Report Shows 28 New Homes Built In 1953

If there's any question how rapidly Springfield is growing, the report submitted by Building Inspector Reuben H. Marsh for 1953 shows continued building operations with 352 permits granted during last year.

The report shows a total of 128 one family dwellings constructed in Springfield during 1953 with a total value reported at \$1,450,350. There were also permits granted and work completed on 20 commercial buildings at a total value of \$504,000.00.

An interesting item on Mr. Marsh's report shows permits granted for 157 burners to be installed during 1953 with a valuation of \$73,450.00.

Building Inspector Marsh expects 1954 to be a banner year for construction permits in Springfield with plans for the shopping center to be submitted as well as several proposed industrial and other commercial buildings.

Below is the report covering all construction in Springfield for the year ending December 31, 1953, with 352 permits granted and classified as follows:

128 One Family Dwellings	\$1,450,350
20 Commercial Buildings	\$504,000
52 Alterations & Repairs	\$9,150
29 Private Garages	\$9,150
157 Burners	75,450
	\$2,144,358

Missionary Speaks At St. Stephen's

The second Fellowship Meeting of St. Stephen's Springfield-Milburn Episcopal Church, Main Street, Milburn, will take place on Sunday Evening, January 10th at 8 P.M. in the Parish House, announced Doctor Thomas C. Klenz, Special Chairman.

Guest speaker will be M. Gardner Tewksbury, missionary of the Presbyterian Board whose work on the Chinese Mainland and whose knowledge of the Chinese people is based on many years of service. Mr. Tewksbury will bring with him three Chinese Christian students now residing in this country. Mr. Tewksbury comes to St. Stephen's under the auspices of the Chinese Students and Alumni Services who work to minister to several thousand Chinese Christian students throughout North America.

O. Warren Conner, Organist and Choirmaster of St. Stephen's will direct the music. Light refreshment will be served by the Women's Guild.

Co. Workshop On Education to Meet

The third annual Workshop on Education for the twenty-one school districts of Union County will be held at Union Township High School on February 23, 24 and 25. Charles T. Hassard, workshop chairman and Union Township school superintendent, announced today.

The workshop is sponsored by the Union County Cooperative School Study Association which was organized three years ago to assist teachers and administrators in meeting problems in school administration and classroom procedures. Educational specialists and consultants from metropolitan universities and the New Jersey State Department of Instruction have been secured as resource persons. Hassard said.

Members of boards of education, PTAs and advisory groups were asked to participate in the February workshop by the general chairman. Teachers and administrators to attend will be appointed by local boards of education.

The workshop theme is "Union County Meets Tomorrow's Challenge to Education Today." Topics to be discussed in the group sessions include "Are We Neglecting the Exceptional Child," "The Place of Television in Education," "Reporting to Parents," "Problems in Reading," "The School's Role in Combating Juvenile Delinquency," and "How Can the School Make the Best Use of Community Resources." Problems affecting teacher morale will also be discussed.

Four Of The Appointees To Township Positions

MRS. TERESA DOHERTY: Appointed to the Recreation Commission for a period of five years.

REUBEN H. MARSH: Reappointed by Township Committee to the job of Building Inspector for 1954.

ARTHUR L. MARSHALL: Reappointed by the Board of Health as Sanitarian and Plumbing Inspector for this year.

CHARLES H. HUFF has been again named as Tax Search Official and Court Clerk for the Township.

Mayor Binder's Message Offers 10 Pt. Program

In a very forward looking message, Mayor Albert G. Binder told the residents of Springfield at the organization meeting of the Township Committee that a very ambitious program has been planned to meet the ever increasing problems of the community. The Mayor presented his ten point program before a packed committee room, friends of the newly sworn-in governing body and interested residents of Springfield who came to wish the Township Committee good luck.

Mayor Binder's ten point program follows, a very comprehensive plan for 1954:

"On behalf of my colleagues and for myself personally, I wish to extend to each and every resident of Springfield, as well as our many other friends here, this morning, a most happy and prosperous New Year. May it be a year of peace on earth, good will toward men and may God grant all of us in official governmental capacity, the courage and the strength, to administer the affairs of our towns, cities, state and nation, in such a manner as to reflect the teachings of God, the wisdom of man and the patience and perseverance of a Job.

"At this, our organizational meeting I am deeply honored to be chosen as chairman of this committee, and the mayor of Springfield. It is with a deep sense of responsibility that I accept this honor, and with determination and renewed spirit may all the members of this Board proceed to justify the confidence that the electorate of Springfield have placed in us.

