

## School Board Favors FAE

Springfield Board of Education Tuesday night on majority vote went on record favoring the Federal Aid-to-Education Bill. The motion further urged all citizens of Springfield to contact their legislators in this regard. Voting against the motion were President of the Board Howard Smith and Board Member Frank W. Haydu. Mr. Haydu indicated that he did not feel the board should take a stand in the matter at this time. Mr. Smith, pointing out that all board members were not present at the meeting Tuesday and that the vote would not reflect all members' feelings, suggested that the issue be referred to the school government committee.

Board Member Joseph A. Bender said that there was not a guarantee that all members would be present next meeting either. Dr. Benjamin H. Josephson, who introduced the motion, refused to withdraw it and Mr. Bender seconded it. Other members voting for the proposal were Mr. John Gacos, Mr. August Caprio and Mr. Rupert Humer. Those absent from the meeting were Mr. Richard E. Werner and Mr. Alan Cunningham.

Mr. Bender stressed the importance of the bill and urged the board's action in this matter be publicized. It was referred to the public relations committee.

## Rabbi Feels Moral Obligation to Man Stands Trial Today for Freedom Ride Participation

"But I am a child of God. How can I preach without feeling a moral obligation to my fellow men." This answered Rabbi I. S. Dresner, spiritual leader of Temple Shalom in Springfield, when asked why he participated in the Freedom rides last week. Rabbi Dresner returned home last week-end after being jailed in Tallahassee, Florida, for his role in a Freedom Ride by 18 Northern clergymen. He returned to Tallahassee today to face trial for unlawful assembly.

Member of the NAACP, Rabbi Dresner volunteered his services to the Congress of Racial Equality; the organization which has been sponsoring the Freedom Rides. CORE alerted him 10 days before the ride was to begin and he knew three days in advance where he was to go.

"We were well received at the Raleigh, North Carolina, terminal. We were served food and encountered no problems in Sumner, No Carolina. We were refused access to facilities. The sheriff and his deputies barred the doors to white facilities and the mob and deputies threatened us. None of us ate while in Raleigh. We integrated the terminal in Savannah, Georgia. We were able to do the same thing in Jacksonville, but in Lake City (also Florida) though we were not denied access to dining areas we were not served.

"We were the first to integrate the bus terminal in Tallahassee, Florida. Police and a crowd were waiting for us, but at the time nothing happened. White waitresses refused to serve us, but a Negro boy who apparently worked in the kitchen and an older Negro man, also a kitchen helper, did serve us. They looked scared. It was broad daylight and a large

crowd and police watched us. From the bus terminal, some of us left for the airport. We had other commitments... Bar mitzvahs, christenings... and we had to return to the North." The rabbi stated 18 whites and negro clergymen participated in the Ride. There were seven white pro-

Rabbi Israel S. Dresner

testant ministers, seven negro protestant ministers and four rabbis.

"When 10 of us arrived at the Tallahassee airport, the restroom and the Seavari restaurant were barred. We were told that once a month the rooms were mopped. We were told that rooms reopened at 4:30 p.m. so we decided to remain. Needless to say when 4:30 p.m. arrived the rooms remained closed.

"Passengers were arriving all the time and wished to purchase cigarettes and food. There were two vending machines which were led out onto the terminal waiting room. Vending operators came, apparently on the wishes (Continued on page 2)

of the town officials. They tampered with the machines and soon cigarettes were selling at 60 cents a pack and 20 cent hot dogs were going for 55 cents. We did not buy any.

"A group of white citizens started crowding around us and the press told us these were the worst element of the town. We were all calm; no one felt any fear."

"The State Police came out in full force and told us that at midnight the curfew would be in effect. We had booked an 8:30 p.m. flight out for the following day, so we spent the night in a Negro Church. We held a worship service and then went to sleep on the floors and in the pews. We had no mattresses or sheets or blankets. We awoke at 6 a.m. and returned to the Savarin Restaurant. It was still closed. At about 12:30 the City Council arrived and read a local ordinance to us. We were charged with unlawful assembly and gathering to incite riot. We were ordered to disperse within 15 seconds. Even Jesse Owens could not have left that terminal in 15 seconds."

