

Dog Obedience Classes At Evergreen Lodge???

Referendum Adds 2 Classrooms, Special Service Room At Caldwell

The construction of this office building will make available to the James Caldwell School its first addition of school rooms since 1926. Few people here realized that two valuable classrooms in the James Caldwell School have been used as offices for the Board of Education and the Superintendent of Schools. These rooms will revert back to classroom space in the Caldwell School building when the Board and Superintendent's offices are moved to the new administration building.

SCHOOL POPULATION INCREASE

The need for additional rooms has developed in the Caldwell School area due to the general increase in school population, the proposed modernization of the school and the increase in the requirement of special service areas. The need for additional classroom space in the Caldwell School building will be corrected with the construction of the administration building.

Included in this plan will be the removal of the office of the school psychologist and remedial instructors to the new administration building. By the removal of these offices from the building an additional room for special services will be made available for the use of the Caldwell School children.

For a cost of under a \$1.00 for the peak year (this cost will decrease to zero in a 20 year period) the taxpayers of Springfield will add two classrooms, a special service room and a completely furnished administration building to the existing school facilities.

FIRECRACKER WARNING BY POLICE CHIEF

Springfield Township Police Chief W.C. Selander today issued a stern warning to parents and youths alike that recent complaints have been brought to his attention of juveniles using firecrackers in violation of state and local laws.

Chief Selander advised parents and youngsters that the use or possession of firecrackers is illegal and violators will be prosecuted. He said juvenile complaints will be made against younger violators and, in the case of adults, charges of disorderly conduct or violation of the firecracker ordinance will be pressed.

The Chief added that under existing laws, only caps are allowed. Other firecrackers, cherry bombs, etc. are illegal.

Building Inspector Otto Fessler said this week that he had not heard reports of a dog obedience school being conducted at Evergreen Lodge.

The building inspector told the Springfield Sun that the variance the lodge is seeking for the erection of a shell at the location is believed to be "strictly for singing."

He said he was not aware that a dog school might be in operation on the property and would "have to look into it and refer the matter to the township sanitarian." The sanitarian for the municipality

is Arthur L. Marshall.

The lodge and tavern business are presently conducted at the address in Evergreen Avenue as a non-conforming use inasmuch as the location is in a residential zone.

The revised zoning laws were adopted April 13, 1955 and the business was in existence before then, it was reported. The original zoning ordinance was adopted April 13, 1938.

Any activity in operation before the adoption of the revised zoning law in 1955 could be continued as a non-conforming use, but any new non-conforming activity would need a variance to operate at the location, it was pointed out.

In addition the operation of an activity such as a dog school might also be questionable from the standpoint of health since food and drink are served on the premises.

It is understood the matter will be called to the attention of the Springfield Board of Health.

Evergreen Lodge is owned by the United Singers and leased to James Brescia, who conducts the tavern business.

United Singers is an organization of several singing societies with almost 600 members.

Last December fire damaged part of the lodge but repairs were quickly made for Christmas parties scheduled there. Cause of the blaze at that time was attributed to an oil burner near the bar.

The frame building is believed to have been constructed in 1928 or 1929. The lodge has been a landmark for picnics and barn dancing in this area for many years.

Some time ago a variance seeking permission to operate a nursery school for children in the area was denied by municipal officials.

"Denmark Comes To Springfield", Break Ground For Plumrose Plant

Ground breaking ceremonies for Springfield's newest industry Plumrose, Inc. of Denmark, took place at the Union County Industrial Park last Thursday morning. Plumrose, Inc. new plant marks the inauguration of the first plant in the United States by a Scandinavian meat firm.

Distinguished dignitaries who participated in the ceremonies included Ambassador Vigge Jensen, Consul General of Denmark; Wilhelm Ulrichsen, Commercial Counselor of Denmark; State Senator Nelson J. Stamler of Union County; Mayor Arthur Falkin of Springfield; Twp. Committeeman Robert Hardgrove; Miss Janet Lyons, the 1963 "Miss Union County"; Dr. H.M. Steinmetz, Asst. Director of U.S. Meat Division; Dr. W.H. Irvin, Veterinarian in Charge of the U.S. Meat Division; Frank Cardinal, originator of the Union County Industrial Park and agent for the industrial site; Seymour Cohan of the Mayor's Industrial Commission; Saul Freeman, repre-

senting the Springfield Chamber of Commerce and numerous others from Springfield and Union County.

Representing Plumrose were Knud Sorenson, General Manager of Plumrose and Frank Holmskov, General Sales Manager. Other Danish dignitaries included members of the Consular offices and staff members of Plumrose, Inc.

Following the ground breaking ceremonies, a luncheon for approximately 50 guests was held at the Springfield Steak House.

Highlighting the luncheon was a presentation of a letter from the Mayor of Copenhagen to Mayor Falkin by the Ambassador in which the Danish city's Mayor expressed his good wishes and cited Denmark's well wishes to the people of Springfield and the United States. Ambassador Jensen also presented Mayor Falkin with a beautiful Royal Danish Porcelain Lamp as a gift from the Copenhagen Mayor.

The program was planned by

David Blank, president and Kent Goodman, vice-president of Crestwood Advertising of New York City who is handling the Plumrose public relations program.

Plumrose, known internationally as Esmann/Plumrose Concern manufactures and sells Danish Fine Foods in Denmark and in 140 countries on all 5 continents under the name "Plumrose."

