FRIENDS!!

There was lots of excitement in town shortly after noon on Tuesday when a two-passenger trainer plane from Morristown Airport cracked up after a forced landing on Prince's Farm in South Springfield avenue... although no one was hurt, all of Springfield's emergency equipment was rushed to the scene by the Police department, First Aid Squad and Fire Department... we want to take this opportunity to thank all those friends of the Springfield Sun who rushed to the nearest phones to inform us of the accident... more than a dozen calls were received.

This town and all neighboring communities are loaded with scores of civic, social and fraternal organizations... we know of few which are not worth while... only recently, however, our attention was called to the formation of a group known as the Auxiliary of Kessler Institute for Rehabilitation... rare, indeed, is the outstanding work of the famous Kessler Institute of West Orange... a primary purpose of the organization is to aid the institute financially through... several Springfield women already have joined the unit and there are many more ready to join... membership not only takes in North Jersey but parts of New York... persons interested may obtain information by addressing the auxiliary in care of the Institute... it's for a great cause.

Talking about memberships brings to mind the needs of another organization right here in town which must have additions to its roster before some present members become exhausted... we're not kidding on that score, either, because all you have to do is check on the activities of the First Aid Squad and you'll soon discover what a rough go it is... you'll make no money but there'll be plenty of excitement—and lots of satisfaction in knowing you're helping your fellow man.

If local veterans seeking a place to live for their families will look through the pages of today's Sun they'll find an announcement by the Township Committee that a vacancy exists in the Vet Housing Barracks... get your application in quickly because the most deserving vet will receive the apartment.

With closing of schools slated for next week Police Chief William Thompson has issued a warning to parents to caution their youngsters against the lures of the streets and highways... Instead of just a couple of hours a day children will now have all day to play... records indicate that most accidents occur during the summer months, particularly insofar as kids are concerned... the smart mother will keep her eyes peeled and always be alert... and just in case you have any old ice boxes in the basement or on the back porch we suggest you huck them to pieces or lock the doors... this week's dailies told of another incident where two children almost paid with their lives by climbing into an ice box.

We're still waiting along with the rest of you for that traffic light in front of the postoffice... by the time Trenton gets around to installing the signal we're liable to have someone killed... suggest the Town Committee send a telegram this time urging immediate installation now that approval has been granted!

Saturday will be Strawberry Festival time in Springfield and local Girl Scouts will benefit immensely by your attendance at the municipal green anytime during the day... there will be a radio broadcast direct from the field during the course of the event and you'll be able to buy anything from soup to nuts at any of the varied booths.

Regional Plans Giant Addition Of \$1,200,000

21-Room Annex Proposal Set For Fall Vote

Plans for construction of an addition which will cost \$1,200,000 were announced today by the Regional Board of Education following a special meeting Tuesday night. Approval of the voters will be asked in the fall, it was revealed. Additional details will be outlined as they are developed during the summer.

Preliminary plans indicate the addition will have 21 rooms. They provide for increase of the administrative and guidance office space, the addition of conference rooms, health facilities and store rooms. A second gymnasium will be added to augment the physical education program. Expansion of the cafeteria kitchen and counter space will be another feature of the program.

Plans also provide for a new agriculture building consisting of shop facilities and two classrooms. This will be a separate building, replacing the temporary building structure which has been in use since 1942. It is hoped that this building will be available by the fall of 1952.

The present high school building has a capacity under modern standards for 900 students. With the new facilities the capacity will be increased to approximately 1,500. With no delays in the construction schedule it is expected the new facilities will be available for use in 1953.

Growth of the student population from the current figure of 975 students to an estimated 1,125 in 1953-54 makes it imperative that the relief project be started as soon as possible, a board spokesman said. It has been estimated that the project will cost \$1,200,000.

