Scotia, and Prince Edward Island, are typical seashore resorts, where salt-water bathing, sailing and deep sea fishing are the principal attractions.

Quebec's summer playgrounds are of the most varied nature, including as they do, sea-shore, mountain, lake and forest resorts. Along the lower St. Lawrence, summer colonies have been established at many points. North of the St. Lawrence and Ottawa rivers the Laurentian mountains, clothed with pine forest and dotted with lakes, constitute a vast summer playground. The Eastern Townships, adjoining the international boundary, also have a number of well established resorts along the shores of picturesque lakes and rivers.

Ontario has perhaps the largest number and greatest variety of developed summer resorts of any of the provinces. The Thousand Islands, Lake of Bays, Muskoka lakes, and Georgian Bay are known throughout America, but there are in addition other equally attractive, only slightly less known, districts throughout the province. Accommodation at these places includes everything from campsite to palatial hotel, and cottages may be rented in any district.

In the provinces of Manitoba, Saskatchewan and Alberta many attract-

ive resorts are located along the shores of the lakes and rivers. The Canadian Rockies are world famous for scenic beauty and contain some of the most highly developed tourist resorts on the continent.

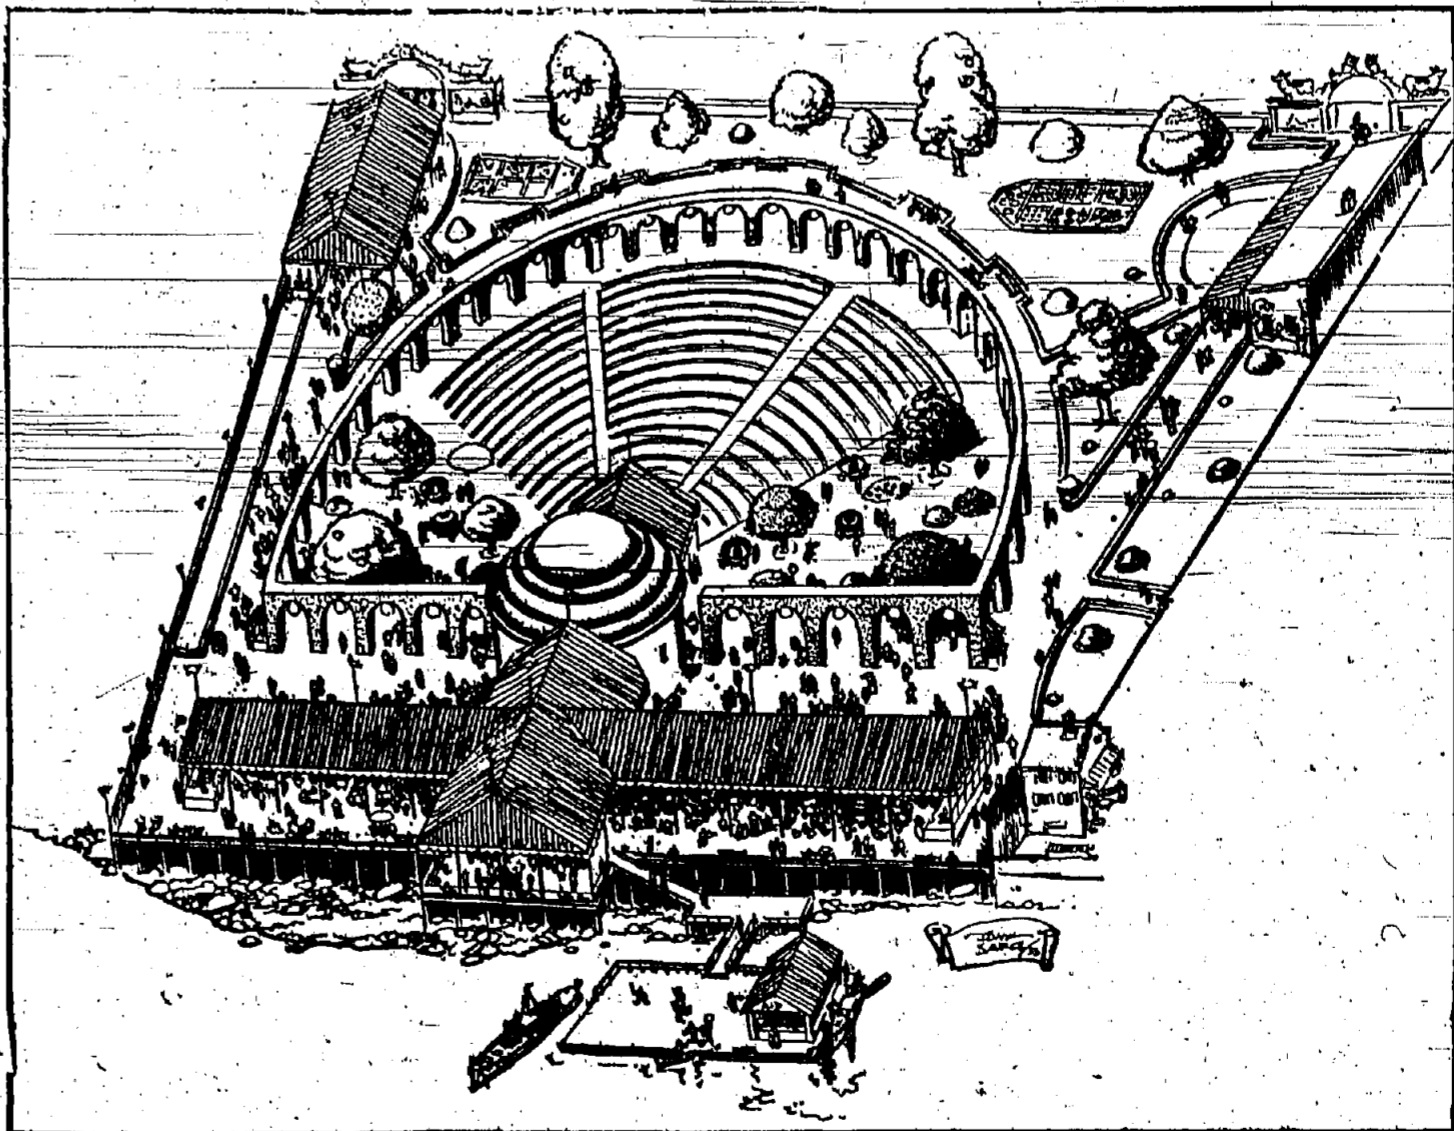

British Columbia, with varied and splendid scenic attractions, is a tourist wonderland. The province has majestic mountain ranges, an extensive lake area, stately forests, an imposing coast line, and many attractive resorts, in settings of exceptional natural beauty.

Winter Sports

The holiday appeal of Canada is by no means limited to the summer. The delightful winter season, with crisp cold days, plenty of snow and an abundance of brilliant sunshine, provides an attractive setting for the winter sports which in recent years have become so popular throughout America. Skiing, skating, snowshoeing, tobogganing, hockey and curling—all these sports may be enjoyed in Canada under ideal conditions. On the Pacific coast and especially on Vancouver Island there is offered by way of contrast, golf, riding, tennis, fishing, yachting and even swimming!

Government Bureau Free Information Service

The National Development Bureau of the Department of the Interior at Ottawa, Canada, will gladly furnish road maps of the United States and Canada and other information, for the use of those planning a Canadian tour. Applicants should be as specific as possible regarding the section in which they are interested in order that all available information may be supplied.