In the early stages of the company the trade was primarily in butter but since 1920, the beginning of modern Danish agricultural export, Plumrose has added canned meats, milk preserves, cheese, a fruit and vegetable canner, bacon products and recently frozen foods to its line of endeavor.

The new Springfield plant will contain an office building and slicing plant on the industrial park site. The building will comprise 16,000 square feet on a 130,000 square foot plot of land.

PLEASE ANSWER THESE SCHOOL QUESTIONS!
We've been comparing notes on the school board's "Up-Date" referendum with citizens who have called us and would like to ask a few questions which we feel should be answered by the Board prior to the actual voting date of May 14.

According to figures compiled by some taxpayers in Springfield, the cost per taxpayer on an assessment of \$8,000 at \$5,117.09 per tax point represents an increase of 25 points. At this rate our figures reveal an approximate cost of \$20.00 as opposed to the board's figures of \$16.80. Who is right?

The school board says the capacity of Gaudineer School is 600. Some citizens say it is 700. Who is right?

The school board says the capacity of Chisholm School is 239. Some citizens say it is 275. Which figure is accurate?

The citizens say the funds for Caldwell modernization come to \$100,000 or better per the bids yet only \$49,000 is budgeted. Where is the other money coming from?

If they didn't tear down part of the Chisholm School would they need a new boiler room?

At the budget hearing in January, the Board was asked "What expansion is being planned" and the answer was "nothing specific." Were the plans in the county superintendent's office at this time?

They were also asked "why isn't capital improvement going to referendum? The answer was "if defeated it would stop present plans already started at Caldwell". Why?

Is it true that the Board has continuously maintained that Chisholm could not be expanded and that the Board changed districts with Sandmeier; hired an architect at NO FEE and has had private meetings to plan expansion?

The figures proposed allow Gaudineer \$894,000; Chisholm \$498,000 and the "New Administration Building" \$79,000. A total of \$1,471,000. This is a lot of money and we feel all the questions should be answered before the Board asks the citizens of Springfield to spend that much money. Is there is any discrepancy in any of these figures, now is the time to answer.

Is it really necessary to spend that much money or is it just a "folly" for unknown reasons? We would like to know too. Certainly, with all the economy movements in government and other communities the Board can trim something someplace. Or is this another case of planning for future needs with another plan formulating in two more years? Somebody should spend a little more time planning and less time spending. Why weren't these things taken into consideration years before with two schools only recently completed after "considerable planning"? And that new "administration building"? Is it really necessary?

Let's answer these questions and consider them before the May 14th vote is here.

Oh yes, and what about the Board's "House and Gas Station" on the Harenberg property? Wasn't that supposed to be the "new administration building" which is part of the Sandmeier School property?

Editorial Memos..

Springfield School Board member Joseph Bender, who is giving 24 hours a day to the task of explaining why Township residents should approve the school expansion program, made an eloquent and convincing plea to a group of parents, bringing some surprising results.

Mr. Bender, in an informal talk asking approval of the referendum, dramatized the urgent need for school expansion by pointing to the problems of the student in relation to this person's life in the United States around the year, 2,000.

"In the year, 2,000" stated Mr. Bender, "35 years from now, a tremendous technology will have been developed to meet problems of living in a country which, by that time, will have a population of 300 million.

"In that year of 2,000," continued Mr. Bender, "Springfield will be part of a Megopolis extending from Boston to Baltimore and, in order to accommodate a population of that size, it will be likely that THIRTY-TWO STORY APARTMENTS WOULD SIT ON TOP OF THE MOUNTAIN IN SPRINGFIELD."

For several days following those remarks by Mr. Bender, members of the Springfield Planning Board and other Township officials received frantic telephone calls to verify the rumors that "THIRTY-TWO STORY APARTMENT HOUSES WERE TO BE PERMITTED ON THE TOP OF THE MOUNTAIN IN SPRINGFIELD."

This delightful reaction to a public statement brings to mind another story - not original - but to the point.

A little old lady was paying unusual attention to a lecturer on astronomy who was explaining that a particular planet was doomed to collide with earth and destroy it in approximately 10 billion years.

The little old lady apparently became very excited, stood up and asked the lecturer to repeat what he had just said.

After the lecturer had repeated his statement, she gave a sigh of relief, mumbled, "I thought you said in 10 thousand years," and sat down.

Letters To Editor

Dear Sir:

This is the first time I have ever had occasion to write a letter to any newspaper, but indeed, it gives me great pleasure to do so.

The reason for this is to commend the very pleasant and charming lady who answered the Chamber of Commerce telephone. To my many queries etc., she was most helpful. Due to her patience on the phone, I know more about Springfield than had I read a book about your town. The information given to me by

this lady has now given me a great incentive to purchase a home in Springfield, of which I am now in the process of so doing...you may thank her for an additional resident and taxpayer.

Incidentally, when I asked for her name, she told me she is a Miss Freedman. Do you perchance know her?? if not, you should make an effort to do so as she surely deserves recognition.

Sincerely,
Mrs. Charles Leigh Paterson, N.J.

WAKE UP, VOTERS!!!! A LETTER TO CITIZENS

Again next month Springfield voters will be called to go to polls to vote in the Springfield Board of Education referendum. As in many previous instances, the subject will be more money and higher taxes to meet new expense. Although the subject sounds noble, it is entirely unreal. The Board wants to expand and calls upon taxpayers to foot the expansion bills. The Board does not care that Springfield taxpayers pay already over 65% of their taxes for schools; it still wants more money.

