Rambling Around Town

THE LOCAL WPA GANG, which has been inactive for the last two weeks, is expected to resume work within a few days on construction of a storm sewer affecting the area of Cain street, South Maple avenue and Linden avenue. Sufficient work is provided to keep the men busy until sometime early in January. Then, according to reports we've gathered, another lay off seems most probable. The Rambling Reporter adds a suggestion . . . not so long ago, property owners in the business section on Morris avenue whose experiences with floods by overflowing banks of Van Winkle's creek gave them their share of annoyances last year, petitioned the Township Committee to relieve the condition by cleaning out rubbish, weeds and other obstacles in the flow of the stream, running in the rear of their buildings. It may be recalled that the board, upon the request, laid the matter over on the contention that the Railway Valley Flood Control Conference had a plan . . . for that reason, nothing transpired toward correcting the situation. . . . now, most of us are aware of the long delays involved when such regional bodies start to perfect their organization and engineers, through the State Water Policy Commission, begin to actually do something concrete. . . . the township's expense . . . sponsoring a WPA project of this kind is almost negligible, and much of a needed improvement could be realized. . . . instead of allowing these men to find themselves two months from now without sufficient employment, thus shifting the burden over to the township, through relief assistance, wouldn't it be more practical to effect this project and look ahead? . . . the stream hasn't been cleaned or its banks straightened in so many years that it's not difficult to understand why rising waters find their way into cellars, damaging property and causing headaches galore. . . .

Local storekeepers are enthusiastic about plans of a best-dressed window contest during the holiday month, as sponsored by the Lions Club. . . . with ten prizes to be awarded, competition should be keen. . . .

POLICE DANCE IS ATTENDED BY 300

Over 300 persons attended the eleventh annual Thanksgiving Eve dance of the Springfield Patrolmen's Benevolent Association last Wednesday in Singers' Park. Patrolman Arthur Lamb was general chairman, and music was played by Don Gilson's College Club Orchestra of town, and Jack Robbins' orchestra.

Thomas Palmer of town won a portable radio, and Mrs. Edna Jaeger of 647 Valley street, Maplewood, won a 50-pound turkey, as a drawing during the affair. Door prizes were won by Miss Inga Lindquist and Jerry Potter, both of town.

Reduction Made On Light Rates

In compliance with a recent agreement reached with the Public Utility Commission whereby Jersey Central Power & Light Company agreed to a minimum reduction in its rates totaling \$180,000 on an annual basis, announcement was made by the company today that a reduction of 10 per kilowatt hour would be made on the second block on all bills rendered under Schedule R-4, the standard Residence rate, presented to customers on and after December 1. This is a reduction of 20 cents per month to all customers with a room count of seven rooms or less who use 30 KWH per month. For those customers with a room count in excess of seven rooms, the reduction will be proportionately greater.

As was announced recently, this reduction was made by agreement between the company and the Utility Commission without prejudice either to the company or the Commission to effect such further reduction as may in its, the Commission's, judgment be justified by the complete record in the proceeding. This referred-to having to do with the present rate case before the Commission.

As also noted in the Commission's announcement during the pendency of the proceedings in 1939, the company had already put into effect reductions in electric rates in the aggregate sum of \$73,114. This reduction, together with the current savings of \$180,000 to consumers, makes a total reduction during the rate case of about \$250,000.

In reducing the second block of the Residence rate 1 cent per kilowatt hour, residence consumers save approximately \$162,000. Approximately \$118,000 will be saved municipalities by an aggregate reduction in that amount for municipal lighting.

Born in Springfield, Mr. Pudney came to Newark when he was 21. He attended night schools and earned a degree of mechanical engineering. He was employed for more than 20 years by the National Biscuit Company and for 28 years in the Sunshine Biscuit Company. Mr. Pudney designed and maintained machinery for both organizations. COAL TRUCK UPSET ALONG HIGHWAY 29

A truck transporting 10 tons of coal upset early Wednesday in Route 29 after striking the rear of a car being pushed by its owner. Neither the truck driver, Harold Jensen of 1193 East 40th street, Brooklyn, nor the other driver, Robert Stimson of 19 Delmar street, Morris Plains, were injured.

According to police, Jensen was driving east on the highway when his truck struck the left rear of a roadster which Stimson was trying to start by pushing. The truck zig-zagged and upset, spilling the coal, which covered several hundred feet of the road and shoulder.

Summit Man Gets 64 Days in Jail

James Palmer, 24, of 24 Baltusrol place, Summit, was committed to the county jail for 64 days by Recorder Everett T. Spinning Friday, in default of fines of \$234.50 arising out of charges of drunken driving, and driving without a license.