"I believe this is an appropriate occasion to take both the time and the opportunity to report to the citizens of our community on the 'State of the Town' as it were, and on plans and hopes for the future. This is New Year's Day and I know there is an attitude that resolutions are often made only to be broken; however, if we are to keep abreast of the needs of our community, both in services, in operations, and in financial stability, we must certainly must not only concern ourselves with the immediate prob-

lems at hand, but we must plan for the future so as to meet our responsibilities with the least amount of disturbance to our governmental structure. Therefore, these are not resolutions or idle promises to be explored for political reasons, but rather a blueprint to guide us in the unpredictable future.

DOUBLE IN 5 YEARS
"As you undoubtedly know, Springfield is currently a community of approximately 10,000 population. The fact that it is 10,000, is in itself not startling, but when you consider that less than five years ago it was approximately one-half that figure, then you can appreciate the reasons for some of our problems. We have grown by leaps and bounds, and this rapid growth has primarily reflected itself especially in the expanded educational requirements for our children, and the costly expenditures which naturally must follow.

"Both the local and the Regional Boards of Education have handled this problem, in my estimation, admirably. However, the fact remains that our ability to pay for all these additional demands, both educational and governmental as well, is of growing concern to all of us. Perhaps, modern society has overemphasized the benefits of costly 'fringe' education:

"I do not pretend to be an authority on such a controversial subject, but I do know that the cost of such education, for an average American family, in a residential community such as ours, is fast approaching the saturation point. Relief must come from within or outside the community. From the outside we can look only to our state and Federal governments. There are many of us who deplore the existence of such aid or grants, with its resulting burdensome controls. As an alternative we must utilize our talents of learning to their fullest extent and submit our educational ambitions to our ability to pay. However, we can increase our ability to pay by developing such remaining areas in our town so as to yield the highest rates possible

which result in the least serviceable expenditures.

OTHER COSTS
"I have stressed up to this point that portion of our governmental structure that invariably constitutes the major portion of our town's yearly expenditures or budget, and over which I presume you all know, we have no jurisdiction. But by no means let that portion of your tax dollar minimize the essential growing need for the balance of your governmental functions. The town requires, and the residents demand, adequate police and fire protection. Your roads, and sewers and drainage requirements, likewise have to be expanded to alleviate our growing pains. Efficient personnel and organization to supervise inspections, licensing, assessing, collecting, engineering and managerial functions, must also be sufficiently provided, and adequately compensated. We must face the inevitable and plan now to provide the necessary expansion and housing of our administrative offices, our fire equipment, our police department, our road equipment, our library facilities, and others. We, therefore, must expand unilaterally, both educationally and governmentally, and it must be done within the scope of our economical ability to pay.

"These are some of the many problems before us, ladies and gentlemen, and we must face the bare facts, and use every ounce of our ingenuity to surmount the obstacles. That we can, and will, I am confident, I have faith in the ability of your officials to meet their responsibilities, I know the many loyal and faithful employees of the township will measure up to their jobs, and finally with the help and forbearance of the residents at large I am sure we can do the job that is before us.

"This briefly is an ambitious program, but we must do more than theories, we must organize and take the necessary steps to culminate our ultimate goals. It was my belief and it still is for that matter, that the place to start to build for the future, was right here at this meeting.

Township Names New Engineer On Full Time Basis

School Budget Hearing Set For Jan. 19

A public hearing will be held at the Florence M. Gaudinier School on January 19 at 8 p.m. to discuss the 1954-55 annual budget tentatively approved by the Springfield Board of Education this week. A jump in the tax rate is forecast but the increased costs will be shown at the hearing to more than justify any rise in taxes.

A complete and comprehensive explanation of the proposed 1954-55 school budget is being prepared and will appear in the Springfield Sun next week, January 14.

The new budget calls for a total amount of \$529,720, an increase of \$43,565 over the 1953-54 figures.

Mayor Albert G. Binder and Township Committeeman Eugene F. Donnelly attended the special meeting of the Board of Education this week and took a keen interest in the discussion on the proposed new budget.

Meet Next Week On Garbage Removal

Some solution to the ever increasing problem of garbage removal may be reached next week when a meeting is being arranged between the Chamber of Commerce and the Board of Health. Several incidents have taken place in the past few weeks when some of the merchants on Morris avenue refused to pay extra fees to Peter Roselle & Sons, the holders of the contract for the removal of garbage in Springfield.

The merchants contend that the scavenger's contract calls for removal of garbage and that no extra fees should be paid for any services. The Roselle organization says it has been giving these merchants some additional services.

The Board of Health entered the picture when the garbage removal contractors delayed curbing away some of the refuse which, the scavenger claimed, was not prepared properly on the curbs. The health board will insist that the ordinance be complied with and the meeting next week is being arranged so that all parties can iron-out their differences.

Township To Meet On Next Wednesday

The first regular meeting of the 1954 Township Committee for the transaction of business will be held next Wednesday evening, January 14. A special meeting had, at first, been scheduled for last night to "pick up a lot of loose ends" but that was called off entirely and a full agenda is being arranged for next Wednesday.