Much has been said and printed about our education system. Much has been written on the subject of its awkwardness and unfitness into the present atomic age. However, instead of increasing our efforts to change and ever to revolutionize obsolescence of the whole problem of education and to put it on the "thruways" of progress, we stick to the old, inefficient mouth-to-mouth "respiratory" system of teaching, which is too expensive and with which we are unable to keep step with moving up life. In the case of the referendum we are again being called to approve, to support and to finance this obsolete system of education.

Naturally, it is entirely up to voters to reject Board's demand for more money, still more money. It is entirely up to us to get out of our beds, to leave our back-yards unattended for 1 hour on May 14, 1963, to overcome our inertia of immobility and to take part in voting to give ourselves chance to express our minds. So, what shall we do? Shall we continue to whisper to each other ear about growing and oppressing taxes, or shall WE GET OUT TO VOTE? Because, if we take a pain to stop for a moment to give the whole problem second thought we'll see that the whole projects will be paid out of our pockets, yours, mine, John's, Harry's and Dave's.

The Board itself acknowledges that it is going to burden our tax dollar with higher levy for twenty years. This is not a one year project. If we do not get out and vote on May 14, we will be paying higher, and each year higher taxes for next twenty years. How does it sound to you Mr. and Mrs. Citizen?

This year a handfull of voters approved expanded salary budget of our school system, adding more dollars to our tax burden. On May 14, 1963, if we, ALL VOTERS OF SPRINGFIELD shall not get out to vote, the same HANDFULL of spendthrifts will bind us for the next twenty years. So, this is up to Citizens of Springfield. If all of us will vote, the Board's "OPERATION UPTODATE" will be rejected. If, however, we are afraid "to fight City Hall" and are to lazy to take care of our tax dollar, we shall pay, shall pay and shall pay forever.

OPEN LETTER TO ALL SPRINGFIELD RESIDENTS

All this week Springfield Girl Scouts have been covering the town placing a letter and an envelope in your mail box. The letter is self explanatory, and needs no elaboration.

The envelope, however, needs lots of elaboration, for all of the effort put into the Springfield Girl Scout Drive becomes meaningless, unless you, our resi-

dents, the people who have so many times opened their hearts and their pocket books for a worthy cause, or to help some unfortunate individual or family whose luck has run out, once again show that they have not lost the joy of giving.

The Girl Scouts of Springfield, so admirably guided by devoted Leaders, need to attain the goal of \$4,000.00, so that the work of these Leaders should not be in vain, so that these same Girl Scouts become an even greater credit to our Community, and so that they may continue the various activities so vital to them in the formative period of their young lives.

Therefore, the envelope which was left at your home is most important, for in it will be placed the tool that will make our girls grow straight and tall.

Please give generously.
Saul Freeman
Assistant Chairman
Girl Scout Drive

Dear Sir:

It is evident that within the space of one year the County debt will be increased approximately \$1 million for the benefit of the Union County Park Commission unless enough taxpayers appear on Thursday, May 2, at 8 p.m. at the Freeholders' meeting to protest.

On April 18th the Board authorized the issuance of \$330,000 in bonds for the county parks. On May 2nd the Board is slated to approve \$334,000 in bonds as the first step in the expenditure of \$3,000,000 for the purchase of 647 acres of land for the county park system in the western end of Union County. Approximately another \$300,000 will be required to make up the Freeholders' share of \$600,000, the balance of 2,400,000 coming from the taxpayers via the State and Federal Governments. Thus, when this is done, another million dollars will have been added to the county's debt.

Is this wise? Consider the following. The County debt since 1950 has jumped by \$8.8 million, from \$6.4 million to \$15.2 million in 1963. This is much more than double--136%. To bring this into perspective, it should be noted that the Federal Government, no slouch when it comes to going into debt, increased the national debt in that period by only 18%. The fact that the County increased its debt percentage-wise 7 1/2 times what the Federal Government did is surely cause for alarm. Unfortunately, the county budget is even worse. It increased from \$6 million in 1950 to \$16.1 million in 1963, or \$10.1 million, which is about an increase of 165%. The Federal budget in that period increased about 109%.

In view of these facts, and in view of the fact that the tax load on the citizens of Union County is getting so great that many, particularly the elderly and those on fixed incomes, are finding it difficult to make both ends meet, is there any justification for the County to go further into debt for the purpose of taking 647 acres of land off the taxrolls for parkland?

This is not only a \$3,000,000 proposition. When the developmental and maintenance costs are involved, it will wind up costing the taxpayers well over \$10,000,000 in all probability. To forestall this, it should be nipped in the bud, particularly as Union County already has probably the most highly developed county part system for its size in the country. To add more land is to gild the lily.

Sincerely,
O.B. Johannsen

Fire Victims To Get Rural Housing Loans

Senator Clifford P. Case (R-N.J.) said that the Senate Appropriations Committee acted this afternoon to assure New Jersey's rural residents who lost their homes in brush and woodlands fires this week the benefit of rural housing loans with which to rebuild.

The Committee, acting on a proposal by Senator Case, inserted the language in its report on the Supplemental Appropriations bill for fiscal 1963.

