Town Assessors Will Make Plea For Revaluation

Laying Reveals Budget Item To Be Sought

A request to the Township Committee for approval of a re-valuation of all municipal property will probably be made by the Board of Tax Assessors next year. This was revealed recently by Wilbert W. Laying, secretary of the Board of Assessors, at a session of the Township Civic Association. He told the group that the board expects to recommend that the governing board establish a budgetary item for the re-valuation. It would be done by a professional agency, he said. Laying pointed out that a complete re-valuation already has taken place in Plainfield and Summit among Union County municipalities and that similar procedure is being followed currently in Mountainside. The board of assessors officially expressed belief that with the tremendous change in real estate values over the past decade, and a half, the re-valuation procedure would appear to be the only fair method to have each taxpayer carry his fair share of the township tax burden. Laying expressed agreement with the contention of some of the members of the association that property taxes are inequities. He said that the recommendation of the board, which probably will be made before the 1953 budget is prepared, should eliminate all inequities. The assessors' secretary pointed out that the three members of the board are part time employees and spend only a small portion of their time in assessment procedure. As a result, he said, it is virtually impossible for them to re-assess each property every year. He said, in view of the situation, it is necessary in order to establish some equity between new and older houses, to use a constantly decreasing percentage of the purchase price of the property as a basis for assessed valuation.

Regional Bd. Raises Pay of Substitutes

Daily Figure Upped From \$10 to \$12.50

Teachers substituting at the Regional High School hence forth will receive larger pay checks. The Regional Board of Education at its monthly meeting Tuesday night voted to increase the daily remuneration from \$10 to \$12.50. Supervising Principal Warren W. Halsey reported to the board that it is becoming increasingly difficult to obtain substitute instructors because of the re-valuation. Other school systems, he said, and Regional will be in a better position with the higher pay rate. The board accepted the resignation of Mario Amato, who has been an instructor in commercial subjects. He will teach in the Jersey City system which is closer to his home which is in Montclair. Miss Vivian Hasecup, of Upper Montclair, was engaged as his replacement. She is a graduate of Montclair State Teachers' College. She did her practice teaching at Regional. Her salary was set at \$2,700 a year. Announcement was made that bids for construction of the addition to the high school will be received tomorrow night in the board office. The board was voted \$1,400,000 on November 13 in a referendum for construction of an addition and an agricultural building which now is being built. The three-story addition will contain a gymnasium, twenty-five classrooms, offices and other facilities. Mrs. Hazel Smith was engaged as a part-time matron at \$1.25 an hour. The board voted to send five representatives to the Union County Workshop Conference to be held in Summit in mid-October. The delegation will include two teachers, a PTA representative, a member of the supervisory and a board member. Bertram J. Bortolomy, of Garwood, board president, presided.

Mosquitoes, Heat Permeate Township

Swarms of mosquitoes and a heat wave which would do credit to the Sahara Desert continued to hold sway in the township yesterday. Residents, browbeaten by the stifling heat, sought shelter in the few stores which boasted air-conditioning. If they were not busy they jumped in the family car and headed for the shore and its refreshing ocean breezes. Some of them drove to Ashbury Park, which was the locale of the closest theater they could find on which they could watch a telecast of the Ray Robinson-Joe Maxima lightweight championship boxing match. Others, who have become accustomed to the high temperatures of past summers, just sought shade and attempted to make themselves as comfortable as possible under adverse circumstances. The temperature on Morris avenue thermometers which were in the shade was 92 degrees early yesterday afternoon. The weather bureau promised no immediate relief yesterday. Scores of township children visited the county swimming pools in Rahway and Linden while others visited private pools at various amusement parks. Protection from the mosquitoes was sought indoors generally. A few persons who attempted to stay outside and put up with the pests obtained old fashioned punk and burned it. But their efforts generally spouting were not very successful. Most of those who retreated before the influx of New Jersey's most celebrated insect agreed that 1952 instead of being called the Year of the Great Republican Battle will go down in history as The Year of the Great Mosquito. Mosquitoes were not interested in commenting on that. They were too busy feeding on homo sapiens.