Mayor Albert G. Binder, who will preside at his first regular meeting as chairman of the Township Committee next week, is holding conferences with other members of the governing body to discuss all the important matters to be brought up at the first meeting.

Official Bank and Newspaper Named

The First National Bank of Springfield was designated as the official depository for township funds for 1954, according to a resolution adopted at the organization meeting of the Township Committee.

Highlights of the 1954 organization meeting of the Springfield Township Committee were the selection of a new mayor—Albert G. Binder—and the appointment of a full time engineer to head a newly created Department of Public Works.

The appointment of an engineer to devote full time to the many problems in Springfield has been under consideration by the Township Committee for some time but, only recently, were the members of the 1954 Township Committee able to come to terms with the kind of a man they were seeking. Dr. H. Alfred Swenson, of 316 St. George place, Westfield, who has served as assistant engineer in that municipality for a great number of years, Mr. Swenson's capabilities as an engineer were thoroughly explored by Mayor Binder and the other members of the Township Committee and his experience was found to offer just what Springfield will need. His services with Springfield will start on January 15.

Engineer Swenson will head the Department of Public Works which will include all engineering, highway construction and maintenance, sidewalks, sewers and drainage, sanitation with ash and garbage removal, public utilities, and the administration of building, plumbing and sanitary inspections. The plan is, according to Mayor Binder's message, to have all records, maps and other matters dealing with the department to be available at all times and the probability of an office for the engineer so that the various officials could confer with him on important township problems at all times.

The only other change in the official Springfield family was the appointment of Francis Sammond of 12 Maple avenue as the new township treasurer to take the place of E. Norris Allison, Jr. Practically all the other appointments followed the scheduled program. Max Sherman was renamed Township Attorney and F. J. Stefano Co. as auditors for the current year.

Charles H. Huff was renamed as tax search official and Reuben H. Marsh will again carry on as building inspector, a post he has held for some time in Springfield. Arthur L. Marshall was reappointed plumbing and sanitation inspector and Dr. Henry P. Dengler was named again as physician officer to the Board of Health, for a term of three years ending December 31, 1956.

The working committee appointments showed Eugene F. Donnelly as chairman of the Department of Finance which includes law, welfare, recreation, township real estate and coordination of Township offices and personnel. Charles Remlinger will be chairman of the Department of Public Works with Donnelly and Handville as members. Committee member Handville is chairman of the Police Department with Donnelly and Remlinger as members.

The 1954 officers will be nominated and the by laws of the organization presented for consideration of the members.

1954 Official Appointments

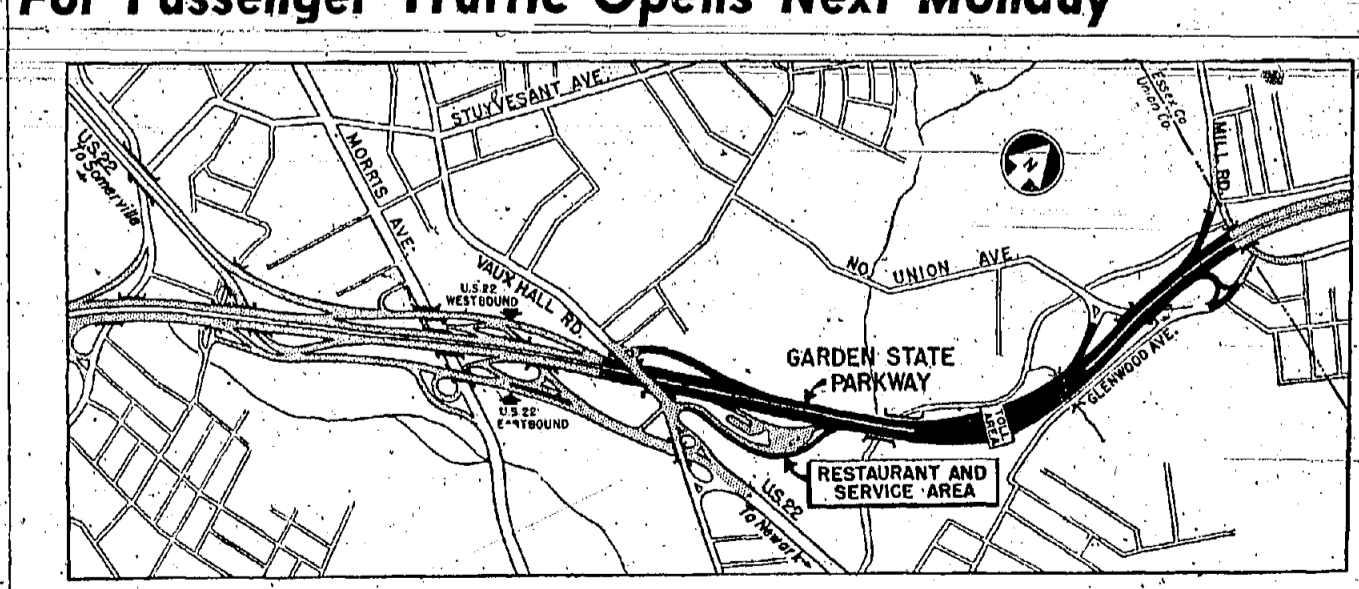

Appointments made at the organization meeting of the Township Committee and the Board of Health were as follows for the year 1954:

- TOWNSHIP COMMITTEE**
- TOWNSHIP CHAIRMAN**—Mayor Albert G. Binder
- TOWNSHIP TREASURER**—Francis Sammond
- TOWNSHIP COUNSEL**—Max Sherman
- BUILDING INSPECTOR**—Reuben H. Marsh
- TAX SEARCH OFFICIAL**—Charles H. Huff
- TOWNSHIP ENGINEER**—Alfred Swenson
- LIBRARY TRUSTEE**—Mrs. Helen Skousen
- PLANNING BOARD REPRESENTATIVE**—Charles A. Remlinger
- TOWNSHIP AUDITOR**—Frederick J. Stefano
- RECREATION COMMISSION**—Mrs. Theresa Doherty, 5 yr. term
- COMMITTEE REPRESENTATIVE TO THE RECREATION COMMISSION**—Eugene F. Donnelly
- COURT CLERK**—Charles H. Huff

- WORKING COMMITTEES**
- DEPARTMENT OF FINANCE - LAW - WELFARE - RECREATION - TOWNSHIP REAL ESTATE**—Eugene F. Donnelly, Chairman; Frederick A. Handville, Fred Brown.
- DEPARTMENT OF PUBLIC WORKS** including, Engineering, Highway Construction and Maintenance, Sidewalks, Sewers & Drainage, Sanitation, Public Utilities, Administrator of Building, Plumbing & Sanitary Inspections, Building & Grounds—Charles A. Remlinger, Chairman; Eugene F. Donnelly, Frederick A. Handville.
- POLICE DEPARTMENT**—Frederick A. Handville, Chairman; Eugene F. Donnelly, Charles A. Remlinger.
- FIRE DEPARTMENT**—Albert G. Binder, Chairman; Eugene F. Donnelly, Charles A. Remlinger.
- ASSESSMENT COMMISSION MEMBERS**—Edward Ryder, Daniel Lucy and Mrs. Myrtle Post.

- BOARD OF HEALTH**
- PRESIDENT**—Frederick A. Handville
- HEALTH OFFICER**—Dr. Henry P. Dengler
- PLUMBING INSPECTOR**—Arthur L. Marshall
- SECRETARY**—Mrs. Eleanor Worthington
- SANITARIAN**—Arthur L. Marshall

Garden State Parkway Union County Section For Passenger Traffic Opens Next Monday

Map showing the new toll section of the Garden State Parkway extending from Route 22 and Vaux Hall rd. to Mill rd. at the Irvington line. Toll road opens on Monday morning with a 25-cent charge for cars and \$1.00 for buses.

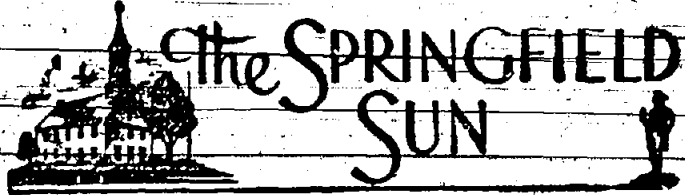

J. Abbott, Authority chairman, announced today.

Constructed at a cost of approximately \$2,500,000, the one and one-half mile section extends north from the Parkway Interchanges with Routes 22 and 82 in Union County.

An across-the-road type toll wicket, the first on the scenic route south of North Union Avenue, is located about one-quarter mile south of the North Union Avenue crossing. Motorists will pay a 25-cent toll. The toll for buses will be \$1.

The opening of the newest section of the 105-mile Parkway without formal ceremonies will take place approximately 16 months after the first contracts were awarded by the Highway Authority.

The principal contractors, F. F. (Continued on page 5)

THURSDAY, JANUARY 7, 1954

ON THE SUNNY SIDE

Creating a Department of Public Works for Springfield—with a full time engineer to head the new bureau—is one of the most important decisions made by the 1954 Township Committee at its organization meeting last Friday.

Alfred Swenson, the new appointee, has been assistant engineer in Westfield for over 24 years and he did a lot of floor-pacing, and were out several pencil points doing some figuring before he decided to tear up the roots of his long service in Westfield and become part of the Springfield team.