Prior to the Senate Committee's action, Senator Case said, funds did not exist in the revolving loan fund of the Farmers Home Administration adequate for the rehousing of these families.

The Committee action permits the Treasury to release funds to the Farmers Home Administration so that low-interest loans may be made to the rural families.

The Farmers Home Administration informed Senator Case that in order "to help the families who urgently need funds to replace their homes and service buildings seriously damaged or lost by wind, water or fire, the agency will need an additional \$5 million this fiscal year."

Prior to the Committee action, the Bureau of Budget had declined, without further Congressional directive, to release additional funds for victims of the recent Tennessee Valley floods or the New Jersey fires.

Mrs. Maitland P. Simmons Joined Library Staff In '55

Mrs. Maitland P. Simmons joined the Springfield library staff in 1955. Previous to that time she had served as a volunteer for many years, in between various teaching jobs. Both substitute and permanent teaching kept her very busy from 1928-1955. She also has had business experience in retail selling, comparison and service shopping for metropolitan stores. Mrs. Simmons is a native of Rhode Island and received a B.S. degree from the University of Rhode Island in 1928. The following two years were spent teaching in the Providence-Rhode Island school system. She moved to N.J. in 1930 and to Springfield in 1939.

BROADWAY

By JACK GAVER
UPI Drama Editor

NEW YORK (UPI) — Composer Richard Rodgers took off for a six-week jaunt to various European capitals and Israel in a happy frame of mind. He had just read the reviews of the revival of the 25-year-old Rodgers-Hart musical comedy, "The Boys from Syracuse."

The production at the off-Broadway Theater Four received notices that were practically ecstatic throughout.

The libretto by George Abbott, who freewheeled a deal about two sets of mixed-up twins under the inspiration of Shakespeare's "The Comedy of Errors," doesn't even show too many signs of wear, as is often the case with these revivals. Set in ancient times, you might even say the story was dated when it was new.

And, of course, that wonderful Rodgers score, with the inspired saucy lyrics of the late Lorenz Hart, is as melodic and zestful as when it was new.

Furthermore, producer Richard York has provided a really first-rate cast and Christopher Hewett has directed with a real flair for the antic nature of this piece.

The physical production, with design by Herbert Senn and Helen Pond and costumes by Guy Kent, is the handsomest I've ever seen in an off-Broadway theater. It sparkles. And the show happens to be in one

of the few off-Broadway houses that is a pleasure to visit.

It looks like a long run, and not the least of the rewards will be a cast album of the complete show. Such things weren't done when "The Boys from Syracuse" was first produced.

While abroad, Rodgers is looking in on the second anniversary of his "The Sound of Music" at the Palace Theater in London and the production of "A Shot in the Dark" which he is sponsoring there.

By the time he gets back here, the City Center's Light Opera Company will have launched its spring revival season with an all-Rodgers program — "Oklahoma!," "Pal Joey" and "The King and I." Then to work again almost immediately to put the finishing touches to the score of "I Picked a Daisy," which he, and Alan Jay Lerner will get on next season.

DIRECTS 'STALLIONS'

HOLLYWOOD (UPI) — Arthur Hiller, Canadian-born director who built his reputation handling such television programs as "Playhouse 90," "Climax" and "Gunsmoke," is the director of Walt Disney's high budget film, "Miracle of the White Stallions."

Hiller's first motion picture was made in 1957. Then he directed "The Careless Years" for Bryna Productions.

Tercentenary Tales

JUET'S JOURNAL: DIARY OR ALIBI?

By John T. Cunningham

Miss Dorothea Dix, the famed leader of Civil War Nurses, took one look at pretty little Cornelia Hancock of Salem County, New Jersey, on July 5, 1863, and rejected her offer to serve as a nurse on the battlefield at Gettysburg.

Cornelia wrote home to her Quaker mother in Hancock's Bridge that Miss Dix turned her aside "on the score of youth and rosy cheeks." She added:

"It was considered indecorous for angels of mercy to appear otherwise than gray-haired and spectacled."

Although she lacked gray hair, she had spunk, so Cornelia climbed aboard the train bound for Gettysburg and refused to budge. Once the contingent of nurses arrived, "the need was so great that there was no further cavil about age."

The 23-year-old Quaker girl entered a Gettysburg church on the night of July 6. There, stretched on boards laid across the high-backed pews, she saw the dead and the dying. Cornelia declared that she "seemed to stand breast-high in the sea of anguish."

Art Exhibit Held For Young People

The art gallery of the Paper Mill Playhouse in Millburn is currently showing the works of young people who study with Elsie Crowell at her studio in Short Hills. The children whose paintings are being exhibited range in age from 6 to 16.

Miss Crowell, a graduate of the Newark School of Fine and Industrial Arts, did post-graduate work in Mexico and has studied with such artists as Majory Ryerson and Stanley Turnbull. Her art has been exhibited at the National Arts Club, New York; Drew University, Art Center of the Oranges, Montclair Art Museum, and the Jersey City Museum.

The gallery of the Paper Mill is open everyday except Mondays from 7:30 through 11:00 P.M. On Wednesday and Saturday its open from 1:30 to 11:00 P.M.

She had no training, no medicine, no supplies, but instinctively Cornelia knew that kindness was most needed in that church of despair. She stayed the night through, writing messages for soldiers who would be dead before morning. She heard their prayers. She wept for and with the soldiers, and by dawn an unselfish love linked Cornelia and the men.