Police Dept. Searches For Stolen Dynamite

Cops Launch Probe Of \$3,100 Theft

The detective bureau today is investigating theft of \$3,100 taken early Monday morning from "The Car-Hop," Route 29 restaurant located near the Union Township line. Chief of Police William J. Thompson said the break occurred between 3 and 4 a.m. It was discovered by Radio Patrolman Daniel Mulling who checked the premises at 6 o'clock. He found entry had been made by breaking a large panel in the rear door. Mulling previously checked the restaurant at 3 a.m. According to Chief Thompson the money had been stuffed in a banking money bag. It had been locked in the drawer of a desk. The thieves had opened the drawers. Nothing else in the restaurant was missing, it was said, including some small amounts of change in other places. Harry Rosenthal and Marvin Geller, of West Orange, the proprietors, who were called, indicated the receipts had not been deposited in the bank because one of the partners had been ill over the week-end. The amount missing represented receipts of the entire week, it was reported. Lt. Albert A. Sorge, Detective Vincent Pinkava and Patrolman Mulling are continuing the investigation. The department is checking on a number of similar thefts in other municipalities with the idea of obtaining a lead.

Resident Scouter Receives Award

Mrs. Gladys Bowman, Secretary of Cub Scout Pack 172, sponsored by the Lions Club of Springfield, was awarded her Scouter's Award recently at a dinner of the Scout Leaders of the Northern District, Union Council, Boy Scouts of America. In achieving this award, which is the first one presented to a woman in Northern District, Mrs. Bowman completed three years of training and actual experience as a Den Mother in her Pack. She is further distinguished in that her husband, Alfred Bowman, has the same award. Local Scouters know of no other instance where a husband and wife possess the same award. The award was presented by George C. Freeman, Scout Executive. Harold W. Bunting was elected Chairman for the coming year of the District Committee of the Northern District, Union Council, Boy Scouts of America. He will be assisted by John Dalton of Springfield, LeRoy Griggs of Union and Thomas Chamberlain of Hillside who will serve as Vice Chairman. They were elected to office that same evening. The Northern District Committee is responsible for the Scouting program within the three communities of Union, Hillside and Springfield.

Chief Thompson Urges Residents Aid Authorities

Thousands of Springfield residents today were waiting in nervous apprehension as patrolmen, detectives and special officers searched every section of the township for 21 sticks of dynamite stolen from the cache of the Commonwealth Quarry near the Baltusrol Golf Club. The Springfield Sun yesterday contacted an Army demolitions expert and asked him how potent the stolen dynamite could be. His cryptic answer was, "That's enough explosive to blow all Springfield to hell." Chief of Police William J. Thompson left a sickbed yesterday to assign Detective Vincent Pinkava, crack sleuth of the local department, to the case. He indicated it may be necessary to cancel days of all vacations of department members, if the missing dynamite is not found. The chief urged all residents to search their homes to ascertain whether the hidden explosives may have been placed in the cellar, attic, or some out-of-the-way cranny or nook. He recalled that several years ago in South Orange boys stole several charges of dynamite and their parents later found it hidden in the cellar. The original theft took place early Tuesday morning when thieves broke two locks on the door of the dynamite house. They removed fifteen sticks from the sizable supply located there. Edward Franz, quarry superintendent, told police that he placed two new strong locks on the door. However, early yesterday afternoon, jimmied off the locks and this time made off with two cases of dynamite. He said each case contained approximately ninety-six sticks. Detective Pinkava pointed out the two thefts totaled 211 sticks of dynamite. Police at first believed boys were responsible when only fifteen sticks of explosives were missing. However, they changed their theories when the thieves returned to take the two cases of dynamite. Currently they are investigating the possibility that members of a Red group may have been responsible. In event a detonator were used the group could do considerable damage with the explosives. In view of this angle there appeared to be a possibility that Chief Thompson might call in the Federal Bureau of Investigation. (Continued on page 4)

