

Workers Ready Sunday To Raise \$4,200 War Fund in Single Day

Springfield's National War Fund solicitors, neighborhood captains and section leaders met with the township's Central War Fund Committee in the Sunday School room of the Methodist Church last night to receive final instructions for the big one-day drive that will take place on Sunday. The goal is \$4,200.

The spirit of last night's rally seemed to indicate that the local workers and leaders, 130 strong, have the will to win and the right team spirit to put Springfield "over the top" again this year. Chairman Robert Poppendieck detailed instructions for the Sunday afternoon drive made it clear that effective plans have been laid for collecting, reporting and handling the generous Springfield "handouts" in the form of hard cash.

Mayor Wilbur M. Selander reviewed the success of former appeals to Springfield generosity and recalled the large totals that have resulted. To the workers assembled he emphasized the increased needs at home and abroad for old-fashioned generosity in the face of unprecedented suffering, hunger and loneliness.

Both Mrs. William C. Cosgrove, of the local Girl Scout Committee, and Ebert B. Johnson, of the Boy Scout Committee, spoke of the home-front needs that are served through the two scouting programs. They described the benefits that will accrue for Springfield boys and girls through the raising of the \$1,000 portion of this year's War Fund goal.

Mortimer A. Stetson, assistant director of the National War Fund, New Jersey Division, presented an outline of the present work needs as seen from the vantage point of the State office. He described briefly the accomplishments of the 22 member agencies. Mr. Stetson congratulated Springfield for its excellent record in the past subscriptions to the National War Fund.

James Campbell, publicity chairman in the local campaign, appealed to all solicitors to open their hearts and imaginations to a personal realization of the boundless suffering to which the National War Fund is veritable, "good Samaritan."

Under Chairman Poppendieck, the organization is ready for a successful Sunday campaign. Mr. Poppendieck expressed his confidence in the belief that local citizens are ready this year to make larger contributions to this year's greatest of all wartime suffering.

Tuesday's Last Day to Register

The last chance for qualified residents to register for voting in the coming Presidential election is Tuesday night, in the Township Clerk's office. Tonight, between 7 and 9 o'clock and tomorrow, Saturday, from 12 o'clock noon until 7 P. M.—registrations will be taken.

On Monday and Tuesday, the office is open from 5 P. M. to 9 P. M. If you haven't voted at least once in the past four years, recently became naturalized or moved into Springfield by not later than June 7, you must register at the clerk's office or in the Board of Elections at the Court-house, Elizabeth.

Mortimer A. Stetson, assistant director of the National War Fund, New Jersey Division, at a rally meeting last night in Legion Hall, described the variety of needs that the War Fund Agencies serve in all the areas of the world. He congratulated Springfield for its record of generosity in former War Fund Campaigns. Stetson declared the 1944 campaign to be the most important.

"No one," said Stetson, "can comprehend the millions of acts of kindness performed by the National War Fund Agencies throughout the world." He pictured a few of the acts of human brotherhood.

For the lonely boy in uniform the U. S. O. is the only home away from home. For the Allied fighter behind the barbed wire of a desolate prison-camp, there is joy and interest in life when war prisoners' kits, supplies, baseball equipment, books, musical instruments or hobby materials are received. Powdered milk sustains the life of Norwegian children.

APPEALS FOR WAR FUND

Fellow-Townfolk: Won't you take a moment to consider the 1944 significance of the War Fund Drive before your neighbor calls for your gift. The committee, feeling confident of Springfield's concern for her youth in service, has decided on the one-day plan. Let us be ready on Sunday, October 8.

Meanwhile in a moment's thought we might remember that there are now more boys in service and they are farther from home; their welfare requires money. We might remember that more enslaved peoples are being freed; their basic needs require money. We might remember that Scouting, for girls as well as for boys, deserves money support from all of us who want to build at home the sort of life our defenders want to come home to. The total need is greater than before.

The State quota is larger. Our quota remains the same. We have exceeded our quotas before. Let us do it again—not because we have been asked, not because we ought to, but because we want to share our comfort and good fortune. We believe in our youth. Our response will show the depth of that belief.

ROBERT POPPENDIECK, Chairman, Springfield War Fund Committee.

Rinhart Defends Plans For Garden Apartments

The proposed garden apartment project was discussed at an open meeting Friday night in Singers' Park, sponsored by the County Oaks Association, with delegates from various local civic associations on hand to hear from proponents opposed to its construction and from the builder, himself.

Almost 150 residents heard Elmer R. Rinhart of Summit, the builder, declare that the apartments would "blend with the immediate surroundings and not be an eyesore to the community." From an esthetic project, as well as economical, the apartments are a credit to the community, Rinhart pointed out.

He revealed that the cost of the development, contrary to newspaper reports, would probably reach a mark of \$1,500,000 and not \$750,000 as originally planned. This, he explained, was due to plans being enlarged for added units, three in all.

Roy Waldeck, of Park Lane, Spring Brook Park section, who represented the opposition, claimed there were 500 property owners "definitely on record" as against the proposed construction. He cited other communities which he said "had suffered economically as well as socially as a result of the garden apartment projects." He urged that "Springfield remain a one-family village."

