BETTIQUETTE

SAYS

Now in the snowy weather it does seem far away to talk about the Spring; nevertheless it is not so far away. In New York City colorful straw chapeaux are worn on the street by the well dressed cosmopolitan—also the stunning new knit or loosely crocheted hat and scarf combinations made in one piece. The latter is very flattering to the youthful face.

We have noticed several of our better dressed women of the community wearing very stunning new sport coats, some in a definite red. Such casual types of outer wear are good from early Fall into late Spring and the wearer is always comfortably dressed as well as smartly so.

One of the Newark department stores has a display in violet with a tremendous violet bush in the center of the floor. All hats and surroundings are in the same color. The customer is willing to spend an extra dollar in such an atmosphere. The department stores know this and that is why they spend such sums in creating "eye appeal."

Now is the time for one to get ready for the new fashions, to get one's figure under control. Watch the new menus, they have heavy starch content in them, and this certainly adds poundage. In order to meet the new point system you will be forced to buy items such as noodles, potatoes, but because your husband and children "dig in" doesn't mean that you can still retain your figure. Now that your incomes are higher, take advantage of the reducing massages specials offered by reliable firms in the Spring. They reduce measurements (if not actual weight), and tone the bodily muscles. Indulge, girls!

We notice how the women who have joined the military branches of the government keep themselves so trim and neat. They have a minimum of time for such matters. The answer is planned time and competition. They can't display their charms in individual clothes, but they can keep their wardrobes clean and neat, their complexions fresh and their hair well set. The latter is essential to complete the ensemble.

No matter how well-dressed one may be, a messy head of hair nullifies the new wardrobe. If you need a new permanent, don't delay, it makes a great difference in how you look!

Minute Makeups Here is a real beauty secret! Get some Fuller's Earth from your druggist. Beat one egg well. Add to this one-half cup of cooking oil (cottonseed or mineral oil), and tablespoon of Fuller's Earth. Beat it up. Pour into a wide-mouthed jar. Spread some of this mixture on throat and face. Bathe. Then remove your secret mask. Your skin is smooth. This is the mask used in the most famous beauty salons of the world!

The health of war workers and the nation's largest source of food to par to insure our victory," Mrs. Richards says. "As the war goes on, more and more foods will be rationed. But this does not mean we shall be underfed. If everyone learns how to use both rationed and unrationed foods to best advantage, we can maintain the proper nutritional standards."

Mrs. Richards emphasized the fact that a well-balanced meal does not necessarily mean a high-cost meal. An expensive meal may leave the system starved. This "hidden hunger," the hunger of the system for the right foods, can undermine the efficiency of workers on the home front.

Springfield Men And Women Take Part In Weekly Tasks of Sky Gazing For Enemy Aircraft

In Central Park or on any side street in New York a glanceser can spot a flying enemy plane for 10 cents. But five Springfield men and women have been on the search for flying enemy planes two hours a week for over a year as volunteers at the plane spotters observation post in Kenilworth boulevard, near the center of Kenilworth.

The Springfield men and women who are donating their time are Arthur H. Lennox, Mrs. Nicholas Schmidt, Mrs. Laura C. Dickerson, Mrs. Lillian Schwartz and Robert S. Hummel, local real estate man, who resides in Union.

Lennox and Hummel both work from 4 to 6 in the morning once a week and the three women work from 12 to 2 in the afternoon once a week. Since only two of the women must be on duty at a time, it is arranged among them which two report each week.

The Kenilworth observation tower, Post 35-A of the Aircraft Warning Service of the New York Air Defense Wing of the First Fighter Command, was built in one day last winter by the combined talents of 18 carpenters, electricians, painters, and glaziers with wood and glass contributed by the Building and Construction Trades Council and other builders' supply houses.

The spotters, under the general supervision of Sherman G. Kiser, have kept the army informed of every plane entering and passing over the area. During the past year these observers have made approximately 30,000 reports on airplanes, all friendly, to a control center in New York City.

Post 35-A was set up by Connecticut Post No. 35, American Legion of Union, from which the chief observer, Kiser, comes. On December 9, the volunteers marked the first year of service

Lower School Taxes Seen In 1943-1944 School Board Budget

MOUNTAINSIDE—Borough voters will be asked to approve the 1943-44 budget of the Mountain Side Board of Education Tuesday night from 7 to 9 in the Mountain Side School. This year's budget shows a decrease over last year's sum of \$25,185.

The only increase is noted in current expenses, where increased costs and salary increases and bonuses bring the figure to \$22,549.

Provision for repairs and redecoration is unchanged at \$1,000. Manual training from this year is reduced from \$1,000 to \$600, since material has been installed for manual training and domestic arts.

Since it is anticipated that less will be spent on furniture and equipment during the 1943-44 year, this item was also cut from \$350 to \$750.

Much interest is expected in the balloting for board members, with three men seeking two vacancies caused by decision of George Preece and Malcolm P. Clinton not to seek reelection. Paul K. Davis, former member, and Charles H. Murphy and Ferdinand Wagner are candidates.

Borough Firemen To Sponsor Comedy Soon

MOUNTAINSIDE—A three-act comedy entitled "Ann Emma Sees It Through" by Robert A. Randall will be presented under the sponsorship of the Fire Department during the second week in March. Henry Sevcovic of 35 Beech avenue will direct the play.

The cast, as announced by Mr. Sevcovic, will include Jane Dwyer, Adele Roeder, James Hambleton, Mrs. Irving Wright, Joseph Hershley, and George Bader. One other role, not yet selected, will complete the cast of characters.

The play, for a period of about 2 hours and 15 minutes, revolves about two young girls and a maid named Ann, the latter having prejudices against men. The girls, however, have neither prejudices nor men, as they advance through a matrimonial bureau. Three applicants eventually arrive, are introduced to the aunt as butlers and are subsequently put to work cleaning house and teaching her pinholes at the same time breaking down her prejudices and bringing cheer into her life.

Complications follow one another rapidly with the advent of another man, several romances and all their attendant woes, and a happy conclusion.

Henry Sevcovic, director of the play, has made a hobby of amateur dramatics for about eight years, during which time his plays have never taken a financial loss. His last experience was at the Methodist Church, Clinton avenue, Newark, where he organized a dramatic club.

Further details of "Ann Emma Sees It Through" will be announced later.

Communication lines operated by our armed forces are vital to every military action on all our battlefronts. They must be kept ready for action at all times.

Here on the "home front," telephone communication service has the same objective . . . To keep the messages that speed war action moving promptly.

Long distance telephone lines now are crowded with calls of all kinds. More lines can't be provided because the materials and equipment are needed on the battle fronts. The only way to make room on the wires at home for the growing number of war messages is for everyone to avoid "unnecessary" calls.

Especially make it a rule not to call Washington, D. C. and other war-active centers unless absolutely necessary. Your help will do much to speed the calls that speed the victory.
