

Population Figures Very Interesting

Several weeks ago the SUN printed some interesting figures - taken from the latest publication of the Bureau of Census - a 326 page book entitled "New Jersey - General Social and Economic Characteristics" showing that Springfield's median income was greater than Maplewood, Cranford, Irvington, Roselle, Scotch Plains, Union and a great many other municipalities throughout the state.

The Springfield Sun publishers pointed with considerable pride, and most of the readers shared our enthusiasm - but there were those whose letters to the editor read something else into the article and wondered why "there had to be such a fuss about comparisons with other communities."

The information in this Census publication is very intriguing with data on such things as ethnic origin, migration, education, employment, husband and wife earnings and a flock of other details all in small, rather hard-to-read type.

However, since Springfield is now approaching what appears to be one of the most bitter political campaigns in the history of the Township, there are some figures to be considered on the distribution of foreign born, mixed parentage and the social characteristics of the population in Springfield as compared with neighboring municipalities.

Another very interesting set of figures is found in Table No. 79 which gives the breakdown on the country of origin of the foreign stock in this area.

The data shows that of the total foreign stock in Springfield's most recent population count, 653 came from the United Kingdom, 280 from Ireland, 1083 from Germany, 622 from Poland, 1135 from U.S.S.R. and 706 from Italy.

Following are figures of several neighboring communities in this table:

Country of Origin	Millburn	Scotch Plains	South Orange	Springfield	Summit	Union	Westfield
Total Foreign Stock	5964	5623	6409	5940	8011	23,262	8,902

69% Pledged for \$30,000. Antioch Church Campaign

The Antioch Baptist Church in Springfield has launched a \$30,000 Building Fund Campaign to save, improve and serve the members and children of the church and community. The campaign was highlighted with a full house at a Loyalty Dinner on July 16 where a capacity audience was on hand to partake of the menu prepared and served by the social committee under the direction of Mrs. Aleese Murphy. The diners were thrilled by remarks of inspiration and encouragement given by the Reverend Doctor Gilbert, pastor of the Methodist Church of Springfield. Reverend Driscoll, Evangelistic Chairman of the American Baptist Association also addressed the audience. The program included J. Breeden, who spoke on "OUR NEEDS", L. Greene, who talked on the "CAMPAIGN PLAN" and G. Douglas, who announced the advanced gifts. Mrs. George Franklin of Ruby Street, Springfield, gave a very inspiring talk on "What My Church Means to Me." Reverend Homer Tucker, pastor of Mr. Zion Baptist Church, Newark, is Director of the Fund-Raising Drive which ended with a victory rally on Monday July 23, Harold O'Neal of Ruby St., Springfield, is the General Chairman of the drive. The goal of the committee is thirty thousand dollars of which 69% of the money has already been pledged. "After twenty years of raising money," Reverend Tucker said, "our small membership is doing as well as any campaign" he has directed. Reverend L. G. Wellington, pastor and members of the Antioch Baptist Church, along with Reverend Tucker, Mr. O'Neal and members of the Fund-Raising Committee "wish to solicit your prayers and pledges in this worthy venture."

Ceithaml And Smith, Democratic Candidates, Planning Family Day

DISCUSSING FAMILY DAY PROGRAM: Louis Ceithaml and Howard Smith, Democratic candidates for Springfield's Township Committee in the November elections, will be hosts at the Family Day in Evergreen Lodge, Sunday, September 23. Photo shows (standing) candidates Ceithaml and Smith with some members of the committee arranging the full day's program. Seated, left to right, Mrs. Doris Logan, Arthur Kesselhaut, Mrs. Janet Lawit and Stanley W. McConkey.

Tax Receipts Ahead of '61

Springfield's tax collections continue ahead of last year, the totals, including the month of June, being \$1,543,856, as compared with \$1,359,761, for the same period in 1961. June collections for 1962 taxes amounted to \$38,573, which brought the total of current taxes to \$1,412,844. Also received in June by Tax Collector Fred L. Braun was \$7090 in 1961 taxes, \$411 for 1960, and \$142 due in 1959. Delinquent taxes collected to date amount to \$69,813. For the same period last year, including June, the total tax collections were \$1,272,767.

It's Only Money Sold! Tulip Road Home For \$1,000.

State Highway Commissioner Dwight R.G. Palmer has, at long last, sold the building at 44 Tulip Road, Springfield, to make way for the proposed federal highway, Route 78. It was sold last Friday at an auction for a total of \$1,000 to Richard E. Marczak, of 26 Wilson Avenue, Newark. There were only two bids, and both of them, it was reported, were in behalf of the eventual purchaser. The first bid for the home was \$500 and the second, by Mr. Marczak for \$1,000, was quickly accepted by the Highway Department. This is the second attempt to auction No. 44 Tulip Road. Several weeks ago Mr. Palmer published legal notices in out of town newspapers announcing the sale of this building. Not a single bidder was on hand, and Morris Balbresky, Chief Highway Property Clerk in charge of sales, packed up his attaché case and returned to his Trenton offices. Mr. Balbresky and an assistant are assigned to travel from Trenton to Springfield to carry out the official auction of the residence at 44 Tulip Road. With the publication of legal notices and the time to travel, it has been revealed that it costs the State Highway Department \$150 for each day. This would make the two auction a total of \$300 expense to the State which leaves the Highway Department's Right of Way Division with \$700. Mr. Marczak, who made the successful bid of \$1,000 for the 44 Tulip Road building, is now faced with the job of removing the structure from its present location to another building lot. The purchaser, it is understood, does have a building lot in New Providence, but those who know say the cost of moving it that distance would be prohibitive. Herman Kravis, who recently purchased a building for \$4,800, similar to the one sold last Friday, doesn't think that it would be possible to move it all the way to New Providence. "It cost me nearly \$5000 just to move electric wires and cables," said Mr. Kravis, "in taking the building I bought from Tulip Road to its present location at the corner of Morris and Short Hills avenues. "I don't see how that house could be moved all the way to New Providence," continued Mr. Kravis. "Getting all those wires out of the way on such a long trip would cost an awful lot of money." The residence at 44 Tulip Road was one of a group constructed by Harry Tzses, well known builder in this part of New Jersey. It was formerly owned by Mr. and Mrs. Martin Green, both teachers, who are now on a round the world trip. The home purchased at auction several weeks ago by Mr. Kravis for \$4,000 was the same type residence as bought by Mr. Marczak for only \$1,000.

Mayor Names Two Industrial Group

Mayor Philip Del Vecchio announced the appointment of S. Seymour Cohen, of 102 Jefferson Terrace, and W. Louis Ellis, of 34 Highland Avenue, to serve as members of the recently named Industrial Committee. These names complete the full membership of the committee to attract more industries to Springfield.

Fined \$80 On Charge Of Assault And Battery

Clifford Murphy, 19, of 95 Hatter Road, Morristown, charged with assault and battery, was fined \$80 by Magistrate Thomas A. Argyris Monday night (July 23) in Springfield Police Court. The defendant was arrested July 16 on a complaint made by Mrs. Matilde De Stefano of 43 Evergreen Avenue, and Mrs. Helen Sellinger of 75 Evergreen Avenue, both of Springfield. Police said the offense occurred in Springfield and involved two juveniles.

Wife Helps Driver Hit Traffic Signal

An automobile, driven by Charles R. Leedy, 56, of 1324 Arch Street, Pittsburgh, Pa., was in collision with the traffic signal at Morris Avenue and Mountain Avenue, Springfield, at 6:40 p.m. Saturday (July 21), causing damage to the front bumper and loss of his automobile and to the traffic signal. In his statement to police, Mr. Leedy explained that as he was traveling west on Morris Avenue and nearing Mountain Avenue, his wife, Mrs. Leedy, a passenger in the car, tried to show Mr. Leedy where to turn and grabbed the wheel, causing the vehicle to strike the traffic signal. A summons for careless driving was given to Mr. Leedy and he was fined \$20 Monday night (July 23) in Springfield Police Court. Patrolman John Baber investigated.

Democrats To Sponsor "Miss Springfield"

Plans are already underway for the annual Springfield Democratic Family Day to be held on September 23 at Evergreen Lodge, and a preliminary meeting was held on Monday night at the home of Janet Lawit. This year's activities will include games for both children and adults as well as the usual free rides for the children. A wonderful variety of dishes will be available throughout the day. The Young Democrats are sponsoring a "Miss Springfield" contest, which is open to all girls of high school age. The winner will be chosen at the picnic from among the five finalists. Recreation Commission member Dave Katz has been placed in charge of running the games, and additional assignments will be made at a meeting of the entire committee which has been called for next Tuesday night, July 31, at 8:30 p.m., at Mrs. Lawit's home at 8 Essex Road.

Street Signs In Violation Says Official

Building Inspector Otto E. Fessler of Springfield has taken steps for the elimination of an overabundance of signs reported in the township. Building Inspector Fessler has sent the following communication to gasoline and service stations in the community: "It has come to the attention of this office that some gasoline and service stations are displaying an unnecessary amount of signs, many of which are repetitive. Some of these signs are placed between the street curb and the sidewalk which is in violation of the township of Springfield zoning ordinance and must be eliminated if your station is one of those offenders, please rectify same at once. This office will make an inspection of these conditions starting June 30, 1962."

Bonadies Asks For Controls To Meet Public Test

Springfield Township Committee unanimously agreed to amend and readvertise the moving picture theater ordinance after protest was registered by a number of residents of the township at the public hearing Tuesday night in Municipal Building. The public hearing on the measure was ordered continued. More than one-half dozen people in the audience, composed of an orderly group of about 80 citizens who showed interest in the question, spoke on the matter. Majority of those voicing an opinion or questioning the proposal indicated that they objected to certain sections of the ordinance. Recreation Commission member Dave Katz has been placed in charge of running the games, and additional assignments will be made at a meeting of the entire committee which has been called for next Tuesday night, July 31, at 8:30 p.m., at Mrs. Lawit's home at 8 Essex Road. Issue was taken on item 9(a) of the ordinance which states under Suspension or Revocation of license - "Any such license after issuance may be suspended or revoked by the Township Committee upon affording the licensee an opportunity to be heard, when it has been made to appear that the public exhibition or the place or premises in or on which the same is or will be conducted thereunder is or will be injurious to public decency, morals, health or safety." Spearheading the opposition to the ordinance was Seymour Margulies, an attorney, of 29 South Derby Road, in presenting his argument against the proposal, he especially objected to the form of the ordinance and raised numerous other points including "prior restraint before commitment of act," and called attention to "vagueness" in certain areas of the ordinance. Others voicing opposition to the measure included Mrs. Norma Levine, of 5 Avon Road, who said she would rather see a court of law have control over a motion picture. Mrs. Helen Sabo of Hemlock Terrace told the Township Committee that the room was filled with people who objected to pre-censorship. Mrs. Goodman of 16 Surrey Lane contended that the obligation of what children should see or shouldn't see belongs in the home. Speaking in favor of a pre-censorship was Norman Banner, of 342 Morris Avenue, who said that the township committee has a moral obligation to the community, contending that censorship should be done before films are shown. He reported that the community of Summit has been censored. (Continued on Page 2)