"The police then took us to police headquarters and fingerprinted us, which incidentally is unusual in an alleged misdemeanor. One policeman said 'They might have records.' None of us had records. In fact one man is the prison rabbi at the Passaic County Prison. We were treated in a most inhospitable manner. Incidentally, the prison is segregated too. The Negro ministers were well-received in their cells. The other Negroes looked at them as heroes. We were not accepted in the same manner. In addition to being called 'Negro lovers' there was a little bit of anti-semitism thrown at us.

"Cleanliness and food were almost non-existent. We were served gingerbread and black chicky for dinner and hominy grits and some black chicky for breakfast. On Saturday the hearing was closed. It was held in a room in the police station which had coked candy, cigarette and coffee machines in it. The press was not allowed to witness the hearing. We were tried with one prostitute, six drunkards and one vagrant. I'll always remember the judge who presided in this name is Judge Rood. He will preside again at the trial Thursday. We had to post \$500 bail which is the bail for a felony, not a misdemeanor. I am sure that on Thursday we will get the maximum sentence -- 60 days or \$500.

"No lawyer in Tallahassee would touch us. We have a Miami lawyer from the American Civil Liberties Union. He has to travel 400 miles to be with us at 9 a.m. Thursday.

"Of course I will go on more Freedom Rides. I believe that direct action is necessary to alter the condition of the Negro in the South. I have never met a more courageous people. They don't know fear. One Negro girl talked to us in the Tallahassee Florida A & M and had been jailed for taking part in an unsuccessful sit-down. They can do anything to her; she is fearless.

"When we land Thursday or Wednesday, whenever it might be, we are planning to integrate the Savarin Restaurant -- that is if it is open. I am pretty sure it will be closed, though.

"We went 30 hours without food and were in jail for 26 hours, before we were released on bail. The Congress put up the money. No, my parents did not know I was going until I called them long-distance and told them I was on my way. When I landed in Newark, I told one Newark Star Ledger reporter it was great to be back in America.

"Charles Danziger, chairman of the Temple's Social Action Committee, is in the process of raising bail. He hopes to raise \$1000 in order to pay back COORE. They don't have much money; their workers are paid \$35 a week. Jews and non Jews are contributing to the fund. If someone believe in this cause they can reach him at 12 Jefferson Ter. or by calling him at DR 9-2380. 'It's difficult to really know how one will act when placed in certain circumstances, but I am proud of how we all acted in the face of the difficulties we encountered. I'll be going back, soon I hope.

Rabbi Dresner, a 31 year old bachelor is a native of New York City. His family lives in Brooklyn. He was graduated from the University of Chicago Hebrew Union College and the Jewish Institute of Religion of American Hebrew Congregations. He has served Sharey Shalom since September, 1958. Previously, he was an assistant at the Danbury, Connecticut, Jewish Center.

A group of Springfield fourth grade girls have organized a Safety Society to help prevent accidents in Springfield. Edith Seigel, Adams Terrace, Nancy Ann Duanno and Joan Kordecki, both of Hillside Avenue, Sherry Cooper and Grace Hutchinson, both of Maps Ave., heard about accidents in Springfield and decided to form a society which would not only help stop accidents but learn why they occurred. The club meets every Monday and Thursday from 3:30 to 4:30 p.m. at one of the girls' homes. Membership is open to any interested persons and should contact Miss Cooper at DR-9-9499 or Miss Seigel at DR-9-2749 for additional information. The girls said their parents are very pleased with their children's interest in safety. Any early interest in safety follows as children grow into mature adults. All the girls are students in the Edward V. Walton School in Springfield.

Coach Palmer thanked the speakers for their brevity, as he was sure with exams coming on the boys were anxious to get home and "Hit the Books". "Most of us know how to say nothing, few of us know when."

Ownership-Freedom-Mark

Ownership of property by private citizens is a great distinguishing characteristic of a free society. The larger the number of people who own property, the stronger freedom becomes. A nation of property owners will not fall easy prey to the idea that a ruling clique in the name of government can run everything better than private citizens.

DOWN THE DRAIN

In hot weather, home use of water rises sharply. According to The National Water Institute, the average home consumes over 150 gallons every day. A cooling shower bath requires five gallons of water a minute, a load of laundry uses up six gallons. Increased use of air conditioners, garbage disposal units and automatic dishwashers also put a heavy load on water supplies.

