Patrons Asked To Aid Postal Staff For Xmas

The local Post Office is busy as the proverbial bell in this Christmas season. In spite of the many requests made over the radio and in the press as well as all the mercantile advertising, the public just hides its time and crowds the mails when it would be much better for everyone if the mails were spread over the month of December. Now, when we are in the midst of a manpower shortage as far as the postal and railway mail service is concerned something should be done about it. Would it not be well for everyone to resolve that next Christmas it will be different and mean it.

Postmaster Otto F. Helms requests the patrons of the local office to refrain from leaving quantities of outgoing mail on top of the mail boxes in front of the homes-as the carriers will not have the time to pick up large quantities as they go along. It should be remembered that mail boxes are conveniently located all over Springfield and as collections will be made during the last week before Christmas without regard to the time schedule on the boxes the mails will be kept moving. The postmaster asks everyone to help. He feels sure that all will do so. Remember that your carrier has delivered mail during all kinds of weather all through the year and that some consideration is due him so that his Christmas will be a Merry one. The carrier and the clerks like their homes and on this happy holiday in spite of the fact that a war is going on, would be pleased to spend it at home.

During the coming week the post office will remain open evenings until 8 o'clock. There will be no Sunday service at the windows. Depending upon the volume, delivery of mail on the Sunday before Christmas may be curtailed. Special delivery on Christmas day will be made if the incoming mail contains such letters or packages. The department requires only volunteer service on this day for packages and specialties.

The Weather—Believe It Or Not!

Snow to the north of us, snow to the south of us. The heavy snow here only rain. The barometric pressure was very low Tuesday, reading 29.06, showing that we were the center of a heavy storm area. This is the lowest since the hurricane of Sept. 14. This reading doesn't happen often except in a hurricane. The season is still remarkable for its lack of snow. There has been an abundance of rain, which is unusual with the prevalence of NE winds which usually bring snow. We have had 5 storms from the NE, none of them bringing much more than a flurry of snow.

RENAMED

CECIL M. BENADOM

Cecil M. Benadom of Colfax road, secretary to the Springfield Planning Board, was renamed by Mayor Selander Wednesday to a four-year term. Sgt. Appolito Subject of Army Chaplain's Column

Mr. and Mrs. Peter Appolito of Main street received a letter recently from Lt. Col. William F. O'Brien, Chaplain at Doshon General Hospital, Butler, Pa., and a copy of "Deshonnaire," paper at the hospital, in which a news story appeared on their son, Sergeant Carmelo (Larry) Appolito, with the 77th Infantry Division in the Pacific. The article was written by Lt. Col. O'Brien, whom Sgt. Appolito assisted before going overseas.

The letter sent to the Appolitos follows: "This little journal may be of some interest to you, since it contains an article contributed about your grand, good boy, Carmelo. I miss him very much and shall be happy when he is safely walking the streets of Springfield again. My work here is interesting, and I am feeling very well, although for the rest of my life, I have to limit my activities. Best wishes and say a prayer for me and my thousand crippled boys at Doshon Hospital."

The article which appeared under the title of "Chaplain's Corner" of "Deshonnaire" reads: "Not so long ago the streets of Springfield, New Jersey echoed the laughter of a typical American boy, Larry Appolito was dashing, carefree and young. Came March, 1942, and away went Larry to join the millions who were determined to safeguard the security and peace of all the Springfields in the world."

"Division Chaplain's Assistant in the 77th Infantry Division was young Appolito's assignment. In that capacity he still serves in distant and lonely Guam, which has recently been occupied by Marines and Army troops. A letter from Sergeant Appolito has been lately received by today's contributor to this column. By

Exceeded Quota On E Bonds Sold, Total Still Shy

Although only a little over half of its quota for the Sixth War Loan Drive, Springfield is the second community in the State of New Jersey to reach the "E" Bond quota, according to a letter received by Chairman Fred L. Braun from John E. Manning, State Administrator. The letter follows: "Please accept my sincere congratulations for your report concerning the sale of 'E' Bonds in Springfield. I understand that you are the second community in the State of New Jersey to report that the important 'E' Bond quota has been reached.