Site Owners Are Close To Deal On Pool

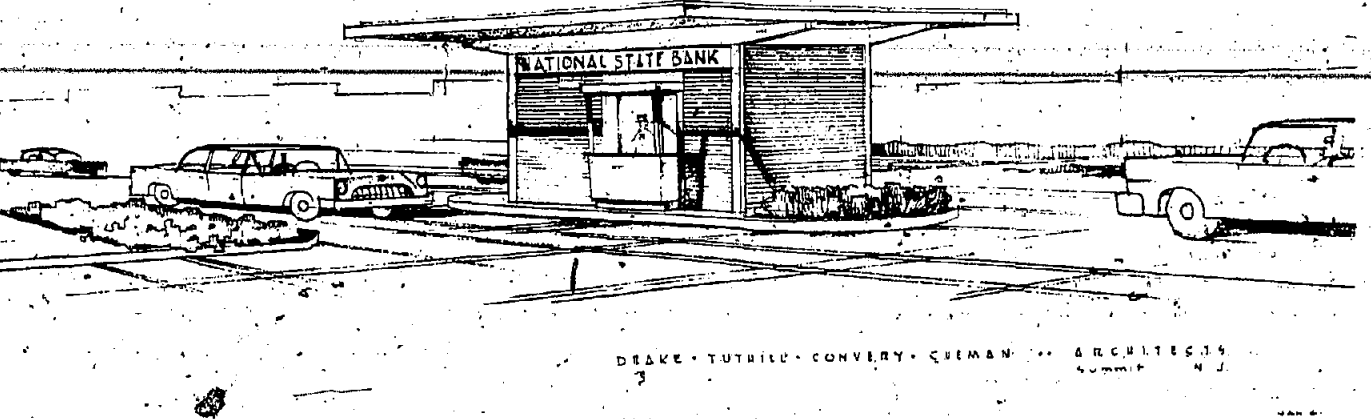

Willingness to sell the Jenco property to the township for a municipal swimming pool was reported at the Springfield Township Committee meeting Tuesday night in the Municipal Building. Mayor Philip Del Vecchio said that the owners of the property, Robbins Construction Co., has been approached on a possible sale to the municipality. They have indicated a willingness to sell, the mayor said, and the process of negotiations will be continued at future meetings. The initial approach to the matter has been "excellent," the mayor indicated with the owners of the land showing full cooperation. Mayor Del Vecchio announced that he was pleased with the results to date, which is a step towards a worthwhile project for the municipality. (Continued on Page 2)

Here's Dave Macdonald, And Spelled With Small "D"

People living on Route 10 served by the Springfield Post Office will recognize their regular mail carrier in this week's issue of the Springfield Sun. He is David S. Macdonald, 29, of 66 Wentz Avenue, Springfield, who has been a member of the local post office six years. "From his above pictures," "Dave" hopes that the residents living on his route will notice his real name and explain the reason why. "When I first went on my route, I tried to learn all the children's names. It was hard at first so I called all the kids "Charlie." They enjoyed it and called me Charlie, too. Pretty soon, their mothers were calling me Charlie. It wasn't until we started to wear name tags on our uniforms that many parents realized my name was Dave!" One of Dave's favorite topics of conversations with the adults on his route is gardening. He enjoys keeping his yard up and is forever swapping tales about lawn- upkeep and its problems with his patrons. In addition to the outside work around his own house he also does some part-time landscaping, he says. The letter carrier has lived in Springfield since his discharge from the Army in 1955, when he married a Springfield girl, the former Joan Mueller. They now have two daughters, Beverly Ann, age five, and Diana Carol, age three. Mr. Macdonald spent his early years in Cranford, where he received his education, with graduation from high school in 1951. After service discharge, he attended Union Junior College nights for several years. He served in the Army from 1953 to 1955, receiving basic training at Camp Polk, Louisiana, and also participated in operation "Flashburn," the first atomic maneuvers the Army conducted. Other service was at Fort Riley, Kansas, before discharge in April, 1955, with the rank of sergeant.

DAVID S. MACDONALD

BREAK GROUND SOON FOR DRIVE-IN BANK: Dean Widmer, contractor for the new National State Bank of Elizabeth facility, expects to start actual work very shortly. The drive-in will be located in the General Greene Shopping Center along Morris Avenue, building approximately 9 by 18 feet with two overhangs to take care of the drive-in depositors. Drake, Tutthill, Convery and Cushman, of 137 Summit Avenue, Summit, are the architects for this drive-in bank, a rendering of which is shown above. The regular Springfield office of the National State Bank of Elizabeth is directly opposite, at the corner of Morris and Mountain avenues.

Bonadies

(Continued from page 1)

soring without it "hunting" that theater.

Committeeman Vincent J. Bonadies announced that the real object of the ordinance has been lost. He said that the whole idea of a board of review was investigated and ruled out. "We are concerned with the regulation of a business venture," he said, and explained that the intent of the ordinance is spelled out in its title.

At the conclusion of the public hearing, Committeeman Bonadies commented that the ordinance "failed to meet the test of the public." He accepted, without question, the "sound" arguments of the public, he said. The only intention of the ordinance was to provide regulation for a normal business operation and not to regulate the morals of the community, Committeeman Bonadies stated.

"No prior censorship was intended," he emphasized. He recommended the continuance of the public hearing and further suggested that "each member of the Township Committee submit a memorandum to the township attorney of his own ideas gleaned from the public hearing so that the township attorney could be guided in a manner in which to proceed to amend the ordinance."

Mayor Philip Del Vecchio announced that he concurred with Committeeman Bonadies, saying that the ordinance must meet with public opinion and has been found "lacking." Committeeman Arthur Falkin noted that the measure requires "some healthy revision" and proposed an executive session on the matter before the ordinance is re-introduced.

The ordinance in its present form provides for the licensing and regulation and control of motion picture theaters in the township, setting forth stipulations including approval of the police chief, the fire chief, a license.

Board of Health Favors Fluoridation

At its regular meeting July 19 in Municipal Building, Springfield Board of Health unanimously went

Committeeman Russel Sibole pointed out that this was the fourth time this request had come from the school board.

The township has no authority to install sidewalks on Union County Park Commission property, he said, but would proceed with the matter by conducting another survey in September through the police department and also take up the question with the park commission.

Committeeman Vincent J. Bonadies said that there were other areas in the community without sidewalks which are more important and the school board should have these areas surveyed.

The last survey showed only four children were using the Meisel Avenue property when he walked to school, he said, and indicated that there were other areas in the municipality in need of sidewalks where a larger number of children were walking to school.

Mayor Del Vecchio reported on a meeting July 16 which he had with property owners on Morris Avenue from Gibson diner to the center of the town on the question of urban renewal.

All but three owners attended the meeting, he said, and all but two of those in attendance thought the proposal for urban renewal in that area would not be desirable, asking the Township Committee not to act on such a proposal.

The mayor reported that he asked the property owners to ask their tenants what opinion they had on the matter and report back to him.

After the meeting, Mayor Del Vecchio explained that if the idea of urban renewal is received favorably by the tenants in the area the question will be further explored.

At present the Planning Board has referred the matter to the master planners, Candebu, Fleissig and Associates of Newark, and indicated that a future step might be to have a representative of urban renewal meet with the planning board and examine the site to determine whether it will qualify for such a program.

on record in favor of fluoridation for the Springfield water supply and its secretary, Mrs. Eleanor H. Worthington was instructed to inform the 11 other communities served by the Commonwealth Water Company, Short Hills.

This action was taken following a report from Dr. Ralph I. Mond, the doctor member of the board, who has been thoroughly studying the fluoridation question for the past six months.

Dr. Mond advised the members of the board that when he contacted Thomas Coleman of the water company on the possibility of fluoridating the Springfield water supply, the water company representative informed the doctor that this was not possible until approval for fluoridation is received from the other 11 communities supplied by Commonwealth.

Dr. Mond also informed the board members that the water company also requires the approval of the Township Committee on the fluoridation proposal.

In this regard, the Springfield board also unanimously approved a motion urging the Township Committee to approve fluoridation of the Springfield water supply and to so notify the water company and all the other communities it serves.

In June, 1961, State Commissioner of Health Roscoe F. Kandle wrote Vincent J. Bonadies, then mayor of the township, recommending an adjustment of the fluoride content of the public water supply.

In the communication, dated June 23rd, 1961, the state commissioner of health said:

"I fully concur with the recommendations of the responsible and respected public health, medical, and dental organizations that this procedure is a safe, economical, effective, and fully proven method of reducing tooth decay."

"The adjustment of water supplies to one part of fluoride per million parts of water (1.0 ppm) is a basic public health measure to protect the dental health of the people. An analysis of the water of your supply made in our laboratory shows that the natural fluoride content is 0.1 ppm which is not sufficient to protect the teeth."

"It is my earnest hope that you as mayor and the other members of your governing body will give consideration to this subject

as the means by which in a single action you can provide a great benefit to your community. There has been no such remarkable opportunity since the chlorination of water and pasteurization of milk were put into effect many years ago."

Both motions, the one informing the other 11 communities the action the Springfield Board of Health took on the fluoridation matter and the other urging the Springfield Township Committee to approve the fluoridation program, were introduced by Dr. Mond and seconded by Township Committeeman Arthur M. Falkin.

The other municipalities served by the Commonwealth water company are: Millington, Sterling, Meyersville, Chatham Township, Berkeley Heights, Maplewood, New Providence, Summit, Millburn, West Orange, and Irvington.

The First Presbyterian Church of Springfield is cooperating in this service.

The Union meetings will be held in the Presbyterian Church during August and the first Sunday in September at 10:00 A.M. All members of the co-operating churches are urged to attend and strangers will find a cordial welcome.

Rev. Donald C. Weber will preach at the services in the Presbyterian Church.

Spring Garden Members To Attend Affair At Coronet On Saturday

Members of the Spring Garden Country Club, Florham Park, will put aside their pool activities this Saturday night, July 28, to attend the annual square dance and barnyard picnic at the Coronet Caterers' Auditorium in Irvington.

A very interesting program has been arranged for the evening with Jack Joyce and His Farmer Boys furnishing the music. There will be society and square dancing, offered in alternate sets. Bird's nest farmer hats for the men and colorful bandanas for the ladies will be distributed to members with the compliments of SPRING GARDEN.

Every Tuesday afternoon, Ben Krueger, Bridge Pro at Spring Garden will give instruction to beginner's groups in Bridge. On Tuesday evenings the regular weekly duplicate bridge sessions are held. Guests are invited to the evening games.

Film of the week in the spacious outdoor amphitheatre will be the "Mouse that Roared". The film is a feature color production.

The Day Camp for teens will have their premiere social dance on Thursday evening.

The athletic schedule included such features as the Women's Volley Ball game on Wednesday, the annual Shuffleboard Trophy Tournament and the Paddle Ball contest. Instruction in Paddle Ball is given once weekly by the athletic director.

The Men's golf driving trophy

tournament will be held this Sunday. Teen bowling is a regular Friday afternoon feature at the Madison Plaza Lanes.

On Sunday July 29, two swim groups including father-son and mother-daughter groups will be the pool feature of the day.

Local Resident Corresponds With Monaco Princess

Al Blaffer of 11 Archbridge Lane, Springfield, received an Air Mail letter recently from Her Serene Highness Princess Grace of Monaco, the former Grace Kelly. Their acquaintance stemmed from an association in 1950 when Mr. Blaffer, in his capacity as Advertising Manager of DeJay Stores, Inc., New York, had occasion to engage Miss Kelly as a model for advertisements, numerous occasions.

Some weeks back, in the process of preparing a company publication, Mr. Blaffer included an article featuring Miss Kelly as a former model of the company.

Subsequently, he sent a copy of the publication to Princess Grace, and in her reply, Princess Grace said she "enjoyed seeing the brochure and remembering with great pleasure her happy association with your company in the past".

To Observe Atomic Bomb Anniversary

Mayor Philip Del Vecchio will lead Springfield citizens in observance of Hiroshima Day, 1962, in front of the municipal building at the memorial plaque on Monday, August 6, starting at 7:30 p.m.

Next month's August 6 marks the 17th year since the people of Hiroshima became the world's first victims of the atomic bomb, and, as a member of the SANE organization, stated in announcing the date "the services are being held in the knowledge that the atomic weapons being tested today and stockpiled around the world could turn the four corners of the earth into desolation that was Hiroshima in August 6, 1945."

The program includes the reading of messages of hope to the mayors of Hiroshima and Nagasaki. Members of Springfield's clergy are expected to participate in the meeting and all citizens are invited to attend and bring their neighbors for the brief ceremony.

The First Presbyterian Church of Springfield is cooperating in this service.

The Union meetings will be held in the Presbyterian Church during August and the first Sunday in September at 10:00 A.M. All members of the co-operating churches are urged to attend and strangers will find a cordial welcome.

IS THERE ANY DIFFERENCE BETWEEN BANK INTEREST AND DIVIDENDS PAID BY SAVINGS AND LOANS?