In defending the apartment, Rinhart attacked many of the arguments raised against the construction, citing the advantages of the Mantley and Kent Court apartments in Summit, which he constructed and which are said to be identical with what is proposed here.

The tax rate in Summit has not risen, but actually dropped since the erection of Kent Court—2008. Rinhart stated, "One per cent of the land available will be used for buildings, the remainder to add beauty and provide recreational facilities," commented Rinhart.

Waldeck told the gathering that the opposition was not at liberty to divulge all of its protests, "upon advice of attorneys" but would disclose at any future public hearings its full version.

Eugene W. Huttoff, president of County Oaks Association, presided and explained his association had been presented with a petition against the project, but decided to wait until both sides of the question had been heard by the planning board. Ascending stairs, neighborhood associations were invited and were represented at the meeting.

No formal action has been taken on the garden apartment in the absence of any definite plans submitted to the Board of Adjustment by Rinhart. The building inspector has already denied the application since the project is in Class A and requires a change to Class B for a variation in present zones before a permit can be granted.

Assessors to Confer With State Officials On Tax Situation Here

The Township Committee Wednesday night gave its "unofficial blessing" to a proposal that the Board of Tax Assessors, aided by Counsel Herbert A. Kuvin, take up with the State Department of Finance and Taxation a study of tax valuations in Springfield. Both boards agreed that

lack of expert opinion created a situation wherein certain properties here are either unassessed or not assessed at all, particularly in the case of several public utilities. The assessors began their annual check up October 1, but it is expected that this will be delayed until the Trenton authorities have had a chance to confer with local officials.

The committee discussed engaging tax experts at a cost of between \$5,000 and \$10,000 to reassess the entire community, but this was ruled out, upon Kuvin's opinion that not being in emergency, such a budget appropriation could not be made until next year. The matter of expense was also brought out, until Kuvin showed that the Statutes provide for a survey by the State Tax Department, with expenses paid by that group up to \$3,000, at no cost to the municipality.

An automobile owned by Leonard Drupkin, 17, of 367 Morris avenue, featured in an accident Saturday afternoon and two days later was involved in a reported car robbery.

On Saturday, Drupkin was riding north in Flenner avenue in a line of cars waiting for a traffic light to change when he pulled out of line and struck a car going in the opposite direction driven by John Horstia of 301 Burgess place, Clifton.

The same machine was parked in Morris avenue near Drupkin's home early Monday morning and 15 minutes after it was reported stolen. Drupkin's Plakava arrested two soldiers in Crescent road, who said they thought it was a car in which they had been given a lift by a friend and were taking it as a prank. ANNOUNCEMENT

A famous old beacon and signal cannon, now commemorated by a boulder monument on Beacon Hill, constitute Summit's main claim to a place in Revolutionary history. The lighting of the beacon and firing of the cannon served to warn the people of the vicinity of the approach of the British and to summon the patriotic "Minute Men" to the protection of their firesides.

The drawing above is our conception of the beacon in action and it has been reproduced as a mural painting on a prominent wall of our colonial banking room, which has just been completed. In order to typify the purpose which this bank serves in the community, we have adopted this painting, with its caption, "Beacon of Protection and Community Service", as our institutional symbol.

Desiring to perpetuate the story of the important part played by the old signal station in the outcome of the Revolutionary War, we have published its authentic history in the form of a brochure, "The Redcoats are Coming". You may obtain your copy without charge at our

BETTIQUETTE

SAYS

SEPTEMBER SONG — a few flashbacks for you to adapt to your own memories for back-to-school month aptly titled: "Still Sits the Schoolhouse in the Sun." The brand clean dress, with hair ribbon to match for the very first day of school... the wet-down hair of the boys, with cowlicks in each crown... the purchase of the new books and nice pointed erasers and big nickel-pens and the pencils so long they unsharpened or chewed... the inkwells in the holes on the right side of the desks... the size of this year's teacher and is she pretty and does she wear glasses so she can see you when her back is turned... the smell of the school room long closed and unair... the extra ebony appearance of the blackboard and the erasers of the "country kids" scored by the "town kids"... the flurry of getting a seat by the very best friend only to be teased according to the alphabet or by height... the down-the-nose looks at the boy who "didn't pass" and was left over from last year... the shy glances at the "new boy" and isn't he envious... the surreptitious wiping of the new school shoes on the back of the stockings... the marching out in line again, the girls prissy and minding and losing their hair, the boys shoving and capering... the great thrill of starting a new adventure, January-just the new year? No, it's September and the first day of school.

Périsol Day Dreams
Beware of day-dreaming too much lest you some day find yourself living alone in the "dream-world" with none of the mundane contacts that makes life really worth while.

A smidgen of day-dreaming is fine and quite often leads to the fashioning of constructive ambitions, but when day dreams become a frequently used escape corridor, it's time to watch your step.

When your day-dreams result in weariness, self-pity, frustration and regret, you've definitely on the path to self-ruin.

REGIONAL HIGH
(Editor's Note: "Regional High" covers the happenings of interest about former pupils and what they're doing.)