"I well realize that you have accomplished your goal at such an early date, and that it required a great deal of effort on your part as well as on the part of those who make up your committee. Your cooperation is greatly appreciated and I shall be grateful if you will extend my personal thanks to those who assisted you in the Sixth War Loan Drive."

From H. D. Davis of Plainfield, county chairman came the following letter to Mr. Braun, "I want to extend my congratulations to you upon the report which I have received that Springfield has exceeded its quota for 'E' Bonds. In view of the fact that the majority of our districts are having a hard time to make the 'E' bond quota, your record is especially noteworthy."

Springfield should be proud of that record," Mr. Braun went on, "but Springfield has a long way to go to reach its full quota of \$125,000. The latest total collected is \$64,825.50. This drive will continue until the end of December and every worker is urged to contact every prospect he missed on his previous call. We need everyone's help to put the Drive over the top. Let's all get behind the Drive for the final quota as we did with the 'E' Bonds. The letter from Mr. Manning should serve as an incentive to work harder than ever to reach the final goal. Here's counting on you!"

The standing of the team captains follows: Zone A, Edward Pearson, \$5,031; Zone B, Hilding Thyberg, \$6,612; Zone C, Stephen Terrel, \$10,043; Zone D, Richard Groendyck, \$8,265; Zone E, Donald Richardson, \$10,731; Zone F, Willard Brown, \$4,913; Zone G, William Cramp, \$2,138; Zone H, William Cramp, \$5,650; center of town, James Funchon, \$1,998; Tooker avenue, Frank E. Meisel and Charles Beardley, \$1,000, and Regional High School, \$8,650.

MOUNTAINSIDE

Annual Report Of Firemen Is Given Council

MOUNTAINSIDE — A comprehensive report of fire activities for the past year was submitted by Chief Herman Honcker to Borough Council Tuesday night. It follows:

"During the past year the Fire Department called 12 drills, and answered 47 alarms of fire. These are classified as follows: Dwellings 6, business establishments 2, motor vehicles 4, brush-35. This is an increase of 18 more alarms than 1943.

"Recently we have been plagued with a series of brush fires after midnight. While there has not been a large number of these it does not appear that these fires have been deliberately set. I feel that the Police Department should be requested to watch for and investigate any future fires of this type. While they are not serious at present, if left unchecked may lead to something more serious in the future.

"Our fire losses this year amounted to approximately \$2,500. The recent fire at the Chi-am Chateau accounted for the greater part of this. While the above loss is a great deal higher than 1943, the Firemen should be commended for their work at these fires, for due to their careful handling there was no water damage at any of these buildings.

"The additional piece of apparatus the Firemen built in the past year has been very useful and at the Chi-am fire proved its worth.

"In the past year we have increased our membership by one and have at present a very good prospect for membership.

"It is not my wish to cast reflection against or to deny the credit due them. However, in my opinion, the present group of firemen are the best that we have ever had. The men have made every effort to gain as much information and experience as possible to enable them to do a better job. They work together very well and are as a co-ordinated group. They are always willing to listen to and to benefit by any constructive criticism. They respect their officers, take a great deal of pride in their equipment, department and organization and are proud to be members of our Fire Department.

"Following is a list of the Firemen who have received compensation to which they are entitled: H. H. Honcker, H. A. Svecovic, F. Vincent, F. Wagner, H. Engleman, W. Van Nest, E. Nolte, J. Hershoy, E. Hoffarth, C. Condon and E. Scriba. The two maintenance men are J. Hershoy and F. Vincent.

REGIONAL HIGH

Editor's Note: "Regional High" covers the happenings of interest about former pupils and what they're doing.

Mrs. Josephine Ventre of Kenilworth has received word from the Government that her son, Sergeant Joseph R. Ventre, has been wounded for the second time. He was wounded in France on November 7. Prior to that he was wounded on September 12, but soon returned to duty. Ventre attended Regional High and was employed by Merck & Co., Rahway before entering the Army in March, 1942. He went overseas in March of this year and is with a mechanized cavalry reconnaissance unit. A brother, Corporal Michael Ventre is with an anti-aircraft group in Germany. Corp. Ventre, who went overseas in March of this year, is a 1938 graduate of Regional High.