COMMENDED FOR OUTSTANDING SERVICES—The Springfield P.B.A. presented silver PBA cards to Ernest Nagel and James Brescia, both of Springfield for their outstanding services to the local in the past. "Strike a Blow" July 4 For Freedom and Liberty

Every citizen of Springfield will have the opportunity to strike a blow in the cause of liberty this Independence day, July 4, 1961. And such a blow can be struck from no further than each door or lawn here. Our nation is in the midst of troubled times. Because America believes that the Nation is suffering from disunity, we are the target of the threat of World Communism. Encouraged by any sign which might indicate internal weakness here, the forces seeking world domination have promoted a growing disrespect of other nations to ward American motives, and have initiated open attacks on the American way of life. These challenges must be answered with a display of national unity unequalled in our country's history -- if our Nation is to survive the present peril it faces. There can be no stronger evidence of this country's unity than

the display of the flag of the United States by each and every household. This can be America's answer to those who believe we have weakened from our dedication to the cause of freedom and dignity of the individual. We here in Springfield can declare our part in this expression of national unity. It's all display this symbol of America's unity and love of freedom on Independence Day. with an 80-degree dogleg left) and the 15th (374 yards to an uphill green) as the toughest par 4s on the course. "On both the 3rd and 11th," Mrs. Cudone said, "the drive is blind and it must be painfully accurate. If it isn't, you just can't reach the green in regulation figures. The 15th can only be reached by a Big Tee shot and a Sam Sneed second to the top of the hill." "Baltusrol is saving the worst for the end," Mrs. Cudone commented concerning the 535-yard 17th and the 500-yard 18th holes, both par-5s. "Of the two, I think the 18th, though slightly shorter, is the interesting. It has a second shot over water and it takes two big hits to clear it. Not only that, the drive must be positioned to avoid a downhill lie. It is a wonderful finishing hole," she declared with obvious admiration. No matter how well anyone might play from tee to green, the current New Jersey Women's champion asserted, the secret of success at Baltusrol has to be in a player's ability to negotiate its tremendous greens, which average more than 7,000 square feet in area. "The greens are just so big, I am sure they will present a new concept of putting to many of the players. The putting surfaces are wonderfully true, but loaded with rolls and little nuances, consequently they require real study. I'm not kidding when I say I believe that even the pros will have to go to school on them." What kind of score will win at Baltusrol? "This is a course where par means something. I believe that 288-four rounds of par golf take the championship. I also believe that any player who can play a 72 hole round on this course will really have to tee for Children and Youth; and play up a storm," was Mrs. Mrs. Cudone's final summation.

The Springfield Little League will hold its annual picnic Monday evening at 6 p.m. at the Melrose Avenue field. At this time trophies will be awarded to each winning team in the various leagues. A best sportsmanship trophy will also be awarded to a player in each league. The trophies are donated by the Baltusrol Golf Club. Jack Brink, chairman of the picnic announced lots of refreshments will be served.

"Baltusrol is a big, beautiful golf course, but the women won't be able to take any liberties with it." That's the expert capsule comment of Mrs. Philip Cudone, New Jersey's outstanding woman golfer, concerning the lower course of the Baltusrol Golf Club in Springfield, N.J., where she and 100 top-district golfers will compete in the U.S.G.A. Women's Open Championship June 29 - July 1. As a former Curtis Cup team member (1956), the Women's North-South Amateur champion (1958), and winner of the 10 state and area championships, Mrs. Cudone is no stranger to Baltusrol. But the Lower Course, for the Open, is "really something new," she confessed. "We are going to be playing off the men's tees," she explained, "the courses' yardage has been upped to 6,382 yards, the rough has been allowed to grow and par has been reduced to 72." "That's a lot different from the 6,065-yard course with little or no rough which played to a par

75 for state tournaments in the past," she added ruefully. "But even then it was a brute as far as the women were concerned." "Frankly, I think the girls will be wearing out their fairway woods and long irons during the Open," she opined. "By way of supporting this prediction, Mrs. Cudone estimated that at least nine holes, not including the par 3s, would require at least two wood shots. "When you consider that five of these holes are rated as par 4s, you can visualize what a rugged assignment this course can be." Analyzing the course, she observed: "There isn't an easy par 3 in the lot. The third has all the water (140 yards, all carry over a lake), the 9th and 12th (190 and 180 yards, respectively) both require big hits, and the 16th (160 yards) with all those traps around it is like trying to drop a ball into a barrel." New Jersey's outstanding lady golfer rated the third (390 yards, dogleg downhill to the left and over a creek), the 11th (379 yards

**The ETIQUETTE of WRITING PAPER**

**Color of paper.** Once taboo, pastel colors are now approved for all but formal correspondence and calling cards. (Some authorities still frown on such shades as pink, lavender, or turquoise.) Deeper colors are usually considered correct only for harmonizing borders and envelope linings.

