## Township To Get \$60,000 On Sewer Job

Taxpayers in Springfield find a great deal of comfort in final reading and adoption of the new Shunpike Storm Sewer ordinance which provides for the payment of \$60,000 by Jeffroe Estates as compared with the \$20,000 agreement last year. The ordinance was passed after a public hearing at the regular Township Committee meeting last night.

Jeffroe Estates own the property opposite the Baltusrol Country Club and plan to build homes on this site. The Township Committee last year accepted an offer of \$30,000 as Jeffroe Estates part in the cost for the storm sewer. This matter became an issue in the election campaign and resulted in a taxpayers' suit which claimed that Jeffroe Estates were not paying enough for the benefits the builders would derive from the sewer.

With Jeffroe Estates paying \$60,000 instead of the \$20,000, and the Union County Board of Freeholders extending their agreement to pay \$50,000, the cost for the construction of the storm sewer to the Township will show a considerable saving. It is also expected to end the taxpayers' suit which has been costing Springfield a great deal of money and time defending its authority to rescind the previous ordinance.

The Committee passed an ordinance appropriating \$130,000 for construction of the half-mile long sewer from Shunpike Rd. to Van Winkle's Creek. The sewer will serve the 18-acre tract on which the Jefferson Estates, Inc., of Summit plans to build the new homes.

A taxpayer's suit, still in litigation, was instituted last year when the then Republican controlled Township Committee adopted a similar \$130,000 ordinance, although the developer then agreed to pay only \$20,000 towards the cost.

**Ordinance Rescinded**  
The ordinance was rescinded in January after a Democratic majority was elected to the committee. It was estimated at the time that the sewer would have cost local taxpayers \$32,000.

## Swim Pools To Be Regulated In Springfield

Springfield passed an ordinance regulating swimming pools in the Township at last night's regular meeting of the governing body and enforcement is expected to start immediately.

Many swim pools, especially the portable kind, have already been installed in various parts of Springfield and all of these will be expected to make certain that there is compliance with the new regulations.

There are several sections in the new ordinance which will occupy the attention of Township officials, one, under the heading of "Permitted Size of Pool" states that "no private swimming pool or its accessory buildings shall cover more than 20% of the rear yard of the lot involved." Many of the portable pools, according to Township officials, appear to be too large and quick inspection will be made on these installations.

Under the heading of "Location" the new regulating ordinance says that:

"A private swimming pool, wading pool or portable pool shall not be constructed, installed or maintained within 15 feet of any sidewalk, driveway, street, or other public way, nor shall any such pool be constructed, erected, installed or maintained in the front yard of the property.

A private swimming pool or wading pool shall not be constructed or installed on any premises unless a residence building is also located on said premises or unless said premises are part of a residence."

Other important sections of the new regulations are:

**Section 12—Fencing**  
All private swimming pools now existing or hereafter constructed, installed, established or maintained shall be enclosed by a permanent fence of durable material at least 4 feet in height and shall be constructed as not to have openings, mesh holes or gaps larger than 4 square inches in any direction.

## Springfield Voters Favor New School 1,008 to 282

Springfield voters approved plans of the Board of Education for a new school at Tuesday's referendum by an overwhelming count of 1,008 in favor and 282 against.

The plans call for the building of a new school in South Springfield avenue for an estimated cost of \$875,000 which the voters approved as well as the site. Last December the voters turned down the Board's plan for a new school on the Smith Family Tract and the expenditure of \$825,000. The vote at that time was 1,723 against the referendum and 628 in favor.

In the December referendum there was a total of 2,352 votes cast. While Tuesday's election brought out only 1,290. Voters of District 1 went to James Caldwell School to approve the new proposal, 255-104, and voters of District 2 cast ballots of Raymond Chisholm School in favor, 753-178.

The new building will have classrooms for grades from kindergarten to sixth, a multipurpose room, offices, teachers' room, and conference rooms. The building will cost about \$612,323.

Purchase of the site from the Harenberg family will amount to \$47,500 for the 3 1/2 acres. The Township Committee has provided an additional 3 1/2 acres for the site.

Equipment is expected to cost \$87,797. Bonding legal expenses, architect, engineering, surveys, test borings and contingencies are expected to cost \$81,735. Site work including rough grading, parking areas, driveways and play areas is estimated at \$65,645.

The school board at its meeting this month agreed to rent space for additional classrooms in the Presbyterian Church Parish House at a cost of \$1,200 a month.

The Board of Education is grateful for all the cooperation received, and hopes that it will be able to maintain such responsive relationship in the future.

## Local Cancer Campaign Goes Over 3,200 Mark

Springfield has just concluded the most successful fund raising campaign in its history to fight cancer, with a net of over \$3200 contributed to the American Cancer Society.

"Such an enviable record," according to Mrs. Phillip Lewis, chairman of the 159 Springfield Crusade Committee, "could only be accomplished with the generous response of the local citizens, business and industry of Springfield."

"The real success of this year's drive rests entirely with the crusade committee and volunteers who gave up a great deal of their time to ring door bells during the 1959 house-to-house drive." During this year's cancer

## Postmaster In Plea For Fight Against Smut

Springfield Postmaster A. V. Del Vecchio is relaying the appeal of Postmaster General Arthur E. Summerfield in urging public support in his intensified war on "ruthless mail order merchants in filth who are violating the homes of the nation in defiance of the national government."

