**LET'S FREE OUR TOWN
OF RATS**

by
ROBERT D. TREAT
Township Sanitarian
(N. J. State License—First Class)

Introduction

In my article which appeared in the Springfield Sun under date of May 6th I submitted a brief, setting forth the facts which have to do with the importation of rats from Europe, how we have welcomed them as guests, the amount of their destruction, their spread of disease, and where they live. The following article briefly sets forth the fundamentals of inspection, rat-proofing, and killing.

Rat Inspection

The rats are here—how are we going to fight them? Special attention should be given to garbage, refuse dumps, and the accumulations of food or shelter. All establishments that handle feed or food should make inspections of basements and other food-storage places; especially in corners or protected rat runways. Flashlights should be used to look for greasy rat smears or rat droppings which indicate frequent travel. Similar signs should be looked for at all openings through which rats might enter. Old buildings should receive most rigid inspection where foundation walls are shallow or lacking; in such places you should watch for rat burrows. Wooden floors, a few inches above the ground, are favorable as rat shelters.

Rat Proofing

Adequate rat-proofing requires the closing of all openings, one-half inch or larger in diameter, where rats might gain access to buildings; using concrete, brick, hardware cloth, or sheet metal. Buildings lacking foundations, and in which there is an unusually severe rat problem, may require

GAS THEM

Look for rat holes in your yard. With hand-pump duster and calcium cyanide, pump gas into holes, then plug them with dirt. *Caution:* Use gas outdoors only, keep away from fumes, wash after handling.

a curtain wall extending at least two feet into the ground with a six-inch footing projection at the bottom to prevent rats digging underneath. Wherever black (climbing) rats are present, rat-proofing must include metal guards to prevent climbing of pipes or wires.

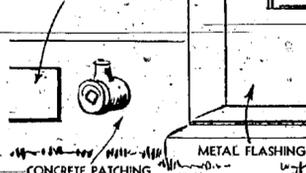

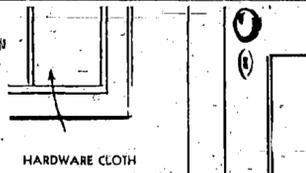

Rat Killing

Rat killing is best done by trapping, poisoning, fumigating, or a combination of the three. Fumigating and, to a large extent, poisoning, should usually not be attempted by property owners, but should be done only by professional exterminators.

Ordinary snap rat traps are effective means of control where properly placed in rat runways. Be sure and use plenty of traps. Make them more effective by enlarging the size of the trigger with a piece of pasteboard or hardware cloth so that rats have difficulty running across them without tripping the trap. Baiting of traps is not necessary if they are placed where rats naturally run along walls, pipes, girders, or behind sheltering boxes and boards.

Poisons suggested for use by householders include Red Squill and/or Antu, which should be mixed with bait (hamburger, fish, grain, or fruit) in the dry weight proportions of one part of squill to nine parts of bait. Other more toxic poisons should not be used by householders, but may be used by trained and properly insured pest-control operators. There is no known poison that can be guaranteed to make rats die outside of buildings, or that will mummify them so that no bad odors result.

Complete directions for killing rats will be given in my next article to appear in a June issue of the Springfield Sun.

RATPROOF YOUR HOUSE
Rats enter your house through any opening over half-inch in diameter. Close holes around pipes and wires with concrete or metal. Fasten hardware cloth over ground-level windows and vents. Cover gnawed edges of doors with sheet metal. Point up masonry, repair broken concrete, cover floor drains tightly.

**LETTERS
TO THE
EDITOR**

Editor, SUN:

Recently you had an article in the paper concerning Overlook Hospital in Summit. There was a poll taken to know conditions in the hospital. I wish I had one of the forms to fill out. I would have much to say. From recent illness in the family, I know how conditions really are. My little boy, Danny, was admitted to Overlook recently with pneumonia. Dr. Lull, local physician, called Overlook to try to get a room for him. It seems there wasn't an empty bed in the place. If it had been a more serious illness, what could I have done? Finally the hospital authorities notified me a bed for him was available. As for the nurses, I found only two who were courteous. The hospital itself is a dreary building. What we really need in Union County is a new hospital.