**Size and weight of paper.** The only rule on size is to choose the one that best suits your handwriting and the customary length of your letters. A large, bold hand looks better on a good-sized sheet, cramped or dainty writing on a smaller one. The weight doesn't matter, so long as the paper is of good quality.

**Finishes.** Again, the choice is up to you. There are very smooth polished finishes called satin and silk; duller finishes like kid or vellum; pebbled, ripple, and linenlike finishes. Laid paper has a pattern of wide-apart vertical and close-together horizontal lines; lawn has horizontal lines only. In woven paper, there is no pattern. A watermark, which often appears on each sheet of good paper, is a design identifying the maker which you can see by holding the paper up to the light. Deckle (rough) edges, once frowned on for formal correspondence, are now accepted for all uses.

**Scented paper.** The experts' unanimous recommendation: Don't use it.

Your Library

For some time the Trustees and Staff of the Free Public Library of Springfield have been studying ways to improve the service given readers interested in "best sellers" and "recreational" reading. A small survey of this type cannot afford more than three or four copies of one book, and between fifty and a hundred requests will tie up that many copies for eighteen months or more. Meanwhile readers never can get that title from the shelf. Moreover, when interest has evaporated, the library is left with extra copies which must be either discarded or stored. For these reasons, it has been decided to try a new plan for a year. The number of books needed to supply the demand WITHIN A SHORT TIME will be reduced. Extra copies will be secured and NEVER RE-ORDERED. These will be on the shelf, it is hoped by this scheme to accomplish two things: First, to keep a good supply of books on hand from which people can choose. Therefore, they will not need to place so many requests. Second, to fill all requests within a much shorter time. The charge will be 25¢, which covers the cost of the first week. After that, \$4 a day will be added. These extra days include Sundays and holidays. The 25¢ fee will be collected when rental books are requested. The collection of the fee with the request aims to bring about a third improvement - that people will consider carefully the requests made. This 25¢ fee will not affect ordinary readers, because the books listed in the card catalog will still be FREE. And, as was said at the beginning of this article, it is hoped that people interested in popular books will find copies on the shelf and not need to leave requests.

This new service will start July 1 and when readers become acquainted with it, they should welcome the speed with which new books will be acquired. A few simple directions will be mimeographed and distributed to help get the plan started. For some time, a few readers in Springfield have taken advantage of the Springfield Library's policy of reserving books free. Some ask for many books at one time, or put in requests for the same book several times.

STATIC

By Lawrence Witte

Sid Cassar, absent from the regular tele-schedule, except for the few CBS-TV specials he did this past season, is slated to star in a Broadway musical this fall. He'll star in the musical adaptation of Patric (Auntie Mame) Dennis' "Little Me," a satiric novel which won't hit the bookstand until this fall. For our money we're betting that Sid will duplicate his television success on the stage. Sid's address on the Madison Avenue, New York, N.Y. office of Secretary of State Dean Rusk will be the initial guest on "At the Source," a series of on-location new-interview programs starting Thursday, June 29, on CBS-TV. Program will mark the first participation in a U.S. television interview by Secretary Rusk, except for State Department news conferences. Mr. Rusk will be interviewed in his office by Howard K. Smith, Paul Niven and Bill Downs. "On Your Mark," a half-hour game show starring Sonny Fox that will give children an opportunity to realize an ambition in life, will make its debut on the ABC-TV network, Saturday, Sept. 23.

