The Men's Club of Springfield Presbyterian Church will receive an up-to-the-minute report on construction of arterial highway facilities in the New Jersey-New York Port District at its meeting Monday at 8 p.m. at the Church Parish House, Main Street and Morris Avenue, Springfield. State Highway Commissioner Dwight R. G. Palmer, who has been very busy working out some financial relief for the railroads, unveiled a \$119 million highway construction program for 1959-60.

The total program will cost \$11 million more than last year BUT NOT ONE PENNY IS EARMARKED FOR THE ALTERNATE ROUTE 22—OR NEW FEDERAL HIGHWAY 78, AS IT IS KNOWN.

However, this does not mean that Mr. Palmer has swept the new Route 22 off the drawing boards.

Some 53 million dollars of the \$119,000,000 figure is to be spent on the Bergen-Passaic Expressway, most of it in the section adjoining the George Washington Bridge.

Middlesex County projects listed include: An overpass at Route 1 and Woodbridge Avenue, for \$4,000,000; resurfacing and widening of Route 28 in Middlesex Borough, \$200,000; and revision of the intersection of Route 27 and Grove Avenue, Metuchen, \$30,000.

A two-million-dollar construction project at the intersection of Liberty Avenue, Hillside, was announced.

The Hillside project is the only one listed for Union County in the program, which will be financed with state and federal monies.

### Sen. Williams Attends Dems Annual Picnic

Attendance at political picnics are not always a sure harbinger of what's in the minds of the voters—but when one side can attract 1,200 people to Evergreen Lodge it must mean something to those who like to predict election results.

That's exactly what the Springfield Democratic Club did last Sunday—and they were in and out of the picnic grounds until after 7 o'clock in the evening.

Not only did Russel W. Sibole and William H. Balentine, the Democratic candidates for the two places on the Township Committee, do a lot of old-fashioned handshaking and greetings to neighbors but the picnic grounds were swarming with political leaders—and Union County candidates on the Democratic ticket this November.

The high spot of the day came when U.S. Senator Harrison A. (Pete) Williams took time out from his many commitments throughout the state to visit with the Democrats of Springfield at the picnic and stay through practically the entire afternoon. He addressed the throng during the course of the day, urging Springfield to

### Dems Deplore Mess In Tax Collections

Township Committee candidates Russel W. Sibole and William H. Balentine today endorsed the governing body's investigation into the failure of past administrations to collect thousands of dollars in delinquent taxes.

The candidates declared that the people of Springfield are shocked and indignant over this disclosure of laxity and are entitled to a complete accounting.

In their appeal for a full and immediate report to the taxpayers of Springfield, Sibole and Balentine expressed principal concern over former Mayor Binder's admission that he had no knowledge of any difficulties or arbitrary procedures in the collection of delinquent taxes.

"We must then all ask ourselves, Sibole and Balentine said. Where else has laxity in past administrations occurred at the expense of the taxpayers?"

"The people of Springfield cannot forget that it was Binder and his political associates who throughout the years of runaway taxes here campaigned for the governing body on a platform that denied the existence of spiraling taxes or any other tax problems.

"The taxpayers of Springfield weren't sold on this Binder."

## Lucy Says Huff Asked For Help In His Report

Uncollectable taxes and some still delinquent payers—amounting to many thousands in back taxes and interest—threaten to become one of the chief campaign issues in Springfield this November no matter how much both political parties are trying to keep it out of the campaign.

An independent audit of the tax collector's office was ordered by the Township Committee last week after receipt of a report showing \$28,000 in business property delinquencies. The report came from Charles H. Huff who has served since 1934 as a Republican administration employee. He is 77.

After the first report that an audit was ordered, Tax Collector Huff issued a statement in which he termed incorrect a statement by Township Committeeman Daniel M. Lucy that "about \$50,000 in taxes have gone uncollected since 1952."

Township Committeeman Lucy, Chairman of the Finance Committee, has issued a reply to Mr. Huff's published statement in the Newark News regarding the need for "a deputy tax collector" so that the delinquent tax payments were partly due to shortage of help.

Mr. Lucy's statement points out that Tax Collector Huff did not make the request for additional help until he was asked for a report on the delinquent taxes "and was made part of that report."

"The statement by Charles Huff, Tax Collector, in last Friday's Newark News," said Mr. Lucy, "is inaccurate in many respects and can only be considered an attempt to gloss over the facts with regard to the tax collection deficiencies in his office."

"He claims to have informed me by letter some time ago that he is in urgent need of a Deputy Collector, and that I ignored this request."

"The facts are that it was not until a report was demanded of Huff, which later showed thousands of dollars of uncollected taxes, that the matter of a Deputy Collector was mentioned."

"Obviously this request would not have come had we not uncovered these deficiencies. His request was made a part of his report which was dated September 15, 1959 and was delivered to me on September 21, 1959."

"As soon as this report was received an investigation was (Continued on Page 2)

Dr. Robert S. Milligan, township health officer, today warned residents to take all precautions to avoid contamination from mosquitoes which cause sleeping sickness.

He urged all swimming pools, cans, and flower pots be emptied of water. He also warned that bird baths should be emptied and back yards cleaned up with garbage and refuse cans covered.

Dr. Milligan said all children should be indoors by 5 p.m. He pointed out that mosquitoes travel in large numbers and are active at dusk.