Next morning the New Jersey miss visited the battlefield and "began to realize that war has other horrors than the suffering of the wounded and the desolation of the bereft." Her words about the Gettysburg battlefield are among the most powerful ever written about war:

"The deadly, nauseating atmosphere robbed the battlefield of its glory, the survivors of their victory and the wounded of what little chance of life was left to them."

Cornelia prayed, as befitted a young Quakeress, but she also worked in simple ways. She took food supplies without vouchers, made crude sandwiches and passed them among men who had not eaten for days.

Later she found a wagon load of brandy and a supply of condensed milk. Laying aside her abhorrence of liquor, Cornelia mixed and served milk punches.

As she moved across the battlefield she also knelt frequently to roll and light cigarettes for men with stumps of arms — and knew that God would sanction this use of tobacco.

Each night she fell with exhausted sleep on a bed of pine boughs covered by an army blanket. Each morning she put on clothes "so wet we could wring them." Cheerfully she reassured her mother: "By noon they are dry."

She fed the soldiers, smiled at their jokes, wrote their letters, heard their sorrows. She held shuddering young men while doctors sawed off gangrenous limbs. She dabbed cool water on the faces of men dying with fever.

The young men revered her as a nurse and they loved her because she stood only five feet tall, because her figure was slim.

because her blue eyes sparkled and because her hair seemed always silken even indarray.

Late in the summer of 1863 soldiers in Gettysburg hospitals had a medal struck for her lady of the battlefield, as a "testimonial of regard for ministrations of mercy to the wounded soldiers at Gettysburg, Pa."

Cornelia returned to Hancock's Bridge briefly in September but within a month was in Washington working with freed slaves. She yearned for action and early in 1864 Secretary of War Stanton gave her a pass "to visit anywhere in the lines of the Union Army."

At White House Landing, Va., a shell landed in the wagon she was driving, but she escaped injury. She was the first Union woman to enter Fredericksburg after the horrible battle of the Wilderness and she was one of the first Union women to enter Richmond after its capture.

Everywhere that Miss Hancock went soldiers recognized her and cheered her. The First Division Band composed in her honor "The Hancock Gallop" and played it in front of massed troops. She met President Lincoln and General Grant in the field and was invited to the dedication of the Gettysburg battlefield by the White House.

Cornelia thought often of one soldier in particular, a young Army surgeon named Frederick Dudley. She met him first as a wounded man at Gettysburg and when he went to other areas the two young people exchanged frequent letters. "Fred" would meet her at Alexandria, Va., when the war ended. She excitedly informed her sister:

"Dr. Dudley will soon be here!"

Dr. Fred Dudley's name never again appeared in Cornelia's correspondence. She never mentioned, in writing at least, that last meeting in Alexandria, although all had assumed that Cornelia and Fred were in love until that day.

Cornelia worked on, devoting much of her life to helping freed slaves. She became widely acclaimed, even worshipped before she came home to die in Atlantic City at the age of 87.

On Miss Cornelia's night table when she died was a packet of letters tied with blue ribbon. Did these hold the solution to the mystery of the romance with "my doctor"?

No one can ever know, for with Miss Hancock's letters was a terse instruction: "Burn without reading."

Finalist-Miss Union County

THURSDAY, MAY 2, 1963.

Who will be the next Miss Union County? This will be answered on Friday, May 24, in the Fanwood-Scotch Plains High School Auditorium at the seventh annual Miss-Union County Pageant. Sponsored by our Fanwood-Scotch Plains Jaycees, the event is the annual fund-raiser which supports this group's many community service programs. It is an official preliminary to the annual Miss America Pageant in Atlantic City.

Ten finalists have been selected from a field of twenty-eight applicants. They represent Fanwood-Scotch Plains, Westfield, Plainfield, Summit, Roselle and Kenilworth. Their talent presentations vary from comedy skits to dress design, and in addition they will be judged in evening gown and swimsuit competition. The pageantry is identical to the Miss America program, and the winner will go to Wildwood to compete in the Miss New Jersey finals. Then its on to Atlantic City.

The May 24 Pageant is the climax of two weeks of

fashion shows and public appearances. On May 15, the Jaycees are sponsoring the appearance of Miss New Jersey, Miss Georgia Malick, for the opening ceremonies of the Westfield Home & Sport Show in the Westfield armory. The following evening at 6:45, the ten contestants and ten "Hostesses" will be featured in a fashion show at the R.J. Georke Department Store in Plainfield. Then, on Friday the 17th, a second fashion show will highlight the evening's festivities at the Westfield Home Show. For this occasion, the twenty lovelies will model fashions for Westfield's Clara Louise Shop.

The annual Pageant has become an institution in the suburban Union County area and another sellout is expected. Reserved seat tickets are available for the first time this year at a cost of \$1.80. Student tickets cost \$1.00 and Adult tickets cost \$1.50. The reserved seat tickets may be ordered by mail from Mr. Robert McCarthy, 96 LaGrande Avenue, Fanwood, and they will not be sold after May 19.

HONEY AND JEROME-KRAEMER rehearse scene in Temple Sharey Shalom's musical "It's Only Tuesday" which opens Saturday.