Latest report to the wives of this town's political franchise farmer is one which indicates that Township Committee member Walter M. Baldwin, now on a three-month leave of absence, will definitely not be a candidate for re-election. . . . whether he sees the handwriting on the wall or whether his health and pressure of business are such that he cannot continue in official life is a moot question. . . . his replacement on that fusion ticket (hold on to your seats) may be none other than ex-Mayor Wilbur M. Selander. . . . course all this is still in the rumor stage, but we've never seen it fail that some of the rumors around here often times become realities. Couldn't help but wonder what the esteemed H. Stanley Glenn (remember him) was doing Monday afternoon when he was observed sitting in his car diagonally opposite the postoffice-hour after hour Monday afternoon. . . . the fact that he had his eye open on the postoffice and his friend George Park goes without saying, but why!!!!

UC Cancer Group Aids Overlook

In a recent, brief ceremony Mrs. Elmore Johnson, on behalf of the Union County Chapter of the American Cancer Society, presented two checks in the sum of \$920.00 to Mr. A. W. Smith, Director of Overlook Hospital. Also present were Dr. George L. Erdman, Pathologist, George M. Hinund, Radiologist, and John V. Trione, all members of the Tumor Clinic Committee of Overlook Hospital. Dr. Donald P. Kent, another member of the Committee, was unable to be present. Mrs. Johnson, who, with Dr. Trione, serves on the Executive Board of the Union County Chapter of the A.C.S., represents Summit on the Board of Managers.

Thompson Stresses Motoring Care

Motorists were urged today to drive with caution as vacationing school children thronged residential streets. The plea was made by Chief of Police William J. Thompson. The chief pointed out that in July and August of last year traffic accidents in the State proved fatal to nine children. All were between the ages of 5 and 15 years. In addition, he said, 334 children were injured by motor vehicles. The chief said the most prevalent danger is that of children who thoughtlessly dart into streets from behind parked cars. He pointed out that the speed limit in residential thoroughfares is twenty miles an hour and warned that the police department will be vigilant in enforcing this regulation. Chief Thompson observed that most accidents are caused either by careless driving or excessive speed. Since many children fall to be cautious in places a heavy burden on the car driver, he said. Drivers who keep within the speed limit are less likely to be involved in such accidents since their cars always are under control, he said.

July 4 Committee Ready For Fete

The Springfield Fourth of July Committee fund drive will continue through the 4th, Edward Hoffert, general chairman, announced today. The committee stresses the importance of seeing the identification tags, which are being distributed during the drive, on the 4th. Voluntary contributions make the program possible and can assure a bigger and better celebration for this and future years. Mrs. Amy Bandemer, chairman of the baby parade committee, requests that all entrants be registered at the Regional High School grounds between 9 a.m. and 10 a.m. starting time. The first class up to two years and the second class for children from 2 to 5 years of age will be judged strictly on the health and personality of the baby. Class three for floats up to 5 years will be judged for attractiveness and uniqueness of the float. An outstanding program of day-long activities for every member of the family is in prospect. Full details will appear in next week's Sun.

LOCAL BOYS' STATE DELEGATE HONORED

Chief Cautions Vacationists

Some tips on how vacationing Springfielders can discourage burglars from breaking into their homes while they are away were offered yesterday by Police Chief William Thompson. Thompson advised residents to take the following precautions: "Stop the milkman and newspaper carrier from making deliveries. "Do not pull down the window shades. "Arrange with a neighbor to remove advertising and other matter which may be left on your porch, because such articles advertise an unoccupied house. "Notify police when you are leaving and the approximate date of your return so that a special watch may be kept of your premises. "Leave the house key with some responsible person so that, in an emergency, entry may be made without damage to your property. Give the police the name, address and telephone number of this person and also advise the police where you can be reached in an emergency. "Remove all articles of value which can be carried easily by a burglar. Never hide money under rugs, behind pictures or in grocery or mattresses. These are the first places where a thief will look. "Inspect all doors and windows before leaving, making certain they are securely locked and fastened."

The teachings of Christian Science when sought and applied are a boon to the individual and to humanity. The Lesson-Sermon to be read in Christian Science churches this week will be on the subject, "Christian Science."