The health officer said residents should keep out of South Jersey. If the area must be visited, travelers should ride with their car windows closed and spray inside their car, he warned.

## THIS WEEK

### Mr. Palmer Doesn't Have the Time?

Springfield property owners—prospective purchasers of homes in the Township—real estate men, public officials and practically everyone interested in the future of the community—will just have to “twiddle their thumbs” until State Highway Commissioner Dwight R. G. Palmer has time to do something about the new alternate Route 22.

He has just announced that the new federal highway (Rt. 78) is NOT on his construction program for 1959-60.

Practically everything in the area shown on Mr. Palmer's map as the possible route of the new federal roadway is at a standstill.

Real estate offices cannot sell any homes anywhere near the proposed route, construction of proposed business places is being held up just because Mr. Palmer, after several years of public hearings, planning, surveys and tons of correspondence, says there isn't a penny for the new Route 22.

Even the East-West freeway is not on this year's program but the Bergen Expressway is being taken care of which won't hurt the vote on the Turnpike-Commuter referendum in Sen. Jones County. And the fact that Middlesex County is on the construction program with about \$2 million in projects is not too difficult to explain.

The Newark News doesn't feel too kindly as the following editorial on the subject will indicate, which was published last week under the heading “Essex Detoured.”

“The 1960 state highway program makes no provision for the two projects of greatest need in this area, the east-west freeway and the new Rt. 22.

“The program includes more than 67 million dollars for the interstate highway program, to which the federal government contributes 90 per cent, but most of this is to be spent on the Bergen expressway.

“The department explains that because of the deficit in the Federal Highway Fund it is receiving \$22,500,000 less than it expected.

“This does not explain why planning for the east-west freeway is not further along or why there have been no decisions on important aspects of the project.

“A 13-hour hearing on the alignment and profile of the freeway was conducted by the Highway Department in Newark on March 31.

“On April 8 Commissioner Palmer said the state's recommendations, along with a transcript of the hearing testimony, would be sent to the Federal Bureau of Public Roads within a week and a decision could be expected in late June or early July.

“Subsequently West Orange submitted figures indicating the Highway Department may have overestimated the cost of tunneling First Mountain.

“On July 15 Mr. Palmer said the department was studying the West Orange report and would file findings in Washington about Sept. 1. That would delay the decision until after Oct. 1, Mr. Palmer said.

“Later in July he announced that before the recommendations went to Washington he would walk over the freeway route ‘foot by foot.’

“The department has not kept to its own time

schedule. Its failure to reach necessary decisions cannot be attributed wholly to a shortage of funds.”

But there's always enough time for “bailing out” the railroads.

### Lucy

(Continued from Page 1)  
ordered and therefore it cannot be said to have been ignored by the present administration.

“If anyone ignored the existence of this situation over the years it is Mr. Huff and the past administration under which he served.

“These conditions were only allowed to develop because the past Township Committees, rather than acknowledging that inefficiencies could exist under their rule, preferred to bury their heads in the sand and ignore what was going on about them.

“The present administration cannot and will not tolerate inefficiency wherever found in our township government,” Mr. Lucy concluded.

Mayor Vincent J. Bonadies asked that the check by the auditors go beyond the normal collecting activity and delve into procedures of the tax collector.

Mr. Lucy, finance committee chairman, said that about 100 names are on the list received from Mr. Huff. They include several leading businessmen who could pay all the taxes put together,” he added.

Many Left Township finance chairman said that half of the 100 persons named on the list, which covers business taxes back to 1952, either had moved from town or had gone out of business.

He said that \$7,877 in business taxes still owed could be accounted to persons who recently moved from the township.

The balance of about \$20,000, he added, is owed by a few persons and firms.

Mr. Lucy's report, it was revealed at the executive session, stated that \$50 personal property taxes were uncollectable. Real property accounts were not included in the report, Mr. Lucy later pointed out.

Democrats asked that conflicts between the auditors' reports for 1957-58 and that of the tax collector's office also be cleared up.

Mr. Lucy remarked that if the collections were continuing to pile up, they should have come to the attention of the Township Committee.

Lucy said that audits by F. J. Stefany and Co., Irvington, show that since 1952 business taxes and interest totalling \$28,000 have not been collected. Also uncollected is \$20,000 in real estate taxes for 1958 and personal property taxes from 559 families.

Can Collect  
He said that of the \$28,000 in business taxes, some 22,000 can be collected from 12 firms still located in Springfield. The balance is lost because the firms have since moved.

Lucy said the issue came to his attention when he learned recently that a firm located in the township went bankrupt and moved out owing the township \$3,500 in taxes due in 1957.

Lucy said: “It doesn't seem fair or proper that some busi-

nesses should be allowed to drag out their debts while others are not allowed to do so. This also represents a loss of revenue to the town,” he said.

Sales in November  
Huff said he expects to realize some \$20,000 in real estate taxes owed for 1958 with public sales in November. Huff said he had so informed Lucy in a letter some time ago, in which he stated that November tax sales have been customary in Springfield and that taxpayers are notified in October they must pay by Nov. 1 or face action aimed at foreclosure.

As for about \$28,000 in business taxes owed since 1952, Huff said some of the firms have been gradually paying their debts to the municipality and are merely a year or two behind. “Others simply are in bad financial condition. They just don't have the money,” Huff said.