When a bank accepts a savings deposit, the bank does so with the GUARANTEE that it will pay a specified rate of interest on your money. Savings and Loan Associations CANNOT GUARANTEE dividends. When an association advertises a dividend rate, it is saying that it anticipates that it will have sufficient earnings to pay the advertised rate. If the earnings are not sufficient, the rate cannot be paid.

At First State Bank, our guaranteed rate is 3-1/2% on regular savings and 4% on 1 year certificates of deposit.

Fund Kids Arrive

Last Tuesday, this summer's first group of Fresh Air Fund children arrived in Union County. There were 25 children on the bus, which was escorted by Mrs. Frank Rugg from Westfield and her daughter Margaret.

2 Youngsters went to Cranford, 3 to Scotch Plains-Fanwood, 8 to Westfield, 4 to Mountainside and 9 to the Berkeley Heights area. For many of the children it was a reunion with friends made in summers past, they all looked excited, a little tired and full of anticipation. It is not too late for you to ask for a youngster from New York's underprivileged families to come out here to spend a badly needed vacation.

The last group arrives on Aug. 14 and you may still invite a child for this date. Please call Mrs. Frank Rugg (AD 2-0915) for Westfield, Mrs. Allen R. Jones for Scotch Plains - Fanwood (AD 3-4436), Mrs. Erwin Klingenberg for Mountainside (AD 2-108) and Mrs. R.E. Merz for Berkeley Heights (464-0256).

ARRIVALS—Pictured above are the Herald Tribune Fresh Air Fund arrivals in this area for two weeks of suburban living away from the hustle and bustle of New York City, and their hosts. All in all, sixteen children will visit families in Mount Airy, Scotch Plains, Fanwood and Berkeley Heights.

10th Anniversary

H. Robinson Ertelt of 66 Oakwood Court, Fanwood, recently celebrated his 10th service anniversary with Esso Research and Engineering Company, the principal scientific affiliate of Standard Oil Company (New Jersey). Dr. Ertelt is a chemist with the company's special projects unit.

Cranford's Chief Named Dean Of Police Academy

The appointment of Cranford Police Chief Lester W. Powell as dean of the Police Training Academy of the Union County Police Chiefs Association was announced today by Chief James Osnato of Scotch Plains, association president.

Chief Powell, who is chairman of the association's education and training committee, has been dean of the Police Training Academy for the past four years.

The 16th annual session of the Union County Police Training Academy will open on September 10 in Union Junior College's Nonahagan Building in Cranford. The training academy is for new police officers of Union County's 21

communities, the Union County Park Police, and the Union County sheriff's office.

Chief Powell has been dean of the Police Training Academy since 1958. He is also a member of the education committee of the New Jersey State Police Chiefs Association. Chief Powell was cited by the Union County Police Chiefs Association last year for his efforts in behalf of its educational program, which includes advanced courses as well as the Police Training Academy for new policemen.

Since becoming academy dean, Chief Powell moved the program from the Westfield Armory to the Union Junior College campus in Cranford.

A member of the Cranford Police Department for 21 years, Chief Powell was named the department's first captain in 1953 and chief on November 22, 1955. He has taken police administration courses at New York University, juvenile delinquency courses at Rutgers University, and traffic administration courses at Northwestern University.

Chief Powell is a past president of the Union County Police Chiefs Association and a member of the New Jersey State Identification Association.

SCIENCE NOTEBOOK

BY HANS KLEIN
UNION COUNTY REGIONAL HIGH SCHOOLS

No phase of technology has made a greater impact on humanity than medical technology. It is infinitely complex, and replete with uncertainties, but the achievements of medicine are spectacular. The art of healing has a history going back beyond antiquity, yet it is relatively free of dogma, and readily avails itself of every scientific advance, of penicillin nor many other important medical advances kept under secret wraps.

SCIENCE QUIZ
Questions sent to Hans Klein care of this newspaper will be answered in Science Quiz.

When one realizes the hazards of any type of surgery even a century ago it is not hard to see how far we have progressed. There are people still living from a period before the germ theory of disease was established. Within living memory disastrous mistakes were made by the best minds in the field. But who knows how hind-sight may look askance at us a hundred years hence?

Even today quackery is widely extant, and medical superstition still has deep roots. The medical profession, as a whole, while not perfect, has reasonably high standards and quackery is mostly outside the profession in the form of commercialized advertising of patented remedies, health devices, vitamins, cosmetics, and tooth pastes.

Where health and sickness are concerned a little knowledge is often a bad thing. A commercial advertisement announcing the latest scientific discovery of formula X something or other, sounds impressive. Most people do not know that, ethically, important discoveries in medical science are not hidden behind secret formulas. Salk did not patent his polio vaccine, nor did Sabin. Neither was the discovery

disease?
2. Are viruses plants or animals?
3. Are most bacteria harmful?
4. Who was the first to really establish bacteria as causative agents of disease?
5. How do mosquitoes cause malaria?

ANSWERS
1. The answer is that the actual causative agent is a bacterium, Plasmodium, which is the malarial parasite. Theopheles mosquito is not a disease agent.
2. Viruses are neither plants nor animals.
3. Most bacteria are not harmful to humans.
4. Louis Pasteur was the first to really establish bacteria as causative agents of disease.
5. Mosquitoes cause malaria by transmitting the malarial parasite in their blood.

Governor To Speak At Inn Celebration

Governor Richard J. Hughes of New Jersey and Arthur Schefter, of Elizabeth, N.J., president of the New Jersey Hotel-Motel Association, will speak on Saturday, July 28 at a community wide celebration of the 150th anniversary of the Lambertville House, John C. Allen, proprietor of Lambertville's oldest hotel announced today.

Over 1500 guests have been invited by Mr. and Mrs. Allen to a reception in the hotel's three dining rooms following an historical pageant parade featuring horse drawn coaches, antique autos and fire engines from

U. County Agent Returns From National Meeting

Mrs. Mary W. Armstrong, Union County Home Agent, has just returned from the annual National Home Economics Convention in Miami Beach, Florida. Accompanying her was Mrs. Helen McCann of Mountain Avenue, Summit, Chairman of the Home Economics Department in the Summit Junior High School.

Miss Mary Ann Ulbrich, Home

Ladies Plan Hoe Down

It was announced by Mrs. Lewis A. Goldberg of Cranford, president of the Watchung Section of the National Council of Jewish Women, that an informal evening is being planned for Saturday night, August 4th, at 8:00 P.M. This Western Hoe Down will be held at 56 Genesee Trail, Westfield, with the talented Jerry Gerold calling the square dances.

Chairman of this event is Mrs. Michael Smoller of Roselle Park. Her committee includes Mrs. Howard Kronick, Mrs. Sheldon Glickman, Mrs. Frank Elby, Mrs. Allan Gleeman, and Mrs. Bernard Genzer, of Westfield; Mrs. Joel Freedman, Mrs. Lawrence Krasnoff, and Mrs. Mortimer Flohr, of Mountainside; Mrs. Alfred Farish, Fanwood; and Mrs. Charles Swartz of Springfield.

For information and reservations call Mrs. Howard Kronick at Adams 3-2985.

Mitchell Aboard Ship

Midshipmen First Class Robert F. Mitchell, son of Mr. and Mrs. Frederick L. Mitchell, of 21 Woodcrest Circle, Springfield, is serving aboard the tank landing ship USS Lorain County for a Midshipmen's summer cruise.

The ship is a unit of the Atlantic Fleet Amphibious Force. She is currently operating in the Caribbean.

All Naval Academy and Naval Reserve Officers' Training Corps (NROTC) Midshipmen participate in summer cruises aboard ships as part of the military training program for the future officers.

Local National Guardsmen On Summer Manuevers At Camp Drum

Pictured on this page are a few scenes of the New Jersey National Guard in training at Camp Drum, New York, as seen through the camera of Watchung Weekly photographer Fred Keesing. Upper left pictures Sgt. Maj. Edward Mullen of Mountainside, Maj. Leo Imara, of Scotch Plains, Sgt. Frank Michenfelder and PFC Eric Rosenburger, preparing for tank exercise. Upper right depicts group of Guardsmen receiving mail during a chow break. Middle left shows Lt. Col. H.S. Tenkin owner of the Mountainside Drug Store, talking things over with Maj. James Delaney. Circle shows PFC Clayton Hunter of N. Plainfield taking time off from maneuvers to keep in touch with the folks back home in Jersey. Lower center pictures Maj. Gen. Cantwell, head of all N.J. Guard units, greeting Capt. Gordon Joblon of Scotch Plains. Lower left shows Sgt. Ed Mullen of Mountainside studying a negative sign during maneuvers. Lower right picture is an overall shot of New Jersey Guardsmen receiving small arms practice at a Camp Drum site.

Watchung Area Social News & Notes

11 mos. old GLEN GOLCHER is this week's "CHILD OF THE WEEK". Glen is the son of Mr. and Mrs. Ron Golcher of 327 Boulevard, Kenilworth. The picture of Glen was taken by his dad who owns The Davron Studio in Springfield. Glen's mom is the former Sandra Day of Springfield. The Golchers' have another child, Christine, 2 years old.

A. Lowits Weds Gerald Lamberg

Dr. and Mrs. Daniel Wolf of Summit announced the marriage of Miss Allyn Joyce Lowits to Mr. Gerald A. Lamberg of Springfield. Rabbi Levine performed the double ring ceremony at Temple Beth Ahm in Springfield.

The bride was given in marriage by Dr. Wolf. The bridesmaids were Carita Woot, sister of the bride and Gail Waitman of Livingston, a cousin. Rona Lamberg, the groom's sister was the maid of honor, Mrs. Daniel Roth of Teaneck was the matron of honor.

The best man was Robert Hefter. Ushers were: Paul Heischbecker, Edward Kalowis, Michael Oksenhorn, and Dr. Elliot Kaplan.

MR. GERALD A. LAMBERG The couple left for a honeymoon in New Orleans. They will live in San Antonio, Texas, where Mr. Lamberg is stationed.

SILVER CELEBRATION—Pictured above are Mr. and Mrs. Albert Donato of 175 Union Ave., Scotch Plains. The occasion for the picture is the 25th anniversary of the couple. (Fred Keesling)

Jr. Readers Enjoy Books For Vacation

In the Children's Department at the Springfield Public Library about 600 "Junior Astronauts" have successfully "blasted-off" into outer space with books, and are now joyfully orbiting the world of books. Many of the boys have been reading books such as "Rockets and Jets" by Neurath, "Space Book for Young People" by Homer Newell, "Man on the Moon" by James Thronburg, "First Book of Space Travel" by Jeanne Bendick, "Countdown to Danger" by Charles Coombs, "Andy's Wonderful Telescope," by Warren Schloot, and "Fun with Astronomy," by the Greenmans. Some of the girls are selecting biographies and mysteries, girls' stories and horse stories. Their author favorites are Woolley, Haywood, Lampman, Lengst, Keene, Boylston, Cleary, Sutton, Enright, Estes, and many others.

The younger readers like many different kinds of books, but still cling to such favorites as "Curious George," "Happy Lion," "Madeline," and Dr. Seuss. Animal stories will never grow cold. Fairy tales are always favorites. Funny stories and illustrations by Syd Hoff delight them.

Other children find greater enjoyment in non-fiction; books about other countries, religious books, science experiments, magic, pets and their training, plays, jokes, games, Indians, arts and crafts, army, navy, stamps,

coins, trains, airplanes, ships, etc. This all adds up to diversified and fascinating reading experiences. It is hoped that many of the children will continue to "orbit the world of books" before they are ready for re-entry. However, the program has twelve or more eager beavers who have finished their charts and have now started new projects.

Mill Swings With Jazz Group

Paul Brubeck, internationally acclaimed as one of the world's foremost jazz personalities, will take the Dave Brubeck Quartet into the Paper Mill Playhouse on Sunday, August 5, for two performances at 7 and 9 PM. The Brubeck concert will be the second of the Jazz at the Paper Mill series this season.

Brubeck is currently, and has been for some years, one of the world's top record sellers.