Erroll Garner had a dual reason for celebrating last week, his birthday was June 15 - and his hit ballad, "Misty," marked its first year on the best-selling sheet-music charts, the only tune to stay on for 52 weeks. A mighty jazz birthday present and a fitting tribute to the pianist's prolific talents as a composer. One of the major movie companies has a color television set under development which is said to cut 25 per cent off present costs. Coin-op laundries are playing to full houses; even SRP, according to Jack A. Coleman, in charge

of Econ-O-Wash coin-operated laundries, who points out that men pour into the laundries on these TV fight nights to happily do the wash while they watch television and wash down pizza with a soft drink. Mamie Van Doren, who just concluded a month's engagement at New York's Latin Quarter, is currently in Mexico City where she opens June 23 at the famous La Fuente Club and RADIO-TV NEWSREEL: Don Dunphy, commentator for ABC-TV's Saturday-night fight, just celebrated his 20th anniversary. His first broadcast was of the Joe Louis-Billy Conn heavyweight title fight on radio. Speaking of anniversaries, your scribbler celebrates his 27th anniversary as author of the weekly STATIC column next week, starting in 1934, with our hometown paper, the PALMYRA NEWS, Palmyra, N.J., the pillar today is used by more than 100 newspapers from coast-to-coast. In that first column, we had a mention of Rudy Vallee who headed the Thursday night Kraft Music Hall. Rudy is currently considering a leading role in the upcoming Broadway-musical based on Shepherd Mead's "How to Succeed in Business Without Really Trying." Bing Crosby was mentioned as were the Mills Brothers - all going strong today. Another item featured Al Pearce and his gang. Al passed away a few weeks ago and was famous for his "Elmer Blunt" character. One of his featured comedians was Morey Amsterdam who will be featured in a new comedy series this fall.

Realtors Form Group for Community Service Award

Presides at St. Stephen's

The Right Reverend Shirley H. Nichols, retired missionary bishop, will preside at a special service of Confirmation at St. Stephen's Church, Main Street, Millburn, on Sunday, June 25th. Bishop Nichols was for many years a Missionary of the Episcopal Church in Japan, known as "The Holy Catholic Church in Japan." At the time of Pearl Harbor, he was Bishop of Kyoto. Following the outbreak of war Bishop Nichols became bishop of the missionary district of Saitama, Kansas. He retired from this jurisdiction in 1957, and since that time has been assisting the Bishop of Long Island. The service at St. Stephen's on Sunday will begin at 10 o'clock, and will be Morning Prayer and The Order of Confirmation, as provided in the Book of Common Prayer. Bishop Nichols will greet worshippers at the church door following the service.

Three area Realtors have been appointed by Harry A. Janitor Overtime Pay Increased

Overtime pay of janitors was increased from \$5 to \$6 for the first three hours worked by Springfield Board of Education at its meeting Tuesday night in Caldwell School. It was pointed out that janitors have been doing night work at the \$5 rate for many years and Board President Howard Smith voiced his approval. The raise will go into effect this July. A motion was passed recommending that Mr. Daniel R. Murray, principal of Walton School and new assistant superintendent of schools, continue to arrange for teacher substitutes at a per diem rate of \$4. Resignations were accepted from the following teachers: Mrs. Patricia Nichols for maternity reasons, Mrs. Beulah Eddicombe for health reasons and Mrs. Ann C. McGeehan because of a change of residence. The following were approved as new teachers for the 1961-62 school year: Miss Patricia Gladwin at a salary of \$4,700, Miss Lillian Lamb at \$4,700 and Mr. Roger Gawe at \$4,900. Mr. A. B. Anderson, secretary, was authorized to advertise for bids for the fire detection system to be installed in Caldwell and Chisholm schools. Newslinger was given authority to attend two conventions in October, the New Jersey Federation of District Boards of Education and New Jersey School Superintendents Association. It was voted to purchase tickets totaling \$100 so that 10 teachers will be able to attend a lecture series to be conducted by the Regional Adult School next Fall in Berkeley Heights. Board Member August Caprio, who represented the Board at a meeting of the Union-County School Boards Association recently, reported that he was elected third vice-president at the meeting. Next board meeting will be held July 18th in Caldwell School.

You're too young for that. You're old enough to know better. These are comments frequently made by parents to their adolescents. No wonder the adolescent is confused, particularly when his behavior seems childish one day, adult the next. Adolescence is the bridge from the adolescent does act like a child. But he acts like an adult, too, and he likes to be treated as an adult. This means assuming responsibility which the adolescent is capable of doing if he. Parents agree that they want their children to grow up to be mature responsible adults. The difficulty is that is often hard for parents to allow the children to practice responsibility. Children learn to be responsible by experience. Responsibility does not happen overnight. The age of adolescence is a child's last chance to practice responsibility under guidance, and so to learn to be responsible. Teen-agers amaze adults time after time with their ability to be responsible. Yet they are not given the opportunity to practice as much as they should. Wise parents will encourage opportunities for responsibility to help their adolescent grow to mature adults.