Huff said his leniency with businessmen delinquent in their tax payments is partly due to shortage of help. He said he “urgently” needs the aid of a deputy tax collector, and that his request to Lucy for one was ignored.

Huff confirmed a statement by Lucy that personal property taxes from 550 persons were not collected, but said that most of the persons involved were apartment dwellers who often moved away without applying for a moving permit. And only through a moving permit can we get them,” Huff said.

Huff said that while in office he has collected an average of 87 per cent of taxes, which, he said, was above average for the state.

“Efforts must continue by Springfield administrators to hold the tax line. This cannot be achieved, Sibole and Balentine said, under such conditions of laxity that allow thousands of dollars in delinquent taxes to pile up, some of which is now uncollectable.

A telephone call was made to the Springfield police and the Jersey Central Power & Light Company was notified. The power company's emergency truck was soon on the scene and the danger of live wires

dropping down on busy Morris Avenue traffic was over.

Lance and the O'Connors continued their daily walk, satisfied that the dog had probably “done his good deed for the day.”

### LETTERS TO EDITOR

Editor, Sun:  
The first three paragraphs of the story printed in the upper right-hand corner of the last issue of The Sun sounded very noble, and for a moment, it looked as though the political campaign this year might be conducted on a more dignified plane. But alas—that hope lasted only a moment. The final three paragraphs lapsed into the same old pattern.

The contenders are entering the arena a bit earlier this year. Their swords are drawn and their arrows and darts are sharp as needles. It looks like another knock-down, drag-out campaign.

Why is it necessary to infer that the opposition is dishonest? Why is it necessary to smear his character? Most dedicated and devoted men resort to these tactics in order to win an election? Is the victory worth this type of battle? Cannot ALL contenders campaign like gentlemen?

Criticism of others reflects on one's self. The one who slings mud is always left with dirty hands. When you point a finger at someone, remember that three of your fingers are pointing at you.

Many good men shun public office because the word “politics” carries with it a connotation of greed and corruption.

Adults are not the only people who read campaign speeches. The voters of tomorrow who are in our high schools today are exposed to our opinions. Would we be proud to have our young people emulate us?

“God has given us tongues so that we may say something pleasant to and about” our fellow men.”

Suburban Deborah League would like to thank the citizens of Springfield who gave so generously to our recent Fund-Raising Drive. We hope that most of you have come to know of our work in detail through the women who called on you. We received several queries from prospective patients when they learned of the Deborah hospital and its services.

The fact that anyone can turn to our nearby hospital for chest cancer, tuberculosis and heart surgery care, plus the fact that the complete cost of operations, nursing care, medicines, etc. are completely borne by auxiliaries such as ours accounted for the great success of our drive.

Again, we thank all for your cooperation.

### Health Officer Warns Of Acid Solution

A warning was issued today by Dr. Robert S. Milligan, Springfield health officer, to destroy “Fashion Quick Salon-Tested ‘Permanents.’” It is manufactured by Richard Hunt Co. All women were told not to use the product. The health officer said it either should be destroyed or returned to the place of purchase.

The Philadelphia Office of the Federal Food and Drug Administration has announced that the company is withdrawing the product from the market.

The following is the announcement received from Robert Stanfill, District Chief, Federal Food and Drug Administration, Philadelphia: “Women who have purchased the new ‘Fashion Quick Salon-Tested Permanent’ manufactured by Richard Hunt Co. are being warned by the Company

that the product is capable of causing severe and painful eye irritation lasting several days, should any of it get into the eyes.

“The manufacturer has done a good job of notifying retailers to stop selling the product and to put it aside until they can replace the neutralizer solution, but we are concerned about consumers who may already have purchased this product or who may buy it before it is taken off the shelves.”

The Federal Food and Drug Administration said the warning does not apply to “Quick Home Permanent” which has been sold for many years without a Shampoo Neutralizer.

The Federal Food and Drug Administration said the warning does not apply to “Quick Home Permanent” which has been sold for many years without a Shampoo Neutralizer.

“The Philadelphia Office of the Federal Food and Drug Administration has announced that the company is withdrawing the product from the market.

The following is the announcement received from Robert Stanfill, District Chief, Federal Food and Drug Administration, Philadelphia: “Women who have purchased the new ‘Fashion Quick Salon-Tested Permanent’ manufactured by Richard Hunt Co. are being warned by the Company

that the product is capable of causing severe and painful eye irritation lasting several days, should any of it get into the eyes.

“The manufacturer has done a good job of notifying retailers to stop selling the product and to put it aside until they can replace the neutralizer solution, but we are concerned about consumers who may already have purchased this product or who may buy it before it is taken off the shelves.”

A 600-year-old tree known as the Pemberton Oak stands on the old Pemberton farm six miles from Bristol, Tenn. It is said to be the only tree still living that played a memorable part in the Revolutionary War. Under its branches the mountaineers from Tennessee and Kentucky bivouacked before marching to the Battle of Kings Mountain. It now has a circumference of 18 feet and shades half an acre.

Hi there readers! An eventful week has just slipped away leaving me with enough material to write about in my column and to interest most of you.