TONY SARG DRAWING OF CARNIVAL AT WORLDS FAIR

Tony Sarg, known to thousands throughout the world as cartoonist, illustrator, and creator of marionettes, has accepted commission as art director for A&P exhibit at Century of Progress World Exposition opening in Chicago this June. His drawing shows amphitheatre which is to feature daily free concerts by Harry Horlick's famous Gypsy orchestra and performances by Sarg marionettes. George Rector, restaurateur, will be master of ceremonies, entertaining with gay stories of the Fair of '93.

1933 Tax Collections

TAX collections in the last few days reveal that a fine showing will be made when compiled sums are announced next week. In view of present conditions, it speaks well for citizens of Springfield to meet their obligations in paying for services the township renders.

We regret that due to lack of time, it is impossible to review comparisons of taxes paid at this time. It is safe to predict, however, that a most favorable reaction is in store. Springfield can be proud of its record in paying taxes when due, as compared to many larger municipalities in our midst.

Mildred L. Widmer to Battle Hill Building & Loan Association of Springfield, property known as No. 80 Westfield avenue.

Named on Jury Panel

Charles M. Yeager of 24 Crescent road has been named from Springfield to the third panel of petit jurors to serve from June 5 to June 16.

SPRINGFIELD
Population—1933 4,000 (est.) 1920, 3,715. Assessed valuations—1933, \$4,489,310. Tax rate, 1932—Township, \$5.25; state and county, \$1.06. Incorporated 1857; settled early in 1700's. Springfield is essentially a township of homes. It is 55 minutes from New York City on the electrified D. L. & W. Railroad and has excellent bus connections to Newark, Elizabeth, Summit and Plainfield. The railroad stations at Millburn and Short Hills are less than a mile from Springfield Center. The Rahway Valley Railroad has a freight station in Springfield, giving service for factories, commercial and industrial purposes. State Highway Route 29 makes it convenient to reach New York in thirty minutes by car when completed. Numerous state and county highways pass through the township. It has good streets, water, gas, electricity and a newly opened sanitary sewer system. Of interest in Revolutionary history with its historic Presbyterian Church where Rev. James Caldwell cried, "Give 'em warts, boys," in the midst of the Battle of Springfield fought on June 23, 1780. Several colonial landmarks are to be found in Springfield, one of the oldest communities in Union County.

MATTER of OPINION

Herbert Hoover, plain citizen of Palo Alto, Calif., is probably feeling a very human sort of satisfaction as he views the so-called progress which the new administration is making in its plans to end the depression. President Roosevelt has been somewhat unkindly named the "Perfect Pollyanna of Politics" by the Newark Sunday Call, but it must be admitted that he has so many plans that are frankly experiments that there is no general surge of confidence on the part of the population such as was expected to materialize with the coming of the "new deal." We have had the Hoover administration and now three months of the Roosevelt administration have passed. These two Presidents may be likened to two types of doctors—the silent taciturn one who tells the patient little or nothing, and the chatty, cheerful one who tells the patient what he thinks is the matter with him, and explains in detail just what his medical experiments are designed to accomplish in bringing the patient back to health. In the end, the truth probably is that the patient is healed by nature, accompanied by fasting from the "good" things of life, and, what is most important, by a general cleaning-out of the system. This "cleaning-out process" is something that must be thoroughly done, and it daily

becomes more evident that the people are determined it shall be done. Our people are themselves to blame for the materialism which was the root of the whole trouble. The greed for "easy" money had infected all classes. It is now seen that unless the financial institutions which have been manipulated by their officials for the special privilege of a favored few, with an unethical, if not unlawful, disregard of the safeguards which should be thrown around the possession of other people's money, are so conducted in the future as to regain the confidence of the public, money will not be given into their custody. It is not surprising, therefore, to read that a "code of ethics" for the operation of building and loan associations has been proposed in New Jersey. There is a new sensitiveness to such shady practices as granting loans of questionable security to directors or their relatives or favored friends; allowing certain directors to snap up remarkable bargains in foreclosed real estate held by the association; etc.