Edward Allen, son of Mr. and Mrs. Edward Allen of Prescott Turn, Clark Township, has been transferred from Jacksonville, Fla. to Memphis, Tenn. Allen, who recently entered the Navy, was a Senior at Regional High School, at the time of his enlistment.

Now stationed with the Marines in Hawaii, is Frank Szabo, Pharmacist's Mate third class of 106 Second Avenue, Garwood. Petty Officer Szabo graduated with the 1943 class at Regional High. He enlisted in the Navy on January 22, 1943 and was called to duty on February 1. After completing his

Apprentice Seaman Anthony C. Fireman first class Joseph Todisco of Garwood was visiting at Regional High School on Tuesday of last week. Todisco, a 1944 graduate of Regional, is on duty on a Landing Craft in the Atlantic Fleet.

"The reveille halt is as insidious as 'optimum.' To dull the edge of reality you have to take larger and larger doses. Soon your shadow life is occupying an alarming portion of your thoughts. Besides you find that going back to your real affairs results in growing resentment. The living room looks undeservingly shabby compared to the one you think you might have had; your husband seems a prosaic failure beside his idealized rival."

Flower Facts
Both the beautiful bougainvillea blossom and also the largest island in the Solomon group in the Pacific were named after Louis Antoine de Bougainville, French navigator and explorer, who in 1769 sailed around the world.

The beautiful and fragrant gardenia was named after Dr. Alexander Garden, an eighteenth-century Scotch botanist and zoologist who for years practiced medicine in South Carolina.

Poinsettias were discovered in Mexico and brought to the United States in the early nineteenth century by Joel R. Poinsett, American minister to Mexico.

The camellia was named after George Josef Kamel, a seventeenth-century Moravian Jesuit who is said to have introduced the camellia from the Far East.

The gullia was named after Professor Andreas Dahl, an eighteenth century Swedish botanist.

The begonia was named after Michel Begon, a seventeenth century French naval officer, student of botany and Governor of Santo Domingo.

The wisteria was named after Dr. Casper Wistar 1761-1818 physician and author of the first American book on anatomy.

Mountainside Inn

MOUNTAINSIDE—The curtain came down on the Mountainside Adult Softball League Sunday when Mountainside Inn took the measure of Hill and Fuhs, 5 to 1, to capture the 1944 title. By their victory, they broke a tie with the squad which has had a monopoly on first place since the early season's play but faltered in the closing stage of the schedule. The Inn players scored three big runs in the first inning and never were threatened for the rest of the game. Frank Knight, the winning pitcher, allowed only four hits, while his teammates pounded out fifteen safeties. Rangers outslugged Birch Hill, 17-10, in the only other game of the day, which brought the victors back into third place. A victory dinner will be held Sunday afternoon, at a place yet to be selected, at which time various team captains will be on hand as awards are presented to the members of the winning team by Ralph Sandler of Mountainside Drug Company, who early this season offered trophies.

Revising the New Jersey State Constitution

(Note: This is ninth of a series of educational and informational articles on the proposed revised State Constitution prepared and released by the New Jersey Committee for Constitutional Revision.)

For the first time in the history of the State, New Jersey's judicial system will go on a completely full-time, single-purpose schedule when the proposed revised Constitution is adopted by the voters at the general election next November 7, points out the New Jersey Committee for Constitutional Revision.

In effect, "attorney-at-law" shingles will come down from a number of New Jersey law offices when the judicial article of the new Constitution becomes effective November 1, 1945, after its adoption. For the new charter provides that while judges must be attorneys of 10 years' standing, they may not while-in-office engage in any other gainful public or private occupation. With elimination of the Part-time Court of Errors and Appeals in the simplification of the unwieldy State court system, and the provision that judges must not engage in any other professional activities, the State's court system consisting of the Supreme and Superior Courts will be for the first time on a full-time basis, points out the Constitutional Revision Committee.

The new courts will also be further removed from political influence by the provision that the seven members of the new Supreme Court and that any Superior Court Justice reappointed after an initial seven-year term, will serve for life, unless retired or removed after impeachment. Retirement age is placed at 70, but justices will be subject to assignment to temporary service. Impeachment will be by the General Assembly upon conviction of a majority of the Senate. No judges of present State courts will be deprived of their position by the new Constitution, the charter provides that when the new judicial set-up becomes effective a year after approval, first appointments to the new Superior Court will be from among the present Chancellor, Justices of the present Superior Court, Court of Errors and Appeals, Vice-Chancellors and Circuit Court judges. Laymen, who formerly could serve as members of the Court of Errors and Appeals, will be disqualified for judicial service by the new Constitution. The remaining judges, who are not appointed to the Supreme Court, and the judges of courts of common pleas will constitute the first justices of the new Superior Court. While present provisions for election of justices of the peace

will be eliminated, the revised Constitution provides that lower county and municipal courts may be established by the Legislature.