Senior Play Try outs for the Senior Play have been completed and the cast has been chosen. The play selection this year is The Diary of Anne Frank. Final try outs on September 21st were held at 8:10 in the Dramatics Room. The cast was chosen by Mr. Joseph Trinity director of dramatics at Regional High School, and announced on the following morning. The cast is as follows: Lynn Urner, Anne Frank, of Mountainside; Cynthia Harter, Mrs. Frank, of Mountainside; Dorothy Stewart, Mrs. Van-Daan, Jackie Meros, both of Kenilworth; and Rita Lester, Margot, of Springfield; Mickey Lasser, Peter, of Springfield; George Seltzer, Mr. Frank, of Springfield; Ken Ben-Ari, Mr. Van Daan of Mountainside; Elliot Koretz, Mr. Krater, Jay Gladstone, Mr. Dussel, both of Springfield. Most of the senior students at Regional High School are in this play and at this point I would like to join the staff of this paper in congratulating the members of The Diary of Anne Frank. Rehearsals started on Thursday last, and have as of this week started their rehearsals. Lots of luck kids!

Student Council Dance The Student Council Dance that was held on Sept. 25th was a big success. Under classmen galore and a fairly large number of upper classmen got together and made the dance a huge success. At 9:30 a hush (?) came over the gym and the 1959-1960 cheerleaders took over. This year's cheerers are: Cheryl Ioas, Carol Marano, Joyce Harrison, Joan Pitney, of Springfield; Judy Bell, Sandy Carson, Joyce Hartung, from Mountainside, and Gail Gunther, Lois Anthony, and Lillian Connet of Berkeley Heights. They continually cheered our great team and finally called upon Coach Palmer to introduce the griders to the assembled crowd. For the underclassmen, this was like meeting movie stars judging from the applause. The upper classmen having seen the might and force of the Regional team clapped from sheer pride and all in all gave the boys a welcome equal to a king's. After the boys once more mingled with the crowd (to sign autographs-probably) the cheerleaders gave way to the twirlers. They are this year: Jean Cooney, Toni Minnette, Joan Nemerson, Ellen Peinhardt, Joan Arnold

## TAKING CARE OF YOUR GARDEN

By Edward A. Cardinal

This dry spell is one of the especially those planted this year. I have seen in a long year, are suffering badly, and some Hemlock and spruce, many have already lost their

needs. Those that have lost the foliage should be trimmed heavily and soaked thoroughly before the branches die completely. Many other plants are suffering badly, but the damage will not be as noticeable. The symptoms are premature loss of foliage, or change of leaf color. If the leaf, or needles, lose the normal glossy color, start watering immediately.

Q: When I water my lawn, doesn't that provide enough water for the shrubs, too?

A: The light sprinkling of a lawn will not give sufficient water to shrubs. Plunge a digging fork into the soil around the plant a dozen times, then place the end of the hose at the plant and turn on the water just a trickle. Allow this to run until the ground is thoroughly saturated. Better yet, buy a root irrigator which can be purchased from \$2.75 up to \$6.95. The cheaper ones are a metal tube, pointed to provide easy penetration.

Q: My ground dries out so fast, yet my neighbor, across the street, hardly ever waters the lawn and shrubs. What causes this condition?

A: Your neighbor's property is many years old, and built before builders started striping the topsoil. Her soil contains a high percentage of organic material which acts as a sponge to absorb and retain water in the soil. Your soil is clay, with practically no organic material to retain water, and packed so hard that a large percentage of the rain runs off without penetrating the soil. Add gypsum—at the rate of 100 lbs. per 1000 sq. feet to aid water penetration. It will benefit your soil considerably. NOTE: Write to this column, or stop in at our garden center, for a bulletin on "Improving Soils With Gypsum," published by Union County Agricultural Extension Service.

Q: I put chlorane powder on my lawn, but grubs are still alive. Shall I re-apply?

A: If you put on the proper amount it should be sufficient. However, the dry weather has prevented the powders from working. I would give the lawn a soaking once, or twice to dissolve the material.

Q: I would like to start a new Merion bluegrass lawn. Is it too late?

A: I would not advise it unless you cover with a thin layer of salt hay. This will protect from washout, and speed up germination by providing heat and retaining moisture. If cold weather should suddenly come upon us, the salt hay will provide a much over-winter and your lawn should have a head start in the spring.

Q: Is this a good time to plant evergreens?

A: The season is right, but the ground is too dry unless we get rain, or you are prepared to keep them well soaked. Wait a few weeks for flowering shrubs and trees.

# FROM THE GRANDSTAND

By Doug Voigt

Regional's gridiron warriors came away victorious from the contest with the Hillside "Comets" for the twelfth time in thirteen meetings with the visitors. The final score read 20 to 13, and this represented a valiant comeback by the "Orange and Blue". Having trailed for the majority of the game, the "Bulldogs" took advantage of every break in the fourth quarter and pulled out a victory labeled an upset by the Newark papers. This writer had brazenly chosen the home team to win, and when he read the prognostications gulped hard and hoped for the best.

My prediction looked good when Springfield took the ball after a fumble recovery on a punt return, but when the visitors retaliated for their first touchdown, the skies darkened, figuratively speaking, and I began to shrink down among the crowd hoping that nobody would recognize me.