Advance Indicates Sellout For "It's Only Tuesday"

"IT'S ONLY TUESDAY!" Temple Sharey Shalom's tuneful and colorful musical extravaganza will open this Saturday night, May 4 at 8:30 p.m. at the Jonathan Dayton Regional High School in Springfield. A matinee performance for students will be performed on Sunday at 2 p.m. at the special admission price of \$1.00. The final performance will be SUNDAY EVENING AT 8 P.M.

In an interview with director, Molly Jay, she commented enthusiastically, "This is the happiest cast of any show I've ever done. They've been having a blast. I must say I was always sure we had such outstanding talent right here in Springfield, and I hope no one misses the chance to see the proof in "IT'S ONLY TUESDAY!"

Backyard barbecuers will appreciate a new smoker wagon introduced by Structo Manufacturing, Freeport, Ill. A see-through glass door provides extra working space when lowered; swing-out motor with switch and spit keeps chef's hands cool during rotisserie cooking.

"The five sets for the show were designed and executed by Phil Yelling. I can't say I discovered Phil because you may recall the brilliant job he did a couple of years back on the sets for Temple Beth Ahm's production of "Detective Story". Speaking of Temple Beth Ahm, we've borrowed Eve Harrison, their nursery school teacher, for some specialty numbers.

"The cast is loaded with star talent featuring our own Honey and Jerry Kraemer, who share top billing with the well-known Plainfield baritone Eugene Peterson. The stirring tenor voice of Lew Gash is teamed with the exotic Israeli dancing of Lucille Weiss in a number which is sure to bring down the house. Evelyn Schwartz, Elaine Sneed, and Murry Hurwitz are the laugh getters in the show."

Musical accompaniment for "IT'S ONLY TUESDAY!" will be played by the Jerry Ziering orchestra. Tickets may be purchased from Gloria Sherman, DR 9-3132, and at the door before each performance.

The Roosevelt was part of the Sixth Fleet, America's major element of seapower in the European area. During the cruise, the carrier visited Rhodes, Athens, Istanbul, Genoa, Livorno, Naples, Cannes, and Barcelona.

The Roosevelt is scheduled to spend 30 days in Mayport to enable the crew to take leave.

PROCLAMATION

The present state of world affairs makes it especially fitting that each of us, as citizens of this great nation, should reaffirm our faith in the rule of law and in the supremacy of government by laws rather than men.

The Congress of the United States, and the President by official proclamation, have designated May 1 as Law Day, U.S.A. The basic aims of Law Day are to foster increased respect for law, for independent courts which uphold the law, and for a deeper awareness of the benefits and responsibilities of citizenship.

Liberty and equality for the individual are what distinguish our system of government from communism, under which millions of people today live in fear and tyranny. No better time could be chosen to call public attention to our great heritage of individual liberty under law.

NOW, THEREFORE, I, Arthur M. Falkin, Mayor of the Township of Springfield, do hereby proclaim Wednesday, May 1, 1963, as Law Day, U.S.A., in the Township of Springfield, and call upon all citizens, organizations, and schools to recognize this special day with suitable programs, ceremonies and educational activities.

Arthur M. Falkin, Mayor
Township of Springfield

Engagement Announced Of Marion Murphy-David Stone

Dr. Sachs To Speak At Next DNA Meeting

Dr. Miriam Sachs, district state health officer of the Metropolitan State Health District, will speak on a new frontier in public health nursing at the Fifty-first annual meeting of the District Nursing Association of Westfield and Mountainside Tuesday April 30 at the Baptist Church at 2 p.m.

She will speak on the new early hospital release plan which is demanding extended and new home nursing services which are being started in many communities. While hospital care is, for some, the only answer, for many it is inappropriate, inefficient and, especially for some of the chronically ill and aged, even inhumane.

Mr. and Mrs. Robert L. Murphy of Rose Avenue, announce the engagement of their daughter Marion C. to David H. Stone, son of Mr. and Mrs. Howard E. Stone of River Bend Road, Berkeley Heights.

Miss Murphy is a graduate of Jonathan Dayton Regional High School and is presently employed by Chubb and Son of Short Hills. Mr. Stone is also a graduate of Dayton High and attended Rutgers University. He is employed with Kemper Insurance Co. as an automobile underwriter.

Assists Servicemen's Families

"During the past year Red Cross Home Service has provided assistance to the families of one out of every three Summit area men inducted into the Armed Forces." This statement made by Miss Lillian Triolo, Home Service Secretary, points up the magnitude of the help being given our Summit men by dedicated volunteers who with Miss Triolo, the sole professional member of the staff, maintain a 24-hour service 7 days a week.

Home Service as we know it today had its beginning in the First World War when troops of American soldiers were sent to Europe to fight. With each unit went a Field Director whose duty it was to counsel the soldier, help him in time of trouble and always and foremost keep the tie with the man's family at home.

Home Service back in the United States assisted the serviceman's family in much the same way, by counselling—helping in time of trouble—financial or otherwise and keeping the close tie with the man in the service.

During the Second World War these services increased many fold as our soldiers were sent to every corner of the globe. Again with each unit went a Field Director and again at home, Home Service helped the family. There was this difference—so many more men were involved—so many more families were affected. There not only was the serviceman, but the Prisoner of War and his family as well.

Typical examples of the type of assistance required would include assistance in obtaining emergency leaves for service men to return to the bedside of seriously ill family members, arrangements for families to visit ill or wounded soldiers.

all the work of Home Service entails dealing in the human element, there are as many and varied problems as there are people involved.