STATISTICS OF SPRINGFIELD

Population—1941, 5,005; assessed valuation—1941, \$6,471,225; tax rate—
1941, \$9.97 (Township—\$2.21; schools, \$1.87; state and county, \$5.89).
Springfield was settled in the early 1700's—its township form of gov-
ernment was established April 14, 1792 and was incorporated in 1857.
Springfield is essentially a community of homes, with little industry
except for farming, nurseries and co-ordinated manufacturing for these;
4 1/2 miles from New York City on the Lackawanna R. R. with two stations
at Millburn and Short Hills, less than a mile away; 7 miles to Elizabeth;
7 miles to Newark; excellent bus connections to Newark, Elizabeth, Summit
and Plainfield.
The Highway Valley Railroad with a freight station in the township
affords service for factories, commercial and industrial purposes. State
Highway 29 makes New York City convenient by auto in 20 minutes. Site
of the \$60,000 Union County Regional High School, serving Springfield,
Mountainside and four other county municipalities.
It has good streets, water, gas, electricity and modern sanitary sewer
system, excellent police, fire and school facilities; mail carrier delivery
system, and zoning regulations for the protection of the individual property
owner.
Of interest in Revolutionary history with its historic Presbyterian
Church, where the Rev. James Caldwell preached "Give us the tools they
will give us" in the midst of the battle of Springfield, fought on June 23, 1780. Several
colonial landmarks are to be found in Springfield, one of the oldest com-
munities in Union County.

Experts See No Quick Finish to Nipponese War

Although there is no question in the minds of American authorities that the Allies will defeat Japan, over-all military plans for that defeat are based on the assumption that it will take a minimum of from one and a half to two years after the defeat of Germany, according to a report of the Office of War Information, based on data and opinion of authorities in the Navy, War and State Departments and the Foreign Economic Administration.
Military strength, natural resources and quality of fighting forces and equipment all favor the United Nations. The United States alone outclasses Japan in raw materials, in capacity to produce fighting equipment and in military might. With the added forces of the United Nations, the power of the Allies is overwhelming.
However, no internal collapse of Japan is expected. In the words of Joseph C. Grew, for 10 years American Ambassador to Japan: "The Japanese will not crack. They will not crack morally or psychologically or economically, even when eventual defeat stares them in the face. They will pull in their belts another notch, reduce their rations from a bowl to a half bowl of rice, and fight to the bitter end. Only by utter physical destruction or utter exhaus-

tion of their men and materials can they be defeated. That is the difference between the Germans and the Japanese." Although the Japanese have had their food rationed since 1940, experts do not believe food shortage is as likely to be a strategic weakness as might a shortage of some

war materials. Japan raises 80 percent of her rice, and rice supplies fully half of the caloric intake of the Japs. Beans and fish are the other main articles of Japanese diet. Manchuria supplies 40 to 45 million bushels of soy beans, and from soy beans the Japanese people get their proteins and vege-

table oils. The war is estimated to have cut her fish consumption by 25 per cent. The Japanese are basing their hopes on the possibility that the Allies will grow tired and accept a negotiated peace. Japanese leaders have repeatedly predicted that Japan will drag out the war so

long and make the Allies pay so dearly that the "soft" democracies will be forced into a stalemate. The War Fund collector will call at your home on Sunday, one day only. Be ready with your contribution for this worthy cause.

Prisoner of War Questions-Answers To Inform Public

The Red Cross has received so many questions about prisoners of war that it has published a list of the questions and the answers, which will be printed in The Sun-Herald from time to time. It is suggested that they be clipped and saved for reference.

1-Q. May I write to a prisoner of war?
A. Yes. There is no limitation on the number of letters which may be sent, postage free, by friends and relatives. The International Red Cross Committee suggests, however, that mail service to American prisoners of war could be improved if relatives and friends would refrain from writing too frequently and at too great length. Compliance with this suggestion would assist materially in alleviating the problem of censoring prisoners of war mail both in this country and in the enemy country concerned. Hence all letters should be brief and strictly of a personal nature. For Japan (and preferably for Germany) letters should be typewritten or printed in capital letters. Letters to Japan must not exceed 24 words.

2-Q. How often may a prisoner of war in Germany write letters to his family?
A. A general imprisoned in Germany may write 5 letters and 5 post cards a month; other officers 3 letters and 4 post cards; non-commissioned officers and enlisted men 2 letters and 4 post cards. Medical personnel and field chaplains may write double the number usually allowed their service rank. No limit is put on official letters of elected camp sponsorship.

3-Q. What is the average time required for the delivery of a letter dispatched from a German prisoner of war?
A. The time required varies due to censorship delays, wartime contingencies, and irregular transportation. It is believed that from 2 to 5 months are required. It must be remembered that the United States Government has absolutely no control over the movement of mail in or out of enemy countries.

4-Q. How often may a prisoner of war held by the Japanese write?
A. As far as the Red Cross has learned, at present, there is no uniform rule in Japan governing the number of letters prisoners of war and civilian internees may send. Generally, the decision appears to rest with the Japanese camp command in each prison camp.

5-Q. What is the average time required for the delivery of a letter dispatched from Japan?
A. It is believed the past cards which are being received currently from American prisoners of war interned by the Japanese Government have been en route from 8 to 10 months, although the majority of such cards are not dated.