After two periods in which the Regional representatives could do nothing toward their goal of winning the first one for their new coach, Don Schneider, the gridgers finally seemed to come to life and move like a true football machine. They began on their own thirty-six yard strike and pushed the opponents back to the goal-line which meant six points for the "Bulldogs" and joy for those who had stubbornly stuck by their favorites. Ed Reese capped this sixty-four yard drive by sneaking over from the 3. Ron Bell added the extra point on a straight ahead run, and the score had been equalized.

Regional's kick-off after the touchdown was short, and Hillside had possession at the mid-field stripe. This seemingly gave them a break of which they were going to take advantage. They were moving smoothly until Herb Etzold plucked a pass out of the air and carried it to the 25-yard line of Hillside. From this point the gridgers moved quickly toward the goal and climaxed the drive with Bell going over from the two. Bell also ran the extra point to give Springfield a seven point spread.

These two last-ditch scoring efforts offset an outstanding display of ability by the Hillside fullback, Ed Ziobro. Ziobro was the big gainer for the "Comets" and was a demon on defense. He was extremely good to the outside which is not expected of a boy of his stature. Springfield's play was highlighted by swift, hard tackling on defense and fancy running by the backs on the offense. The defense got pushed around a little in the early moments of the third quarter, but otherwise looked very well against the opposition's onslaughts. The only play which gave them any trouble was the quick pitchout to Ziobro, who would skirt the end.

Regional's offensive unit func-

extension of reality. Coach Hunchar's soccer team was tied in its season's debut at Kenilworth against Scotch Plains. The final score read an even one up. They play two games this week, one against Hillside on Wednesday, and another against Edison on Friday.

**HOW Water Works**  
In INDIA, one of the religious beliefs is that bathing in the Ganges River removes all sin from a person! The water from this river is bottled and taken to all parts of India for sacramental and medicinal uses.

**SOME PROVEN BATH FACTS**  
To cool off during hot weather, hot or warm baths are best. Reason: the release of internal body heat thru dilation of blood vessels. In cold weather, rinsing with cool or cold water, rebalms body heat. In a reverse action, bathing does NOT induce the common cold. A Bath does "tune you up," both mentally & physically!

## Been Elected New Publicity Chairman? Here's How to Help Us and Your Club

Each year many organizations, civic groups and clubs appoint publicity chairmen to submit material for newspaper publication. Generally, these chairmen are not trained in journalism and have no idea of how to prepare their copy. Quite often, good stories must be rejected because the publicity chairman missed a deadline or because the copy was improperly prepared.

The various editorial desks of this newspaper are jammed each week with copy—some good, some bad—but all of it news about local happenings. Unfortunately there is not always time to patch up the copy and mould it into presentable fashion for publication—feelings are hurt and the paper loses a good story.

**News or Publicity?**  
That immediately suggests the question, "What is News?" The simplest answer is, "What people are interested in reading." A story increases in news value in direct proportion to the number of persons interested in reading it.

A distinct difference should be recognized between "publicity" and "news." When a person says, "How can we get more publicity for our club," the answer is, "By publishing leaflets and brochures, distributing posters, circulating letters, buying advertising space." We should recognize that a newspaper is not a publicity organ. A newspaper is just what it says it is—a NEWS paper and when there is a NEWS story, the paper prints it. The publicity the organization gets from the story is a by-product.

Every group, regardless of political or religious ties, is welcome in our news columns, the only requirement being—is it News? For obvious reasons, however, the editors must screen out objectionable or libelous material not only for the paper's protection but for the protection of its readers and interested groups.

Most newspapers have established certain rules which have been set up to help publicity chairmen present their stories in the most attractive manner. Remember, others will be reading your stories besides your friends and members of your own group. Stories must be written so that even a stranger can understand the facts.

These rules may seem harsh

at times—especially the deadline—but each and every one has an important meaning. In order to avoid misunderstanding and to make sure publicity chairmen are aware of requirements, we publish the following summary of deadlines, tips on reporting and miscellaneous information:

**Type If Possible**  
Leave two inches space at the top of a story and one inch margins.

Typewrite, using double spacing. Write on one side of paper only.

Write your name, address and telephone number at top of the story, so we may check further with you if necessary.

Stories will not be accepted after deadlines.

Very stale news of events will be cut extensively or completely rejected.

Very brief reports may be telephoned but long lists of names will not be taken on the telephone.

The editors will write the headlines.

**Writing the Story**  
The opening part of the story, called the lead, ought to contain the most significant or interesting statements.

A report of a meeting ought not to begin with the fact that the meeting was held. This is the least interesting opening. State instead what plans were made for future events, what the main theme of the speaker was, whether there was an unusually large attendance or any other outstanding feature on the program.

Newspapers no longer use the informal style of many years ago. Comments on how delicious the refreshments were, how charming and informative the speaker was, and appeals to "come one, come all" are definitely out of date and no longer acceptable.

Learn to summarize and condense your facts. List persons who gave reports, greetings or brief speeches, rather than make a separate paragraph or sentence for each one.

Do not try to cover a meeting by writing something that sounds like minutes.

Try to include something of what the speaker said. After all, he is the main feature of many programs.

Lists of food and prices of

tickets are not included.

**COMPLETE names** must be given, including full first names, or TWO first initials. Do not give nicknames or abbreviations. For a married woman the husband's first name and middle initial is the only correct form.