Kathleen Ann Hilbrandt, daughter of Mr. and Mrs. Francis Hilbrandt of 70 North Avenue, Garwood, was a member of the final class of Women Airforce Service Pilots to receive her wings in a ceremony at Avenger Field, Sweetwater, Texas, on December 8.

Miss Hilbrandt, a 1941 graduate of Regional High, began her flight training several years ago. Before going to Avenger Field, she worked as a mechanic at Eastern Aircraft, Trenton. During her employment there, she performed pre-flight inspections, taxied bombers, compensated compasses, cleaned plane engines and accompanied pilots on test flights in the planes which she inspected. She logged 200 hours of time as an observer in this manner. She also logged 85 hours of private pilot time in addition to WASP training.

The WASPs have completed an action-packed aerial-and-ground school curriculum which is, in every way, equivalent to that given male aviation cadets. Today there are WASPs who fly all combat aircraft types including the jet plane, the fastest fighter types and B-29 Superbombers in diversified classes of work.

ABC Studying Appeal of Chatterbox Revocation

MOUNTAINSIDE — The outcome of the decision by Borough Council that the Chatterbox, Route 29 tavern, be deprived of its liquor license is expected shortly by borough officials as a result of a hearing Tuesday morning before ABC authorities in Newark.

The Chatterbox license was ordered revoked by the Borough Council after two hearings several weeks ago, effective December 5, charged with maintaining a slot machine on the premises October 12, contrary to the Statutes. Another charge, that of allowing alcoholic beverages to be sold September 30 between 3 A. M. and 5 A. M., after the legal closing hour, was dropped for lack of sufficient evidence, when the principal and only witness, failed to produce the necessary testimony.

Mayor John Moxon reported Tuesday night that the disciplinary proceedings against John Morone, Chatterbox licensee, temporarily prevent suspension of the license which still is in force, pending the ABC report. Thus, the tavern is permitted to operate until a decision is announced by ABC Commissioner Driscoll.

"The Mayor and Council feel that the case was justified," Mayor Moxon explained, "and we hope our decision will be upheld by the ABC."

YOUR RED CROSS

On Friday, December 9, a New Jersey Home Service meeting was held at the Veterans Administration Facility, Lyons, to discuss the problems of the Veterans Rehabilitation program. Among the many interesting speakers from Veterans Administration Facility were: Middleton E. Head, manager; William Keller, chief adjudication officer; and Frank Kane, vocational rehabilitation officer. Also Lt. Col. Lewis Lopez, chief medical officer; Stuart E. Yeakel, Red Cross Field Director and Miss Emily E. Spaulding, Psychiatric Social Worker.

A delicious cafeteria lunch was served by the Canton Chapter of the Somerset Hills and Cranford chapters. Springfield Chapter was represented by the following workers: Mrs. Henry McMullen, Vice-Chairman of the chapter, Mrs. Paul Voelker, Mrs. Edward Brees, Mrs. Charles Saffery, Mrs. Frank Crowe and Mrs. Stephen Terrel. Mrs. Harry Quinzel of the Motor Corp chauffeured the staff to and from Lyons.

fraction of the large amounts of supplies for prisoners' leisure-time activities which the Y.M.C.A. sends into the camps which he covers.

But this particular representative of War Prisoners Aid of the Y.M.C.A., a participating service of the National War Fund, was especially interested in delivering one large package. This was an excellent violin, given by a Danish architect, with the stipulation that it be presented to some Serbian prisoner. But why to a Serbian—widely separated temperamentally, as geographically, from the donor? This will probably remain a mystery, for there was no explanation tendered with the gift.

Presentation was simple, for the Serbian Man of Confidence was indisputably the camp's finest violinist. So the visitor handed him the package and left hurriedly, because he did not want to embarrass the prisoner by witnessing his emotion.

Returning later, he found a silent crowd gathered around the man's hut from which issued, vibrant and tender, the voice of the violin in the love songs of old Serbia.

If your service man isn't getting the SUN free each week, send in his correct mailing address to the paper.

IT WILL TAKE MOUNTAINS OF EQUIPMENT TO LICK THE JAPS

YOU saw your War Bonds in action in France. You saw how American leadership and courage, backed by a never-ending stream of equipment, won France in record time. Germany admits that her armies were overwhelmed by the enormous amounts of Allied equipment.