The upswing, which is to bring better times, is predicated upon confidence, and without any doubt the improvement is delayed by the uncertainty and uneasiness caused by the inflation plans which are being discussed by the government. There is not much perturbation about going off the gold standard but the thought of setting the printing presses going to print new money brings into immediate comparison the tragic and complete collapse of the monetary system of Germany when the inflation got beyond control. Instead of money inflation, credit inflation is now proposed. We had credit inflation for several years before the depression hit us. Don't you remember how easy it was to get a bank loan in those days? But some of us want bank deposits guaranteed by the government, and guarantees and inflation do not go hand in hand. Nevertheless, things are working out; this is inevitable when the temper of the people is as grim and determined as is now demonstrated by the American citizenry. Things are improving and they are going to stay improved a long, long time. Government officials and financial "leaders" are finally taking notice of continuous and the disturbing interest the "average" citizen is taking in all affairs that

affect his social welfare and financial well-being.

The quickest way to accomplish real recovery is to quit running to the government for help. Let the farmer solve his own problems, which he can do if he gets a better break on freight rates. Let the mortgage companies throughout the State get together themselves as was done in Montclair, and reduce the interest rate to five per cent, and apply the reduction of one per cent in interest to a reduction of the principal debt. Let municipal officials and all who have the spending of public moneys apply to their acts the same thrift and efficiency which we are all forced to observe in our personal affairs. Let utility companies avoid the

day of reckoning by voluntarily adjusting their charges to the public's capacity to pay. Let all remember that while selfishness prevails and there is persistent refusal to consider the rights of the people, real recovery cannot be accomplished.

The death of a Montclair woman who succumbed to heart failure after a quarrel over the cutting of a boundary line hedge is another proof of the bitter feuds which so often arises between neighbors. There can never be any boundary line fence so unsatisfactory as a hedge. It is bound to trespass all over the adjoining property. How tragic to think of nine children, motherless today because of a quarrel over a hedge!

What the SUN Advocates

Believing that the following improvements are vital necessities to nourish Springfield's betterment and substantial progress, the SUN advocates:

1. A high school.
2. Removal of dilapidated buildings which are "sorespots."
3. Sidewalks wherever needed.
4. Encouraging clean factories, to increase the rates.
5. An active Board of Trade to stimulate "Buying in Springfield."
6. Postal-carrier delivery.
7. Reduced bus fare within town limits and to Millburn R. R. station.
8. Full time position for the township clerk's office.
9. Set of Building Zones, before township is developed.
10. A county park.

Picture of a woman who cooks ELECTRICALLY

"SCOURING" her pots and Pans

● "THREE YEARS AGO I got my Electric Range. Since then I haven't scoured a pot or pan. Cooking utensils stay so clean I could wipe them with a silk handkerchief." Absolute cleanliness,—one of the reasons why women become such enthusiasts for Electric Ranges. They appreciate shorter and easier dishwashing. They like never having to worry about stained kitchen walls. Even their kitchen curtains stay out of the washtub longer... Yet absolute cleanliness is only part of the all-round *betterness* of Electric Cooking. Let us, or ANY DEALER, tell how easily and economically you, too, can enjoy a New Deal in cooking.

Play in the Softball League was slowed up this week due to rainy weather, causing two postponements. The Independents whitewashed the Phantoms last Thursday, 17-0, and the losers acted more like ghosts instead of the name bestowed upon them.

The Republican Club climbed up to a tie with the Indians Monday by an 8-4 victory over the Fire Department. Both Republicans and Indians are tied at three wins and no defeats. The teams were scheduled to play Wednesday night, but rain caused a postponement.

Regular scheduled games next week: Tuesday Legion vs. Fire Department; Wednesday, Republican Club vs. Independents, and Thursday, Phantoms vs. Indians.

AT THE STRAND

"Alice in Wonderland" tops the bill at the Strand Theater tomorrow, matinee only. "Drum Taps," with Ken Maynard and Boy Scouts of Los Angeles, is the second feature. Carole Lombard in "Supernatural" is the attraction Saturday night, only, in addition to the Ken Maynard film.