**Pictures**  
Pictures should be black and white prints with a glossy finish. The more contrast between black and white there is in a picture, the better it will print. Size and position of picture in the paper, as well as acceptance or rejection of a picture submitted, are entirely at the discretion of the editors.

Pictures must be in the office the Tuesday noon before publication.

Photographs may be called for after using.

**Editing**  
The newspaper reserves the right to edit, as the staff sees fit any copy submitted, in order to give greater variety and effectiveness to stories.

**Miscellaneous**  
National postal laws prevent our publishing the word "bingo," "lottery," "drawing," and so on, as well as lists of lottery winners of any kind. Thus, we do not use dark horse prizes, door prizes, or winners of merchandise clubs. Papers using such information may be taken from the mails by the government.

Information given must be new. Items will not be re-run, or facts repeated when planning advance publicity for an event, it is best to start about three weeks before the date, carefully dividing the information on hand for a series of stories.)

Talk over your publicity plans, or any other news problems with the editors, who will be glad to assist. Publicity chairmen ought to report the news of all meetings.

**Personal News**  
You are invited to submit news of your individual parties, vacations and entertainments.

This paper has some editorial policies which, from time to time, confuse or irritate contributors. These policies are not exclusively ours but are in general line.

Those of all progressive and modern newspapers, weekly or daily.

For example, since we are a community newspaper we publish local news only. We are not a newspaper of general circulation. We can not begin to publish news and articles about every subject that is of interest to our readers. The fact that our readers would be interested in a piece of information is not the final test of whether we should publish it. For good and sufficient reasons we have concluded that we shall confine our columns to local news and leave all non-local news to the numerous publications outside of the community.

Unless something happens in the communities served by this paper or happens to local people when in the community or elsewhere, it is of little value to us.

This policy in turn brings us to another matter and that is that of national publicity of organizations having local affiliations. News of state or national doings of these organizations, unless it involves local residents directly or unless it happens locally, is of no value to a community newspaper.

We also strongly urge all publicity chairmen to rigidly observe deadlines. In this respect copy submitted early gets the best treatment for it is prepared without the immediate pre-deadline rush.

If a meeting occurs on a Thursday or Friday, it should be submitted as early as possible and not on Tuesday before dead

line.

Deadlines for this paper are as follows:  
All items for the church calendar must be in the office no later than noon on Monday.  
All photographs submitted for publication must be in our hands no later than noon on Tuesday.  
All other editorial material must be submitted no later than 4 p.m. Tuesday.  
Classified advertising may be phoned or brought to the office by 4 p.m. on Tuesday.

When special deadlines are created by a holiday falling upon the usual Thursday publication day at least one week notice will be given of deadline changes.

News items submitted to this paper and printed by us will receive circulation only in the communities covered by us. They will not be "automatically" printed in any nearby community newspaper.

Many public relations chairmen, we have found, believe an item concerning their organization that is printed in this paper includes publica-

tion in other newspapers.

Each community newspaper in this area has its own office, editor and editorial staff and final judgment regarding the publication of any material rests solely with the newspaper involved.

Putting out a newspaper is a manufacturing process. There must be order, organization, system and schedules to be met, unless they are met, the staff can not produce the type of paper you desire.

# Prince Land Owners Seek Cut In Tax

Only one large appeal for a reduction in the assessed valuation of property in Springfield has been filed with the Union County Tax Board.

That one is the request by Paul E. Prince, Sr., who asks for drastic reductions on vacant land located in the rear of Howard Johnson in Route 22. One block of Prince property, made up of 37.9 acres, was given an assessed valuation of \$106,000. This is 40 per cent of the true valuation as set by the recent equalization.

Mr. Prince asked to have this assessed valuation of \$106,000 reduced to \$30,300.

On another piece of property, also located on the Howard Johnson side of Route 22, is made up of 18.11 acres which has been assessed for tax purposes at \$50,700. The owners have asked for a reduction to \$29,000.

The Prince property, one of the very few large pieces of acreage still left in Springfield is considered one of the highest priced in this area, according to real estate men seeking to purchase some of this land for various purposes.

The Union County Board of Taxation has reserved decision in the Prince appeal for a cut in assessed valuation.

There were only 18 appeals to the County Tax Board from Springfield this year as compared to approximately 250 last year which could not be adjusted and settled by the Springfield assessor's office.

The National Shoes had appealed for a reduction in their assessed valuation of property in Route 22—but this has been withdrawn.

Hearings were held and decisions reserved on the appeals of the following other Springfield property owners.

The taxpayers, the assessed valuation and their requested valuation follow:

Fannie Flugman, 534 Ashwood road, \$10,200 to \$8,200; Benjamin Resnick, 15 Archbridge lane, \$11,300 to \$9,600; Irwin Bross, 65 Evergreen avenue, \$9,800 to \$8,000.

David Weinstein, 74 Irwin street, \$13,800 to \$10,000; Walter Ballus, 524 Ashwood road, \$10,600 to \$8,800; V. Leslie Pushman, 840 Mountain avenue, \$17,100 to \$14,100.