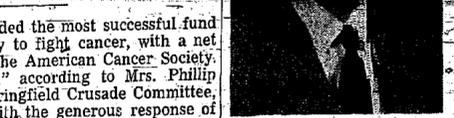

"Obscene mail dealers today are taking advantage of one of the nation's most cherished privileges to carry on their smutty trade—the first-class letter that is guaranteed private," said the postmaster.

"This sanctity of the letter must never be disturbed, but at the same time it is almost impossible for the Post Office Department to detect the materials sent by smut merchants in plain envelopes—unless we, the public, do something about it."

"Materials contaminating the mails," he continued, "include filthy films and books, and dirty pictures, slides and related filth, advertised in highly objectionable circulars sent indiscriminately to homes here and all over the nation," he said.

"Mail order dealers in pornography and obscenity are realizing half a billion dollars a year from their filth business," he has reported to Congress.

"During a recent 12-month period, the local postmaster was advised, postal inspectors conducted 4,000 investigations on obscene and pornographic mail and caused the arrest of 283 persons dealing in filth. This was an increase of 45 per cent over the previous year, and an all-time

has 52 Homemakers on the roster and gives approximately 2,500 hours of service a month, almost double last year's hours. Homemaker service offers specialized home care which is available on a short or long term basis. If it were not available it would be almost impossible to obtain part-time, skilled help to maintain the normal household routine when illness strikes. The women who serve as Homemakers are carefully selected, trained and supervised. In many communities this special help is not available at all. The service had its beginning five years ago when it started with six Homemakers.

**Homemaker Rates**  
**Now \$1.50 Per Hr.**  
The SAGE Visiting Homemaker Service, 47 Springfield Avenue, Summit, announces that effective July 4, rates for the service will be \$1.50 an hour for towns in the Overlook Hospital area with the exception of Summit and New Providence where a United Campaign support makes it possible to charge only \$1.40 an hour. The \$1.50 an hour means an increase of 25¢ an hour over the former hourly rate of \$1.25 an hour. This increase represents the addition of an administrative surcharge; the Homemaker will continue to receive \$1.25 an hour plus transportation.  
In announcing the increase Mrs. Edward W. Higgins, Director of the Homemaker Service, pointed out several factors making the administrative surcharge necessary in order to maintain the service. The administrative expenses of providing the Homemaker services include office and staff costs, insurance and training of Homemakers. The service is completely non-profit and costs are kept low by many hours of work done by dedicated volunteers working in the office, doing home visiting or serving on the Homemaker committee.  
The rapid growth of the Homemaker service means that the of Maplewood, and five grandchildren. Services were Tuesday at 11 a.m. at Smith and Smith Suburban, 415 Morris Ave.

## 150 Fed By Civil Defense In Mass Feeding Exercise

Springfield Civil Defense, in conjunction with the Springfield Chapter of the Red Cross, held a Mass Feeding exercise a week-ago Thursday night to practice lessons learned during a seven week course on Mass Feeding.

The fifteen women involved in the course demonstrated their ability before CD officers and members of the public, Red Cross personnel, Boy and Girl Scouts.

The seven weeks' course was given at the Florence M. Gaidner School, and was supervised by Mrs. Evelyn Couch, assisted by Mrs. George Walton of the Springfield Red Cross.

Last Thursday's drill was the culminating point of the course, in which all the theory learned was put into actual practice.

A lecture was given during the course by Mr. Saul Freeman, our local Director of Civil Defense, on the aspects of Mass Feeding under radioactive conditions, and a further lecture on the sanitation aspects of Mass Feeding was given by Mr. Arthur Price, Principal Sanitarian of the Metropolitan State Health District, New Jersey State Department of Health.

A total of 150 people attended the drill, and enjoyed the food prepared by the women of the Welfare Department. Explorers, Scouts, under the supervision of Mr. Frank Rebel, prepared and maintained the fires on which the food was cooked.

In addition to the mass feeding course, a transportation exercise was incorporated, under the di-

## Crestmont Observes Democrats Pack Country Club For Dinner Dance

The board of directors of Crestmont Savings and Loan Association passed a resolution at its meeting Tuesday evening to declare today, Thursday, June 25, Federal Savings and Loan Insurance Corporation Day, at the association's two offices, to commemorate the twenty-fifth anniversary of the corporation's contributions to the nation's thrift and home ownership movement over the last quarter-century.

To celebrate the occasion, Crestmont is giving 25 new pennies to each person who opens a new savings account with \$25 or more or adds that amount to his present account all day today and tomorrow, Friday, June 26.

In addition, a contest open to every one who visits the offices during the two-day period is being held. A prize of \$25 will be given to the person in each office who estimates the closest number of pennies in a container on display at each office.

In the resolution entered into the minutes of the board meeting, it was noted that if it had not been for the Corporation's activities, there would not have been sufficient funds available to finance the over 13 million new homes built throughout the country since the end of World War II.