I could enumerate further about conditions at Overlook. As I said to Dr. Lull, "I would rather die at home where I am happy than die in Overlook where I would be unhappy. So if I am sick, don't even send me to that hospital, let me die in peace."

If this letter does bring action, I intend to send it to Overlook.
MRS. DANIEL OZSVATH,
129 Malcol avenue.

I should like to express to the people of Springfield, and especially to Mrs. Helen Hillmeyer and her Committee, my sincere thanks for the splendid job they did in making our recent March of Dimes Campaign the success it was. Contributions this year are badly needed, and we want to assure everyone that the money they have helped to contribute to this great work will be expended to help the unfortunate victims of

this dreaded disease who otherwise would find it impossible to receive such unique medical attention.

We wish it were possible for every contributor to know just how grateful our polio cases, and their families too, are for their thoughtfulness. Every dime helps ease their suffering and help them to return to normal healthy living.

We hope that Springfield will continue the interest in this wonderful work because only then can it be carried on.

Sincerely yours,
EDWARD L. WHELAN
County Chairman

YOUR LIBRARY
It is the hope of all thinking people that American literature may never be subjected to regimentation under which the literature of some other countries is now stifled. American writers are free to describe what they see and feel, each in his own way, and the price we pay for that freedom—as we pay for all freedom—too frequently adds up to books that might better be left unwritten.
We can only hope that as time goes on American writers may see more clearly or perhaps with a less jaundiced eye and so depict either the contemporary scene or

the historical one in a more pleasing light or at least in more pleasing language.
Regardless of what we are offered, what to read or not to read is for each individual to decide for there is a wide and varied choice.
Some of the newer books are: "Poony" by Pearl Bick; "The Great Blizzard" by Albert E. Idell; "Plunder" by Samuel Hopkins Adams; "The Golden Hawk" by Frank Yerby; "Fire" by George R. Stewart; "No Trumpet Before Him" by Nella White; "Pantler's Moon" by Victor Connig; "Civilization on Trial" by Arnold Toynbee and "Malabar Farm" by Louis Bromfield.

We're making every circuit count!

- New Jersey people are making more calls than ever these days... and more are going to out-of-town points. We're glad to say most of them go through promptly.
- The main reason is the fact that more circuits have been added during the past two years than in any equal period... and others are being installed as fast as cable can be secured. But another big reason is this: while planning additional circuits, telephone engineers are making sure that every existing circuit is doing its full job, through careful routing and planning.
- You can be certain that everything is being done—not only to handle the increased calls of the future—but to provide prompt service today.

Searles Pitches Hawks to Victory

Chief Searles pitched the Hawks to victory with a two-hitter over the Indians last week. It was a pitchers' duel until the bottom of the fifth when the Hawks unloaded a five-run Anderson-led off with a walk and Wigert, R. Schwartz and Kerlin singled. R. Batulle cleared the bases with a triple. In the top of the sixth the Indian rally fell short with only one run on one hit.

Reserves Decision In Huff Divorce

Deblon was reserved last week by Advisory Master **W. Huff** in the suit for separate maintenance brought by Mrs. Kathryn M. Huff of 93 Meisel avenue against Charles H. Huff, local tax collector.

Huff denied he had abandoned his wife last October 25, charging she deserted him maritally ever since their marriage here October 5, 1946.

Joseph M. Wilson, 86, Succumbs Here

Joseph Muir Wilson, 86, died at the home of his daughter, Mrs. George D. Smith of 382 Morris avenue, Sunday morning. Death was due to a cerebral hemorrhage.

Mr. Wilson was born in Fifeshire, Scotland, and visited the United States frequently in his childhood and settled here permanently in 1920. He lived in Linden until six years ago when he moved to Springfield.

Prior to 1920, Mr. Wilson operated a hotel in London for many years. In 1922 he went to work for the Grassell Chemical Company in Linden as a real estate agent, where he remained after it was absorbed by E. I. duPont de Nemours & Co., Inc. He retired in 1940.

Mr. Wilson held an honorary membership in the IOOF, in London. Surviving are two sisters, Mrs. George Smith, local resident, and Mrs. Gladys Lambberg of Montclair; four grandchildren and five great-grandchildren.