6-Q. Is there any proof that prisoners held by the Japanese in the Far East have received cablegrams and letters from the U.S.A.?
A. Letters have been received from prisoners in the Philippines saying that they have had mail from home; also, in a number of

instances, families have received answers to cables they sent.
7-Q. Who establishes the next of kin relationship?
A. When a man is taken into service, one of the questions he answers is "Who should be notified in case of emergency (father, mother, wife)?" The name and address of this person are put in the permanent records, and if the man is taken prisoner, this emergency addressee is his official "next of kin." In the case of civilian internees, the Provost Marshal General may name the next of kin.

8-Q. When official word is received by a mother that her son is a prisoner of the Japanese in the Philippines, how soon may she send a next of kin package?
A. The sending of packages thus far has depended upon shipping facilities approved by Japan. The Provost Marshal General will send labels to the next of kin without request, whenever it is possible for the post office to accept parcels with any hope of delivery.

9-Q. Have all military prisoners been officially reported by name by the Japanese? If not, do lists continue to come? Have all prisoners taken from Bataan and Corregidor been reported?
A. There are many servicemen reported missing in action in and near the Philippines whose names have not yet been reported as prisoners, but lists are continuing to come through Geneva to the Provost Marshal General. This is a status of the men taken from Bataan and Corregidor.

10-Q. What can be sent to friends formerly in U. S. forces, now prisoners of war in camps in Europe?
A. Only books may be sent by others than next of kin, unless the next of kin is willing to transfer a label to a friend. The next of kin may be willing to include something from a friend in the bimonthly parcel, or to give him one of the regular tobacco labels. (See Q. 12.)

11-Q. May I send money to my son who has just been reported a prisoner of war in Germany?
A. Existing regulations do not permit the sending of cash, money orders, or checks to American prisoners of war. Arrangements have been made through the protecting power by the War Department, that whenever possible, the detaining power will advance small sums of money to the prisoner of war without the request of the next of kin.

12-Q. Can we adopt a prisoner of war?
A. No, except in the most unusual cases—when definite arrangements must be made with the next of kin and then with the Provost Marshal General, U.S.A.

13-Q. Can an individual in this country send food parcels and clothing packages to French, Belgian, Yugoslav, Netherlands and Polish, or other European nationals now prisoners of war in German camps?
A. Yes, if you are more nearly related than as first cousins, you may order a Red Cross food package—nothing else. Such sending is subject to strict regulation as to number in a certain length of time, proof of relationship to the prisoner, official labels for certain nationalities, etc. Apply to the local Red Cross Chapter for further information.

New Constitution A Great Advance: Goal in Sight

New Jersey's proposed new Constitution represents a "great advance" over the present Constitution, according to Charles A. Beard, historian and constitutional authority. Mr. Beard, in a letter to State Highway Commissioner Spencer Miller, Jr., expresses the hope that "the people will give their approval in November."

Mr. Beard who is co-author of a recent book, "The Basic History of the United States," has been noted as an outstanding writer and authority in the field of politics since 1904. He has written several works on American government, and politics, and in many quarters he is looked upon as America's leading living historian.

In his letter to Commissioner Miller, Beard wrote: "I have followed the press reports on the long struggle you have had in New Jersey over efforts to bring your fundamental law up-to-date. For a long time it looked as if nothing could be accomplished but you seem to be in sight of the goal at last. In spite of all the barriers... I have read the document very carefully. It is my opinion that, in view of all the conflicting interests which had to be conciliated, the proposed Constitution represents a great advance over the present Constitution. The State is to be congratulated and I hope that the people will give their approval in November."

Personally, I think it will be too bad when millionaires are all gone—extinct like dodos. Take a man like Henry W. Putnam, who died a few years ago and left twenty million dollars he had made out of lightning fruit jars and lightning stoppers. I think a man who made life easier for millions of women was entitled to a few million dollars. Mr. Putnam didn't bleed anybody more than a fraction of a cent profit on each of his lightning jars and stoppers.

I wonder, if we stop millionaires in America, if anybody will bother to think up such things as lightning fruit jars and stoppers. Mr. Putnam gave \$3,000,000 to a hospital in Bennington, Vermont, and paid its annual deficit of from \$30,000 to \$50,000. Three universities will eventually share about ten million when Mr. Putnam's estate dies.

For one thing, he took time to memorize every line of every play of Shakespeare. And he had a yacht. Mr. Putnam gave \$3,000,000 to a hospital in Bennington, Vermont, and paid its annual deficit of from \$30,000 to \$50,000. Three universities will eventually share about ten million when Mr. Putnam's estate dies.

Bob Hope Gives Royalties Of New Book to USO Fund

Bob Hope, who dedicated his radio program Sept. 26 to the Summit United and War Fund and the National War Fund, is one of the most widely-traveled troupers of all the USO-Camp Shows thousands of entertainers. His most recent trip, which he talked about in the broadcast, was an eight-week island-hopping tour of the South Pacific theater of war. Together with Frances Langford and Jerry Colonna he entertained the GI's in Hawaii, Australia, New Guinea, Guadalcanal, in the Marshalls and the Gilberts—and even farther.