The Federal Savings and Loan Insurance Corporation, which this month is celebrating its Twenty-Fifth Anniversary, was established by Congress on June 27, 1934, to insure savings accounts in savings associations against loss up to a maximum of \$10,000 per account.

The resolution, according to the Mr. Gardner, listed the Corporation's contributions to the American economy as follows:

1. Increased confidence in savings and loan associations, and financial institutions generally, which has resulted in an increased flow of capital in the form of individual savings into land and homes and an expansion of the nation's basic wealth.

2. The availability of a continuing and ever-growing supply of home mortgage funds to meet the needs of an increasing population. Savings account insurance has enabled insured savings associations to make long-term loans on homes at more liberal terms and lower interest rates, to the advantage of today's cost-conscious home buyer.

3. The adoption of uniform, simplified and better operating practices and procedures among savings associations, thus making for a more efficient and smoother operation, and accordingly a stronger and more vigorous thrift and home financing movement.

Temple Beth Ahm's Nursery School is a five-morning-a-week program, 9:00 a.m. to 11:30 a.m., conducted by licensed nursery school teachers and accredited by the New Jersey Department of Education. It is a program designed to help children grow socially and emotionally. Activities include, arts and crafts, blockbuilding, dramatic play, woodwork, water and sand play, music, rhythms, storytelling and trips. A mid-morning snack of juice and crackers and a rest period are provided. He's got a long way to grow—guide him carefully

### Who says it's a small world?

Not a little fellow. To him it looks awfully big. And how he grows to face it depends on you.

Teach him well. Teach him Love. Love of God and his fellow man. Let him see it in your daily life. And he will grow—loving and loved.

Teach him Respect. Live in such a way that he can respect you. Then teach him to respect others and that which belongs to others. And he will grow—seeking not to destroy but to build. And he himself will be respected. But above all, teach him Faith. And he will gain a strength that will not fail him. Teach him Faith and it will add to his happiness. Teach him Faith... and he will never be alone. Give him this legacy... Love, Respect, Faith. And will grow in strength to be a man.

Find the strength for your life... worship together this week

### Baptists Provide Bible School Bus

"Living For Jesus In The Space Age" will be this year's theme for the annual Vacation Bible School of the Millington Baptist Church of West Millington, which begins on Monday and continues till July 10th, according to the Rev. Harry B. Morris. The chosen departmental themes are: Nursery; "Loving and Pleading Jesus"; Beginner; "We Learn About Jesus"; Primary; "The Lord Is My Shepherd"; Junior; "The Christian's Birth and Growth"; Jr. High & High School; "Answering God's Call." Handwork projects for the older pupils include the making of a Hobby chest, a Woodcraft Photo Album, and a Dandelion of Psalm 23. The younger pupils will prepare and take home daily simple handwork projects. Refreshments will be served to the pupils each day. A daily offering will be taken but there is no charge for enrollment, and the school is open to all boys and girls, and teenagers. Bus transportation is provided for a number of areas. The school is held from 9 A.M. to Noon.

The church's Vacation Bible School of last year was one of a few throughout the country chosen to be pictured in a Scripture Press Publication with worldwide circulation "VBS Guidebook."

The bus route in Berkeley Heights is along Park, Plainfield, Mountain, Snyder and Springfield Avenues. Pupils who wish to use the free service may call ML 7-0594.

### Summer Class Set By Church School

A Summer session of Church School will be held during the months of July and August at 10 a.m. in the Methodist Church, to which anyone is invited.

These weekly sessions will be different from the conventional methods used in regular church school sessions. The Rev. W. K. Frederick visual aid method will be used for these sessions. This method has been used successfully for many years, and used exclusively in some churches.

Special subjects have been chosen for these classes and will be directed by adult members of the church.

Time, 10 a.m., each Sunday beginning July 5 through September 6.

### Births

Pearls sometimes are found in the Caribbean conch, which inhabits the "singing" seashells. These pearls, despite their beauty, are not as valuable as oyster pearls since they are comparatively soft and fade in time.

1. Keep to the extreme right side of the road.
  2. Keep to the right when meeting all-vehicles coming toward you.
  3. Pass on left of all vehicles moving in same direction as you.
  4. Never pass a vehicle when meeting another vehicle.

  6. Never cut in closely in front of cars or any other vehicle. Don't cut corners.
  7. At street or road intersections always give vehicle the right of way.

  9. Obey traffic lights—never cut a light.
  10. Stop signs are for bicyclists as well as motorists. Stop, look both ways, then go ahead carefully.

  21. As an extra precaution use a green or white reflector on front as well as a red reflector at back of wheel.
  22. Never park wheels on sidewalk.

He will be Dr. Henry L. Lambdin, Professor of Homiletics at Drew University, whose topic will be "The Mind that was in Christ."

### Your Library

As usual the Story Hour for Pre-School Children has proved the most popular feature among the activities carried on by the Free Public Library of Springfield. Mothers wished to bring many more children than could be accommodated, and children who came to one series of five stories wanted to come back. In order to reach as many as possible, Mrs. Helen Keller accepted groups of twenty-five; although, for such small children, fifteen to twenty is an ideal number. Even then, children and mothers had to be turned away.