The Golden Text is from Isaiah: "The redeemed of the Lord shall return, and come to Zion with songs and everlasting joy upon their heads; they shall obtain joy and gladness, and sorrow and sighing shall flee away." (33:14)

One of the passages from the King James version of the Bible which will be read is: "The secret things belong unto the Lord our God; but those things which are revealed belong unto us and to our children for ever, that we may do all the words of this law." (Deut. 29:28)

Among the correlative citations from the "Science of Man" textbook "Science and Health with Key to the Scriptures" by Mary Baker Eddy, the Lessons will be: "The Infinite Truth of the Christ-cure has come to this age through a 'small voice,' through a 'weak utterance' and a 'dimly-announcing' which quicken and increase the spiritual efforts of Christianity." (p. 267)

At such a complex and serious point in history it might be well to remember Einstein's theory that all is relative. Any good history book will prove that there have been many times when the situation seemed as hopeless and hard to resolve as the present one. Regardless of the tabloids and the shouting commentators, we haven't noticed that the "A" or "H" bombs have caused any hysteria or undue fears among the people we meet every day. To be sure they realize the danger, but a thinking person can rationalize the situation, read up on world affairs and politics and try to place the right people in the right places. Books that may help in this respect are: "Addresses Upon the American Road" by Herbert Hoover—"The Man from Abilene" by Kevin McCann—"The Private Papers of Senator Vandenberg" edited by Arthur H. Vandenberg, Jr.—"U.S.A. Confidential" by Jack Lait and Lee Mortimer—"Viva Moscow" by Michel Godoy—"The Forsook Diaries" edited by Walter Miller—"News and These United States" by Edith M. Barlow—"Mr. President" by William Hillman and "This Man Truman" by Frank McNaughton and Walter Hehmer.

New action books include—"This Dear Encounter" by Catherine Hutter—"Scalpel" by Horace McCoy—"Face to Face" by Jeanne Wylie—"The Host Rock" by Mary Frances Doner—"Crown Without Sceptre" by Vaughn Wilkins and "The Secret Road" by Bruce Lancaster.

Leonard Best Refutes Attack On School Aid

Leonard E. Best, of Springfield, chairman of the State School Aid Commission, today replied to a recent "critical study" of the report of that Commission by the New Jersey Taxpayers Association. He urged the public to read the reports of the Commission and make up its own mind about the recommendation of a \$90,000,000 increase in state school aid. He denied that the increased state aid would be an invitation to increased spending.

"Taxpayers should be among the most vigorous supporters of our recommendations," Mr. Best stated. "In New Jersey, under our present tax structure, property owners are the heaviest taxpayers, and our Commission recommended a lightening of the tax impact on that particular group."

"A careful reading of our report will show that our actual recommendation was that the State relieve this group of taxpayers of \$90,000,000 in property taxes which have been loaded on them in recent years, and our State's present tax structure."

"Our report does not recommend additional spending. It does point out that the real estate tax burden for schools has gone up \$90,000,000 in the past five years and that it will go up at least another \$90,000,000 in the next nine years. Showing that our predictions were conservative, the school budgets approved for the coming school year are approximately \$20,000,000 over the 1951-52 budgets, and we are just beginning to feel the effect of the 1946-51 high birthrate."

"Our Commission did not ignore the possibility of economies. We found however, and stated in Part II of our Report, that in most school districts the amount of potential savings is comparatively negligible. Under our New Jersey plan of substantial home rule, economical operation of schools is largely a local problem. In Summit, where I serve as a member of the board of education, our board has discussed with the people of Summit year after year why we spend every dollar of our budget; we are individually and collectively dollar-conscious.