But we've still got a fight on our hands! We've still got to put the finishing touches on the Nazis and go all-out on the tough, brutal enemy in the Pacific. More and more of every kind of equipment is needed. We need B-29 bombers. We need a flood of them. And every B-29 bomber costs \$600,000 in War Bonds. We need millions of gallons of high octane gasoline. We need ambulance planes that cost \$125,000 each.

We need amphibious tanks, airplane carriers and a never-ending stream of costly equipment to win the final victory.

It Costs Billions of Dollars a Month to Fight Japan

Our job at home is clear and unmistakable. Just so long as an American faces a Japanese gun, we must keep on buying War Bonds. Each and every one of us must invest in at least one extra \$100 bond. We're out to finish the guy who started the fight. Let's get—Sign up for extra bonds on the payroll plan. Welcome the Victory Volunteer when he or she calls at your home. Go to your bank, or wherever you buy War Bonds—and back the Sixth for final Victory!

YOUR COUNTRY IS STILL AT WAR—ARE YOU?

- And here are 6 more reasons for buying at least an extra \$100 WAR BOND in the 6th!**
1. War Bonds are the best, the safest investment in the world!
 2. War Bonds return you \$4 for every \$3 at maturity.
 3. War Bonds are as convenient as cash—and increase in value to boot!
 4. War Bonds mean education for your children, security for you, a nest-egg to fall back on, come what may.
 5. War Bonds help keep down the cost of living.
 6. War Bonds will help win the peace by increasing purchasing power after the war.

The Office of Price Administration has issued an order providing that the price to consumers of Christmas-tree-lighting sets, when assembled by retailers, must be no more than the total of the retail prices for each of the parts making up the set. This action was taken in view of the fact that because of the shortage of lighting sets many retailers plan to assemble their own from wire, plugs, sockets and bulbs on hand. Incidentally, no new sets are being made.

Parents of boys will be interested in the report just published by the United States Office of Education which takes the view that new developments in electronics, air transportation and automobile design, as well as creation of improved materials for textile, food and construction uses, will demand

a large increase in trained technical personnel. The report states that about five trained technicians are needed in modern industry for every professional engineer. These technicians fall into four main categories: engineering and science aides requiring a year or two of pre-employment training; narrowly trained specialists such as inspectors; production and maintenance supervisors; and semi-technical salesmen, accountants and like workers.

Plentiful Foods for January

Housewives might well make a note on their shopping calendar for next month that plentiful foods for January will include the following: Onions, eggs and fresh apples (especially lower grade apples) in the unprocessed food class. And, in processed foods peanut butter, jams (except berry types), jellies, apple butter, citrus marmalade, frozen vegetables, frozen baked beans—dry mixed and dehydrated soups, soya flour, soya grits, soya flakes, wheat flour and bread, macaroni, spaghetti, noodles and oatmeal. These will be available over most of the country according to the Office of Distribution of the War Food Administration.

Tax Filing Date Explained

Joseph D. Nunan, Jr., Commissioner of Internal Revenue, reminds individual income taxpayers that Congress has changed from December 15, 1944, to January 15, 1945, the final date for filing Declaration of Estimated Income Tax, either original (as in the case of farmers), or amended, and paying of installments of estimated tax for the calendar year 1944.

Among the taxpayers affected by this change in dates are: farmers who exercised their right to defer filing declarations last April 15; others who have really filed 1944 declarations but desire to change their estimates by filing amended declarations; all persons who owe

Telco Drive Within Goal

The nationwide drive among 14,609 New Jersey Telephone Company employees to "Add a Million" during the 8th War Loan campaign to \$1,600,000 in war bonds previously purchased was within \$95,000 of the goal as the drive entered its final week, the company's joint labor-management bond drive committee reports. Bonds being purchased through regular payroll deductions through December amount to half the \$1,000,000 sought, and extra bonds totaling nearly 9,500 in number added over \$435,000 at the weekend to bring the figure to \$935,000.

These changes will enable a taxpayer, if he desires to do so, to wind up all of his 1944 income tax obligations by January 15, but it does not affect the filing of his 1945 declaration which will be due March 15. Also, taxpayers who do not file their final 1944 returns by January 15 must do so by March 15.
