SPRINGFIELD, N. J., THURSDAY, FEBRUARY 4, 1954

OFFICIAL NEWSPAPER
TOWNSHIP OF SPRINGFIELD

10¢ A COPY, \$3.50 BY THE YEAR

Dates Set For Six Day Sales, Feb. 22 to 27

A six day sale—from Monday, February 22 to Saturday, February 27—will be staged in Springfield instead of the first announced 3 day event. This ambitious change in plans came as the result of the very enthusiastic response from all merchants on Morris avenue. The Chamber of Commerce committee, headed by Charles Dasher, announced yesterday that there will be enough momentum to carry the big show through the entire six days instead of three.

Over \$14,000 Collected By Local Court

NICE PROFIT FOR 1953—MAGISTRATE HENRY C. McMULLEN reports total collections of \$14,004.50 in Springfield's Municipal Court last year.

The Springfield Municipal Court, presided over by Magistrate Henry C. McMullen, is one township bureau that not only continued to show a profit but the amount received for 1953 was greater than 1952, according to the annual report presented to the Township Committee. "Those who appeared before the local magistrate paid fines during 1953 amounting to a grand total of \$14,004.50.

Of this total amount Springfield retained \$4,203.50 for 1953, against \$3,729 in 1952. The county received \$8,021 and the State of New Jersey fines amounted to \$2,881.

The total in fines and court costs received in Springfield show that the month of September brought the greatest amount, \$1,823 while the lowest was January of 1953 with \$413 collected. Springfield's best month in Magistrate McMullen's court was April when a total of \$802 was collected for the Township treasury.

The cases disposed of in the local court show 119 for traffic violations and 23 in the general category. May produced the greatest number of traffic cases, 162.

Goforth's Announce Birth
Mr. and Mrs. Edward Goforth, 47-22 Divon street, became the parents of a baby girl on January 30 at Overlook Hospital, Summit.

The usual signs, pennants and other holiday paraphernalia have already been ordered which will decorate all the stores in Springfield during the six day sales event. Banners which will be stretched across Morris avenue, announcing the sale, have already been ordered and should be in the hands of the committee very shortly.

The program itself hasn't been announced but the merchants are already preparing "to put their best foot forward" in the matter of exhibiting the finest quality merchandise during the sales. All the participating merchants plan to do a special dressing-up job in their displays during the six day event.

Several meetings are scheduled for next week and more details will be announced to the merchants so that all the plans can be coordinated for the big show.

Scout Workers Ready For Drive

Aunt Jimima will have to mix a great deal more batter for the pancakes to be served the workers at the "kick off" breakfast for the annual Springfield Boy Scout drive at the Parish House, Main street, Saturday morning. Many more workers have been added to the list and the committee looks for a large and enthusiastic turnout to mark the start of the annual drive for funds.

Serving of the breakfast will start at 8:30 to be followed by " pep talks " and instructions to all the workers who are to make a complete house to house solicitation for the entire day. Those who could not be contacted on Saturday will be reached during the week so that every resident of Springfield will have an opportunity to participate.

Following is the list of new Scout workers added to the list of Boy Scout supporters during the week:

Lightning Strikes Twice

The Picture Payoff contest editor of the Newark News may decide to throw away the telephone book containing Springfield. Two nights in a row—Springfield residents have had the right answers when the man from the Newark News called and were given the jackpot cash prizes.

Monday night Mrs. Lena Schramm of No. 1 Remer avenue, was the cash prize winner and Tuesday night Mrs. Winifred L. Pierce of 72 Colfax road, had the right answer for the Newark News man and received the prize. Pictures of Mrs. Schramm and her son and his wife appeared in Tuesday's issue of the Newark News and last night, it showed William P. Pierce getting a kiss from his wife, Winifred, for returning home with an extra copy of the newspaper from which she picked the contest winning answer.

The Schramms—one of Springfield's best known families—broke into the Newark News Tuesday issue with a photograph showing Mrs. Lena Schramm of 1 Remer avenue with her son, Herbert, and his wife, after hearing that she had won the Picture Payoff and a cash prize.

The Newark News story read as follows:

"Let me answer the telephone, it's probably The Newark News calling," Mrs. Lena Schramm of 1 Remer avenue, Springfield, said to her son, Herbert. Seconds later, she supplied the solution to the Picture Payoff puzzle and won the \$100 jackpot.