Mr. Swenson doesn't actually start his job until January 15—which means that former engineer Arthur A. Lennox will continue to represent Springfield in this field until Swenson takes over. Which brings to mind that Mr. Lennox has been anxious, for some time, to retire as Springfield's town engineer because of the pressure of his private business.

As Mayor Binder pointed out in delivering his message for a bigger and better year—Springfield is on the threshold of great expansion and there must be no mistakes. That careful devotion to the future of the Township calls for an engineer who will be available around the clock and with no other loves and interests except the Township.

Springfield has practically doubled in size in the last five years and the prospects for the next few show that it is now the fastest growing community in these parts. The idea is to regulate this rapid growth so that the Township may be able to mark time with the increased costs, the increased services, the expanding school facilities and other municipal migraines that usually cause some towns to bite off more than can be chewed.

New Year's Day being what it is—in addition to the organization meeting of the Township Committee and the dealing out of the 1954 appointments—there is also that quaint but pleasing custom still observed in Springfield which is called "open house" or "New Year's Day calling."

Friends and well wishers spilled all over the living room, dining room and kitchen of the Binder home and into the cellar where there was some serious greetings for the New Year. Mayor Binder, not only proved himself a genial and fine host, but he gave the many guests quite a pleasant shock by sitting down at the piano and delivering some genuine 1930 vintage boop-a-doop.

The same faces—the same friends and well wishers—were seen at both the Binder and the Sherman residences—where both the First Lady of Springfield Mrs. Binder and Mrs. Sherman had prepared platters and more platters for those who take time out for these things.

It was the nicest way to meet people one hasn't seen all year and we were especially pleased to be able to say "Happy New Year" to many of our friends. To those who missed Mayor Binder's piano concerto in F Minor—or those who didn't get to taste one of Mrs. Sherman's devilled eggs—a la something or other, let us take this opportunity to wish all of you a very, very Happy New Year.

We don't know whether or not Police Officer "Ernie" Kallens will receive any Carnegie medal for saving a man's life—but that's exactly what he did one day this week—as far as this writer is concerned. Ernie didn't plunge into any icy waters nor did he risk his own neck but what he did, just in the ordinary course of his regular daily duties, definitely saved a man's life—which came about this way:

We were instructed to bring some clothes to the cleaners and one of the dresses was a two piece creation, picked up on Lincoln Road in Miami Beach and much prized by the Missus. When the delivery was made to the cleaners, it was discovered that one piece—and a very important part of the Miami Beach dream dress—was missing.

We are now at the point where practically everyone will understand how a man's life is in danger. A thorough search was made of the floor of the automobile, we retraced our steps several times, drove to the post office and back several times—but, it was a hopeless task, it seemed. We were about to throw ourselves over some mental precipice when we decided on another trip around the course.

At the corner of Mountain Avenue and Morris Avenue, Officer Kallens was halting traffic and guiding pedestrians across the street, when we remembered having stopped at this intersection early that morning. We first inquired in Kay's Stationery store but no one had picked up the north end of a Miami Beach creation and left it there for the owner. Afd then we told our story to the police officer.

He smiled—and the smile gradually became a grin—but he wanted to hear the complete gory details before Ernie led us to the corner trash can and, then, reached in and carefully drew out the much prized but almost lost better half of the dress. The police officer explained that he had found the piece of clothing in the street very early in the morning and had draped it on the corner pole. When hours passed and no one had claimed it, he presumed that

it was discarded and pushed it into the trash can. All of which definitely saved the writer's life and Police Officer Kallens can have our signature to any recommendation for a medal.

When Mark Twain was editing a paper in Missouri, a subscriber complained he had found a spider in his copy, and demanded an explanation. Twain answered: "Finding a spider in your paper means that it merely was looking the material over to see which merchant in town was not advertising, so it could go to that store, spin his web across the door, and lead a life of undisturbed peace ever after."

"Don't gamble when you drive!" This warning was issued to New Jersey Motorists today by Mr. William Green, president of the Automobile Association of New Jersey (Motor Club of America).

"The man or woman who flaunts traffic laws, even in minor matters, is flirting with death. Proof of the truth of this statement can be found in accident records. These records show that in almost all traffic accidents one or more traffic laws are violated by motorists or pedestrians or both."

"The standard of law observance practiced by too many drivers will break the law every time, but very often they don't get away with it. The law catches up with them, or their recklessness brings about an accident. Either way they lose. And, what's worse, innocent people frequently lose their lives in the bargain."

Mr. Green also had a word for reckless pedestrians. He said that while there are few traffic laws governing pedestrians—conduct, there are safety rules, and pedestrians who don't observe them are their own worst enemies.

He especially warned walkers not to cross the street in mid-block or against traffic lights. He also urged parents to instruct their children in traffic safety rules and to see that the youngsters do not play in the street.