"Pleasure" at Paper Mill

After a two year run on Broadway, "The Pleasure of His Company" is coming to Millburn. Paper Mill Playhouse's "Summer Festival of Stars" opens June 26 with Cornelia Otis Skinner and Hans Conried in the successful comedy. Written by Samuel Taylor and Miss Skinner, "Pleasure" takes place in a rugged old mansion high on a San Francisco hill. From the moment the curtain opens the laughs begin as "Toy", a wily Chinese servant, and the shocking "Pogo" Pogo engage in a rather unusual tete a tete. Hans Conried, recently seen con-

tributing to the nation's insomnia on the Jack Paar Show, plays Biddford Poole, debonaire and equally at home in the game rooms at Monte Carlo, Paris salons or on a safari in Africa. Cornelia Otis Skinner is his ex-wife Katherine who has heard it all before, but can't help being thrown off-balance by the charming Biddford. Hilda Brawner is Jennifer Poole, and when Pogo comes back to see his daughter's wedding, and ends up by competing with the groom, things really begin to pop. "The Pleasure of His Company" will run through July 8 at Paper Mill Playhouse.

New Air-Conditioning and Carpet Among Improvement Made at Millburn Theatre

New things have been happening at the Millburn Theatre in Millburn, New Jersey, improvements have been made which made this movie house a more beautiful, comfortable place to patronize. Among the great things that have happened is the new, wonderful carpet that has been laid throughout the entire theatre. Another new fea-

ture is the beautiful flesh-colored damask which now covers the walls. While the beauty of this damask is enough to deserve merit, it serves the utilitarian purpose of giving the movie-goer greater sound-perfection. The magnificent new drapes on either side of the screen is beautiful old rose and brown velour, aid in producing a well-balanced picture of sound and light. The newly installed seats, in beautiful red leather, and yellow blend with the color scenery of the theatre. With their new arrangement for leg comfort they will make for even greater viewing comfort. However, the greatest part of

all the improvements in this theatre is the air conditioning by Carrier. The latest and finest that money can buy, this air-conditioning causes no draft and provides for weather control which will keep the theatre at an even temperature. The wonderful shows to be enjoyed at this theatre, plus the new things that have been happening there, warrant inspection. The Millburn Theatre arranges Kiddie Shows every Saturday afternoon. Children can spend the afternoon in a cool, comfortable spot during the hot summer days. A wonderful time is in store for all who visit the Millburn Theatre.

### DAR Officially Dissolves

The Scotch Plains Chapter of the DAR has officially dissolved. Its years of existence, just shy of thirty years, have been marked by patriotic activity and participation in national, state, and local affairs.

A variety of reasons led to the action, including a decreasing membership, reluctance of members to assume official posts and a growing number of members who wished to become inactive.

Members who wished to remain active were given the option of being transferred to other chapters. Those who chose to become members-at-large of the National Society, DAR, others will affiliate with the Westfield Chapter or Continental Chapter of Plainfield.

A farewell luncheon was given by Mrs. Frank Weldon of Fanwood and Mrs. Herbert Henry and Miss

Reignette Marsh of Plainfield, at the Stage Coach Inn, Front St., Scotch Plains. Mrs. J. Seward Burke who has been regent and Miss Marsh, organizing regent, were given regent's pins. Gifts were given to Mrs. Burke who will move to Allentown, Pa., and Mrs. Otto Vasak who will move to the Middle West.

The chapter was organized by Miss Marsh in October 1931 and she served as regent for five years. During her term the chapter in 1941 dedicated a plaque near the Soldier's Monument at Front St., and Park Ave. and in 1955 installed a bronze plaque in the Scotch Plains Baptist Church cemetery listing the names of Revolutionary War dead buried there.

"The Shoemaker Should Stick to His Last"

LOREN F. GARDINER, President, Crestmont Savings and Loan Association

"One of the facts of business life which I learned early in my career is this: Leave to the experts those matters in which the expert excels, and that applies to plumbers or printers, bakers or bankers, lawyers or locksmiths.