Various experiences this year have resulted in the formulation of a definite policy to guide everyone connected with the Library. This will enable members of the staff to register the children while Mrs. Keller is attending Rutgers Graduate School of Library Service this summer. It has been observed that most

of the children just turned three years do not wish to listen, but to run around, or they want to return to their mothers. This is unfair to the children who are listening; one child distracts the attention of the others. For this reason, it has been decided to begin with the four-year olds. Because the numbers are so limited, it seems unfair to have three-year olds take the place of older children when they are too small to really enjoy the Story Hour.

Furthermore, the different series often repeat the favorite stories, the "Story Hour" is "old hat" to children who have been before. They may not enjoy too many repeats. It also seems unfair to them to take them before they are old enough to derive some benefit from the Story Hour.

For next year, the policy will be: (1) to accept in the fall all four-year olds first; (when registering the child, a birth certificate or similar paper showing child's birth date should be brought along); (2) to take all children who have never attended a Story Hour before. However, names of other children will be placed on a list and held until the spring session. This will consist of children who will soon be four years old, or who may have had one term at Story Hour and have been absent, or just begun to enjoy it.

A list of the dates of the series will be placed on the bulletin board in the downstairs hallway. Mothers may look this over and register the children any time during the summer.

In the Springfield Library, the Story Hour for Pre-School Children has several aims: (1) to introduce small children to the library, a pleasant place, (2) to encourage the love of good books, and (3) to teach them something about library manners and procedures. It is hoped that all the children who have enjoyed the Story Hour during the winter will come often and enjoy borrowing books during the summer.

### Racquets Club To Show 'Cat On Roof'

The play "Cat on a Hot Tin Roof" opens Thursday, June 25th at the Racquets Club in Short Hills. The presentation of this play by Tennessee Williams is the first one of a three play series at the Racquets Club being performed on Thursday, Friday and Saturday evenings thru July 25th. Curtain at 8:40 p.m.

### "Heidi" At Paper Mill On Saturday

This Saturday morning, June 27, at 11 o'clock, the Paper Mill Children's Theatre will present the Rockefeller Players in a performance of "Heidi" at the Paper Mill Playhouse in Millburn. The story of "Heidi" well deserves its place as a childhood classic. This warm-hearted and mischievous little Swiss orphan wins the hearts of all children as she triumphs over adventures and misfortunes to bring new life to a little crippled girl and happiness to all her friends.

### "Abner" In Final Week At Show Tent

Lynne Forrester, a former "Army Brat," plays the role of sultry siren—Appassionata von Climax in "Li'l Abner," the hill-billy musical romp which enters its second and final week at Jerry Wayne and Paul Brenner's new Pine Brook Show Tent on Monday (June 29). The hit musical, based on the comic strip characters of cartoonist Al Capp, plays at New Jersey's newest musical arena theatre through Sunday, July 5.

Statuesque and blonde Miss Forrester, the daughter of a U.S. Army colonel, was raised on army posts both here and abroad. The young lady who thus acquired the title "Army Brat" claims to have more than a passing acquaintance with what is "S.O.P." in Dogpatch and what is not. The wide-eyed blonde who seems to have the over-powering manner of a Carol Channing, the shape of a Jayne Mansfield and the indefinable something extra of a Marlene Dietrich, admits to being a new face in show business. It hasn't taken Broadway producers long to discover her, however, and in this, her first season in New York, she has graced two Main Stem productions, "Make A Million" and "Desert Incident."

Featured along with Miss Forrester in the Johnny Mercer and Gene de Paul tune-filled "Li'l Abner" are Romo Vincent, Broadway and night club comic who plays Marylin Sam, Chet Somers who plays the title role and Pat Young who plays Daisy Mae. Gerald Freedman directed the Pine Brook opener and the Show Tent orchestra is under the direction of Liza Redfield.

Telegraph Hill in San Francisco got its name from a semaphore atop it which signaled the arrival of sailing ships to traders and other people in the town.

### Seek Blonde For Musical Comedy

The search is on for the most beautiful blonde in New Jersey. Helga and Gary McHugh and Carl Sawyer, producers at the Meadowbrook Dinner Theatre, are conducting a hunt for a glamorous blonde to make her professional acting debut in "Gentlemen Prefer Blondes," the tune-packed musical comedy will open at the Meadowbrook Tuesday night, July 7.

Candidates for the title of New Jersey's Most Beautiful Blonde are requested to report to the Meadowbrook Friday, June 26 at 7:30 p.m. Selection will be made by several outstanding gentlemen of the press.

The winner of the Meadowbrook contest, Miss or Mrs., will be signed to a contract to appear in "Gentlemen Prefer Blondes." "Can-Can" ends its run Sunday night (June 28) and "Gentlemen Prefer Blondes," with an all-star cast and New Jersey's Most Beautiful Blonde, opens July 7.

### PARK CIRCUS CONTINUES

Outstanding beauty and rare talent are combined in the intriguing performance of the Elkins Sisters who are featured at the free circus at Olympic Park this week. Acrobatics in triplicate is their specialty as these lovely Parisiennes perform astounding feats of body control and gymnastics in perfect union.

In 1830 Oxford, Ohio, passed an ordinance calling for a 26-cent fine for anyone older than three who was caught playing marbles in the alley, on the sidewalk or public grounds.