Maurice Chevalier in an amusing comedy, "A Bedtime Story" with Baby Le Roy, Edward Everett Horton and Adrienne Ames will be shown Sunday and Monday. Loretta Young in "Zoo in Budapest" and Jack Holt in "The Woman I Stole" are the double-featured attractions Tuesday and Wednesday.

"The Story of Temple Drake," with Miriam Hopkins and Jack LaRue, is to be presented Thursday and Friday. Tom Keene in "Scarlet River" is the associate feature.

GEORGE ARLISS FILM AT MILLBURN THEATRE

It is a new and somewhat disheveled George Arliss, usually so immaculate, who appears in "The Working Man" at the Millburn Sunday, Monday and Tuesday. For six weeks he left his hair grow before beginning work on the

picture. "The Working Man" is a delightful and highly entertaining comedy drama in which Mr. Arliss, a wealthy manufacturer, masquerades as a small town fisherman, in order to save from ruin the children of the man who has been his bitterest rival in both business and love. Bette Davis is his leading lady with Hardie Albright in the juvenile role. J. Farrell MacDonald is also in the cast.

The remainder of the week's attractions follow: Wednesday and Thursday, Bette Davis in "Ex-Lady" and Lionel Atwill in "Murder in the Zoo"; Thursday and Friday, Slim Sumnerville and Zasu Pitts in "Out All Night" and Richard Arlen in "Song of the Eagle."

TO HOLD FOOD SALE

A food sale will be held tomorrow morning in the Legion rooms, 240 Morris avenue, by the ways and means committee of the Methodist Episcopal Church. Men of the committee will have charge.

In order to keep pace with the demands for new reading from our pay shelf our Book Committee is constantly consulting so that there may be as many desirable fiction volumes purchased as possible with the limited funds available.

For our mystery story lovers we have acquired "The American Gun Mystery," by Ellery Queen. This is said to be a typical American story for it concerns Wyoming characters just a stone's throw from Broadway. From literally thousands who might have committed the crime, the guilty one is gradually sifted and by no ordinary means of de-

duction, either.

Miss Delafield presents another of her much-sought books about the provincial lady. Her hilarious adventures have become part of English and American household tradition. The counterpart of each member of the family is faithfully reproduced. "The Provincial Lady in London" is funnier than its predecessor, has a wider range and a more varied interest.

"Uncle Peel," by Irving Batcheller. The principal character, the name of the title, is a genial North Carolina banker of humor and shrewd economic wisdom. Laid in Florida at a time when speculation was wild with devastating results, the author has ample field for a plot of unusual dimensions. The curious pessimist, Solomon reunions and the lovers and their families, round out a modern story of real value and deep interest.—F. P. L.

Go to Church Sunday

Join the Happy Throngs

Have you ever noticed the faces of people as they emerge from church out into the sunlight? They are bright faces, faces with faith shining in them, their burdens are lightened, their joys are increased, because they have stopped for a moment in the House of God. Your church holds the same happiness for you, a happiness in being one with your Creator, a happiness derived from good fellowship and love of mankind, a happiness found in doing good—this is only a part of what your church will instill into your heart. If you want a balanced, happy life, join the happy throng on their way to church next Sunday.

8A PLANS PLAY

8A is planning to give a play, "Waiting For the Trolley." It is a comedy. The boys of the class are now painting scenery, and there is considerable scenery to make.

The play will be given the last week in June before all Junior High classes. We are hoping it will be a great success—ANN MARTYN.

9TH GRADE WINS

Last Thursday, the eighth grade played the ninth in baseball and much to our disappointment, the ninth graders won. We expect to play them again this week. We are in hopes to take the game this time.—DORIS MAINWARING, Grade 8B.