In jazz. Each of the members of his quartet have won recognition also. Paul Desmond, Alto Sax, recently won first place in the Downbeat Reader's Poll. Joe Morello has won poll after another for drummers for several years, and Gene Wright, the newest member, and an outstanding bass player, has been featured with Count Basie before joining the quartet.

Thirteen From Springfield Attending UJC Session

Thirteen Springfield residents are among 450 students enrolled in Union Junior College's annual Summer Session.

The six-week program opened June 25 and will conclude on August 3. About half the Summer Session students are regularly enrolled at Union Junior College, while the others are from 90 other colleges and universities throughout the country.

The 450 students reside in 70 communities in ten North and Central Jersey counties, including Union, Bergen, Essex, Hudson, Hunterdon, Mercer, Middlesex, Morris, Passaic, and Somerset.

The local students enrolled in Union Junior College's Summer

Session are: William D. Berner of 986 South Springfield Avenue, Richard J. Desantis of 30 Maple Avenue, Miss Naomi D. Fleetwood of 200 Bryant Avenue, John R. French of 111 Salter Street, Miss Joan M. Heller of 99 Remer Avenue, and John D. Hummel of 36 Hobart place.

Also, Edward R. Nuttall of 245 Bryant Avenue, Donald Schaap of 989 South Springfield Avenue, Daniel B. Slattery of 24 Sherwood Road, and Miss Judy P. Vance of 37 Evergreen Ave.

Also, Anthony V. Vivinotto of 66 Irwin Street, Alan R. Wyckoff of 104 Linden Avenue, and George B. Zeller of 957 South Springfield Avenue.

WATCHUNG WEEKLY CLASSIFIED

Miss Durkin Weds James F. Guthrie

Sandra Ann Durkin, daughter of Mr. and Mrs. Martin J. Durkin of 170 N. Martine Ave., Fanwood, was married to Dr. James F. Guthrie, Saturday, July 21 in St. Bartholomew the Apostle Church, Scotch Plains.

The Rt. Rev. Msgr. John J. Cain performed the ceremony. Marilyn Katrinak of New York was the maid of honor and M. Joseph Durkin 3rd acted as best man for his brother-in-law.

The bride's street-length dress of ottoman was styled with a bell skirt and a matching jacket. Her shoulder-length veil was attached to an ottoman pillbox hat and she carried tea roses and Stephanotis.

After a reception given at the Washington House in Watchung, the couple left for a honeymoon to Cape Cod, Mass. They will live in New York when they return.

New York University School of Medicine. He is a resident in surgery at Bellevue Hospital.

MRS. IRWIN GROSS

Mrs. Gross To Attend Convention

When United Airlines Jet Flight #877 takes off from Idlewild Airport on July 21, Mrs. Irwin Gross of 65 Evergreen Avenue, Springfield, will be one of its very excited passengers. Along with other representatives from New Jersey, Mrs. Gross, President of the Springfield Chapter, will be en route to Denver, Colorado to attend a convention at the Children's Asthma Research Institute and Hospital.

Each year presidents of all existing chapters in the United States meet at the "Home" to see the children they have worked so diligently to help. The ideas ex-

changed between members from all parts of the country send representatives home to their chapters inspired and better equipped to do their best "for a child's sake."

The convention is climaxed with a gala formal ball at which each president is escorted to the platform to proudly present a check representing the earnings of her chapter during the past year.

There is complete agreement between Springfield's representatives of past years, Mesdames Harry Katz, David Adler, Jack Hager and Raymond Efrus; that this experience is a memorable one and not soon to be forgotten.

The University of Wisconsin is the only American institution offering a doctorate in Buddhist studies.

"Think you have grass cutting troubles? The world's largest known grass is the giant bamboo, *Dendrocalamus Giganteus*, which may attain a height of 120 feet and a diameter of 8 to 12 inches

Here's a "Happy Birthday" to Kathleen Cetham, daughter of Mr. and Mrs. Lou Cetham at 3 Surrey Lane, Springfield, who celebrated being fourteen years old on July 20. Mom and Dad took Kathleen and sister Sandy to Wally's in Watchung for a lobster dinner, and then on to the Paper Mill Playhouse for a performance of *The Miracle Worker*.

Wendy Stein, daughter of Mr. and Mrs. Harry Stein of 60 Twin Oaks Oval, Springfield, marked her eighth birthday on July 15 by treating her group "The Twisters" at Sun Valley Swim Club, and then being feted at home in the evening with a family party that included sister Andrea, and grandmas and grandpas.

DR 6-4316

HELEN SABO

Congratulations go to Mr. and Mrs. Lou Salkoff, of Sycamore Terrace, Springfield, who celebrated their twenty-fifth wedding anniversary last Saturday night. Ida and Lou were surprised with a dinner party at The Westwood in West Orange attended by Richard and Florence Rosenberg, Danny and Ethel Kendler, Manny and Edna Saitman, Nat and Thelma Spector, and Morris and Florence Reisberg.

A daughter, Patricia Helen, was born to Mr. and Mrs. Eugene Dougherty, of 220 Baltusrol Avenue, Springfield, on July 18 at Overlook Hospital in Summit. The new addition weighed six pounds, six ounces at birth. On the welcoming committee were brother Paul, and sisters Ann Marie, Kathleen and Mary Elizabeth.

Miss Nancy Dzubaty, daughter of Mr. and Mrs. Ted Dzubaty, of 371 Milltown Road, Springfield, is having a wonderful time in California where she is spending the whole summer in Palo Alto with her aunt and uncle, Mr. and Mrs. Mike Halus. Nancy flew out to the "golden west" on July 4. The trip is a graduation present for the young miss, who finished her studies at Gaughran last month.

Miss Donna Kaplan, daughter of Dr. and Mrs. Elliot Kaplan, of 8 Woodside Road, Springfield, celebrated her seventh birthday with a dinner party on Thursday evening, July 12. Her guests were Carol Blaustein, Michael and Jeffrey Fine, Deidre and Jo-Ann Mehl, Shari and Karyl Wildman, Bruce Cohen, Gary Rosen, Robin Roth, Debby and Laura Weiner, Keith and Judy Morris, Cynthia Patino, Jeanne Sabo, and brother Benjie.

The home of Mr. and Mrs. Frank Pulice, at 133 Irwin Street, Springfield, was the scene of a double celebration last week-end to mark the birthdays of daughter Janet and son Frank, Jr. Janet, who is now nine, had some of her friends in on Saturday afternoon, while a family dinner party on Sunday which included Frank's godparents, marked his second birthday.

A son, Christopher Jay, was born on July 16th in Holland, Michigan, to Mr. and Mrs. Karl Jicha. Mrs. Jicha was formerly Jo-Ann Crosby of Scotch Plains.

Mr. and Mrs. Loren Bradley, of 325 River Bend Road, Berkeley Heights, announce the birth of a daughter on July 14 at Overlook Hospital. The young lady, who has been named Catherine Louise, weighed in at seven pounds, nine ounces. Other small fry in the family are three-year-

old Albert and one-year-old Belinda.

Congratulations go to Springfield Board of Education member Sonya Dorsky and husband Larry, on their thirteenth wedding anniversary on July 20. Friends helped the Dorskys celebrate on Sunday night at their home at 247 Milltown Road.

Miss Nancy Dzubaty, daughter of Mr. and Mrs. Ted Dzubaty, of 371 Milltown Road, Springfield, is having a wonderful time in California where she is spending the whole summer in Palo Alto with her aunt and uncle, Mr. and Mrs. Mike Halus. Frank Is Political Grad.

Stanley Frank of 94 Fieldstone Dr., Springfield, recently graduated from the "Action Course in Practical Politics" given at General Precision Aerospace. The course, which is non-partisan, is designed to help those who are interested in politics. During the eight week course, participants studied local political organizations and governmental structure. General Precision Aerospace is a leading developer and producer of control and guidance systems for advanced aircraft, missiles, and space vehicles.

Young GOP

The Union County Young Republicans met July 16, to discuss plans for the State Young Republican meeting to be held in Rahway on September 14. Union County has been honored as host due to the critical election campaign to take place this year. It was also announced that Nelson Stamler, candidate for State Senate, will appear before the group to kick off his fall campaign with the Young Republicans.

MILK DRINKER--Elizabeth Painter, of 210 Hawthorne St. Scotch Plains, enjoys a refreshing glass of milk at the dairy exhibit at the 1962 Senior Girl Scout Roundup at Button Bay, Vermont.

How To See Better With Glasses

Even though your glasses are ideal, you must use your eyes properly to get best results. Here are some suggestions for easy seeing from the New Jersey Optometric Association:

- Center your work in a comfortable, downward position equidistant from each eye, whenever it is possible.
- Work with balanced body posture, either standing or sitting, so that head and neck are not under strain, and so your arms can freely reach the work area.
- Comfort at the distance which is comfortable for you. There is no standard for everyone, it depends upon your own posture and arm length.
- Reading should be held so the eyes look directly perpendicular at the page. This is the best way to read and work if you can, with the seeing area tilted upward about twenty degrees from horizontal.
- Rest Occasionally. Stop and blink if you begin to tire. Next time tension builds up, close your eyes and count to ten.

Dinner For Stamler Announced

James E. Mitchell of Mountainside, Campaign Manager for Nelson F. Stamler, Republican Candidate for State Senator, announced today the appointment of a committee to plan a dinner honoring the Assemblyman. Charles S. Tracy of Hillside

was named Chairman of the Dinner Committee, Mitchell said. The dinner is scheduled for September 20 at the Hotel Suburban, Summit. Also appointed to the committee were: Reception - Mrs. Josephine Slonezewski of Summit; treasurer - Roger S. Payne of Elizabeth; speakers - Albert Benninger of Mountainside; tickets - Jacob L. Triarsi of Elizabeth; and arrangements - Eugene Deutsch of Union. Mitchell said tickets are available at the Stamler Headquarters, 29 Broad Street, Elizabeth, principal speakers will be announced shortly. Stamler, an Assemblyman since 1959 and a former racket-busting Deputy State Attorney General, is seeking the seat vacated by Robert Crane, also a Republican. The world produces annually about 40 million ounces of gold, worth nearly \$1.4 billion. Almost half of it comes from South Africa.

Temple To Sponsor Concerts

Exciting evenings at the Mosque Theater, Newark, New Jersey with Maurice Chevalier, Benny Goodman, and Van Cliburn are the benefit theater parties to be sponsored this year by the congregation of TEMPLE SINAI of Summit. The first, with Maurice Chevalier, will take place on Thursday evening, September 20. Mr. Chevalier, a rare talent, is well known to many generations. His recent touring one-man shows have been sold-out sellouts. The evening with Benny Goodman, a symphony jazz concert, will be held on Saturday, November 3, with Van Cliburn, world famous pianist to offer his concert on Saturday, January 26. Tickets, all choice orchestra seats, may be purchased for the series of three or four individual concerts by contacting Mrs. Sheldon Ellentich, 48 Date Drive, Summit, OR 3-3639. Since most choice seats have been taken by organizations, reservations should be made by August 15.

Masterwork Auditions To Be Held

Mrs. Charles Poubian of 353 Crooks Avenue, Paterson, Membership Chairman of The Masterwork Chorus, has announced that on Monday evening, July 30, auditions will take place at the home of Mr. and Mrs. Robert C. May of 23 Pleasant Valley Road, Whippany, N. J., beginning at 8:30 P.M. The Masterwork Chorus is a mixed group dedicated to professional-level performances of the finest in classical choral music. It is inter-racial and inter-denominational. A blending voice and some musical ability are the only requirements for membership. David Randolph of New York, Music Director of The Masterwork Foundation, is the permanent conductor of The Masterwork Chorus and Orchestra. There are still openings in all voice parts, and information about membership and auditions may be obtained from Mrs. Poubian at AR 4-0006, MRS. May at TU 7-1732, or the office of The Masterwork Foundation at JE 8-1860.