Bob Hope knows how important it is for the morale of our fighting forces to give them a lift and a laugh now and then. That is why, in addition to traveling those thousands of miles to do his share to "keep 'em laughing," he has contributed the royalties from his book, "I Never Left Home" to the National War Fund, to help support USO-Camp Shows and the Fund's other war-related agencies.

Thomas E. Dewey Says: What this campaign will do is prove to our enemies that we can fight total war and speed final victory by changing and strengthening our administration. IT WASN'T until Columbus' last voyage—that the strip of land connecting the two American continents was discovered.

Revised Constitution FOR THE STATE OF NEW JERSEY

No. 9 in a series of 12 installments

ARTICLE V—Sections IV and V (with part of Schedule*)

To Be Voted Upon as a Whole by the Voters of New Jersey at the General Election, Nov. 7, 1944

ARTICLE V JUDICIAL SECTION IV

Appellate Divisions

1. There shall be established in the Superior Court two or more appellate divisions as prescribed by rules of the Supreme Court. Each such appellate division shall consist of three Justices of the Superior Court who shall be assigned for that purpose by the Chief Justice of the Supreme Court and shall sit therein, solely, for three years. There may be established in the Superior Court, by rules of the Supreme Court, temporary appellate divisions as need appears. Each appellate division shall hear appeals from sections of the Superior Court designated by the rules of the Supreme Court. Appeals from the inferior courts shall be heard by an appellate division or in one of the sections of the Superior Court, as may be provided by law.

Appellate Division

2. An appeal to an appellate division may be taken from any final order, judgment or decree of right and from any preliminary or interlocutory order of the Superior Court when so provided by law. Appeals in cases involving restraint or the appointment of receivers shall, in whatever court pending, be preferred as to argument and disposition.

Appeals: Supreme Court

3. Appeals to the Supreme Court from any court may be taken only:

- (1) In capital cases and cases involving a question arising under the Constitution of the United States or of this State, which appeals shall be taken directly to the Supreme Court and shall be preferred as to argument and disposition;
- (2) In the event of a dissent in an appellate division;
- (3) On certification by an appellate division; or
- (4) On certification by the Supreme Court to any court.

In all other cases judgments and orders of an appellate division shall be final.

Appeals: Final Determination

4. The Supreme Court and the appellate divisions of the Superior Court, in addition to their other powers, may set aside judgments at law, wholly or in part, where the finding of fact is against the weight of evidence, or the verdict excessive or inadequate, and may affirm, reverse or modify orders, judgments or decrees in all cases and make final determination thereof, and exercise such original jurisdiction as may be incident to the final determination thereof, unless the ends of justice or the right of trial by jury shall require that a new trial or hearing be ordered.

SECTION V

Judges: Appointment

1. The Governor shall nominate and appoint, by and with the advice and consent of the Senate, the Chief Justice and Associate Justices of the Supreme Court, the Justices of the Superior Court and the judges of every court of inferior jurisdiction, except that judges of inferior courts of civil and criminal jurisdiction may be elected in, or appointed by the governing body of, any county or municipality of the State when so provided by law.

Justices: Qualifications

2. The Chief Justice and each Associate Justice of the Supreme Court and each Justice of the Superior Court shall, prior to his appointment, have been an attorney-at-law of this State in good standing for at least ten years.

Justices: Term of Office

3. The Justices of the Supreme Court shall be appointed to hold office during good behavior without limited terms except as to age as provided in this Constitution. The Justices of the Superior Court shall hold office during good behavior for terms of seven years and if reappointed shall thereafter hold office during good behavior without limited terms except as to age as provided in this Constitution.

Justices: Impeachment

4. The Justices of the Supreme Court and the Justices of the Superior Court shall be liable to impeachment for misconduct in office during their continuance in office and for two years thereafter. The General Assembly shall have the sole power of impeaching a Justice of the Supreme Court or a Justice of the Superior Court by a vote of a majority of all the members. All such impeachments shall be tried by the Senate, and members, when sitting for that purpose, shall be on oath or affirmation "truly and impartially to try and determine the charge in question according to evidence;" and no person shall be convicted without the concurrence of a majority of all the members of the Senate. Any Justice of the Supreme Court or any Justice of the Superior Court impeached shall be suspended from exercising his office until his acquittal. Judgment in case of impeachment shall not extend further than to removal from office, and to disqualification to hold and enjoy any public office of honor, profit or trust in this State; but the person convicted shall nevertheless be liable to indictment, trial and punishment according to law.

Justices: Age Limit

5. No Justice of the Supreme Court or of the Superior Court shall continue in office after he has attained the age of seventy years; but, subject to law, he may be assigned by the Chief Justice to temporary service in the Supreme Court or in the Superior Court, as need appears.

ARTICLE XI—SCHEDULE—SECTION IV

*The "Schedule" provides for orderly transition from the old to the new Constitution. In the official text it appears as a single Article (XI) at the end of the Revised Constitution. For ready reference, however, the Schedule is being printed in appropriate parts with the articles to which it relates.