The second offense brought a 50-cent fine, and further violations a dollar.

### "Red Letter Day" Opens On June 27

National magazines, top New York photographers, and representatives from several coast to coast television shows have been visiting Andover, N. J., during the past week to cover rehearsals for the world premiere of the new Broadway-bound comedy, "Red Letter Day," starring Gloria Swanson, with Buddy Rogers, which will open a week's engagement at the Grist Mill Playhouse on Saturday evening, June 27th.

Miss Swanson and Mr. Rogers have been living in Andover for past week to cover rehearsals for their first appearance on a stage together.

It will mark Miss Swanson's first stage appearance since 1950 when she scored a tremendous Broadway hit in the revival of "Twentieth Century." That same year she was nominated for an Academy Award for her outstanding performance in the motion picture, "Sunset Boulevard."

In the British capital she assumed the lead role and won triumphal success.

### MY REPORT TO THE PEOPLE

By Congresswoman FLORENCE P. DWYER

There is nothing so rare in Congress as legislation substantially improving a Federal program at sharply reduced cost to the taxpayers.

Better performance and lower prices are often, unfortunately, incompatible goals. Improvements usually cost money. A reduction in funds generally means a reduction in service.

But once in a while, by dint of hard-work, bi-partisan cooperation and careful attention to details, Congress cuts the cost and produces a better program, at one and the same time.

The Mutual Security Act of 1959, which the House passed last week, represents just this kind of achievement. To my mind, this bill is a better foreign aid program than we have had in several years, and so I added my vote to the big majorities in both parties who supported this year's legislation.

The House Foreign Affairs Committee gave this measure the most intensive kind of scrutiny: 11 weeks of hearings, 44 meetings, 80 witnesses, and more than 2,000 pages of testimony—in addition to all the background work and study and investigation that preceded introduction of the bill.

The results were impressive. As passed by the House, the bill lowered the cost of the program by nearly \$367-million below the request in the President's balanced budget. And this huge saving won't, in my judgment, deprive the Administration of a single essential dollar. Yet, this one intelligent economy alone could guarantee what all of us are seeking: a balanced budget fiscal responsibility, and an end to inflation-producing deficit financing.

Despite this budget reduction—or, in one sense, because of it—our mutual security program should be considerably strengthened. The committee carefully wrote new standards and criteria into the program which will assure that American economic and military assistance will be allocated to countries which most need it and for purposes that will produce the greatest benefits.

Improved accounting and better control of these funds will be assured by a more strictly enforceable system of inspection and review. And waste and inefficiency will be further reduced by requiring, in advance, more precise and realistic justifications for every proposed project—including more detailed information and the completion of necessary engineering and technical studies, before funds are obligated.

It is widely known and acknowledged—that there have been abuses, and waste in the operation

of some of our foreign aid programs. Some of it has been inevitable in the functioning of new and world-wide responsibilities. Some of it has been inexcusable. This bill, however, will do more than any recent attempt to obtain, in cooperation with the Administration, a more economical, efficient and orderly use of the taxpayers' hard-earned dollars.

Two major changes in the mutual security program, largely changes of emphasis, were made by the committee and approved by the House. While military assistance and related defense support activities account for the largest part of the aid, the House bill stressed economic assistance to a greater extent than in the past. The important Development Loan Fund was kept at the level requested by the President, and the long-range approach toward helping underdeveloped countries help themselves, through the medium of long-term loans and technical assistance, was generally favored.

Military aid, however, was not minimized. This form of assistance helps support our more than 250 military bases overseas, and bolsters the on-the-spot, ready-to-fight strength of our allies. Their 4.9-million fighting men, 2,500 combatant ships, and 30,000 aircraft—which we help support—save us money and manpower and directly discourage Soviet aggression.

As one Republican colleague declared in debate, the mutual security program is really a second defense program.

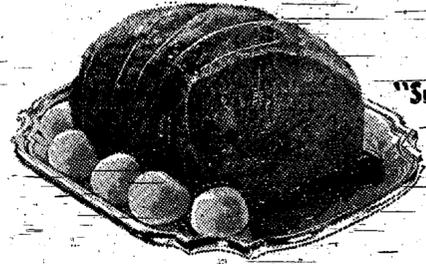

The fundamental purpose of the program was also stated in a new and refreshingly positive fashion. The new language explicitly recognizes that the United States and the rest of the free world share the same interests, not alone in opposition to the evil spread of communism, but as well in the constructive work of building the conditions of peace and progress, of encouraging in practice the spread of freedom and justice and opportunity to people everywhere.

It is easy to understand why President Eisenhower feels as he does about the mutual security program. Minority Leader Halleck explained it to the House: "I think I should say," Halleck told us, "that the President of the United States views this proposition with greater interest, and more concern, and speaks of it more often than any other program about which I have occasion to talk with him or to hear discussed in his presence. He feels it is of tremendous importance to the security and defense of our country."

**Hero Sandwich Comes Into Own As Picnic Aide**

One huge sandwich, made on a long, long loaf of crispy, crusty French bread, is enough to serve four hungry people!