BATTLE HILL COMMUNITY MORAWAN CHURCH
 Union, N. J.
 Rev. D.E. Acheson
 Sunday: 9 A.M. Church School for all youth. Church School is more than attending public school therefore we do not take vacations from this. Church School includes worship as well and for most youth this is the only worship they can really gain from. The Lord Jesus did not, as the Son of God neglect his need for worship weekly. Have any one of us the audacity to think that we can do without what the Son of God felt He Himself needed?
 10 A.M. Nursery for children of parents attending Church. Mrs. William Klapproth in charge.
 10 A.M. Worship Service. The Old Favorite Hymn Sing has been a regular part of our worship each Sunday during the summer for a number of years now. Come and sing your favorite hymns with us.  Rabbi Re-elected
NEW YORK (UPI) - Dr. Julius Mark, senior rabbi of Temple Emanuel in New York City, has been re-elected president of the Synagogue Council of America, the national coordinating agency for the conservative, orthodox and reform rabbinic and congregational organizations.

Helps Solve State Park Facilities
 New Jersey's request for temporary bathhouses at the new Sandy Hook State Park has been answered by Edward Segall of 40 Cayuga Court, Springfield, who as president of the Newark concern, H-S Concessions Inc., will furnish, by July 1st, 14 mobile trailers at the seashore site.

The Springfield resident reported that he has been awarded a three-year contract calling for four trailers and food dispensers and is planning to supply three times as many at the state park, which is expected to accommodate 15,000 cars in three years and eventually 60,000 people a day.

Reports also prevail that a ferrying service will be opened to the recreation center bringing a crowd from the New York area.

Since his "cabanas-on-wheels" has been publicized, Mr. Segall says that his concern has been swamped with requests from other states in the nation asking about his facilities. He recently heard from the state of Nevada which is desirous of establishing temporary facilities at its state parks and recreation areas.

"There is a need for this," Mr. Segall pointed out, and added that he hopes to make the business a nation-wide operation. The trailers provide an "easy out" for temporary requirements, he explained, and do not in any way tax the government with the state receiving a percentage of the income for the privilege of giving the concern the right to operate on its property.

"An important feature of the trailer facility is that it can be pulled by car and taken anywhere in a short time. There is a need for this and we are providing the need, the Springfield resident concluded.

At Sandy Hook, Segall said that the visitors will pay a small fee for the use of the bathhouse facilities and the state will receive 26 per cent of every dollar. The trailers at the Hook are costing \$7,500 each with measurements of 40 feet in length, eight feet in width, and eight feet in height.

Although the Newark concern is in the trailer-making business itself, because of their size, it was felt it would be advisable in this particular instance to purchase these vans read-made and convert them. The units will be converted to mobile wash rooms, showers, dressing and locker-rooms, and one will be fully air conditioned to serve as a life guard first-aid station.

Units will feature hot and cold water and will be fully insulated and air-cooled by fans. Some will also sell food, rent beach chairs, and stock supplies.

After the season is over, the trailer will either be pulled into the company's storage yard in Newark or else rented to a large construction outfit in the area who would find them especially useful during a work project.

The concern also accommodates numerous high schools with mobile food units at football games. Several Essex and Bergen county schools have used the facilities. Vans are rented fully equipped to those who desire to operate them themselves.

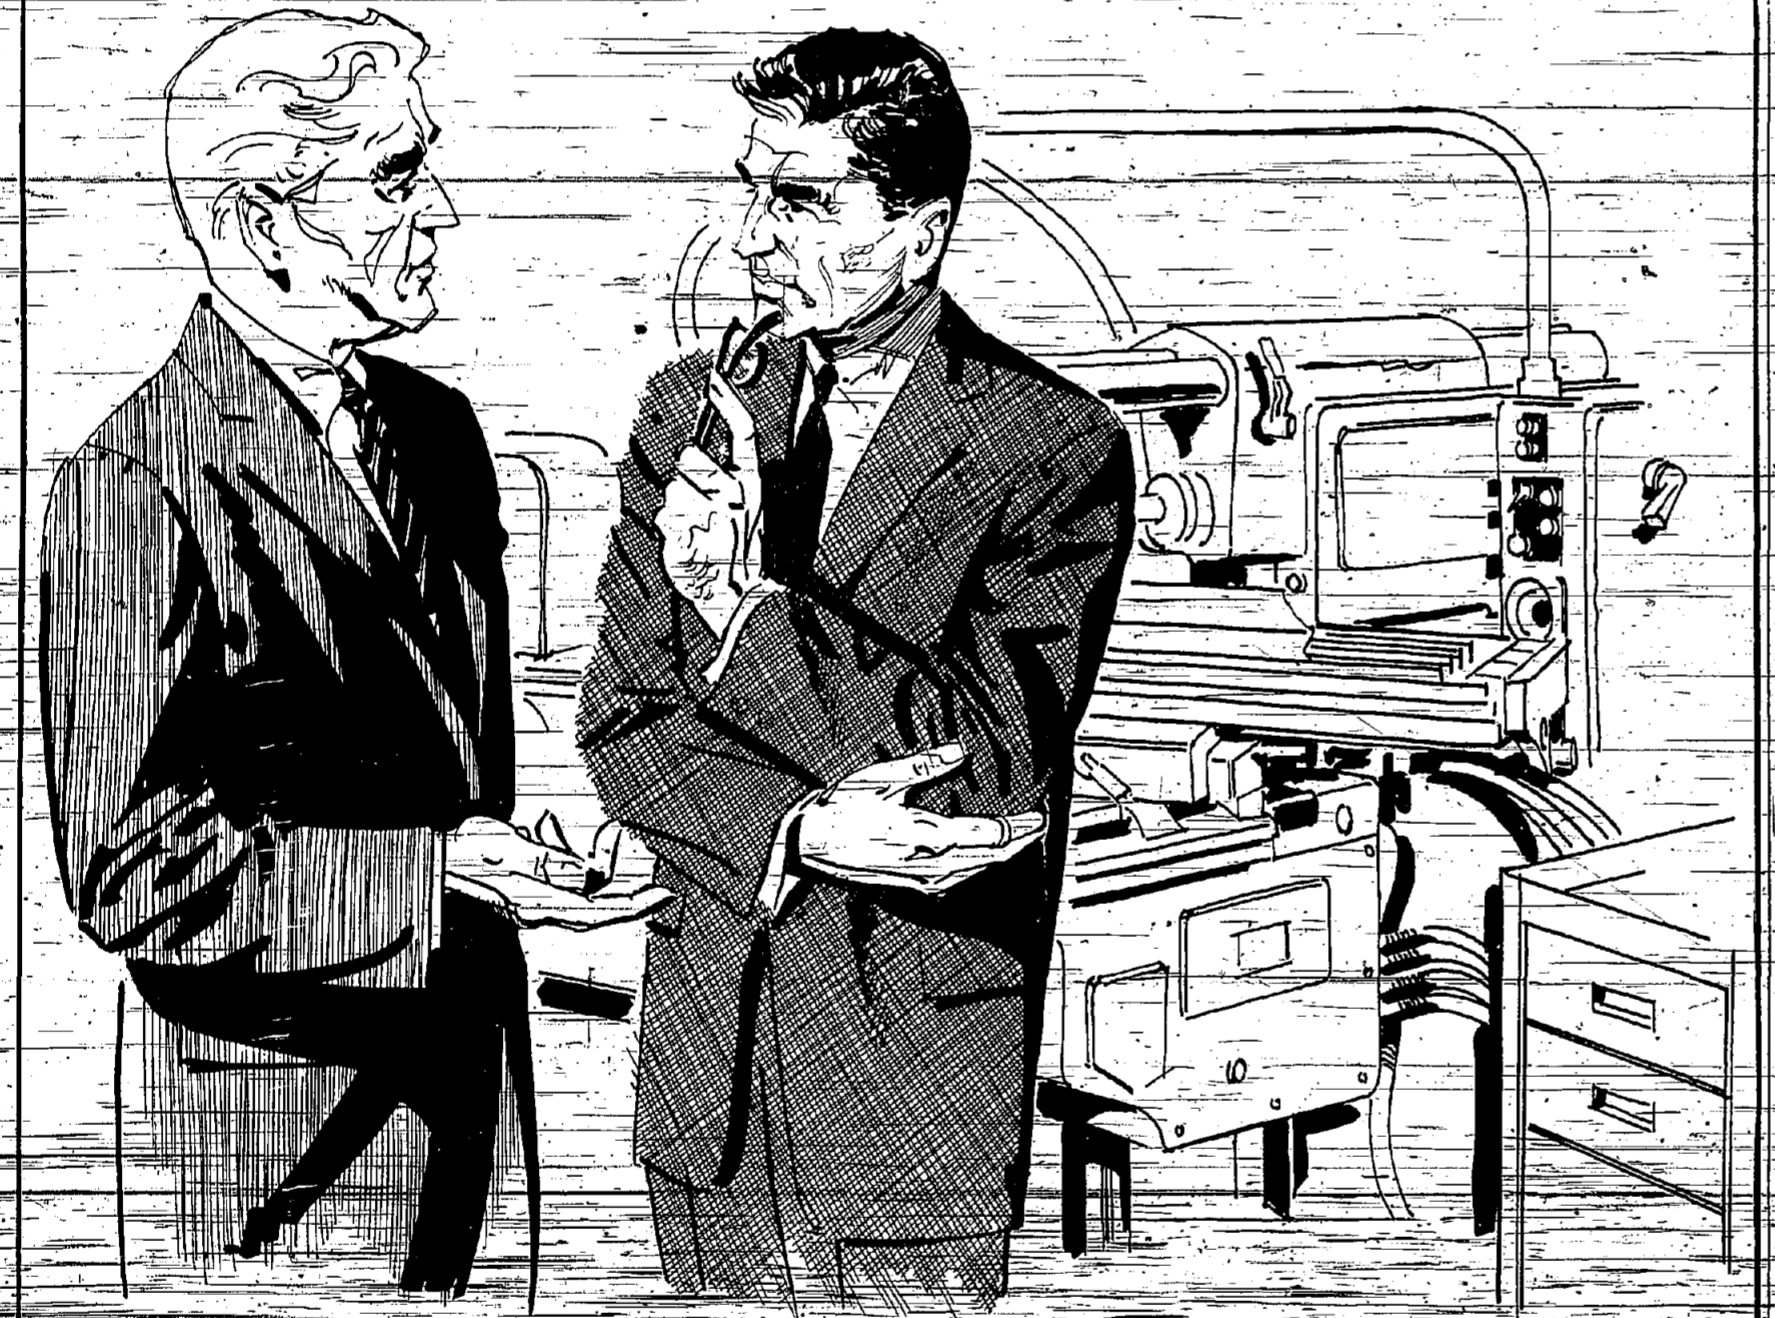

Other organizations such as Lions and Kiwanis clubs rent the equipment for kiddies or charitable affairs, Mr. Segall said. Last year he operated the food concession at Cheesapeake State Park.

The business has been in existence since 1949. Mr. Segall reported he worked himself through the University of Miami, Fla., with this idea. Graduated from the university in 1953, he now also operates several truck leasing and hauling firms, including Cross Country Trucking of Newark.

He has lived in Springfield the past two years with his wife, Natalie, and their children, Barry, seven; Scott, three; and Tina, one.

The concern's contract was awarded by the State Department of Conservation. The Sandy Hook park is the state's third oceanport park and was acquired last year on lease from the federal government.

Initially, a 460-foot section of beachfront property will be open to the public along with a parking lot for 1,600 automobiles and an area for surf fishing.

National State helps create jobs with your deposits...

To grow, to provide the latest and best in products and services, business and industry often need funds to buy new equipment and for other requirements. When executives of these companies come to us with their ideas and plans - the source of more jobs -

National State Bank supplies the money they need. In this way, your deposits at National State play an important role in creating more jobs, more work, in Union County and New Jersey.

Wesley Jewelers Still Undefeated

By Dick Schwartz

BULLETIN

Minus Scott Donington on the mound Wesley Jewelers lost their first game of the season, 4-0 to Davron Studio. Ron Gocher pitched a terrific shutout effort allowing just three hits. Wesley hit the ball well on many occasions, but right at Davron fielders. Both teams were good on defense as many hard hit shots were turned into easy outs. Mike Mascaro, third baseman for Davron excelled at the plate and in the field. Wesley is now 7-1.

with the Jersey Guard at Camp Drum. In the other game to come in, Fischer Travel Bureau fell to the Jaycees, 8-3. Fischer jumped to a 2-1 lead at the end of the first frame, but leading 3-2 going into the bottom of the fifth, the Jaycees put the game on ice by scoring five runs. The runs were driven in on singles by Ron Bell and Dan Lucy. Fischer added a run in the top of the 6th as Agne drove in Manning with a double. Winning pitcher was Ken Lancaster for the Jaycees and the loser was Bill Sawyer for Fischer.