F. A. Schumacher, 180 Short Hills avenue, \$9,300 to \$8,200; Chester E. Serbe, 120 Millburn avenue, \$7,600 to \$2,000; Frank O. Goebel, 188 Short Hills ave-

nue, \$14,400 to \$11,600; Fred Putigan, 113 S. Maple avenue, \$8,100 to \$5,600; Ben S. Simon, 81 Cain street, \$7,700 to \$6,800; Wallsworth Baldwin, 64 Ruby street, \$5,200 to \$4,000; Carl F. Steinback, 2 Perry place, \$6,900 to \$6,100.

**BALANCED DESIGN**—Many features of the balanced design of Oldsmobile for 1960 may be seen in this photograph. Entering the picture at the left is a 1960 Oldsmobile Dynamic "88" Celebrity Sedan. The chrome-plated bars in groups of three across the front give the grille a wide stable look. The outboard pair of headlights are set slightly to the rear of the inboard pair with a block numeral "88" for identification. In the "88" and Super "88" series the Oldsmobile crest is used for identification. The parking lights are safely recessed in the corners

of the sturdy bumper. At the right is the unique rear end treatment of the 1960 Oldsmobile as seen on the "98" Holiday Sport Sedan. The gas filler cap is located behind the hinged license plate. In the center background is a 1960 Oldsmobile "98" Holiday Sport Coupe showing the clean lines which feature Oldsmobile's balanced design for 1960. This combination of views shows the low, level design of the hood and the expansive "Clean-Sweep" rear deck to good advantage. The car can now be seen at Sperco Motors, 491 Morris Avenue.

### Postmaster Lists Letter Week

The 22nd annual Letter Writing Week will be celebrated in Springfield next week. It was announced today by Postmaster A. V. Del Vecchio.

"I am sure we are all aware that a personal letter is, next to an actual visit, the most intimate and economical means each of us has to communicate with our fellow human beings. Accordingly, I urge everyone to 'write today—to those away'." Del Vecchio said.

Posters depicting a mailman in a new postal vehicle called the mailster, will be displayed in post offices throughout the country. Colorful streamers, proclaiming that "Letters are fun to send and exciting to receive," will be displayed on postal vehicles.

Postmaster Del Vecchio stated that the special week should serve as a reminder to write—long-overdue letters to servicemen, hospitalized patients, foreign acquaintances, faraway friends and relatives, and others who will welcome a personal letter.

### Touch of Paris Comes to Alea Via Altman Display

La fete Francaise came to B. Altman and Co., Short Hills, Monday and will remain through October 10. Altman's will be thinking in French, and no doubt the customers will think they have stepped into a bit of the old world when they visit B. Altman and Co., Short Hills, during this period.

The finest merchandise and ideas France has to offer is being presented at B. Altman and Co., for two weeks through October 10. This program, called La Fete Francaise, will offer perhaps the greatest concentration of the inimitable products of French talent and craftsmanship ever seen outside that republic. French home fashions, French accessories, French spirit, French atmosphere, French joie de vivre are all in abundance.

This event, which turned B. Altman and Co., Short Hills, into a veritable corner of Paris, is the culmination of months of planning. Centered around the painstaking selections of Altman's accessories coordinator and dozens of Altman buyers who combed the finest French resources, inside Paris and throughout the provinces this great exhibition will be a more fitting salute to a country with which Altman's has had close friendly relations dating back to the early days of the Third Republic when Altman buyers committed to Paris to bring back gloves, laces, foundations and other specialties.

will be displayed. These were obtained through representatives of the French Line. A humorous note was injected when it was discovered that a large kiosk was in fact too large for any of the standard ceilings in the store. Imagination soon found that there was a sloping ceiling which accommodated this structure very readily in another section. This was obtained through the office of the French Commercial Counselor.

Amidst the pleasures of La Fete Francaise, Altman's has special honors for Madame Chanel, perhaps the most American of all French designers. She has brought a casual elegance to the lives of American women. Altman's will feature Chanel inspired fashions, starting with originals from the drawing board of Chanel herself. Her influence will be found throughout Altman's collections, from accessories to better fashions, from children's clothes to gashions for career makers.

The influence of Madame Chanel will be wide spread throughout the fashion picture. For over thirty years Madame Chanel has designed clothes of matchless simplicity and elegance. The Chanel look is characterized by easy relaxed styles in tweeds and jersey suits. Usually they are braided trimmed, and done in unusual color combinations.

\$3,000,000 Replica

The entire complexion of the store has assumed a distinct French flavor. Months ago the store began to work with many agencies and commercial houses representing France. Items to add to the display features, include models of the famous French airtail trains, speed locomotives etc. from French National Railroads. Also authentic gangways and models of famous French liners, including one of the former liners, "Not mandy" valued over \$3,000,000.

factured in 1906. To give one an idea of how the dimensions and shapes of cars have changed would be appreciated when it is noted that the taxi measures 13 ft. long, 5 ft. 3 in. wide and 7 ft. high. Other models of modern cars have been obtained from Maple Motors of Maplewood, N. J., and are the Dauphine and the Peugeot to give realism of the change over the years.

Special features being offered within the store include special pastries and decorative pieces, one key item to be noted here is a reproduction of the Eiffel Tower, made of cooked sugar. Many pastries and other ideas are being created by the store bakers just for this occasion. Throughout the Charleston Gardens the flavor is heightened by French menus, and waitresses clad in the costumes of France. Another idea of display which should cause favorable comment is a large French flag measuring 12 x 18 feet which is given a prominent spot on the main stairwell.