Palmer pleaded guilty to the tipsy charge, which drew a \$200 fine and \$23.50 costs. On the complaint of operating without a license, he was fined \$10.

A detainer against Palmer for driving without permission of the owner, John P. Grimes, of 100 Summit avenue, Summit, was filed by Summit authorities this week. The youth will be sentenced on that count later this month.

Patrolman Wilbur C. Selander arrested Palmer last Thursday at 10:15 P. M. at Main street and Morris avenue, after Palmer hit two cars which were stopped on Main street, waiting for a traffic signal light to change. The machines, which were owned by Ole Olsen, of 731 Ridgedale avenue, Woodbridge, and Carmine J. Iazzetta of 403 Boulevard, Bayonne, were not seriously damaged.

Dr. Gabriel J. Lull declared Palmer unfit to drive.

Active Meeting Held By WCTU

Springfield-Millburn W. C. T. U. met Monday afternoon at the home of Mrs. George E. Hall of 33 Linden avenue, a day earlier than scheduled, at the request of the hostess.

The devotional theme was "A Sick World" referring to St. Mark 2:1-5, and Revelations 22:1-3, for the Gospel of Jesus is the only cure, as Democracy is the by-product of Christianity and cannot exist without it for love and tolerance are the fruits of the spirit, which the whole world needs, so sadly lacking in these days.

During the business session, the union decided to carry out National headquarters' request that prayer groups be formed in every locality where there are W. C. T. U. organizations. On Monday evening, at 8 o'clock, the first community prayer circle will meet at the home of Mrs. Frank Bohl of 18 Morris avenue, to which everyone is welcome, regardless of sect, creed or denomination.

The union also voted to purchase copies of the magazine, "The Gains Crusader" for one year, for use in the Loyalty Extension League meetings. November roll call, with collection of dues for the new year, is being continued, as all unions in the county are working for the same plan.

Opening of Dead-End Streets Foreseen In Asking County's Aid

Engaged to Marry
Seek Bridges On Salter Street, Profit Avenue From Freeholders

WOULD CONTINUE ROADS THROUGH

Legislation to open two present dead-end streets, Profit avenue and Salter street, was pressed into action Wednesday of last week by the Township Committee. Two resolutions were adopted and ordered sent to the Board of Freeholders, petitioning the county body to erect bridges over a stream in Profit avenue, and another on Salter street, near Brook street.

Such construction, which could be accomplished in the Spring, would enable the committee to have Profit avenue extended several hundred feet, thus connecting the thoroughfare with Morris avenue to Bryant avenue. In Salter street, a bridge would allow continuation of the street through to Rose avenue. At present, Salter street starting from Morris avenue, rounds itself into Brook street. The proposed plan would find Salter street going still further south, across what is now empty land to the rear of both Brook street and Rose avenue.

The township is indebted for a considerable amount of delinquent taxes and interest in the property off Rose avenue, and it is believed by township officials that the opening of Salter street might enable the committee to acquire the tract by foreclosure, and in turn, dispose of the land to developers. Unofficial reports show that almost \$25,000 in delinquencies exist on the tract, alone.

Your Garden This Week

BY FRED D. OSMAN, Union-County Agricultural Agent

For that shady spot along the side of the house where nothing but weeds has ever grown successfully before, try planting some Hesperis, or Sweet-rocket, this Fall or early Winter. Next May and June should find the location transformed with a drift of pleasing, sweetly scented bloom. These old garden flowers come in white, lilac and light purple and resemble a Garden Phlox somewhat, although they are not so formal and striking in appearance. They are also called Dames-roses, and their botanical name is Hesperis matronalis. They are suitable as cut flowers, and very well-adapted to poor growing conditions. Sweet-rocket is short-lived—perennials but they usually maintain themselves year after year by self-sowing. It is a good plan to sow the seed directly where the plants are to grow, preferably in late Fall or early Winter. This insures good germination early in the spring. The seedlings will become established before the hot drying winds of Summer come. The plants will take care of themselves over Winter and if they are not allowed to go to seed the next year they will live for several years. Very often they act as biennials, however, so it is wise to sow seed each year.

What IS this FHA PLAN

for BUILDING HOMES?