	WON	LOST	
WESLEY	7	0	1.000
KATZ	5	2	.714
FISCHER	5	3	.625
JAYCEES	5	3	.625
METS	4	3	.571
DAVRON	4	3	.571
EHRHARDT	4	3	.571
MEEKER	3	4	.429
LEGIN	2	5	.286
REINETTE	0	6	.000
SUN	0	7	.000

*Not included in the standings; Wesley 0, Davron 4 (game played Tuesday evening)

Well, we think we've finally got it straightened out. It was pretty rough going for a few weeks there, but with the aid of League Treasurer Vince Altieri, we finally managed to get the Springfield Softball League standings in order. We admit that we had made a few goof-ups, but no real damage has been done.

A very important meeting of the Springfield Adult Softball League has been called for Friday, August 3rd, at 9:00 p.m. in Ed Ruby's office at the Springfield Municipal Building. At this time, the very important matters of the proposed League Playoffs and the upcoming All-Star game with Pawtucket will be discussed. League officials urge all those who can make it, plus all team representatives to attend this meeting.

In the only two write-ups that crossed our desk this week, we note that Wesley Jewelers won their 7th straight game, without a loss, by defeating the Mets 14-3.

Joe Pepe was the winning hurler for the Jewelers. Don Casternovna, pitching for the Mets, held Wesley bats quiet until the fourth inning when the winners erupted for seven big markers.

Dick Bednarik, hitting a bases clearing double, and some untimely Mets errors, aided the Jewelers in this inning.

Vince Altieri, Scot Donington and Dave Monroe will return to Wesley's lineup this week after a two week training period.

Eagles Defeat Jaycees

Monday the league leading Eagles came from behind to defeat the Jaycees 10 to 6, in Berkeley Heights softball play. A 6-run 7th inning highlighted by Lou Zichichi's 3 run home-run over the deep left field fence enabled the Eagles to gain their 9th victory. Youngs lost his 7th game while Gauthier won his 2nd for the Eagles. Fowler had a homer, Fitzgibbon a triple, and Vignali a double for the Jaycees. Lou Zichichi lifted his league leading ave. to .517 with three for 4.

Wednesday's game between the Braves and Rehels was rained out.

Thursday Esso with a big 9-run 1st inning beat team six 17 to 9. Geiger won his 9th while Fitzgerald lost his 5th. Vin Lassasso and Glen Beagle had homers while Damanski had a triple and Jim Lassaso had two trip-lets and 4 RBIs.

Standings:	W	L
EASTERN		
Esso	9	1
Braves	3	6
Jaycees	2	7
WESTERN		
Eagles	8	1
Rehels	3	5
Team six	2	7

Providence All-Stars Belt Heights

The New Providence Adult Softball League All-Stars belted their Berkeley counterpart 18-2 in a one sided game played at J.K. Smit Field in New Providence.

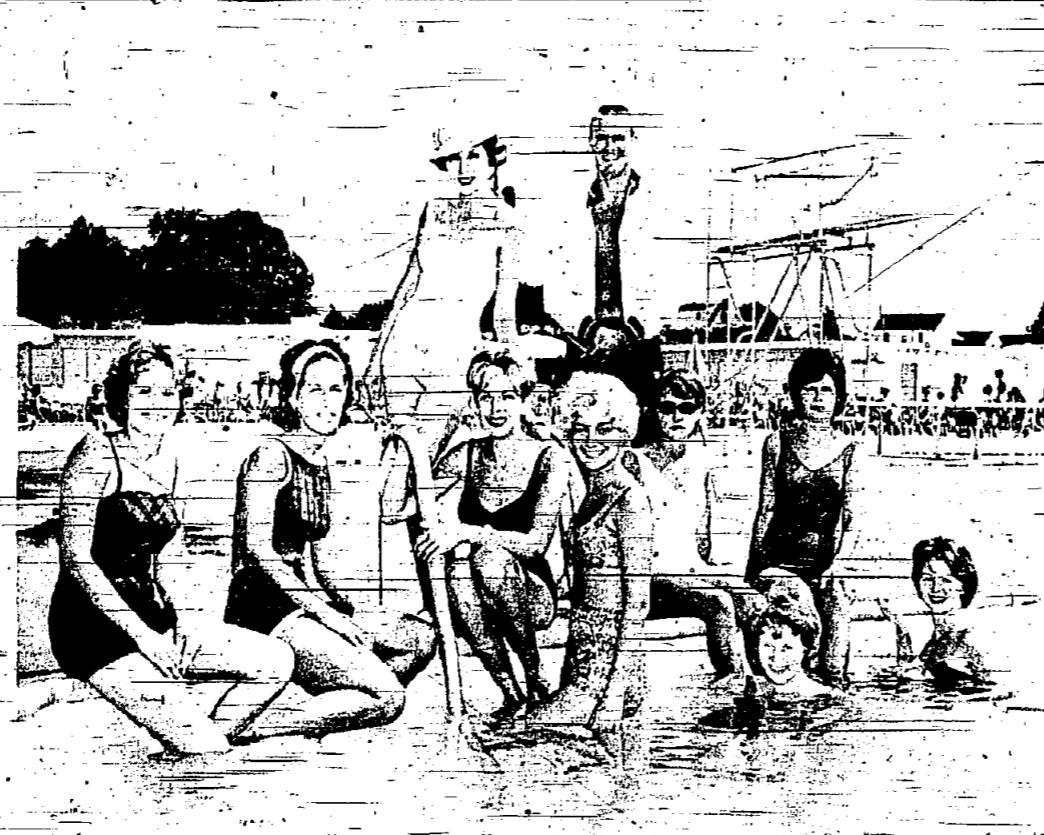

The big hero for New Providence was Lloyd Burlew who went 3 for 4 with a homer and 4 RBIs. He also stole home in the first inning and made the best defensive play of the game, making a tumbling catch of hot liner hit down the 3rd base line which easily could have scored two runs.

Berkeley scored in the first on singles by Perillo and Benner while New Providence tallied 6 in the same frame on 4 walks, two hit batters and a grand slam home run by Buddy Cox. New Providence scored in the second on singles by Kubach and Burlew and in the fourth on two walks and a double by Burlew. 15 men were sent to the plate as New Providence scored 10 runs on two walks, singles by Durand, Cox, Geddis, Cubbage, Kubach, Donnamania, and Healey, a long double by J. Urbanski and two-run homer by Burlew. In all New Providence pounded out 16 hits with at least one by every player.

The New Providence pitching also was good with the only earned run for Berkeley Heights being allowed in the 7th when Don Geddis walked Phil with the bases loaded. Geddis otherwise was fine in relief striking out 2 batters. Pete Kewlin the starting and winning pitcher also was in great form as he allowed no earned runs and retaining the side in order after Benner opened the third inning with a triple. Geiger was the starter and loser for Berkeley while Calleo helped out in relief. Together they struck out 6 New Providence batters.

NEW AREA CLUB--Nomahegan Swim Club in Westfield, is now operating in full swing as the above picture shows. Greg Weiss, Westfield High School football star who is a lifeguard at the pool, is surrounded by swim suit clad members.

Commision Offers Golf

A golf clinic for boys and girls, 12 to 16 years of age, who are residents of Union County, will be conducted by The Union County Park Commission at the Galloping Hill Golf Course, Kenilworth and Union, and at the Ash Brook Golf Course, Scotch Plains, beginning Wednesday, August 1, at 6:00 p.m.

The instruction program will be under the supervision of Ed Farnula and Charlie Tatz, the professionals at the Galloping Hill Golf Course and Ash Brook Golf Course respectively. The clinic will consist of 5 one-hour sessions from 6:00 to 7:00 p.m. on Wednesday evenings until August 29, and the classes at each golf course will be limited to 20 students. Instruction will include the proper grip; stance; swing, follow-through; driving; chipping; putting and the etiquette and rules of golf.

SPOUTING SPORTS

by Arnold Minzman

On Monday, July 30, the second major league All-Star Game will be held at Wrigley Field in Chicago. The Cubs occupy this stadium which seats 36,755, and has the distinction of being the only major league park without night lights. This ancient house of baseball will be quite a change from the lavish D.C. Stadium, where the first All-Star game was held, but the action will be as dense as ever. The fences offer a challenge to the major league sluggers, measuring 355' down the left field line, 353' in right, and 400' in dead center.

Only one All-Star game has been held at Wrigley Field before, and the American League bested the National League 2-1 before 41,123 fans. Things could be quite different in this game though, but anything can happen when the best go against the best. Three players are to be added to each squad by next week, and the managers may also make changes in their pitching staffs: Ralph Houk, who dropped his first All-Star attempt, will have to make the most of his third choices in order to break the Junior Circuit's losing streak. Ralph seems to have good pitching but lacks sufficient power. (Mantle, Gentile, Maris, Wagner, etc. aren't enough.) Despite this, we feel that his first addition to the squad will be his ace lefty, Whitey Ford. Ford is 9-5 through Monday, and he has won six of his last seven decisions. Another addition may be Pete Runnels of Boston or his fine young teammate Carl Yastrzemski. Both are left handed hitters with the ability to get on base often. On the other hand, if Houk decides to go with right handed power he has Harmon Killebrew of Minnesota, or big Jim Pagliaroni of Boston. Harmon hit a home run in last year's 2-1 National League victory, for his only hit in All-Star competition. Jim has power to spare, and is hitting .286. Other stars to look out for are Harry Bright of Washington, Jim Kaat of the Twins, Ken McBride of L.A., and Robin Roberts of the Orioles.

The National League has Hank Aaron in condition but has probably lost the services of Sandy Koufax. Sandy has no sense of feeling in a pitching finger and Fred Hutchinson may have to drop him from the squad; Aaron will replace him and Frank Robinson of Cincinnati is almost a sure bet to be placed on the squad. We say this with confidence because Frank should be starting in the first place with his .43 average, 16 homers and 75 runs batted in. A number of Cubs may make the squad for the second game. Bob Skinner is hitting .319, and Smokey Burgess has a .346 average. Roy Face has a .277 record and a 1.45 earned run average. Al McBean has risen to .405 and 2.85 e.r.a.; Billy Williams, .313; George Altman, .318; or Cal Koonce, 8-3, easy job. Ernie Banks before the home fans. Other prospects are Roman Mejias of Houston, and Frank Thomas of the Mets.

There have been a number of injuries to key players this year, that have hurt the pennant chances of their respective teams. Two of the sidelined athletes, Minnie Minoso of the St. Louis Cardinals, and Al Kaline of the Detroit Tigers have returned to action recently. Another valuable competitor, Gene Freese of the pennant winning Redlegs has been out the entire season but is expected to play third again by August 9th. Injuries are feared more than anything by a player, manager, or general manager. As we mentioned, Sandy Koufax of the pennant contending L.A. Dodgers has lost the sense of feeling in one of his pitching fingers. Should Koufax be lost to the Burns for any length of time exceeding 2-1/2 weeks (about four starts) their pennant hopes could fade somewhat. One player can mean a lot to the team's desires. A fine example of this is the drop of the Pirates from World Champions to second division dwellers in one year. By an odd coincidence, Vern Law, 20 game winner in the good year, missed almost the entire preceding season because of a lame arm. Where would San Francisco be without Willie Mays, or the Twins without Camilo Pascual?

A solid team is one that can hold with or without injury. The Yankees and Angels have had harmful injuries this year and have played without the assistance of valuable players who are in the service. The Angels have been playing above their heads, but what would the situation be if George Thomas (currently in the army) and Ken Hunt (out for all of June and July due to a shoulder injury) were playing. The Angels are solid but it remains to be seen if their brothers the Dodgers, who boast of the best pitching and bench in baseball, can stay intact with one star missing.