MEMORIAL PROGRAM

An Assembly program to commemorate Decoration Day was held Monday by members of 7A. The program follows: Boy Scout salute to the flag, "Yankee Doodle" by the audience; "The Origin of Memorial Day" by June SUN—galley four Geiger and Carolyn Harmon; "The Story of Old Abe" by Gene Morrison; "Tenting Tonight" tableau and song; "Young Fellow, My Lad" by Adeline Geib, sailors' tap dance, Lillian Searles; "In Flander Fields" by Paul Shea and Freeman Huntington, and "There's A Long, Long Trail" by the gathering.—KATHRYN GUNN.

ENGLISH PERIOD

During our English period, our teacher, Miss Meade, gave each pupil a chance to write a story about something we had studied in geography or history. When we finished, Miss Meade gave us a mark. The stories were interesting.—THERESA HOLLIN.

FOUR LITTLE EGGS

There is a robin's nest in the bushes by Miss Lake's fire escape door. There are four eggs in the nest. They won't be there much longer, because they will hatch and four little robins will fly away.—THOMAS STREET, Grade 3.

SCIENCE

We are studying about radium. It looks like salt but a pound is worth almost a million dollars. One use for radium is to cure cancer. It is also used on dials on clocks, labels for poison bottles, on keyholes and on the eyes of dolls or children. You may wonder why it is used for cheap things. The secret is that it is not radium at all used—but zinc sulphate that has only a small trace of radium.—HOMER BUCKALEW, Grade 6B.

OUR HEALTH BOOK

There is a health chart in the back of our room. It has rules to make us big and strong. We are making health books of those rules for Summer when we don't go to school so we will re-

member to do them.—Grade 1, Raymond Chisholm School.

GRADE 2 HAD PROGRAM

We had a Memorial Day program in our room.—DONALD WIGGINS, Grade 2.

Rev. H. Y. Murkland, D.D., pastor.
Sunday School, 9:45 A. M.
Morning worship, 11 A. M.
Epworth League, 7:30 P. M.
Dr. Murkland will preach Sunday morning at 11 on the topic, "Love That Constrains." The musical selections follow: "Through the Night of Doubt and Sorrow" by the Junior Choir; special violin selection by Miss Juanita Gross, "Largo"; organ prelude, "Let the People Praise Thee" by Costa; offertory, "Lullaby of the Flowers" by Delbruck; and postlude, "Gloria Patri" by Palestrina.
A memorial service of the Fire Department will be held in the evening.

FIRST PRESBYTERIAN

Rev. Dr. George A. Liggett, pastor.
Sunday School, 9:45 A. M.
Morning service, 11 A. M.
Christian Endeavor Society, 7:45 P. M., in the chapel.

Over 200 persons attended the second "Dramatic Night" program of the Christian Endeavor Society Monday night in the chapel. The series of "fun nights" will be resumed in the Fall.

Miss Alberta Schramm, vice-president, will lead the consecration services of the Christian Endeavor Society Sunday night at 7 o'clock. The service will start at this time, a half-hour ahead, so as not to conflict with the Union service in the Methodist Church at 8 o'clock in memoriam of deceased members of the local Fire Department.

The Bethlehem Jubilee Singers of Newark, a Negro quartette will be guests of the society the night of June 11 in the chapel.

Improved Pasture Pays

IMPROVED pastures are a cheap source of feed for stock. A farmer in New Hampshire, cooperating with his county agent top-dressed his 5 acres of pasture with 500 pounds of complete fertilizer at a cost of \$75, reports the United States Department of Agriculture. After 4 weeks he turned his cows out on this pasture. Tests made during the six weeks the cows grazed there showed that his herd produced 7,000 pounds more milk than they did in the same period the previous year, although the farmer had one cow fewer and fed 800 pounds less grain. Based on current milk prices he made \$189 on the extra milk and saved \$16 on the grain, netting him an increase in income of \$120.—U. S. Department of Agriculture.