Library Report Increased Service

The Springfield Public Library has seen many changes during the past year. Among the most noticeable is the increased service to the children and young people. Although the final figures for 1953 are not quite ready, enough work has been done to show that the number of books circulated to the younger readers has increased almost fifty per cent.

This reflects the interest and work of Mrs. Green who was Director of the library from September to December. In September she began cooperating with the schools to increase the interest of the pupils in reading. This service is still growing by leaps and bounds. To help this service be even more efficient, the Board of Trustees has added two pieces of equipment: a file to hold pictures, and a book truck to help in the return of the books to the shelves.

The youth section also, has been rearranged and the biographies shelved on the second floor. More work needs to be done on this section but the aim in doing it is to make the shelves less crowded so the books wanted can be quickly and easily located in the future.

Woman's Club News

The Lady of Arlington by Margaret T. Kane will be reviewed by Mrs. S. Bryant Haas at the meeting of the Literature Department on January 11th at 8:15 p.m. at the home of Mrs. J. W. Phelps, 80 Wabeno avenue. Written by the author of such successes as "Bride of Fortune" and "Louisiana Hayride," "The Lady of Arlington" is a historical novel centering about the life of Mrs. Robert E. Lee who was Mary Custis before her marriage to the general. Author Kane used the Lee documents and letters as his basis for the novel. Material uncovered in preparation for writing this book has never before appeared in print. Mrs. Eva P. Brown, department chairman, extends a cordial invitation to all club members to attend this meeting.

Drama Department members are busily preparing for their Minstrel Show. Mrs. Lee Andrews, Jr., in charge of the show, hopes that all members of the group will be present at the next meeting of the department on January 11 at 8:00 p.m. at the home of Miss Evelyn Porter, 11 B. Miller avenue.

Mrs. George B. Martin of Summit, a speaker from the United Nations, will address the joint meeting of the American Home Department with the International Relations Department on January 12, at 8:30 p.m. at the home of Mrs. Henry Ostrom, 475 Mountain avenue. The speaker's subject for the meeting will be "The United Nations' Accomplishment." Mrs. Martin is a member of the Foreign Policy Committee of the New Jersey League of Women Voters. She is an accredited observer at the United Nations for the Council of Christian Social Progress and a member of the American Association of United Nations, New Jersey Branch.

Mrs. Stanford Heltlinger and Mrs. John Kennedy will be the hostesses at the next meeting of the Music Department on January 14. Mrs. James Crowley, 110 Satter street, will entertain the group at her home that evening at 8:00 p.m.

Members of the International Relations Department, of which Mrs. Gilbert Mann is chairman, are to be greatly commended for the fine gesture of friendship and good will they extended recently to women in Germany. With money raised by the department, yard goods were purchased, packed and sent to a Sewing Center in Germany where women may go to make up articles for their families. Included in the package were yards of corduroy, flannel, gabardine, and gingham cotton and also spools of thread, knitting needles, yarn, and knitting instruction books.

Halozan-Johnson Troth Announced

Marline Halozan (Photo by Chel Franzen)

Mr. and Mrs. Fred Halozan of Wabeno avenue have announced the engagement of their daughter, Marline to Gary Albert Johnson, U.S.N., son of Mr. and Mrs. Albert Johnson of North Bergen. Miss Halozan is a senior at Regional High School. Her fiancé graduated from Memorial High School in West New York and is now serving aboard the U.S.S. Snowden, with home port in Newport, Rhode Island.

Mayor Binder's

(Continued from page 1) here in the town hall. I have advocated a study of our charter or governmental structure, not because I think there is anything wrong morally, on the contrary, I know we have fine, upright, honest men and women running our town, but because I believe that our present charter or structure of government is inadequate or outmoded, and does not meet our present day demands. However lacking this constitutional authority to revamp our charter, we will take all legal steps to make such necessary organizational changes which we believe will provide us with the most efficient set-up that is possible under the circumstances.

"The following recommendations and policies are therefore being made to this governing body to explore and determine for prompt action. Some are within the scope of the chairman's prerogative, and others must necessarily be acted upon by the governing body. In some instances, it will be noted, I am requesting appointment of citizen groups to study and assist, and make recommendations on matters which I feel we can use all of the ability, the knowledge, and the understanding that is available.

"The recommendations and policies hereby set forth are in the form of a ten (10) point program. Not necessarily in the order of their importance because I believe whatever is in the interest of the welfare of our community deserves the utmost consideration of this board and we should react accordingly.

SEEK ADVICE

"One - It is my intention to appoint in the near future a Mayor's Advisory Council, whose function will be purely as indicated, an advisory board to the mayor on matters of general importance to the township at large. Such recommendations, advice,

suggestions, etc. should greatly assist your part time chairman in formulating policies and plans for presentation to and action by the governing body as a whole. I am convinced that we must call on and take advantage of the many responsibilities, both educational and specialized, of many of our civic minded residents. This Advisory Board, which will be appointed at a later date, will meet at the call of their chairman, or at the request of the mayor. The membership, and their length of service will be at the discretion of the mayor, and may be altered as circumstances require.