There is even a French Information Travel Bureau which is staffed with personnel qualified to discuss a trip to France, and what you should see while there. This colorful bureau is staffed by a representative of the Paulsen Travel Bureau of Beechwood road.

# The Birthday Of The World

By Rabbi Reuben R. Levine of Temple Beth Ahm

Rosh Hashana, the Jewish New Year, is referred to in our liturgy as "The Day the World was Born."

The founders of the Jewish faith maintained that it was on this first day of Tishri (the month which starts the Hebrew religious calendar and begins this year tomorrow, October 2, in the evening) that the Lord ordained our planet to exist and spoke the thundering command, "Let There Be Light."

Through, as moderns, we may view the origin of the solar system and the earth differently than the ancients perceived it, this concept of the "Birthday of the World" has much to teach us.

For we are also taught by Judaism that God renews the creation of the world continuously. Indeed, in our prayers, we speak of God "renewing the acts of creation every day."

This idea is both beautiful and true. Is it not every season of the year with its accompanying changes in nature a rebirth? Is not every sunrise and every day-of-life an extension of the original creation? Is not the birth of every living being a testimony to the unbroken faith that the Creator keeps with his creatures?

It is the Jewish belief that the Almighty never completed the world. He ordained the laws of the universe and maintains their persistent operation, but He has also entrusted men with the mission of helping Him complete the world.

Therefore, man too, has been given a law to follow, a moral code which guides him in this

RABBI REUBEN R. LEVINE

mission. The Lord "renews the act of creation every day" but man is responsible for his own inner renewal and for the continuous progress of his society. This, in essence, is the message of Rosh Hashana. It is a time when we reassert our acceptance of the human responsibility of creating our souls anew, of rebuilding our outlook of resolving to live in such a way that we will be worthy of participating in the continuous process of the world's renewal.

I pray that the Rosh Hashana spirit will find realization in the lives of all people in the year before us. Mohammedans learned of mathematics from the Hindus whom they had conquered and developed the numerical system we use today instead of the awkward Roman numerals.

## VISIT YOUR LIBRARY

At eight fifteen on Tuesday last, an enthusiastic group met in the auditorium of the Free Public Library of Springfield.

Mr. Erwin B. May and Mr. John Whitcomb led a lively discussion of the Declaration of Independence. Each person present had a chance to express his views. A number said they had not read the Declaration recently and others said that after this exchange of ideas they thought about this document in an entirely new way.

America was built by men who thought for themselves in just this way. The Great Books Discussions are based on works that encourage readers to think for themselves about issues that affect all men—issues of war and peace... of justice... freedom... right and wrong.

The books which will be read and discussed this year are those well known to the founders of our nation. But the ideas are as up to date as those discussed by President Eisenhower and Mr. Khrushchev.

Next week on October six at the same time (eight fifteen) "The Anatomy" and "Crile" of Plato will be the subject. After the first meeting a half dozen new people bought the books and they will come out to the October sixth meeting for the first time. For anyone who feels he (or she) might be interested, this is a splendid chance to come out, to visit, and to listen.

Although it is not good for a discussion group to be too large, it is good to have a number of people with different backgrounds to add interest to the conversation. The fact that all the people who came the first evening were eager and willing to express their views, produced an interesting evening. This enthusiasm gave the discussion a fine start and indicates that future evenings will be stimulating.

Those who wish to join should do so as soon as possible in order to start thinking over the great issues which are coming up.

National Pharmacy Week is being celebrated the first week in October. The Pharmacists of Springfield have placed an exhibit in the main hallway of the Library showing "Great Moments in Medicine". It is a

# Sisterhood to Hold Meeting

Mrs. Lee Lichter, president, will preside at the Temple Beth Ahm Sisterhood meeting, Monday evening, October 5, 1959. In keeping with the New Year holidays, Mrs. Harold Jacobs, vice president in charge of program, announces the showing of a film, "With All Thy Heart."

The meeting will then be turned over to the Hebrew School board. Speakers will be Mr. Ben Katz, chairman of the school board, Rabbi Reuben R. Levine and Mr. Levi Ness, principal of the Hebrew School. All teachers will be present and parents will visit the classrooms. A question and answer period will follow.

Mrs. Arthur Falkin, vice president in charge of membership, will hold a drawing for all those members who have paid their sisterhood dues by Oct. 5. A five-dollar credit toward their donor is the prize.

Mrs. Martin Shindler, vice president in charge of fund raising, announces Barton's New Year candies for adults and children are available with donor credit on each purchase. For candy contact Susan Sanders, 76 Twin Oaks Oval, DR 9-2115. There will be a display at the meeting.

Refreshments will be served by Mrs. J. Amaters' hospitality committee. The coffeehouse for which Vienna is famous got their start in 1683 when the first one was established by a Polish mercenary soldier who found a sack of coffee left by the Turks after their unsuccessful siege of the city and decided to go into business.

Many English bathrooms employ towel warmers as part of the heating system. Hot water from the boiler is circulated through them to warm towels, considered necessary in the chilly bathrooms of most English homes.

On Saturday, Nov. 7, Temple Beth Ahm will again have their big auction night. All members and friends are asked to bring in items of various kinds to be sold that night to the highest bidder.