4. When the Judicial Article of this Constitution takes effect:

- (a) All causes pending in the Court of Errors and Appeals shall be transferred to the new Supreme Court for determination;
- (b) All causes pending on appeal in the present Supreme Court and in the Prerogative Court and all causes involving the Prerogative division of the Superior Court, to be designated by the Chief Justice;
- (c) All causes pending in the present Supreme Court sitting at circuit shall be transferred to the law section of the Superior Court of the appropriate county; and all causes pending in the Court of Chancery and all other causes pending in the Prerogative Court shall be transferred to the equity and probate section of the Superior Court of the appropriate county; but all pleadings, papers and documents filed and to be filed and all orders, judgments and decrees made and entered and to be made and entered in any such cause shall be filed and entered in the office of the State Clerk of the Superior Court and shall have the same effect as though filed and entered in the office of the Clerk of the Court in which such cause was instituted;
- (d) All causes pending in any other county or State Court, which are superseded by the taking effect of the Judicial Article of this Constitution, shall be transferred to the Superior Court;
- (e) Causes shall be deemed to be pending for the purposes of this paragraph notwithstanding that a judgment or decree has been entered therein until the time limited for review has expired.

5. The files of all causes pending in the Court of Errors and Appeals shall be delivered by the Secretary of State to the Clerk of the new Supreme Court and the files of all causes pending in the present Supreme Court, in the Court of Chancery and the Prerogative Court shall be delivered by the Clerk of the Supreme Court, the Clerk in Chancery and the Register of the Prerogative Court, respectively, to the State Clerk of the Superior Court, and all other files, books, papers, records and documents and all property of the Court of Errors and Appeals, of the present Supreme Court, of the Prerogative Court and of the Court of Chancery or in the custody of said Courts shall be disposed of as shall be provided by law.

6. The Court of Errors and Appeals, the present Supreme Court, the Court of Chancery and the Prerogative Court shall be abolished when the Judicial Article of this Constitution takes effect and all their jurisdiction, functions, powers and duties shall be transferred to and divided between the new Supreme Court and the Superior Court according as jurisdiction is vested in each of them under this Constitution.

7. The Circuit Courts, Courts of Common Pleas, Courts of Oyer and Terminer, Courts of Quarter Sessions, Courts of Special Sessions and the Orphan Courts shall be abolished when the Judicial Article of this Constitution takes effect, and all their jurisdiction, functions, powers and duties shall be transferred to the Superior Court. Causes pending in such superseded Courts shall be heard in the Superior Court sitting in the same county.

The roman side headings are not in the official text of the Revised Constitution. They appear above for your convenience.

Football Opener Won By Summit In Last Period

For three and a half periods, a weakened Regional High football team, minus three of its leading backfield men, held Summit High scoreless here Saturday. But the visitors, unable to penetrate the line, uncorked a 30-yard pass with five minutes to go to score the winning touchdown, 6-0.

Missing from the Regional backfield were Bruce Davis, speedy quarterback, and halfbacks Don Simms and Paul Matera, all on the sick list. Without them, Regional's attack was entirely ineffective and Art Butts' boys found themselves on the defensive most of the day. Summit had nine first downs to Regional's two.

Summit's pay-off aerial came after the home team had stopped three-line plays on the 25. On the last down, Joe Kietzman faded back and passed accurately to end Bill Judge on the goal line. George Volnden, Regional back, made a vain effort to deflect the ball, tipping it only slightly.

The excellent punting of Blair Murphy, end, kept Regional constantly in the fight. Murphy's best kick was a 65-yard coffin-cornor boot in the third period which went out of bounds on the 2-yard stripe. Captain Bill DeWolke, center, excelled for the Bulldogs on the defensive.

Cross Country Team Defeated

Regional's cross country squad went down to defeat Tuesday afternoon to Thomas Jefferson on the Betsytowners' Warnaco Park course, 21 to 34.—Ralph Roberts of Jefferson won in 14 minutes and 20 seconds.

Flavoy Schramm was the first Regional runner to cross the line, coming in fourth. Other local boys among the first ten were: Dahlgren, fifth; Ferrel, sixth; and Allen, eighth.

The supply of cotton goods is "lighter" now than it has been any time during the war and is expected to remain "light" for from one to two years after the collapse of Germany, the "Fines of War" Information reports, on the basis of facts supplied by the War Production Board and the Foreign Economic Administration. Production is insufficient to meet military and civilian demands, and the market is short in basic types of cotton as well as in the types of cotton used in Europe. Cotton fabrics such as certain denims and chambrays will continue to be needed by the military, and cotton duck is now on the urgent lists. During the first six months after the fall of Germany the United Nations Relief and Rehabilitation Administration is expected to ask for 300 million yards of cotton textiles, and the food industry must depend upon cotton bagging due to a shortage of jute from India.

The 37 East Coast States and the remainder of the country will get together on the same "A" gasoline coupons Nov. 9 when "A-13's" in the renewal ration books will be good throughout the country, the Office of Price Administration has announced. The last strip of coupons in the books of the East Coast motorists, the "A12's," will not be used. Only three of the "A-13's" will be good for East Coast motorists, because they will be used only for six weeks. On December 21, all "A-13's" will expire throughout the country, and on December 22, "A-14's" will be good. East Coast motorists will be advised locally to apply for renewal of their "A" rations before November 9. Motorists in the rest of the country already have their new ration books.