Funeral services were held Tuesday at Young's Funeral Home in Millburn. The Rev. Charles Peterson officiated. Burial was in the Presbyterian Cemetery.

Olympic Stars to Perform in County

Union County residents will see a preview of Olympic gymnastic drills to be held in London this summer, when men and women in the United States team perform at the Olympic Night program, to be held at Warinanco Park Stadium, Roselle, Wednesday, June 2, at 8 p. m. This has been announced by George T. Cron, Assistant Superintendent of Recreation for the Union County Park Commission.

This will be one of the few appearances of the U. S. team prior to sailing for the Olympics, according to Cron. The gymnasts will perform on parallel bars, long and side horses, horizontal bars, and the balance beam.

The men's team will be headed by Edward Sorobe of the D. A. Turners, Bron, national all around champion and top man on the Olympic team. Frank Cunnisley, representing the Swiss Gymnastic Society of Union City, many times all around champion and member of the 1932 and 1936 Olympic teams, will also perform. The women will be led by Helen Schifano of the Elizabeth Turners, who is former all around champion and runner-up to Claire Schroth of Philadelphia this year.

In addition to the gymnastic drills the program will include an exhibition of tumbling by the Jersey City Recreation Department, led by Frank Wells, repeated national champion. The Elizabeth YMHA women's drill team, also former national champions, will be seen in action.

Fifty men and women from the turners in New Jersey and New York will demonstrate in a mass drill on the Stadium field. Weight lifters from the New Jersey A.A.U. are also on the program, as well as the Polish Falcons of Elizabeth, who will put on two special drills.

The Olympic Night program is sponsored by the Olympic Gymnastic Committee, in cooperation with the Union County Park Commission and the N. J. A. A. U.

Veterans Continue Insurance Errors

Veterans are still failing to properly identify their premiums when forwarding remittances to the Veterans Administration in payment of their national service life insurance. Morton Holzman, VA insurance officer, pointed out today.

Holzman again advises that when a veteran pays his premiums, he should forward a copy of correspondence to the VA concerning his insurance. He will receive much faster action if he includes his policy number, if known.

If the policy number is not known, the veteran should properly identify himself by listing his name and permanent address, service serial number, branch of service and date of discharge. The policy number can be obtained from either the insurance certificate or from any insurance receipts, policies or correspondence ever received from the VA. This insurance number will be preceded by the letter "V" if the veteran still has his original term insurance, or by the letter "V" if the policy has been converted. In those cases where the veteran has two or more policies he should include all policy numbers.

Checks or money orders should be made payable to the Treasurer of the United States and for New Jersey veterans remittances should be forwarded to the VA, Branch Office No. 3, P.O. Box 7187, Philadelphia 17, Pennsylvania, All Collections Unit. Holzman also advises that if the veteran is receiving official premium notices, which appear in the form of a yellow envelope with the return address printed thereon, the veteran should use this method in returning his premiums as all necessary identifying information is on the insurance notice. If the veteran does not receive these notices, he should continue to remit his premiums as they become due enclosing a note with each payment advising the VA that he is not receiving official notices when premiums become due.

Upon visiting any VA office for assistance concerning insurance matters the veteran should always bring along his policy number.

Regional High News

The senior trip lived up to everyone's expectations. In fact, it's still the main topic of conversation around Regional's halls.

But it's slowly being crowded out by thoughts of next year's schedule on the part of underclassmen, graduation on the part of seniors, and exams and the Junior Prom on the part of everyone.

The Prom is the most eminent of those, for it is now only a week away. This year's theme is "New York at Night." Enthusiasm over this, the biggest social event, was high, and the table reservations are all gone.

Miss Claire Kelly, who is in charge of the commencement program, had not selected the students who are to take the speaking roles in graduation in time for me to meet my deadline, but she informs me that information will be available by next week.

Next year's student council officers have been chosen and are as follows: President, Edythe Pelzer; vice-president, Pay DeBerjols; secretary, Alice Monahan; treasurer, Joan Grater; and P.T.A. representative, Harvey Karlin.

Everyone is now beginning to think about yearbooks, which will be arriving before long. Regional yearbooks are always wonderful things and classes are never the same after they are distributed, especially for the seniors who have no strength left for writing by the time they escape from the halls!