Miss Triolo commended the steadfast work of her volunteers. "This is a very personal type of work and the results are highly gratifying to the Social Welfare Aides. We are well staffed but, with summer coming, would be very happy to have a few more volunteers."

The Historic Sayre Homestead

On the opposite site of the mountain from the Baltusrol Golf Club, close to the Summit line, stands one of the oldest houses in this vicinity, built by Isaac Sayre, who came from South Hampton, L.I., and settled in Springfield in 1720. It is reached by a semi-private road which runs for about a mile through woods from Baltusrol Road, Summit. It is probable that this is part of a very old road which continued past the Sayre house and up to the top of the mountain, above the Golf Club, and thence out to the present Shunpike Road near the Quarry. Traces of the old mountain-top road are still visible. Isaac Sayre married Jane Swaim, sister of Anthony Swaim, who built, in 1744, the house at 231 South Springfield Avenue now owned by Mrs. Karl R. Tallau. The original Sayre house was

built of logs, but soon after 1740, Isaac Jr. married Elizabeth Roll, daughter of Johannes, and built the present house of native field stone, on the opposite side of the road, for his bride.

Entertained Washington

It is said that during the Revolution Elizabeth Roll Sayre entertained General Washington and members of his staff at her house, and that American scouts who patrolled the countryside often stopped there for food and

a night's rest. It was about as isolated a spot as it would have been possible to find and must have been reasonably safe from British raiding parties.

Two Centuries of Sayres

Direct descendants of the Sayre family lived in the house for more than 200 years. Miss Nellie Charlotte Sayre was the last to occupy the homestead, having lived in it her entire 84 years. She died in April, 1954. She was one of the oldest members of the Presbyterian Church of Springfield. Her cousin, Isaac, also lived in the house until his death, in 1950. Elizabeth Roll Sayre was 96 when she died and her son, Anthony Swaim Sayre, lived to be 92. Evidently it was a healthy spot. The farm on which the house was located originally covered 55 acres, but the last Isaac sold 44 acres of it several years before his death, reducing the land to 11 acres, which includes a 4-1/2 acre lake, close to the house. Following the death of Miss Nellie, the property came into the possession of Ralph T. Sayre, a cousin and resident of

Orange. For several months, during the summer of 1954, the house was unoccupied and children of Mrs. Robert B. Anderson, a neighbor and former member of the Springfield Historical Society, made daily trips over to the Sayre place with food for the ducks and geese in the dooryard and lake.

Restored By New Owners

In September, 1954, the Sayre property was purchased by Mr. and Mrs. Clyde W. Heath, of Summit, now prominent members of the Springfield Historical Society. The Heaths were collectors of antiques, with a full appreciation of the history of the old house, and were anxious to preserve and restore as much of it as possible. Because of its great age and the fact that little in the way of upkeep had been done for many years, this proved to be a major undertaking. The southwest stone wall was badly out of plumb, woodwork was rotted and windows and doors were broken. Before anything else could be done, it was necessary to clear out a vast

THE SAYRE HOUSE as it looked in July, 1954. Obviously, this was originally the front of the house, although the road is on the other side. Behind the white storm-door was the old front door, shown in another picture. (photo from Springfield Library Collection)

Crestmont Savings To Install New NCR Electronic Computer

An electronic computer able to read and process a conventional-type business document is the heart of a new automation system which is to be installed here by Crestmont Savings and Loan Association.

Called the NCR 390, the new computer enables the savings institution to keep traditional "hard-copy" records which can be read instantly by employees, yet at the same time achieve the efficiencies and speed of electronic data processing. The equipment is manufactured by the National Cash Register Company as a complete computer system. It sorts, summarizes, compares, makes decisions, calculates, accumulates, updates balances, handles exceptions, and controls auxiliary equipment -- all electronically.

In announcing the proposed installation, Loren F. Gardiner, Crestmont president, stated, "This move toward automation is in no way intended to supplant members of the Crestmont staff. On the contrary, it will complement the staff and enable them to handle the increasing work load of routine accounting and bookkeeping procedures."

Crestmont is the first institution in the area to install the NCR 390. Discussing reasons for the move, Gardiner cited Crestmont's rapid growth and the need for more detailed bookkeeping. The latter is exemplified by recently enacted tax laws requiring financial institutions to record members' social security numbers and to report all dividends of \$10.00 or more to the Bureau of Internal Revenue.

Gardiner, together with Raymond Schunk, vice-president and controller for Crestmont, visited National Cash Register headquarters in Dayton, Ohio to observe the NCR systems in action and to learn more about what the 390 can do for savings institution. On their return, Gardiner said, "Our visit to Dayton confirmed our belief that the NCR 390 installation will go a long way in streamlining Crestmont's entire operation. It will enable the staff to give our members even better service than before."

"Friendly Town" Project Continues

For several years many families in this area have participated in the Friendly Town Project of the Herald Tribune Fresh Air Fund. Under this program children of ages 5-12 are invited to the country from families that cannot afford vacations. They come from the crowded tenements and housing projects in New York and are recommended by one of the 80 welfare agencies cooperating with the Herald Tribune in selecting the most needy and deserving children.

The host family may specify age, sex, race, and religion. Each child receives a thorough medical checkup just before leaving New York. The Fund pays all transportation costs and any medical bills that may arise, and maintains liability insurance.