Good luck to Bill Farrell of Springfield, our choice to nose out Wes Ellis in the State PCA. It should be a very close match between these men.

Coriell Raps Lane In Fanwood Action

Results ending week of July 20, 1962: Coriell 13, Shady Lane 5; Marian 11, Poplar 5; Hunter 10, Willoughby 6; Russell 15, Sun Valley 2; Marian 4, Shady Lane 4; (7 inning tie) John Marshall with three hits, Skip Unger with two hits and Herb Neilsen with two hits led Coriell to a 13 to 5 victory over Shady Lane. Tom Healy, Bill Lasher, Ernie Gebler, and Dan Gurry each had two hits for the losers, all in Fanwood League Play.

Russell slugged Sun Valley 15 to 2. Sheldon Anderson homered for Russell. Malcom had three hits, Chuch Assel in 2 hits, Mel Teets 2 hits, Eagle 3 hits and Smith 2 hits for Russell. Charlie Daly had three hits including a homerun for Sun Valley. Steve Yates and Art Terry, two of Sun Valley's more capable players, were at the ballgame; however, sudden illness of both prevented them from playing. Marian and Shady Lane fighting for second place played an exciting 7 inning 4 to 4 tie. Each team had 7 hits, Bill Lasher had two hits for Shady Lane. Walt Deyerle and Ken DeMilt each had two hits for Marian.

Maurice Duffy of Marian hit a homerun for the lead run as Marian defeated Poplar 11 to 5. Charlie Kessler went three for three and Bob Peters and Lou Lott each had two hits for Marian. Balmer had three hits and Tom Martin two hits for the losers. Stu Clark with three hits and Ken Wehrle, Joe Siczka, Fred Chemdlin, Earl Frank and Hank Piekarski each with two hits helped Hunter defeat Willoughby 10 to 5.

Elected To Post For National Accountant Group

Michael J. Burns, 422 Marcy Avenue, Springfield, has recently been elected as Associate Director of Member Attendance of Newark Chapter, National Association of Accountants for the year 1962/1963.

The National Association of Accountants is a member service organization concerned with the accounting problems involved in the management of business. It is the principal organization in the country for the non-professional accountant and for the professional accountant who is concerned with the internal or management uses of accounting. It is an association of over 50,000 members, with more than 170 active chapters.

Newark Chapter has 700 members and represents about 400 business enterprises in the Greater Newark area. The annual golf outing is set for the Broadburn Country Club on Tuesday, September 18, and its first technical meeting of the current fiscal year is to be held on Thursday, September 27 at the Robert Treat Hotel in Newark.

Mr. Burns is Specialist-General Accounting at General Electric Co., Receiving Tube Dept., U. S. Route 27, Springfield.

At Pearl Harbor

Michael J. Burns, electrician's mate second class, USN, son of Mr. and Mrs. William J. Burns of 344 Milltown Rd., Springfield, N. J., is serving aboard the submarine USS Bream, operating out of Pearl Harbor, Hawaii.

He reported aboard the Bream, June 19, from the submarine USS Pickrel also operating out of Pearl Harbor.

Burns, who entered the service in January 1958, attended Essex County Vocational High School, Bloomfield.

Named New Traffic Manager For Firm

Sam Silverberg, 357 Lakeview Avenue, Clifton, N. J., was appointed Traffic Manager of Keyes, Martin & Company, Springfield, N. J., advertising, marketing and public relations agency, it was announced by George Schlissel, Executive Vice President and Co-Founder.

Formerly employed by Newark advertising agencies (William & London, Lewis Advertising), Mr. Silverberg is a graduate of Barringer High School in Newark, and Fairleigh Dickinson, where he was an advertising major. He is treasurer of the New Jersey Advertising Production Manager's Club in Newark.

SAM SILVERBERG

Mr. Silverberg is engaged to Leslie Karen Emmer, Linden, New Jersey. Their marriage was recently announced for next December.

A member of the National Guard Infantry Reserve, he has competed in school football, baseball, tennis and swimming.

CONSUMER AND CONGRESSWOMAN cooperate in an on-the-spot survey of packaging and labeling of household products, as Rep. Florence P. Dwyer (R-6th Dist.) discusses consumer protection with a constituent in a Union County supermarket. Mrs. Dwyer, ranking member of a House subcommittee investigating ways of improving consumer protection activities found many examples of faulty and deceptive labels and misleading packages.

Mamie Van Doren Star In "Wildcat"

"Wildcat", the musical that brought Lucille Ball back to Broadway in the 1959-60 season brings "Mamie Van Doren", Hollywood's leading symbol of Sex in the I Love Lucy girl's role to the Meadowbrook Dinner Theatre in Cedar Grove, and Mamie proves the producers, McHugh, Sawyer and Scanga know their business.

In "Wildcat" she is seen as a roughneck gal, fortune-hunting in a greasy, overalls in the Southwest's oil fields in the early years of this century. Exotic Mamie is remarkably effective as a comedienne and more than competent as a singer. She opens the show with a smudge on her face and a wrench in her hand as she crawls out from under a broken down car on the Texas desert, to sing a rambunctious number called "Hey-Look Me Over" and you're glad you did.

Mamie then yanks Todd Parson (Sookie), a dirty, but lively old handholding bum, from where he's been "settin' Since February" to sing another rousing ditty, "What Takes My Fancy."

Most of her rollicking songs are with handsome co-star Ronald Knight as "Dynamite Joe", the lusty-voiced rig foreman she hires to help bring in a gusher—such popular favorites as "Give a Little Whistle, I'll Be There" "You're a Liar," "That's What I Want For Jane". He has a pair of memorable songs of his own that have been familiar on the juke boxes, "Tall Hope" and "Far from Home."

Bill Galerno is the young Mexican who pursues "Wildcat's" demure little sister (for whom Mamie is doing all this) and the two have a charming love-duet "One Day We Dance" as well as an itchy dance number "Tippy-Tippy-Toes". Wendy Waring is spending as the sister.

A sombrero dance at a fiesta in the second act is one of the biggest show stoppers of the romp. It starts off amusingly listless and winds up in wild animation. Marvin Gordon's choreography in this number is superb as it is throughout.

Miss Van Doren's spiffy role requires her for most of the show to wear blue jeans and a man's shirt open at the neck, but this mannish get-up has been designed only to accentuate her feminine charms as she prances merrily through this exuberant musical tale-out-of-America's past history.

In major roles, Linda King, Marvin Sprague, Art Budney, Ken Brown, Walter Koremin, Dale McKechnie, and Dick Stanley add to the merriment in complete professional style.

The show's plot is concerned with Miss Van Doren's struggle to stay out of love with her vicarious drilling-foreman, to keep her mind on her plan to strike it rich in oil, and his mind on his business.

Another big RKO anniversary show... RKO PROCTORS NOW... THE SKY ABOVE... THE GROUND BELOW... "Blood-curdling riffs" "EXCITING" "THRILLING LOOK AT MURDER" "WHAT A CARVE-UP" "MILLBURN" "HELD OVER" "CARRY ON CONSTABLE" "I'M ALL RIGHT JACK" "THE MINOTAUR"

Arlene Francis To Star In Paper Mill Comedy

Arlene Francis, who is seen on TV more than commercials, will bring her ebullient self into the Paper Mill Playhouse in Millburn on Monday, July 30, for a two week stay. Miss Francis will star in a sophisticated comedy, "Old Acquaintance", written by the late John Van Druten, who wrote "The Voice of the Turtle", "I Am A Camera" and many other successful plays.

"Old Acquaintance" tells the tale of two old friends who after a separation of many years, meet again and reminisce about old friends, acquaintances and lovers—and then some complications ensue. Mary Cooper, a close friend of Miss Francis in real life, plays her "Old Acquaintance" in the sparkling and witty comedy.

The production is directed by Miss Francis' husband, Martin Gabel, an important actor and director, who is also occasionally seen on "What's My Line?" with his wife. The current production has been playing to "Standing Room Only" audiences at the new Mineola Playhouse on Long Island and the Westport County Playhouse in Connecticut. Last winter it did equally well in Phoenix, Arizona and Salt Lake City.

With Arlene Francis and Mary Cooper in the comedy will be handsome young Bill Berger, Linda Robinson, Genevieve Frizzell, Eulabelle Moore and Roger Barrett.

"The Miracle Worker", starring Eileen Brennan and Donna Zimmerman continues at the Paper Mill Playhouse through this Saturday night, July 28.

Promoted By Prudential

Martin D. Vogt, of 13 Redwood Road, Springfield, has been promoted to assistant general manager in the Prudential Insurance Co.'s group insurance department.

Mr. Vogt, who joined the company in 1943, was manager of the group administration division before this promotion.

During W/W II, he served in the Navy at Okinawa and Japan. He is the former director of the Newark Junior Chamber of Commerce and was elected "Outstanding Young Man of the Year" by that organization in 1957.

Mr. Vogt is married to the former Virginia Baumann of Irvington. The couple have one daughter, Virginia Ann, 9.

Superintendent Addresses Bd. Of Ed. Concerning A Solution To Drop-outs

Annually, figures are given concerning the number of high school graduates who are continuing their education. Great stress has been given to the need for a higher education in our modern complex world. Only recently have we even faced a new problem... that of the increase in the rate of high school drop-outs in the U.S.

At the July 17 Board of Education meeting, Regional High School, Dr. Warren M. Davis, Superintendent of the Union-County Regional High School System, presented a review of that school system's program for the "slow learner". This program has been very successful in helping solve the "drop-out problem".

For this reason, we feel that our readers should be made aware of his findings. Dr. Davis' speech follows: "Is any one in New Jersey doing anything for the very slow learner in high school other than supplying him with a desk to sit at and a seat to warm?" This was the anguished inquiry recently of a conscientious, hard working, and effective superintendent of one of New Jersey's better school systems.

The quick answer is that not too many schools seem to be doing much about the problem. This superintendent's question did not relate to the programs for the "educables" and "trainees" who are being cared for with state assistance under the "Beadleston" Act. A variety and diversity of programs have been developed in schools throughout the state to care for their needs. Rather, he was making reference to the thousands of young people of high school age who are certainly higher in intelligence than the educable pupils, but who are not intellectually and academically strong enough, to carry even the modified scholastic loads which are presented in the usual high school catch-all "general" courses.

The majority of these young people, if given the chance, will become good contributing citizens and workers in their communities. They have the potential to fit into many facets of community living with complete success and with honor if they are offered an educational program different from the standard high school program. They are not mentally retarded nor do they possess abilities or skills necessary to successfully complete the usual programs of the high school.

The answer to the original question is that at least one high school system in New Jersey, the Union County Regional High School System, is doing something about the continuing education of these potentially useful and valuable citizens-to-be. The Union County Regional District is composed of the six towns of Berkeley Heights, Clark, Garwood, Kenilworth, Mountainside and Springfield, and is located within some twenty-five miles of New York City, a dozen miles from Newark. It is typical suburbia and its people have all of the dreams and aspirations for their children as do suburbanites everywhere.

Serving these six towns are the three high schools of the Union County Regional High School System. The original regional high school of the state is the Jonathan Dayton Regional High School in Springfield, which for a score of years services the entire district. Some six years ago it was outgrown and a second school was established, the Arthur L. Johnson Regional High School in Clark. Following close on the heels of this came the third, the Governor Livingston Regional High School in Berkeley Heights, and projected not too far into the future is a fourth high school to be built on land in Kenilworth which has already been acquired by the Board of Education.

Five years ago, the Regional District faced up squarely to the problem of the needs of the slow-moving pupil in the high school. It was quickly realized that the old and time-worn answers simply had not worked and did not apply. Frustration, disciplinary difficulties, truancy and drop-out were their fruits. It was necessary to move boldly into new areas which offered promise of greater success. With the overpowering emphasis on the talented, there was a never-never land which few seemed to care to explore.