"I stress this bit of philosophy, because occasionally one of our homeowners asks me how he or she can sell their home. Without hesitation, I point out that selling real estate is not his or her business. Therefore, they lack information on comparative values, financing, mode of presentation and all the other techniques involved in the sale of a home. Usually 'For Sale by Owner' signs attract curiosity seekers or bargain hunters. The net result is lost time, lost money. My recommendation is simply this: Place your confidence in a Realtor. He will represent your best interests. He knows how to show your house in proper perspective. He knows how to make prospects meet at home. He glamorizes what is good. He is familiar with the means by which you can secure your top dollar... and what more can anyone ask?"

**Grist Mill Holds Contest To Name Stationary Logo**

The new producers of the Grist Mill Playhouse are offering a prize of one pair of season's orchestra tickets to the person who can give an appropriate name to the "little man" who appears on all Grist Mill Stationery, mailing brochures, and advertisement announcements.

The cartoon figure is new and is designed to suggest the idea of gaily and good taste that the producers hope will be associated with the new operations at the Grist Mill. The unnamed "little man" will oversee all star attractions to visit the Grist Mill this season.

Besides season tickets to all the star shows already listed, the winner will also receive a pair of tickets for each of the children's shows to be presented this year. The shows are live, and professionally cast. They are designed to entertain the younger set and to cultivate their interest in playgoing. They will be held on alternate Fridays, at 1:00 morning matinees. "Tom Sawyer" will be performed on July 14, and the popular fairy tale "Rumpelstiltskin" will command the stage on July 28. Juri Arkly, pantomime artist, formerly associated with the world famous Marcel Marceau, will appear at the Grist Mill on August 11, and the final children's production, "Little Circus" is scheduled for August 25.

The Grist Mill producers ask that all entries be mailed or dropped off at the Playhouse with the "little man's" suggested name on a self-addressed post card, no later than Friday, June 30th. The winner will be notified in time to attend the Monday evening, July 3rd, performance of "Marriage-Go-Round". The presentation will take place on the Grist Mill stage at a post-curtain ceremony.

The 1961 Summer season commences on June 30 with Eve Arden starring in "Marriage-Go-Round", to be followed by another comedy, "A Majority of One", which will feature Hollywood veteran actor, Herbert Marshall. On July 17, Hans Conrard will star in "The Pleasure of His Company", and on July 24, George Montgomery will begin a week's engagement in the recent Broadway hit, "Under the Yum Yum Tree". Annie Farge, known to TV fans as "Angel", will appear with Howard Duff in "For Love or Money", beginning July 31.

John Gavin will star in the sixth show of the 10 week season, in William Inge's "Picnic". That will be followed by the Broadway prize winning play, "Five Finger Exercise", which will

There will be political workshops which will be headed by leading GOP congressmen and Republican National Committee Staff members. Some of the slated speakers are: The Honorable Barry Goldwater, Walter H. Judd, Thurston B. Morton, John G. Tower (the first elected Republican from Texas in the history of that state), and Richard M. Nixon. The National Miss Young Republican will be chosen on Friday, along with a judgement of the best YR Clubs in the United States. The Westfield Area YR Club is representing the State of New Jersey in its group.

The other delegates from Union County are: Elizabeth L. Summit; Nancy R. Sterns, Roselle Park; Frances Johnson, Cranford; Ronald Morsback, Roselle Park; Howard Lear, Elizabeth; Jack Kuhl, Elizabeth; Mr. and Mrs. Robert McCluskie, Roselle; and Hank Wright, Springfield.

Their bus is scheduled to leave from the Somerset Garage on Rt. 22 in Mountainside at 6:45 a.m. and travel to Trenton to join with the other 45 New Jersey delegates who will attend the Convention.

**HIGHLIGHT NEWS**

Madison Avenue at Punch Bowl Road, Morristown, N. J.

**More Than One-Third of Residential Revenue Went for Direct Taxes in 1960**

The huge sum of \$13,282,000 was paid to various governmental bodies by JCP&L and NJP&L last year in the form of direct taxes. But, even as you and I, we don't know the full taxation story because a very big bite goes in the form of indirect taxes which do not show on our books.

To pay the direct taxes took an amount equal to the entire revenue received from 132,000 of our residential customers, or 39% of all the revenue we received from our 342,488 residential customers. This is a lot of money, and we only hope it will be put to good use by the national and local governments for our customers from whom we collected it.

**Mom Carries a Big Load!**

After so many marketing trips, Mom becomes quite adept at juggling that big load of groceries from the store to her own refrigerator. And, like Mom, your electric company has to be adept at handling big loads—but of a different kind.