"New Jersey should not be misled by those who advocate delay because of possible economies. If a relatively smaller segment of the people pay the direct bill for schools—as is the case in New Jersey—then a relatively smaller group is interested in economy. It is difficult to see why a taxpayer's organization would seek to perpetuate a tax system which, by their own findings, has gone

Mobile Bloodbank To Make 2d Visit

The Mobile Bloodbank will make its second visit to Springfield on Tuesday, July 1 from 1 p.m. to 7 p.m. The unit will again work at the American Legion Hall under the sponsorship of the local chapter of the American Red Cross. Mrs. Herbert C. Schoch, general chairman of the blood collection program, has announced that through the efforts of Mrs. Charles Phillips, Jr., recruitment chairman, sufficient donors have been secured to meet the quota. However, she urged all donors to honor their pledges and be available at the appointed time. Only then can Springfield meet its quota.

Contrary to the general apathy of other sections toward the blood donor program, Springfield residents have again shown their spirit of citizenship and patriotism by cooperating wholeheartedly with the Red Cross in an effort to maintain the splendid record of the local blood donor program.

Other personnel working with the mobile unit besides Mrs. Schoch and Mrs. Phillips are: Dr. H. P. Dengler in charge of doctors; Mrs. Leslie Joyner, nurse; Mrs. Richard Horner, canteen; Mrs. Charles Beardsley, staff assistance and transportation.

Each week the United States Safety Council sends this newspaper an envelope full of timely safety hints. This week's principal advice concerns electrical storms and what not to do when you're in the midst of one. First of all the council advises against the use of a tree as protection in a storm. Let the proverbial smile be your umbrella and you'll be much safer. A big tree with roots deeply embedded in moist soil is a prime target for lightning. Matter of fact, almost any tree is a natural collector of those bolts from the blue. Many people die each summer from lightning strikes and much property is damaged. . . . par-

icularly in the open country, picnickers should avoid wire fences. . . . they are frequently nailed to trees and act as conductors of the terrific electrical charges when such trees are hit. . . . contact with them can lead in electrocution. . . . so, stay away from trees during summer storms.

WHEN YOU TRY POWER STEERING... HERE'S WHERE TO COME FIRST!

THE CHRYSLER NEW YORKER 6-PASSENGER SEDAN
White sidewall tires at extra cost

You've heard about it and read about it. Now, if you haven't felt what Power Steering does for you in city driving or out on the highway, we invite you to try it first in a Chrysler New Yorker. . . . where you will find full-time (not partial) Power Steering!

Even at a standstill you can turn the wheel easily. Now, parking is shorn of its troubles (and fatigue) . . . and you can negotiate traffic, awkward drives, and garage doors precisely and with ease.

You can double the longest day's drive you've ever known . . . end up free from arm and shoulder strain. Rough roads, soft shoulders, snow, mud? . . . the power that helps you steer now prevents the car's wheels from "steering back" at you. The course you set is held, at any speed, till you want it changed. Yet, with this 6-time greater control, "wheel feel" is always the same.

Why not come try it? Learn for yourself why growing thousands of motorists say they'll never be without Full-time Power Steering from now on!

PBA vs Whitey's Tonite; Bond & Sheet Metal Win

RHS Player Loses UCC Bat Title

Charlie Schaffernoth, Regional District catcher, failed in his bid for the Union County County school batting title. He is the defending champion. Instead, Schaffernoth, who batted an unspectacular .273 in UCC play, at the top of the list was Linden's classy outfielder, Joe Miller, with a .324 average. Joe Pepe's .304 average was Regional's best mark in the UCC.

Nothing records of the Conference gave high honors to Christy Miller of Linden. The top strike-out artist was George Werrman of Union, who pitched the circuit's only "no-hitter."

Bond Raps Marcel's, 4-3; SSM Conquers Chrysler 9

THE STANDINGS

Team	W	L	Pct.	GB
PBA	2	0	1.000	-
Whitey's	2	2	.500	2
Spfld Sheet Metal	3	3	.500	2 1/2

Chrysler-Plymouth	2	4	.333	3 1/2
Bond Electric	1	5	.167	4 1/2

The PBA and Whitey's collided on tonight in a Springfield Softball League game which could either break the current pennant race wide open or close it up tighter than a locked door.

The PBA, two games to the good according to the present standings, holds an 11-10 decision over Whitey's, attained in an early season contest. Whitey's also has been beaten by Springfield Sheet Metal in a surprise last week end con-

sequently a loss could mean the ten count.