Mrs. Schramm said later she would split the prize money with her son and his wife, Helen. "I usually find the answers," the elder Mrs. Schramm explained, "but I always double check them with Helen and Herbert. And, we decided long ago, if one wins, all win."

Mrs. Schramm, who said she followed the contest from its start in September, had no trouble

Old St. James Church Sold; Plan New Office Building

Formal announcement was made yesterday, confirming reports circulating throughout Springfield for several weeks, which include the following important developments:

The Springfield Savings and Loan Association has merged with the Crestmont Savings and Loan Association of Maplewood which means that the local association is now insured by a Federal Agency in the amount of \$10,000.00 for each account.

The old St. James Church building on Morris avenue, corner of Linden, has been purchased and a modern Colonial design building will be located on this site at the Springfield office of this savings and loan association.

The merger of the local association with Crestmont, one of the most progressive organizations of its kind in this area, is stimulating new enough for Springfield and the announcement that a beautiful up to date office building will be located on the site now occupied by the old St. James Church is adding considerable interest.

School Board Elections On Next Tuesday

Three members of the Springfield Board of Education will be selected next Tuesday with four candidates in the race. Mrs. Genevieve Lewandowski of 42 Shumple Road, is the new candidate, the other three being present members of the School Board who are seeking reelection. They are Robert G. Smith, who has served on the Board for three terms; Clifford G. Hale, and S. Bryant Hoas, all incumbents.

The polling places will open at 3 o'clock on Tuesday and remain open until 9 o'clock. Qualified voters living in General Election Districts No. 1, 2, 4 and 5 will use the polling place at the James Catwold School, Mountain avenue. Voters from the No. 3 and 6 districts will be able to cast their ballots at the Raymond Chisholm School, South Springfield avenue.

Mrs. Lewandowski hopes to be able to bring better salaries to the school-teachers by what she calls a "more efficient budgeting of the taxpayers' dollar." "After several days of a telephone and personal call survey of Mr. and Mrs. Taxpayer," said Mrs. Lewandowski in talking about her candidacy, "I found that a careful apportioning of the taxpayers' school dollar with a view to economical instead of lavish and inconsiderate spending is a topic of much concern to all. Allocating more of the said taxpayers' school dollar on better salaries to the teachers, thus stimulating their constant vigilance in their charges, is more equitable than needless expenditures in building extravagance. I am for efficient budgeting of the taxpayers' dollar with due respect for the taxpayers' real needs."

Mrs. Lewandowski, mother of two children, received her education at Shenley High School and Duquesne University in Pittsburgh. During the war she was employed by the Federal Civil Service in a supervisory capacity in the fiscal division of the Army Finance Center in Newark. She participated in and was youth leader in social and fraternal organizations in Pittsburgh and Newark. She is a member of the PTA and president of the American Legion Auxiliary, Unit No. 354, in Newark.

Increases in school appropriations and added municipal costs caused by establishment of a Department of Public Works and the employment of a planning expert, will probably mean a rise of 81 points in the Springfield tax rate according to the 1954 municipal budget introduced Tuesday night at an adjourned meeting of the Township Committee.

The new tax rate is estimated at \$8.94 as against \$8.13 for 1953 but most of this increase comes from the school board needs, each one accounting for 34 points. The tax needs for local purposes call for a rise of only 11 points.

All these matters will be aired at a public hearing to be held March 10 at which time the entire budget will come before the members of the Township Committee and those taxpayers who wish to ask questions.

The amount to be raised by taxation for local municipal purposes for 1954 is \$480,710.87 which is an increase of \$82,265.68 over 1953. For local school district purposes for 1954 the amount is \$480,287.28, an increase of \$92,252.57 in 1953. The amount to be raised for Regional High in 1954 is \$174,280.72 which is more than 1953 by \$60,697.94.

For all purposes the amount to be raised by taxation is \$1,259,377 an increase of \$230,501.

Springfield Savings Merged With Crestmont Asso.

Springfield now has a Savings and Loan Association insured by a Federal Agency as to each account in the amount of \$10,000.00. This was brought about by merging the interests of the Springfield Savings and Loan Association and the Crestmont Savings and Loan Association of Maplewood. A full time service is now available at 277 Morris avenue, Springfield, in the office of Edward A. Conley, the secretary and one of the founders of the Springfield Association. Mr. Conley is going to devote his full time to his own business of real estate and insurance from the same office.