BETTER HOUSING PROGRAM

It's really very simple. We lend you money to build. Just how much depends on your circumstances, but frequently the building lot is sufficient to cover the down payment, which may be as low as 10 percent. You repay this loan out of your income. The payments are fixed monthly sums, similar to rent. They are based on what you can afford to pay. With the new 4 1/2 percent interest rate, they average as low as \$5.81 per thousand, which includes principal, interest, and FHA insurance. (\$26.15 a month can pay off a \$4,500 insured mortgage on a \$5,000 home!) These convenient payments make you a Home Owner.

\$5.81 PER MONTH PER \$1,000

-AND IT'S YOURS "FOR KEEPS"

We've excellent values in homes at a "lower than ever" cost on the FHA Plan. Homes inspected by FHA for livable design, sound construction, and good location. A small amount down, and monthly payments averaging \$5.81 per \$1,000 (including principal, 4 1/2 percent interest, and FHA insurance). Inspect new Colonial homes, 6 rooms, attached garage, fully insulated and weather stripped, every improvement, no extras, near schools and business center... located in Seltzer Street.

Naturally such a fur bearing animal as your Sheepdog has an extravagant thirst... And because of that we know he'd especially like this community—with pure water so plentiful, and inexpensive too.

Hall Discusses Regional

A survey of the football situation, as affects Regional High School, occupied the major portion of the column, "From Where We Sit" by John J. Hall, sports editor of the Elizabeth Daily Journal...

Future of School Game Here

The big problem in interscholastic football today doesn't concern gridiron lined out with hard sauce. It doesn't concern footballs stuffed with turkey dressing, or goal posts built of drum sticks. It doesn't concern climax or anti-climax.

About Unpleasanties

For my part I'm not concerned about the unpleasanties at Roselle last Saturday afternoon except as they lend emphasis to a situation. A couple of years ago Thomas Jefferson had a pretty good club—a winning, aggressive team, possibly too aggressive.

Regional Gets a Tag

This year the Regional High-School team out in Springfield appears to have fallen heir to the spot vacated by Jefferson. A few weeks ago Regional played Roselle Park. It was natural that in the game spirit should run high.

It was to be expected that there would be real fire in this one. It would have been the same anywhere in the country and Springfield is still part of the country. The ball game played must have been a tough one. From all accounts the Regional boys may have boiled over in their determination to win for their new school and their young coach.

Applied Sportsmanship

Now, let's say that—as had been charged, Regional's enthusiasm boiled over in the Millburn game. Let's say they went too far. But, with a splendid gesture of sportsmanship Mr. Joseph L. Bestard, supervising principal at Roselle schools, Mr. George Bestard, principal of Roselle High School, and Mr. Orion Rice, coach of the Roselle High School eleven, have issued a statement declaring that Regional didn't boil over last Saturday.

Rahway Rally Beats Regional By 19-14

Blues To Face Camptown Pros, Streak Broken

The Union Blues A. A. who have staged football shows at the local county park in Meisel avenue each Sunday, will travel to Tri-City Stadium in Union to battle the Camptown Pros of Irvington Sunday afternoon at 2:30 P. M.

The Blues, having won seven straight this season, dropped a heart breaker last Sunday to the Greater Newark Football Club 7-6. This was to have been the final game for the Blues but they learned the Campers had a last-minute cancellation and grasped at the opportunity to move into the Irvington park in search of a bigger game.

In most of the games played here the Union lads clearly outplayed their rivals and in some instances were overwhelming their visitors by several points. Because of the fact that there was no admission charged for games played here, it was impossible for the Blues to secure better opposition. The story will be decidedly different when they invade Tri-City Stadium Sunday.

At any rate the spell of defending a perfect record has been shattered and the boys from Union will be shooting the works in an effort to regain the prestige they have surrendered by last week's one point defeat.

Newark scored in the second period when Bob Whelan caught a 25-yard pass from John Jackson and ran 35 yards for a score. Frank Innamorato kicked the extra and what later proved to be the deciding point.

Jimmy Allen tallied for the Blues in the third period, on a 5-yard plunge but the conversion failed. The lineup: Greater Newark F. C. Cammarota LE. Wherril Miller LT. Plake.

Scarlet Eleven Takes Game In Curtain Drop for Orange and Blue

SECOND DEFEAT OF SEASON FOR LOCALS

Regional High School closed the football season with its colors trampled at the hands of an inspired Rahway Eleven Saturday in a thriller at the Linden High School field, by a score of 19-14. The defeat gave Coach Bill Brown's squad a record of six victories and two defeats, the only other reverse coming from Union.

The Rahway boys, who gave their best performance of the season against their traditional rivals, got off to a fast start in the opening period, scored again in the second quarter and then saw the 12-0 lead wiped out when Regional struck in lightning fashion before the half closed to cross their opponents' goal twice within less than three minutes and by virtue of Bill Glowacki's dependable toe, scored ahead, 14-12.