The tasty filling of lettuce, tomatoes, sliced sweet onions, hard cooked eggs and meaty Maine sardines is a meal in itself and saves all the fuss and bother of preparing and wrapping lots of individual sandwiches. The one mammoth sandwich, wrapped in aluminum foil, is easily transported in the picnic basket and sliced in the four sections right at the picnic site.

While the filling may vary according to taste, the Maine sardines ensure the protein growing youngsters need. They are an interesting flavor accent, too, when combined with eggs and garden added if you wish; sliced radish, fresh tomatoes, Cheese mayonnaise or cucumbers give a crunchiness. Minced scallions or chives may be substituted for the sweet onions.

In the picnic basket, be sure to include some fresh fruit and bottles of your favorite beverage. It's a picnic in a minute—and oh, such a good one!

**Maine Sardine Hero Sandwich**  
Split loaf of French or Italian bread in half lengthwise. Spread bottom half thickly with mustard mayonnaise. Cover with lettuce leaves, a layer of tomato slices, a layer of onion rings, one of sliced eggs and one of Maine sardines. Cover with mayonnaise spread top half. Wrap in aluminum foil. When ready to serve, slice crosswise into four portions. Yield: 4 large servings.

Add two tablespoons prepared mustard to 1/2 cup commercial mayonnaise. Stir well. Yield: 1/2 cup mustard mayonnaise.

## Varied Menu Can Spark Appetites On Sultriest Day

On a hot, humid day, a picnic is one sure way to pep up summer appetite doldrums. If the family hasn't shown much interest in eating, plan an easy meal to serve outside.

A menu convenient for packing and carrying to a picnic site, whether in the backyard or at a distant park or forest preserve, is this one: Giant Picnic Sandwiches, celery and carrot sticks, assorted fresh fruits, bakery cake and an iced beverage. Ingredients for the Giant Picnic Sandwiches can be wrapped separately for assembling.

A quick way to make sandwiches for a crowd is to buy a long loaf of uncut French bread and cut it in half lengthwise. Arrange the filling of lettuce, cheese, tomatoes and cold cuts on one half of the bread; spread the other half with a thick layer of dressing and place it on top. Slice the big loaf into hand-size, individual sandwiches.

For a delicious, zesty dressing for Giant Picnic Sandwiches, prepare the recipe below. This tangy dressing is made with lemon-lime carbonated beverage. Flavored with the oils of real lemons and limes, this beverage gives a refreshing accent to the easily cooked spread.

**Lemon-Lime Dressing**  
1/2 cup all-purpose flour  
1 teaspoon salt  
1/4 teaspoon pepper  
1 7-ounce bottle lemon-lime carbonated beverage  
2 eggs

**ANOTHER REALTY CORNER SALE**—Residence at 167 Pitt Road, sold for Mr. and Mrs. Arthur Buckley Jr. to Mr. and Mrs. George Clay. Mr. Clay is district sales manager for Hobbs Mfg. Co. of Worcester, Mass. This sale was arranged by Alicia Romano, an associate of Anne Sylvester's Realty Corner.

1 cup salad oil  
2 tablespoons prepared mustard  
1/4 cup finely chopped sweet pickles  
Mix flour with salt and pepper and stir in lemon-lime carbonated beverage. Cook over low heat, stirring constantly, until mixture reaches the boiling point. Pour into a bowl and beat with a rotary beater or an electric mixer, adding eggs one at a time. Continue heating and slowly pour in oil. Stir in mustard and pickles. Makes about 2 cups.

## Hamburger Marks 55th Year as Aide To Summer Picnic

Ever since the summer day in 1904 when the hamburger sandwich made its debut at the St. Louis Fair, hamburgers and buns in all shapes and sizes have won the hearts and the appetites of the American public. We now consume over eight pounds of hamburger meat per capita per year. Regardless of shape, size or method of cooking, a true Heavenly Hamburger starts with fresh lean ground beef, seasoned with salt, pepper and monosodium glutamate, and lightly tossed to mix in the seasonings. One teaspoon of monosodium glutamate per pound of meat emphasizes

the robust beef flavor. Hamburgers are traditionally round in shape, but there's no reason why they shouldn't be given a bit of variety. Try a Heavenly Hamburger Hero; for example, by teaming the meat with juicy tomatoes and crisp lettuce, sandwiching the whole business between halves of a loaf of crisp-crust French bread. Or shape hamburger meat into patties and serve on Frankfurter rolls, topped with a thin slice of onion and a spot of catchup. Heavenly Hamburgers—Basic Mixture  
1 pound ground beef  
1 teaspoon monosodium glutamate  
1/4 teaspoon salt  
1/4 teaspoon pepper

## Dental Program Achieves A First In Local Schools

For the first time in the recent history of the dental program in the Springfield Schools two of the four elementary schools, namely, the Raymond Chisholm and the Edward V. Walton Schools, have achieved 100 per cent dental correction.

This means that every child in each of these schools, having had an examination by the school dentist early in the school year, have since had all necessary dental work completed. In the James Caldwell and the Florence M. Gaudineer Schools, the very great majority of the children have also had their necessary work done, which brought the overall percentage of the more than 1900 school children to a record high of ninety-eight percent (98%) who were given a clean bill of dental health.