If You Were a College President

If you were, you would be alarmed at the number of boys who fail to graduate. Like many other presidents, you would ask your Director of Admissions to give preference to boys who achieved good grades in English and who had a thorough training in reading. Carteret is aware of these requirements and offers remedial reading to improve the student's speed and comprehension, and stresses thorough preparation in English. Each year at Carteret abundant evidence is available proving the correlation between reading ability and high grades in all subjects. In addition, small group instruction at Carteret helps boys immeasurably in mastering their studies in mathematics, science and history.

Fully Accredited
Periodic aptitude and achievement tests are given as a means for guiding each boy towards his fullest development. Individual attention is given to improvement of reading habits, with complete equipment under supervision of a Psychologist.

Vacations Can Be Harmful

Some people on vacation very nearly kill themselves trying to have a good time. In consequence, they return to take up the work of another year more exhausted than when they set out.

The word vacation means a period of time free from routine care, duties, and scheduled activities. The mood of a true vacation is one of complete relaxation.

There are different types of unsatisfactory vacations. First, there is the vacation that costs so much that financial worries take all the good out of the experience.

There are different types of unintelligent vacationers, too, from those who get water-logged from trying to get their money's worth in bathing, or who suffer second degree burns from broiling themselves in the summer sun.

Be wise, and take it easy. You'll probably really enjoy yourself. Best of all, you'll be alive and happily vigorous when your vacation finally comes to an end.

Know Your Government By N. J. Taxpayers Association

DEAR MR. AND MRS. TAXPAYER: Have you ever written a letter to your Congressman?

If not, you had better get busy because it's your money they are planning to spend in next year's big Federal budget.

This budget totals more than 71 billion dollars. That's about \$2,000 for a family of four in New Jersey. Correct, you won't pay all of this in direct taxes.

Seventy-one billion dollars may be more than you can imagine. But you're sure going to miss the money it will take from your pocketbook.

People who know something about it say the budget can be cut safely by nine to ten billion dollars.

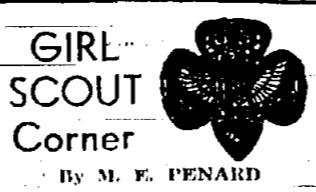

Findings of the Hoover Commission and recent newspaper reports of astounding Federal waste leave no doubt that such a reduction will help the nation's economy and advance its preparedness program.

But, best estimates now indicate that unless there is a terrific spur in the economy drive in Congress taxpayers will be lucky if the reductions reach three billion dollars.

Write your United States Senators and Representatives. Write

today. Let them know that the people of New Jersey want every possible economy in the Federal budget.

Yours truly, THE NEW JERSEY TAXPAYERS ASSOCIATION, P.S. Political dopsters say that the letters Congressmen really read are those written from the kitchen table.

The first realization of grammar school days coming to a close was experienced by the graduation class in a farewell dance given by the Seventh Grade last Wednesday. The Eighth Grade appreciated the apparent efforts and hospitality of their hosts and hostesses under the direction of Miss Koslodi. A canopy, horseshoe of roses and large silhouettes were features of the attractive decorations, headed by Richard Merlino, Chairman. The other committee chairmen were: Nancy Moon, Agatha Madura, Frances John and Dana Lindauer. The Master of Ceremonies was Richard Walker, and head waiters were Karl Ford and Donald Eger. The Seventh Grade should be very proud of such a well-organized party dance. Pleasant memories and an enjoyable time will always be associated with this farewell gesture.

Our main hall bulletin board has been given over for sample displays of the year's work done by the graduating class. Pat Mesler, Mary Richeho and Doris Roscello took charge of the project. Those girls that finished work on their home-room bulletin board. The theme was the United States possessions; the current study in history.

Supper time finally arrived and we prepared our meal around the campfire. An enormous amount of hot dogs and hamburgers were consumed. For dessert we had toasted marshmallows.

To digest our meal we had a good time at the dam and brook, the swings, and the big hill. All too soon eight o'clock came and we were driven home. Everyone in our group had a delightful time and we wish our teacher would take us again next week.