All of the officers of the Springfield Savings and Loan Association have worked diligently to keep and maintain a Savings Association in Springfield where no other similar institution exists, and all of them were most helpful in bringing about merger arrangements with Crestmont Savings and Loan Association, now located in Maplewood. Crestmont has had an outstanding growth of nearly \$10,000,000.00 in 10 years. The Crestmont Savings and Loan Association was under a million dollars in assets in 1943 and ended the year 1953 with over \$10,500,000.00 in assets.

Savings Insured
It serves the local communities in many ways. It has savings accounts which may be started with as little as \$1.00 and which may be added to in any amount up to \$10,000.00; all of which is insured by the Federal Savings and Loan Insurance Corporation, an instrumentality of the United States Government.

Families may have insurance protection for more than \$10,000.00 by separate accounts. The (Continued on page 3)

School Cooking Classes Really Teach Cooking

Were you one of the unfortunate beginning homemakers who did well to burn water? If so, it is certain you will agree that today's schools are certainly giving all future homemakers a firm foundation in the culinary arts. The accompanying picture will give you a brief glimpse into a few of the activities which are carried on in the cooking classes at the Florence M. Gaudineer School.

Foods of various types and for many different occasions are prepared in this kitchen. Next, the food, which has been prepared, is served, using proper table service and manners. Last, but not the least, important is the process of cleaning up after the meal. If you will observe the accompanying picture closely, you will see each of the above activities being carried on by the girls in the eighth grade.

In the Gaudineer School home-making is begun with the sixth grade girls. Over a period of three years, effort is directed toward developing the ability to prepare and serve a complete meal. Each year progress is made from simple preparations to more detailed planning and work.

Time is an essential part of our program because the amount allotted to the various grades is different. Every week each sixth (Continued on page 3)

School Cooking

(Continued from page 1)

grade girl comes to cooking for one hour. The seventh and eighth grade students have one two-hour period each week. Due to the time limitations, the program for these classes is altered so it will fit into the time allotted.

In the sixth grade, the time is spent in building a foundation for work in the seventh and eighth grades. This is begun by learning about, and becoming acquainted with, the various pieces of equipment, both large and small, that are necessary in a well-equipped kitchen.

Each time the girls come to class, some food is prepared using a different method of preparation and cooking. The foods we use are also representative of the Basic Seven Food Groups. This gives each girl the basis for good nutrition, which is essential to their health and well-being.

The seventh and eighth grade work is very closely related. Even though they have twice the time given the sixth grade, time is still an important element. Here two or three different dishes are prepared. All of these must be finished and served at the same time. This teaches the girls to plan their time and work so that each dish, regardless of cooking time, will be finished by an appointed time.

The preparation of luncheons is the main goal in the seventh grade. Here again the best given food groups are studied by using foods from them in the luncheons. The classes are divided into five kitchens, with not more than five girls to a unit. Each group prepares, serves and eats its own food.

Simple meals which could be served for a dinner or Sunday night supper are the main objectives of the eighth grades. Using information gained in previous years, dinners are planned, prepared and served. Emphasis is placed on budgeting of time and money, proper table service, setting and manners.

During holiday seasons there is a deviation from the set pattern of work. Foods are prepared in keeping with the particular season. Some good examples of this would be the pumpkin pies the eighth grade made for Thanksgiving and the assorted cookies and cupcakes made by the seventh and eighth grades at Christmas.

Program of this type gives the student further opportunity to learn the spirit of cooperation. It makes better citizens and homemakers. Today, in our busy way of life, a program of this nature is more essential in the lives of the student than it was previously. Modern schools are giving children better equipment with which to face the future.

SCHOOL NEWS

JAMES CALDWELL SCHOOL

Miss Betty Weber
The kindergarten class has been working on weather experiments. Water and snow have been observed in their reactions to rapid temperature changes. A thermometer has been used in these reactions, also.

The above work has provided a background for discussion about safety during the winter and the danger of eating snow. It has afforded an opportunity to make snowflakes, snowmen, and paper mittens.

The kindergarten children dramatized "Winter Fun" for the Primary Assembly.

A Pop-Corn Party was enjoyed by the children and adults for a week. Gingerbread men are now in progress.