As each child brought his certificate from his dentist indicating that all necessary work had been completed he was given a dental award which consists of a felt patch bearing the inscription Dental Award - 1958-59. In addition, all these children were given a special treat in school consisting of the showing of full length mov-

ing pictures for the primary and intermediate grades.

Last week the younger children saw the Disney version in color of "Alice in Wonderland." The middle grades in turn saw the film, "Treasure Island." The students in the Gaudineer School were guests at a magic show put on by Ed Patterson, the magic artist.

The Springfield Schools dental program which has achieved statewide acclaim as well as some degree of national recognition is under the supervision of the school nurses, Miss Florence Gaudineer and Mrs. Lillian Hawfler, and the school dentist, Dr. Robert Belliveau. Within the past year Miss Gaudineer was cited by the State Dental Association in recognition of her work in connection with the Springfield program. During the course of the school year officials of the State Department of Education and the State Department of Health spent a full day in the Springfield Schools to observe first hand the dental program in action.

Dr. Robert Belliveau, now completing his third-year as school dentist, announced today that he was particularly pleased with the results of the current year's program and that he was looking forward to even better results in the coming year. He called attention to the cooperation of the Board of Education, of Mr. B. F. Newslinger, Superintendent of Schools, the school nurses and other personnel of the Springfield Schools for their active interest and encouragement in carrying out such an effective program. Dr. Belliveau also commended the parents, other local dentists and last but not least the children themselves for their fine cooperation. On Carrier

beach breakfast, maple-blended syrup, gives an exotic glaze to the bananas and enhances their flavor in a new way.

The rolls can be glazed with maple-blended syrup and topped with coconut the night before the breakfast, and then just barely heated in aluminum foil at the coolest part of the grill. Conveniently enough, the cocoa is made at the scene with portable milk—that's rich, evaporated milk—that comes in cans—and since you've got your maple-blended syrup along with you to make the bananas, use it to sweeten the cocoa, too. It's a delicious outdoors treat.

**Bananas Grilled in Peel**  
Take a banana that has all-yeel-low or slightly green-tipped peel. That's because a less-ripe banana will stay firm during cooking. With a knife, make a lengthwise slit in the banana peel. Lifting the slit peel just a little with knife or fingers, drizzle in a little maple-blended syrup all along the slit. Now put the banana to grill on a grate over the glowing coals. The peel will turn black. The fruit inside will develop an extra-delicious, mellow flavor everyone will like. To eat the fruit, you just pull aside the peel and with a fork or spoon, eat the cooked fruit inside.

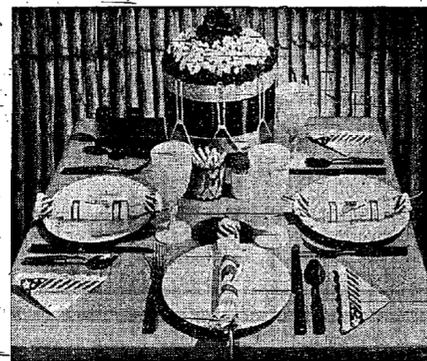

**Campfire Cocoa**  
4 tablespoons cocoa  
1/2 teaspoon salt  
2 cups water  
1 tall can (1 2/3 cups) evaporated milk

Put the cocoa, salt and water in a saucepan and bring to a boil, stirring constantly with long spoon. Simmer 2 minutes on back of grill (away from the hottest coals.) Stir in evaporated milk and maple-blended syrup. Bring to serving temperature but do not boil.

## July Fourth Traditionally Herdlds the Picnic Season

The Fourth of July officially heralds the picnic season... even though warm weather may have inspired families to start cook-outs sooner.

If you're planting a backyard barbecue or country picnic for Independence Day, let your imagination have free rein with table decorations. It should be both festive and patriotic—for it's Uncle Sam's birthday too.

As far as food is concerned, make it as American as apple pie. Serve hot dogs and hamburger, of course, and fried chicken. Be sure you've enough potato salad, cole slaw, hot dog rolls, buns and ice cold watermelon.

Put the table, use a bright red cloth, blue paper cups and white china-styled paper plates that won't blow away. If you're packing a picnic basket, use disposable containers. Waxed paper and aluminum foil can be used to wrap the chicken. Waxed paper if it's going to be served cold, foil if you're planning to reheat it.

Plastic bags will hold salad greens. Be sure to carry the dressing along separately so the salad doesn't arrive on the scene soggy. You'll probably want to stock up on individual salt and pepper shakers that come in cardboard containers. To avoid breakage, use plastic squeeze bot-

## Economy Picnic Can Be Savory, Easy to Prepare

Warm weather calls for still more picnics, and the question of what to take may need some new answers by now.

For economy—and good eating—try this menu: frankfurter rolls with a savory fish-n-egg salad filling, three-decker cream cheese and jelly sandwich squares, a salad combining lima beans, potatoes and frankfurters—and, of course, a welcome supply of bottled carbonated beverages. It's a hearty, nutritious combination, yet the cost is low.

**Fish-n-egg Rolls**  
(6-8 sandwiches)  
1/2 cup mayonnaise  
1/2 teaspoon Worcestershire sauce  
2 tablespoons lemon juice  
2 eggs, hard-cooked  
1/2 cup canned mackerel, drained  
1/4 cup minced green pepper

stap put in winds up to 35 miles an hour... so you don't have to chase after them when a gust comes by.