This evening's battle boils down to this:

1. The PBA is out to strengthen its hold on first place in order to have something to fall back on in the event of a mid- or late-season lapse.

2. Whitey's would like to rectify the 11-10 defeat and keep the PBA within striking distance.

The PBA's five opponents are keeping in mind the fact that the Police team could get too far ahead.

Certainly, if the rest of the loop batters each other's brains out, a PBA romp can become an actuality.

Springfield Sheet-Metal scored three runs in the first inning and rode home on Bert Jones' five-hitter, all scattered safeties, to whip Chrysler-Plymouth, 4-1, last night.

A bunt single by Joe Gallini, Whitey's Schwardt's miscue, and Al Hausman's overthrow at first on a bounce by Matthew Pepe put runners at first and third. Felix LaFond delivered one marker on another bunt single and George Graziano's infield hit sent another across. A passed ball charged to Schwardt let LaFond lally.

A walk to Kenny Schroeder, a stolen base by him, and Mac Coburn's error let in the fourth Sheet Metal run in the second round. Bud Mesker's bunt single, a passed ball to Graziano, and Bob Waters' err gave Chrysler-Plymouth its lone run.

Bert Jones fanned ten for the winners.

Don Eichhorn's home run was the feature of Bond Electric's initial win, a 4-3 triumph over Marcel's which dropped from a second place tie. The Bond captain socked the circuit-smash leading off the fifth inning. The score was knotted at the time.

Following the homer and an out, Richie Betz doubled to left and Bernie Spang singled to the same seagor. With Al Hector up, George Graziano let one of Milan Havula's pitches elude him, Betz scoring from third. Hector then hit safely to center, but "Stosh" Michon-wicz and Jack Wyckoff fanned with a big rally threatening to break the game wide open.

Marcel's scored first, getting two runs in the second inning on a single, a double, and an error. Havula started the frame with a single to center and Dave Compton, who produced three hits in three trips, doubled to right-center. Bob Andrews skirted out, but on Tom Kennedy's fly out, Eichhorn over-throwed home plate and two runs came home.

Bond evened the count in the third without benefit of a base knock. Tony Bremec went safe after his routine fly was dropped for an error, but was out in the first leg of an attempted twin-killing on John Weber's bounce. Marcel's missed the double play and tried to get one on Don Eichhorn's bouncer. They got only Weber at second. Al Tuznak walked and Betz grounded to short, but Lee Law's loss to first was wide, permitting Eichhorn and Tuznak to tally.

AND MORE HONORS

Several daily newspapers, in announcing their annual All-State and All-County teams, have heaped more glory on Regional's top diamond products of 1952—Charlie Schaffernoth and Bob Thwaites. The pair, which has captured numerous headlines during the last two months, was named to the Newark News' All-County first team, after the Elizabeth Journal had recognized Thwaites on the first and Schaffernoth on the second team.

The News and the Newark Star-Ledger printed their All-State nine last Sunday. Both Schaffernoth and Thwaites were given third team honors in Group III by the latter publication. In the News, Schaffernoth gained the second team catcher's berth amongst all groups and classes in the state. Schaffernoth was on the Group III first team and Thwaites made the third team.

FACTS 'N' FIGURES

Due to the annual summer lull in sports at Regional High, we now have room to print a composite box of the 1952 Regional High School baseball team.

PS Constructs Meter Shop

The Public Service Gas and Electric Company is proceeding with construction on a new shop at Brown and Weber avenues. The building has been called the State meter shop by the company. It will replace twenty-three district gas meter shops. Company officials said distribution of shops was a necessity when the horse and buggy was the principal method of transportation.

The new shop will permit large volume operations at a central location with specialized equipment, it was announced. The one-story square building will have an area of approximately 80,000 square feet. It will be of steel frame, concrete block construction. Foundations, crawl space and floor space will be of reinforced concrete. Shipment of meters from the central plant to the districts will be on trailer trucks.

The shop will be air-conditioned. A three-inch pool of water on the roof will supply circulating water for the system.