Grade One

Mrs. Ruth Gerdes
Mrs. Mary Edna Snyder

The winter is here. Yes, everywhere we look we see the frosty white snow. It is the greatest snow that the kids ever had. "Remember" Mrs. Snyder's class has enjoyed the snow very much. They have been making snowflakes, snowmen, and paper mittens. They have also been making snow globes. All of the other primary classes had planned rhythmic poems or dramatizations of songs about winter.

Mrs. Gerdes' class will have charge of the next Pop-Corn Party. The date will be about "Community Day." Mrs. Gerdes' class will sponsor the "Community Day" party. The date will be about "Community Day."

Grade Two

Mrs. Yula Hagan

In connection with their regular reading work, the second grade has been making an animal book. Each page is devoted to a different animal, including its peculiarities to it. The children always enjoy making books of their work.

Grade Three

Miss Harriet E. Smith

Our class dramatized the story "Frosty the Snowman" in the Primary Assembly on Monday. The children were so interested in the story that we have been collecting some very nice books from the Springfield Public Library.

We have been reading about wind, storms, rain, fog, and snow. We were particularly interested in the facts that we have collected. We have been particularly interested in the facts that we have collected. We have been particularly interested in the facts that we have collected.

Grade Four

Mrs. Lenora M. Johnson

We have been doing many interesting things in Art. We have been learning and making paper. We made some very pretty snowflakes by folding and cutting. We also made two pictures of ourselves. One was of ourselves indoors and the other was of us outdoors.

In our number class we have been making individual cards for each of our new number combinations. In this way we can study our numbers when we have some free time.

Grade Five

Miss Jeanne T. Wilder

Our class has been making a yearbook and each of us has his own also. It is so nice to keep a yearbook. Then we can remember the things that we have learned during the year. Our yearbook contains stories, rhymes, riddles, illustrations, and lots of other things that go on in our Second Grade.

A new friend came to stay in our classroom. Her name is Catherine Negro, but we call her "Cathy." She likes to play as much as we like her.

Grade Six

Mrs. Mabel B. Sifaris

Members of Mrs. Sifaris' third grade class wrote letters to Alfred Berdier who has been ill. We had a great deal to tell him about our class activities.

We have ordered our song books and will soon be playing them. We have been doing "stick-making" and "paper-making." We have been making "Oh, Susanna" with the other Third-Graders in assembly. We have ordered our winter coats and are anxious for them to arrive.

Different groups have worked on making snow globes. One group has a new box of books has come to us from the Springfield Library. No day is too busy for us to read.

Grade Seven

Mrs. Lucraine Wilkening

This month we began our dancing program. We studied how to do the "Swing" and a Hungarian dance called "Chopora." We expect to square dance, jig, and waltz by the end of the year.

We enjoy dancing with all of our friends in the other grades classes.

Grade Eight

Mrs. Margaret Duran

We have done our experiments in Science. We put a jar of water outside and watched what happened. Later we put the jar in a pan of water and the beads of water form on the outside of the pan. We did another experiment with leaves and water.

We had a "Spelling Bee" the other day. It was fun.

Grade Nine

Mrs. Constance Bixler
Mrs. Estelle Kohn
Mrs. Rosemerle Shadle

The Fourth Grade class has been studying about cold climates. They learned how people live there. Polar regions, both north and south were studied. Simple understandings of the needs for environment affect people's needs for food, shelter, clothing and travel were developed.

Stories of explorers such as Nansen, Peary, Amundsen and Byrd, lent excitement to the study.

Reading of stories about "Winter in Alaska" and "The Arctic Family" helped visualize the "cold" lands.

Some of the class have been working on special topics which have been of interest.

Grade Ten

Mrs. Edna Purcell
Mrs. Estelle Kohn

Mrs. Edna Purcell's class has organized the Citizens Club. President, Mrs. Crowley; Vice-President, Mrs. Baker; Secretary, Mrs. Baker; and Treasurer, Mrs. Baker.

Grade Eleven

Mrs. Estelle Kohn

Mrs. Kohn's class did a dramatic presentation about the "Civil War" and the "Civil War." They had fun doing the reading of "A Railroad Revisited" by R. N. Young. Interest by the audience reaction, the other classes enjoyed it also. To remember the important idea in the story "We Are Working on the Railroad" and "She's Coming Round the Bend" the class have some very interesting facts about the speed of trains.