But in the final period, a strong passing offense enabled Rahway to advance deep into Regional territory, as Co-Captain Nick Colonna, who had made both previous scores, went over for the deciding touchdown and with it, the Orange and Blue's third unsuccessful attempt to trim their keener rivals, went up in smoke.

Miller's Loss Felt. Sophomore Frank Miller, blocking back for the Regional team, who suffered injuries in the Roselle game, started for the locals but failed to last the first quarter. Bobby Price replaced the defensive back, but Miller's removal proved a handicap to Regional. Not as an alibi, but it was plain to local supporters that the four-man backfield which had gone through such a fine defensive season plainly showed the distinct loss of the absent Miller.

Regional kicked off at the start, and in a few minutes time, Rahway's backs had torn through a weak rival Regional side for three successive first downs, bringing the ball up to the Regional 10. Colonna went over from the 2 yard stripe, Shupper's propleck for conversion hit the cross bar and bounced back onto the field.

Price's fumble on his own 8 yard line in the second period proved costly, as Hurd, Rahway tackle, recovered. Previously, Taylor had fumbled on his own 10, and Regional had been given a short-lived break. The cold spell was working to disadvantage to both teams. Taylor then passed to Colonna, who scored for the second 6-pointer. Colonna's placekick was wide.

Explains Letter On Sale of Seals

Many telephone calls have come to the office of the Union County Tuberculosis League referring to the fact that the Seal Sale letter indicated that there were \$2.00 worth of seals enclosed but that only \$1.00 worth of seals were received.

Miss Stella O. Kline, executive secretary of the league, explains this by the fact that the original plans were to enclose at least \$2.00 worth of seals in every letter, in as much as many people last year, had called for more seals. However, the supply of seals ran low around the 20th of November. Attempts were made to get more seals from the National Association but there were no seals available anywhere in the country with the exception of a few from Hudson and Sussex Counties.

Miss Kline states that the office knows how many seals were sent to every individual and the return of \$1.00 worth of seals will not be checked against the contributor. All plans for the Seal Sale are carried out and printed during the Summer and early Fall months, so

that by the time the shortage of seals was discovered it was too late for a re-printing of the letter.

Tax Collector Charles H. Huff is local chairman of the drive, with Carlyle H. Richards, cashier of the First National Bank of Springfield, serving as treasurer.

We have two Pay Shelf Books this week: Richard Hallott tells the story of MICHAEL BEAM. He writes with a thorough knowledge of history, but above all with a background of hard fought living like that of the frontiers' men of his novel. Although a graduate of Harvard, he has served as a sheep shearer, stone breaker, bounty rider, oil drillman, gold prospector, copper mucker, stoker, marine fireman and watch officer on a horse ship. With this background the author has delighted his readers with the experience of fact, the gorgeous color, the humor and above all the zest of his stories.

MICHAEL BEAM is no exception. This is the story of fighting men and women who lived just ahead of America's moving frontier.

Miss Tucker's chief interest has always been medicine although she worked as a stenographer, an insurance salesman, a hospital historian and a writer of articles for the N. Y. Times and other newspapers. She worked upon this novel for six years, part of the time boarding in a medical boarding house, attending autopsies and operations with students, riding in ambulances in New York for week-ends and staying up all night in accident rooms and haunting Johns Hopkins so you see she writes from experience.

Dr. R. J. Owens, Chiropractor of Summit, Noted For Quick and Correct Analysis

In looking over a list of the leading business and professional men of the Newark suburban area, our attention is attracted to the activities of Dr. R. J. Owens, prominent chiropractor with offices in the Bassett Building, 382 Springfield avenue, Summit. Dr. Owens is a man who has been practicing for the past nineteen years, since 1923 in Summit. He is fully licensed by the N. J. Board of Medical Examiners. Through accurate treatments and quick and correct analysis, Dr. Owens has made quite a name for himself in this area. He points out that the work of the chiropractor is to correct displacements found in

the spinal-column. This is done by the bare hands—whose movement in time return the segments to their normal articular relation, allowing nerve force and hence health to flow unretarded. It is not strange that Dr. Owens is one of the busiest professional men in this section, as his services are in great demand. This demand constitutes, we feel, a well-merited tribute to his efficient methods. He has a fine reputation and we are glad to recommend his service to all our readers. Phone Summit-6-3372 for an appointment or just drop in, for Dr. Owens can really help your back to health through chiropractic.