"Two - It is requested that all communications, inquiries, complaints, etc. be directed either through the town clerk's office or at the regularly scheduled township meetings. In addition the mayor's office will be opened as often as possible for personal consultation each Saturday morning between the hours of 10:00 a.m. and 12:00 noon. Through this latter medium it is hoped that direct contact will be made available with your mayor which will afford a better mutual understanding.

"Three - That regularly scheduled monthly meetings be held by department heads for a frank and open discussion of their mutual problems. Particularly I refer to improved cooperation and coordination of the town's business as it affects two or more departments. Such meetings to be held under the direction of the Town Clerk. Minutes to be kept of the meetings and all comments, suggestions and recommendations to be submitted to the governing body for consideration. Department heads to attend such meetings will be: Town Clerk, Police Chief, Fire Chief, Town Engineer, Road Supervisor, Head of the Tax Assessors, Tax Collector, Building Inspector, Plumbing Inspector, Sanitarian.

"Four - That immediate steps be taken by the Planning Board to plan the future development of the remaining large tracts of land available for primarily increased residential use. I refer specifically to the following: a. That area on the east side of South Hightway 22 on the south and Evergreen Ave. on the north. b. The area on the south side of Morris Ave., bordering on the Summit line, and known as the Marmon tract. c. The area directly behind the business dis-

tract on the north side of Morris Ave. d. The undeveloped land bordering on Seven Bridges Road, to the Millburn line. "There may be other smaller parcels of undeveloped land that likewise should be taken into consideration; however, those mentioned are in so-called fringe areas and overall planning should be done at this time and not piecemeal developed. This plan has already been set in motion and a very important decision will be forthcoming.

"To assist in this work it is recommended that a competent, reputable planner be engaged to provide advice and knowledge of the highest degree. It is further urged that this entire project proceed as soon as possible, with due consideration being given to all parties concerned.

"Five - That immediate steps be taken to conclude all local assessment charges. To expedite this work, now and in the future, this Board considers engaging the Board whose effort will be to prepare and submit the facts and figures to the appointed assessment commission for prescribed procedure.

Six - That a Shade Tree Commission be appointed by this Board whose effort will be projected to preserve and perpetuate one of the finest assets of our residential community, our trees. The need for this concentrated effort is becoming more and more apparent and the necessary expenditure of funds will repay itself now, and in the distant future.

Seven - That this Board take immediate steps to place the office of Township Engineer on an enlarged or full time basis. My experience has shown, and I am sure my colleagues will agree, that this town has long since reached the point where increased engineering advice is not only required, but must be directed to a satisfactory conclusion. If we are to successfully and efficiently carry out our responsibilities in this important phase of our governmental function we must take the necessary action to provide the proper tools and make them available at all times. It is further recommended that such employee be given the full responsibility for the installation and maintenance of roadways, all inspec-

tions, sanitation, sewers and drainage maintenance, and such other engineering functions that would properly fall under a Dept. of Public Works. This department to be suitably housed, in rented quarters if necessary, and all files, maps, records, etc. to be stored within this office.

"Eight - Our part time Inspectors of Buildings, Plumbing, and Sanitation be incorporated into the Dept. of Public Works and work under the supervision and direction of that department head, the Town Engineer. That all files and records pertaining to these operations be transferred and stored in this office. It is further recommended that steps be taken to effect a consolidation of all these operations to a full time basis.

"Last my remarks on Part Seven and Part Eight of my recommendations be misinterpreted. I want to point out that neither politics or personalities are in no way involved in my efforts to further the welfare of our town along these lines. Those who may directly or indirectly be eventually affected by subsequent changes in organization should fully appreciate the necessity for the transition which is forced upon us by the progress of time. We have a duty to perform and while I have the highest regard and appreciation for services rendered, we must of necessity set-up standards that will afford the community at large the very best of services rendered, in the time available.

"Nine - With the transition from part time to full time duties in many of our departments, and with the increase in details that necessarily follow, it is apparent that additional clerical help is required. However, before we promiscuously add such expense to our budget it is recommended that a thorough study be made of our overall operations and determine the necessary additions, deletions and revisions in procedure so as a close knit efficient organization can be set-up to produce the maximum of efficiency with the minimum of expense. To carry out this study will undoubtedly require the services of an outside consultant.

"I recommend that such a study be made in the immediate future. Today, Government, as well as Business, must be carried out thoroughly and efficiently if it is to survive. We have, for the most part, the basis for a sound busi-

Penn RR Promotes

(Continued from page 1) have been spent as supervisor of perishable freight service in the New York area. Earlier he was special agent in the New York division freight office.