**Paging Mr. Audubon**

Birds on a pole or a wire can be a big nuisance, and even a shock to electric service. Down along the shore at Point Pleasant, Brielle and nearby places, the fishhawks or ospreys sometimes try our patience to the breaking point. They like to build their nests atop utility poles. Discourage them one day, and you're likely to find them right back the next. The trouble is they build their nests with all kinds of materials and often cause service interruptions by touching conductors with metal objects... it's goodbye bird for sure, but also it's usually a service interruption. Line patrolmen do their best to control this strange hazard but it's a battle, because once nesting starts (in May or early June) the birds are left alone until the young are raised, except in cases of serious emergencies. Among the articles that have been found in nests are bedsprings, false teeth, radio antennae, coat hangers, tennis balls and pieces of cable.

**Pardon an Unselfish Pat on the Back**

Our Sales Department personnel are extremely proud of winning both the Industrial and Commercial awards of the Edison Electric Institute for excellence of programs aimed at aiding customers to produce better through the use of electricity.

These coveted awards were won in competition with many other utilities across the country. It is naturally very gratifying to win against such strong competition, but beyond the winning, these awards mean our industrial and commercial customers can expect the finest kind of cooperation in helping them make an intelligent and effective use of electricity in the future development of their respective businesses.

**Whirly-Bird™ Helps Line Patrol**

Yes, we're up in the air, but for a good purpose. During the past year, JCP&L-NJP&L have been experimenting with helicopters for preventive maintenance checks of our highlines. According to the head of the transmission department, this new method is both economical and efficient. It seems that lines stand out more clearly against a dark background and the helicopter flies a little above and to the side of the lines to get the right angle for thorough inspection.

Normally, our patrols walk the entire line length, through forest, across swamps, up and down hills, tough tedious, time-consuming work. But now, modern aviation lightens the work of some of our men and speeds up the detection of potential trouble spots, thus helping prevent loss of service to our customers.

**Good Old Days?**

A customer recently sent us a bill she received from Jersey Central Power & Light Company for electric service during the month of December, 1926. That's 35 years ago. She used 15 kilowatt-hours of electricity, which cost her 16 cents a KWH, or \$2.25. Today those same 15 KWH would cost only \$1.06, or she could buy 36 KWH for that same \$2.25 (with cheaper dollars, too)—more than twice what you could buy way back when. What else costs so little and does so much?

**Better Service Through Higher Voltages**

Even in the rural areas, our load growth has been sensational and our building program extensive. Up in our most northern territory of Sussex County, a new and improved method of distributing electricity to our customers is being used. Instead of the customary 4600-volt lines, we are building 12,000-volt lines. This plan permits us to deliver all the electricity our customers want without building costly new substations or reconductoring present lines. Too, as the 12,000-volt lines approach more congested areas, they can pick up some of the fringe load and so relieve the present 4600-volt lines... as the engineers put it, "240-Volt rather than 4.6-kv Delta. In layman's language, we are continually searching for the newest way to serve you best at the lowest possible cost."

**HOUSEHOLD HINTS**

**WHEN CUTTING meringue pie, dip the knife into cold water. This will prevent the meringue from sticking.**

**TO DEFROST frozen foods in about half the usual time, stand them in front of an electric fan.**

**Trees Trim Us!**

Trimming trees, brush control and similar activities to keep our electric lines as free of tree limbs as possible and our rights-of-way passable cost your utility companies a heap of money each year. Last year the amount for this service totaled \$1,595,934. The work is done under the direction of trained tree surgeons, who do only the minimum pruning and cutting necessary to maintain uninterrupted electric service. If you are interested in the proper planting and growing of shade trees, write to Editor, "Highlight News", for book entitled "The Case of the Mispliced Tree."

**APPLE-LESS PIE**

1 1/4 cups sugar  
2 cups water  
1 package pie crust mix  
2 teaspoons cream of tartar  
22 bits or Hi-Ho Crackers  
Cinnamon  
1 tablespoon butter

Place on high heat; let come to rolling boil. Remove from heat. Add crackers; push down into syrup until covered; let stand 10 minutes. Pour into 8 inch pie shell, sprinkle with cinnamon and dot with butter. Cover with lattice of pastry. Bake 25 to 30 minutes in 400° oven.