**Use Paper Streamers**  
Red, white and blue crepe paper streamers can be attached to the cloth with cellophane tape. In the center, you can use a child's toy drum, decorated with red and blue plastic tape. You'll probably want to get small flags to attach to the drum... or stick through the drum skin. Red, white and blue flowers complete the picture.

Whether you're driving to a camp-site or planning the festival in your backyard, be sure to organize the food so it requires minimum work.

If you're packing a picnic basket, use disposable containers. Waxed paper and aluminum foil can be used to wrap the chicken. Waxed paper if it's going to be served cold, foil if you're planning to reheat it.

## Camera Now Holds Important Berth On Picnic List

Picnics are colorful occasions. The food is attractive and vividly set forth with gay napkins and baskets and tablecloths. The girl's outdoor clothes and the men's sport shirts and the kids' play clothes are brightly hued; The surroundings of lake, seashore or mountains, with a sunny blue cloud-decked sky supply a backdrop of color for the brilliant foreground scene.

When so much living color is gathered happily together for a few hours it's a pity not to preserve it for longer. So take your camera on every picnic, and be sure to take plenty of color film. With today's film color pictures are as easy as black-and-white. Whether a picnic is a small, family affair or draws a crowd

1/2 cup chopped celery  
6-8 frankfurter rolls  
**Salad Greens**  
Blend mayonnaise, Worcestershire sauce, lemon juice; stir in mashed hard cooked egg yolks and minced egg whites; add

mackerel, green-pepper and celery. Line frankfurter rolls with salad greens and fill with mixture. (Makes about 1 1/2 cups filling). Chill filled rolls; then wrap individually for carrying.

**Mashed Picnic Salad**  
(serves 6-8)  
6 medium size potatoes  
5 frankfurters  
1 box frozen lima beans  
2/3 cup dried celery  
1/4 cup chopped onion  
1 cup mayonnaise  
2 tablespoons vinegar  
1/2 teaspoon dry mustard  
1/2 teaspoon thyme  
1/2 teaspoon marjoram  
1 teaspoon salt  
Pepper, dash  
1/2 cup cola carbonated beverage  
Salad greens

Cook potatoes in jackets; cool, peel and dice.

**Backyard Tips**  
If your picnic is of the backyard variety, set up a separate serving table, next to the grill. On it will go all non-perishable items, such as rolls, condiments, marshmallows. Just before the picnic begins, bring the meats, vegetables... and then you won't have to traipse back and forth from kitchen-to-picnic-table.

Plan games or activities for the youngsters. Harmless noisemakers and cap guns will provide the fireworks. Or start a Fourth of July scavenger hunt, listing items that have to do with Independence Day. The list might include a flag, a picture of George Washington, a Lincoln penny, a red flower, and so forth.

In the hundreds, it inevitably begins at home. For a complete photo-log of the day, start around the house with some snapshots of food preparation, car loading, and other preliminaries. On the same roll of film you can snap indoors with clear flash lamps and outdoors by sunlight.

**Get Action Shots**  
A good outing is something more than a group of people gawking self-consciously at a camera; so try to make your pictures show more of the picnic than this. It isn't necessary to let your camera take over the picnic, but try to steal a few moments every once in a while to snap whatever is going on.

Unposed shots of the children are some of the best pictures you'll get on a family outing. One hint can improve such pictures greatly. This is: simplify the background. The natural charm of such scenes can be lost if there are too many distracting elements—other people, beach umbrellas, buildings, playground equipment—in the background. Simplification usually involves nothing more than moving your camera a few inches up, down or to one side until the disparate elements have been eliminated or rearranged in such a way as to complement and not take away from the actions of the main subject. Watching the background is particularly important in color picture-taking. A spot of red in the distance can dominate the final photograph.

Another tip—and it's surprising how many people forget this—is to follow carefully the instructions that come wrapped around every roll of film. Beach pictures must be treated as bright, not average, photographic subjects. The instructions will tell you to use a shorter speed or smaller lens in order to compensate for the high reflecting qualities of an expanse of sand.

When you load up the picnic basket and the car, load up your camera with color film. Then you'll be able to keep this July color feast the year around.

## Start Hospital In Livingston

The cornerstone of the new 42-bed West Essex General Hospital—at Hillside Avenue, near Northfield road; Livingston, will be laid this Saturday afternoon at 3 p.m.

The building will be a one story modern, fire-proof structure with all departments and equipment of a complete hospital—medicine, surgery, obstetrics, X-ray, laboratory, and a department for physical therapy and rehabilitation. Provision has been made for expansion of the building to keep pace with the needs of the community.

Most of the cost of the project, about \$750,000 for land, building, fees, and equipment will be financed, at least initially, by the doctors on the staff. There have been some public contributions. Dr. Crawford A. Butterworth of Millburn Avenue is one of the 22 man medical staff.

It takes months for water to evaporate from brick work and plaster. Just after such a house is completed, it is estimated that the average room contains about a ton of moisture.

The average white hunter who leads tourists on African safaris is a crack shot, speaks several native languages, and earns about \$700 a month.