Also announced was the appointment of John J. Driscoll to the position of assistant perishable traffic manager. A native of Verplanck, N.Y., Mr. Driscoll entered the Pennsylvania's service in 1928 and has been representative for perishable traffic in New York since 1946.

Both men will make their head-

quarters at Pier No. 28, North River.

Mr. Reed, long a familiar figure in the Washington Market area and Manhattan's lower West Side, is retiring after serving the railroad in numerous capacities and in his present position of perishable traffic manager since 1934.

Born in Summit City, Pa., he began his railroad career with the Pennsylvania in 1907 and during World War I supervised embar-

goes, embargo permits and control of movement of loaded cars to the Atlantic Seaboard. He had served as supervisor of perishable freight lines from 1928 until promotion to his present post six years later.

Air Guard Looks For New Recruits

The 108th Fighter-Bomber Wing, New Jersey Air National Guard, located at Newark Airport and McGuire Air Force Base, has launched a recruiting campaign to bring the units up to their full strength, it was announced today by Colonel Donald J. Strait, Commander.

According to Colonel Strait this recruiting drive is timed to coincide with the record-breaking transcontinental flight made by an Air National Guard pilot, Col. Willard W. Millikan, Commander of the District of Columbia Air National Guard Wing.

Colonel Strait pointed out that the record-smashing flight was made by an Air National Guard pilot, in a fully armed, combat-operational ready Air National Guard F-84 jet fighter of the type soon to be received by the New Jersey Guard units, located at Newark and McGuire AFB.

Colonel Strait stated that never before has the defense system of our nation been designed to lean so heavily on citizen soldiers. All first line equipment is being issued to the National Guard units in order that they may properly discharge the tremendous responsibility being placed upon them by the new defense plan.

Prospective Air National Guardmen can enlist at the Air National Guard Bases at Newark Airport or the 41st Fr.-Bmr Sq at McGuire AFB. An officer will be on duty from 8:30 to 5:00 p. m. Tuesday through Saturday to enlist or advise interested young men.

Age limits are 17 to 35. It was noted by Colonel Strait that young men between ages of 17 and 18 can enlist in the Air National Guard with no interference to their normal civilian pursuits. He emphasized that young men in this age bracket can fulfill their military obligation right at home by serving satisfactorily in the Air National Guard.

Parental consent is necessary to enlist young men 17 years of age

Overlook Shows Quarterly Profit

Trustees of Overlook were told at the December meeting of the Board that the hospital has shown a profit for three months in a row. In addition it was formally reported that an interim contract had been signed with Blue Cross under which Overlook will receive \$22 a day for semi-private accommodations instead of \$16. It has been estimated that this increase can mean \$100,000 a year in increased revenues when all incoming Blue Cross patients are on the new basis. An increase of \$30,000 to \$40,000 is expected for 1954. This not clear gain because the hospital includes in its new rate many items that formerly were charged as extras but the new contracts, which are expected in the near future, will make a substantial difference to the hospital.

Two new members were added to the finance committee: A. P. Busch and J. Krotzner. Henry W. Harding, in charge of the private campaign to raise \$250,000 for Overlook from among close friends, reported that Hugo Meyer had accepted the task of approaching individuals. Walter Behrke, Jr., Dr. J. S. Atkinson and Dr. Evelyn Holt, of contacting doctors, and Robert Parsons of the approaching foundation.

The board of trustees has been asked to raise \$50,000 from among its members and their associates. Pendennis W. Reed was asked to investigate and develop plans for an annual campaign of giving with some emphasis on testamentary bequests.

The success of medical audits, which Overlook has urged pioneer in the hospital field, has led to the development of a more detailed and complete audit which the joint advisory committee has recommended for next year. It will cover all work done by the staff doctors rather than certain sections of the staff and for short periods.

A rising vote of thanks was given to the Women's Auxiliary which raised \$13,000 for the hospital this year through the 1953 Polls.

The trustees approved a plan to make television available to patients on a rental basis. A contract will be signed with an organization which provides and services the sets.

It was announced that a mortgage of \$425,000 would be signed for the hospital by the president on Monday, December 21. The trustees were told that the general contractor had now been paid in full for the new building and that other suppliers have been paid in full or installment payments have been arranged.

The Morris avenue parking lot has been graded at no expense to the hospital and a donation of 200 tons of road stone for the base has been promised by the North Jersey Quarry Co. A check for \$500 was given by the Winans Co. to be used toward the cost of surfacing the lot next spring.

The Overlook Hospital Nurses Alumnae Association has contributed to date \$2,897 toward furnishing nurses' stations. They have offered to contribute \$400 toward the cost of setting up an office for the nurses' registry.

Baby Brings Joy To Leinbachs Richard and Erma Leinbach of 30 Oakland Avenue are the proud parents of a baby girl, born on December 26 at Overlook Hospital.