First, it was necessary to study and review the situation and of course, the learner is central to the situation. Typically the young person the school had in mind is one who has given every evidence of a consistently true slow-learning pattern. Careful testing in depth was necessary to separate the young people who might be expected to profit from a hold new program from those who would not profit and who might even be damaged by it. This was no program for the brilliant but merely "angry" child. This was not to be a place for the child who had been merely an emotional misfit—the poorly handled child, or the child with damaged personality—it was not to be a disciplinary catch-all. Typically, the young person who fitted into the picture as it began to unfold itself is the youth who through careful testing and a history of repeated school frustrations is found to be actually and in truth one who cannot be expected to have any success in the normal program of the school, whether this program be associated with so called college-preparatory, commercial, "general," or vocational education. This is the

young person who comes to the high school, probably a year or more retarded grade-wise and age-wise baffled by a long history of inability to keep pace with the usual progress within the school room resulting in deficient academic skills, particularly in the basic tool subjects, but perhaps with some real talents of one type or another.

Central to the thinking of the Union County Regional Schools was a thorough program of testing and counseling in order to be sure that the program was in fact to be offered to those who truly could and would take advantage of it.

Before a school may be sure that such a program can be developed successfully, it is necessary to know something about the climate of the school, both pupil-wise and teacher-wise. It is necessary to prepare the staff for the program and to obtain a sympathetic understanding on the part of the faculty, the administration, and the Board of Education, otherwise the program may simply become a dumping ground for all of the academic, emotional and discipline problems of the school. In such a case it fails to achieve a goal because it has no goal other than custodial. Unless a school is willing to accept the program for what it is and can do, it had better not be tried at all. The program which the Union County Regional Schools have projected is not a cure-all for discipline, although discipline problems have been markedly lessened among those who have participated in the program; it is not a cure for truancy, although among the participants has been reduced to a very minimum; it is not a cure for a school's drop-out problem, although drop-outs from this program have been notably very low. Rather it is an approach to a definite problem a problem which has been on the door-step of school men ever since the time when teaching ceased to be purely a personal, one-to-one tutorial device and became a matter of assembling adolescents into classes.

While Conant says the problem of the slow learner in its raw nakedness in his recent study of schools in the large city slums, it is nevertheless one which exists just as truly in suburbia as in urban slum areas. Although perhaps not so great in extent it certainly is better hidden from view in the Suburban schools. It does exist however, and no amount of closing our eyes in the hope that it will go away will change one iota of the picture. The Union County Regional plan operates much as follows: In the first place, it must be recognized that it is a FOUR YEAR program. Too many programs hopefully begun have foundered on the rock of a one or two year attempt. Ours is one which is a SPECIAL PROGRAM WITH SPECIAL FACILITIES AND SPECIAL TEACHING FROM THE TIME THE YOUNG PERSON IS IDENTIFIED BY MEANS OF OUR PROGRAM OF DEPTH TESTING, INTERVIEWING, REVIEWS WITH FORMER TEACHERS, AND DATA ANALYSIS. As ninth graders, these youngsters daily spend two periods of two hours each with teachers who are particularly fitted to handle their problems. One of these teachers cares for the mathematical and scientific learnings which have found to be most helpful. On the school's record books this part of the work is listed as mathematics and general science. The other teacher spends two hours on the areas of communications and the social studies. On the

books this is listed as English I and History and Geography of New Jersey. In addition he spends an hour each in special health and reading courses. Certainly these titles to the courses can be justified because the content of the subjects bears direct relationship to the subject offerings as named. Each youth, however, proceeds at his own level, and for the first time in his life he finds that, in company with others of like mental acuity he can succeed. He is no longer the non-achiever. He has become an achiever. He has learned that there is such a work in the language as success. A wealth of special materials help him to make progress as he finally sees that goals may be reached.

During the home-room period and during the remainder of the day, each day he is scheduled into regular school classes, in which his special abilities give him a chance for achievement on a level with or at least on almost an equal level with others in the school. He is in regular physical education classes, if he has artistic ability he may be scheduled into art, Music, either vocal or instrumental is a possibility. In some cases, special motivation causes some of these youths to be over-achievers in particular area and advantage is taken of this fact. In short, each young person in this program is treated and scheduled as an individual, just as are all other students in the system.

During the second year of the pupils program, the actual schedule is much like the first year program except that the whole educational pleasure has moved to a higher level (e.g. the social studies area deals with U.S. History I; the science area with biology). The third year, however, brings a considerable change. In this year, a program of "Occupations" is fitted into the pattern and the pupils begin to study realistically the occupations which they may be able to fill after high school graduation. This course in occupations was written especially for this program in the Union County Regional schools and is completely realistic in nature. In addition to the course in occupations, in-school work experience is provided during the junior year in a course entitled work adjustment training. The junior year has proved to be particularly popular with these young people and it has been particularly profitable in their educational pattern, because it is here that many of these youth begin to find themselves vocationally. It has been a long time since they were failures; moreover, they are now able to see,

at very close hand, the road ahead.

The senior year, however, is really the culminating or "pay off" year. In school in the mornings, taking their required subjects including a special program which deals with employee and employer ethics and with success in holding a job, they spend their afternoons (and often Saturdays) on a paying job in the community. These jobs do not conflict with the positions held by the Distributive Education pupils of the school, since most are of a different type. They tend to be more nearly in the nature of positions requiring repetitive skills. These are not just jobs; they are learning experiences carried out under the watchful eye of the coordinator of the program, a man who has had a life-time of experience with vocational agriculture students. He coaches, aids works with employers, teachers, and in class points out the little things which make the difference between success and failure in a position.

Up to this time we have had one graduating class from our first program, the one instituted at Jonathan Dayton five years ago. The second graduating class is well along the road. In the case of the first class, all thirteen pupils remained after graduation with the employer who had employed them during their senior year. Members of our second graduating class all currently have jobs, some of them very good ones, and we believe that their record as a class will match that of the first.

These young people have been consciously prepared for four years to fill places in the community. They are not, as they probably would have been otherwise, unskilled drop-outs.

During the first three and a half years of the program we had one such course instituted, the one at Jonathan Dayton. To this class came young people with the requisite background from all six of our communities. Expansion of the district pupil-wise and success of the first program have caused us to institute a second program at the Arthur L. Johnson school, now in its second year. Its success should be just as great and its promise just as strong as that of the first.

Visitors to our program have been arriving in increasing numbers. Scarcely a week goes by when we are not visited by representatives of at least two other school systems from this and other states. The program has been viewed by visitors who came specifically to see it from as far away as Michigan and Illinois.

The program itself is directly a charge of the Division of Special Services, headed by Dr. Donald Merachnik, but its success has been aided by the general willingness of the school to accept and applaud the institution and continuation of the work. There has been understanding of the true purpose of the program. Dedicated teachers and an alert coordinator of the work experience phase have added to the stature of the program.

Some one in New Jersey is doing something about the problem of the slow learner at high school level.

Atom Film

"Our Friend, the Atom," a color, sound film, will be shown at the Union County Park Commission's Trailside Nature and Science Center, in the Watchung Reservation, on Sunday, July 29 at 3:00 p.m.

The film, a Walt Disney production, combines live action and animation to tell the important story of the atom and its future in the service of peace and progress.

On Monday, July 30; Tuesday, July 31; Wednesday, August 1; and Thursday, August 2, at 4:00 p.m. each day, Miss Irma Hoyer, educational assistant at Trailside, will conduct one-half hour nature talks for children. The topic for the week is "Animal Babies." The talks on Wednesday and Thursday will be followed by a one-half hour walk on nature trails in the Watchung Reservation.

The Trailside Nature and Science Center is open to the public every day, except Fridays, from 1:00 to 3:00 p.m.

Rodeo Free

The ever-popular rodeo and horse events will be among the many free attractions at the 1962 Morris County Fair. Under this year's policy, there will be no extra charge for all events in front of the grandstand.

The horse events will start on Thursday night, August 23 and run through Saturday night, August 25, with such crowd-pleasing contests as bull dogging, calf roping, barrel racing and calf scramble for the younger element.

Over \$2,000.00 prizes will be awarded in these events, which should bring out some of the top competitors in the East.

All day Saturday starting at 9:30 A.M. the Western Horse Show will be held in the Arena.

Money Matters

By Donald H. Shafarman

There should be a very close connection between life insurance and investing in the "money matters" affecting the average family. Both financial vehicles are aimed at achieving the extremely important objective of providing adequate financial resource for future needs and wants.

Quite obviously the primary need of the young family is providing for adequate insurance on the father's life, especially while there are growing children. However, even while the family is young, sound planning should provide for some dollars going into an investment program where they will have a chance to grow for use as education funds, etc.

As the years go by, an increasing emphasis can be placed upon investing instead of life insurance. Remember that the only substitute for life insurance is money, and the objective of the investment program is to obtain more of that precious commodity. Even here there is a connection between the fields, since the older investor should keep in mind the values there may be in his insurance policies as he plans an intelligent, well-balanced and sound investment program.

In planning a program, keep in mind that the basic purpose of life insurance is to assure fulfillment of your human life value. Thus, in the event of

premature death, life insurance can guarantee the family a sum of money for the basic necessities of life and the various needs of a wife and children.

Since most insurance involves a savings feature which has little to do with the pure insurance protection offered by the policy, it will also provide a guaranteed source of cash should the policy be terminated before death occurs. This cash can be used as an emergency fund or as a supplementary retirement income in later years.

While life insurance provides many guarantees—the most important of which is the creation of an immediate estate—there is one very important thing which it cannot do, it provides absolutely no possibility for capital growth.

REVERE FUND provides a method of investing for possible growth of your invested capital.

Taking Care Of The Garden

By EG Cardinal

Many people visited our turf plots this past week. In fact, enough interest was shown we decided to leave the markers remain the rest of the week. Here you can see what various grasses look like. We have plots of 100% Merion, Kentucky Bluegrass, Pennlawn, Escudo, Kentucky 31 Fescue, Alta Fescue, Bent and Perennial Ruzgrass. We also have various proprietary mixtures including some of the widely advertised brands—and some of our own mixtures. There are 19 plots, and you should be able to make a decision on the best grass for your own needs. The plots are located at 272 Milltown Road, Springfield.

Q: Japanese beetles are eating my roses. Are beetle traps effective?

A: Yes. Install them at the far corners of your property—not in your rose beds. One trap will catch thousands of beetles, and complete with the bait for several fillings, costs less than \$5.00.

Q: My glavn has a few brown spots in which I found something which looks like a small brown puntine capsule. What is it?

A: This is the larva of the sod web worm. Soon it will mature and the larva will feed on the grass causing some more dead spots. The moth is about one-half inch, and will be found fluttering around in your lawn area when you mow the lawn. Treat with chlordane, or the chinch bug killers such as diazinon and ethion.

Q: Last year my lilac bushes were covered with a horrible disease which coated all the leaves. Can I prevent it this year?

A: This is powdery mildew disease. Keep the leaves coated with Orthox lime-sulphur solution, or other fungicide that might be recommended by your local garden center. Damp, humid weather seems to promote this disease, as well as black spot and mildew on roses.

Q: I have a nice lawn, but it is not growing well and needs feeding. My neighbor says he read that summer feeding promotes crabgrass. What shall I do?

A: Our test plots are fed every six weeks and you will find no crabgrass. If you have a crabgrass lawn—don't fertilize, but if your lawn is thick tight applications of fertilizer throughout the year will keep it growing well, and will discourage the growth of crabgrass. Be careful not to use one of the chemical grades, or you may burn the lawn. Use natural organics or urea-form turf fertilizers.

Q: I know that beetle grubs will be active in early August. When shall I apply grub-proofing?

A: As soon as possible so that it has a chance to spread in the soil. You also might try Milky Spore Disease for permanent control. Ask us about it.

WEDDING LORE by Marge McGevna

The bridal veil is symbolic of the privacy of married life, but to the bride-to-be it's her last chance for concealment. Ever after, she is an "open book" in the man she chooses. Every bride is just as accurate about the dress for the occasion and we "aid-and-abet" her with the largest collection of unbelievably beautiful dresses, made-to-order for \$200 and more, but yours for prices from \$10.95 to \$125. Your secret can be assured because your selection is made in the complete privacy of my bridal house. For a personal appointment just call Marge McGevna, BR. 6-6626.