Sugar for making home-made fruit butters, jams, jellies and other processed foods for sale—even though these products are ration-free—may be obtained by farm families, housewives and others to the extent that they used sugar for this purpose in 1941 or to the extent of 250 pounds, whichever is greater, OPA says. Prior to September 27, sugar was not authorized for home-processing non-rationed or point-free foods for sale. Application for sugar for this purpose should be made to the local War Price and Rationing Board, OPA says.

All manpower controls have been removed insofar as veterans of the present war are concerned, the War Manpower Commission announced. Veterans do not need statements of availability in order to change jobs; they may be hired by any employer without referral by the United States Employment Service, they may be hired without regard to employment ceilings and in seeking employment through the USES they are entitled as a matter of right to a referral to any jobs of their choice, without regard to essentiality or priority status of such jobs.

Dry weather in late summer and large amounts of debris left in the woods as a result of wartime logging have increased the forest fire hazard this year, the United States Forest Service warns. It urges special care in smoking, handling camp fires and in using fire arms in the woods this fall. California, for example, has been experiencing one of its worst forest fire seasons in history, its fires drawing hundreds of sailors and soldiers from training camps to fire lines and interrupting war production in lumber operations.

First reports that the Germans were developing a long-range bombardment weapon of a novel type reached London in April, 1943, the British reveal in a recently issued "Report on the Flying Bomb." After reconnaissance photographs in November, 1943, revealed that the Germans were building concrete structures all along the French coast from Calais to Cherbourg, British and U. S. Air Forces in December began attacks on these flying bomb sites, forcing the Germans to abandon them and to construct less efficient, camouflaged sites of simplified design. During 80 days of bombardment, approximately 8,070 bombs were launched, of which 2,300 reached London—killing 5,479 persons, including 15,534 persons and damaging 149 schools, 111 churches and 98 hospitals. In fighting this warfare from August, 1943, the British and U. S. Forces dropped 100,000 tons of bombs on launching and experimental stations, losing 450 aircraft and 2,500 flyers.

Round-up
WPA says: Production of bicycles and "B" hearing aid batteries is authorized again on an industry-wide basis. Production of flashlight cases and other portable electric lights is expected to be high enough to supply essential

Basil O'Connor, Chairman of the American Red Cross, will leave shortly for Europe by air to inspect Red Cross operations with United States troops in France and Great Britain. Mr. O'Connor will confer with American military leaders regarding the present and future Red Cross program on the Continent. He plans to see as many phases of Red Cross operations in France and Great Britain as possible. These include clubs for servicemen on leave, clubhouses which take material to American soldiers and airmen wherever possible, recreation workers in Army hospitals, and field directors attached to combat units.

LOCAL
Tickets are in circulation for the coming Camp Kilmer Council card party to be given at Regional High School, Saturday night, October 21. Contact any member of the Council or inquire at Red Cross Headquarters. The Canteen will serve refreshments.

There was a meeting of the Volunteer Special Services Committee at Camp Kilmer on Monday afternoon, representing thirty Red Cross Chapters in the surrounding area. Mrs. Henry C. McMullen attended. The meeting was conducted by Mrs. George Smith, co-ordinator of the Volunteer Special Services at the Camp. Springfield Chapter's Canteen was given the month of May to take care of the refreshments at the regular Saturday evening entertainment. The services of our Motor Corps also were offered, and will be available for any special assignments. Luncheon was served by the New Brunswick Canteen at the meeting; Mrs. Laura Dickerson, Motor Corps member, drove Mrs. McMullen down.

The outdoor movies, scheduled to be taken of the Surgical Dressings workers Tuesday of last week at 1 P. M., had to be postponed because of murky skies. They will be taken next Tuesday, same time, same place, if the weather is fair.

"Merry Widow" Sold Out; Playhouse Plans For "Katinka" Next

"The Merry Widow" at the Paper Mill-Playhouse of Millburn is sold out for the first three weeks of its run. This is the first time that the fascinating Widow of a Marsavian Count has maddened her how to crowded audiences from the Paper Mill stage. Hele Gleason took the role in 1941; Dorothy Kistler in 1942, and now Dorothy Sandlin is gracious and alluring with a voice whose sweetness and flexibility fits the part.

Aside from its engaging score, "The Merry Widow" owes much of its popularity to the fact that unlike many light operettas it has a consistent and well developed story with real dramatic situations. Likewise the dancing, the sinuous measures of the Waltz, the lively Can Can of the Maxim girls and the always exciting chorus of "Women" when the male characters race through the audience snatching kisses from sweet sixteen, mellow forty and dignified sixty.

Preparations are under way for the revival of "Katinka" by Rudolf Friml, one of the most popular of last year's offerings. The leading roles will be taken by Andzia Kuzak and Donald Gage and the cast will again include most of the favored Playhouse personnel: as Yolanda Lupachini, Clarence Nordstrom, Jay Velle and Albert Carroll.

The Playhouse gallery is showing an interesting exhibition of water colors by three Essex County artists of note—Mary Merrill, Ruth Mathes, and E. Stanley Turnbull.