The children are arriving on July 16, July 30, and Aug. 13 for two-week periods and may be kept longer if desired. The area chairman is Mrs. Erwin Klingsberg, 1257 Cedar Ave., Mountainside. Anyone interested is invited to call her at AD2-1108.

Sen. Stamler Reports On Appointed Superintendent Mental Retardation By Westinghouse Electric

Mission Society Circle Meetings

THURSDAY, MAY 2, 1963

Billy is 10 years old—a husky, blond, good-looking boy. But there is a certain dullness in his blue eyes and when he tries to talk there is only gibberish. One of four children in a hard-pressed family, Billy is severely retarded.

A few weeks ago, after a three-year wait, a spot was found for Billy in the State Colony at Woodbine.

"These delays are tragic," says the family doctor involved. "It is difficult enough to help a mother make a decision to institutionalize a child. But in most cases it is the only alternative."

"The longer Billy stayed at home, the more of his mother's time he took. The more his brothers and sisters were deprived of their normal share of attention, and the more he drained his hard-working mother's energies," he added.

A few weeks ago as a member of the Senate's construction commission on Institutions and Agencies, I toured some of our state facilities for the mentally retarded with Billy's story in mind. Before the tour was completed, Billy's tragedy became just one of thousands in an overwhelming mosaic.

The over-crowded and so distressing that I can only add my voice to the pleas of those who insist that expansion of New Jersey's institutional facilities must become the state's number one capital project.

There are 1,200 unfortunates like Billy in Woodbine and 400 on the waiting list. The story is the same at the North Jersey Training School in Totowa, at the

New Lisbon colony, and at the Vineland State School. Fortunately, with the money for institutional expansion already appropriated all that remains is to step up the pace with which ground for new buildings is being broken.

But bed space and medical care is not enough. The problems of the feeble-minded, the retarded and the deficient are also research problems. Considerable progress, for example, has been made in checking hydrocephalus. If the malady is treated early enough in infancy, a normal future for the child is possible.

Thus, any long range institutional program must also include research grants to explore new methods of treatment and prevention. And it must also include an information program. Many birth defects are genetic and even a cursory examination of certain family histories indicates that chances of subnormal births are high.

the elevator division. Since then, he progressed through several foreman jobs there and attained general foreman of manufacturing operations in 1953. He was appointed assistant superintendent of the electric stairway plant in 1957, the post he held when he received his present assignment.

Active in his community, he was elected to a three-year term as councilman for the Borough of Mountainside from 1960 through '62, and served as a member of the planning board and board of adjustment. He was the police commissioner in 1962.

For three years he held the post of fund raising chairman for the United Campaign Fund in Mountainside. He is a past president and honorary member of the Industrial Management Club in Jersey City, a member of the North Morris Manufacturers Club in Morris County, and a trustee of Our Lady of Lourdes Church in Mountainside. Earlier he served as chairman of the building committee for the

CORNERSTONE LAID FOR HOLY CROSS LUTHERAN CHURCH

The cornerstone for the new Holy Cross Lutheran Church, Springfield, was laid last Sunday morning, April 28, at 10:30 a.m. with special ceremonies at the church site, 639 Mountain Avenue. Over 130 worshipers attended. Ground was broken for the \$131,000 structure on October 7, 1962, and it is scheduled for completion in July. The nave will seat 156 with additional seating in the narthex and balcony.

The L-shaped building will contain the church proper plus organ loft, offices, a fellowship hall, kitchen, sacristy, and utility rooms. It will provide 6,400 feet of floor space with provision for expansion, if necessary. The building is on a 2-acre plot with ample off-street parking facilities in the rear. Upon completion of the new edifice the present chapel will be converted into an educational wing.

Sharey Shalom Bowling League

The Gary Schuckman team won the Springfield Temple Sharey Shalom Bowling championship last Sunday in a photo finish that saw the three league leaders wind up the season only one game apart, with Otto Granick's team second and Bob Bornstein's bowlers third.

A brilliant 619 series by Art Glover, 195, 210, 214, helped rocket the Jack Zlatin team to fourth place, just 1/2 game ahead of Leo Newman's kegglers.

The other high bowlers were: Sid Atkin, 232; Bob Bornstein, 208; and Hy Adler, 206.

Dayton Tops Raider Nine, Bell Homers

Rain finally halted a Dayton Regional effort on the baseball diamond, as the scheduled game between the Bulldogs and Roselle High on Tuesday was postponed until May 13th. The UCC tournament game with Cranford Wednesday was also deemed unlikely to be played.

Last Friday Springfield upped its record to 8-0 with a 6-0 effort over the Raiders of Scotch Plains. Frank Monticello and Bill Kretzer combined to stymie the Raiders.

Sue Rynar Receives Table Tennis Award

Miss Sue Rynar, of 55 Evergreen Avenue, Springfield, placed first in the Women's Recreation Association Table Tennis Tournament held on the Madison campus of Fairleigh-Dickinson University. Miss Rynar will be presented with a trophy at the Awards Banquet which will be held on May 8th. All 338 women on the Madison campus are members of the Association.

Butch Bell got the Bulldogs rolling towards their sixth straight conference victory with a tremendous home run to left-center field in the second frame at the Meisel Avenue field. Then with one out pitcher Monticello singled to left and came all the way around to score as the ball bypassed the left fielder. The Bulldogs scored once more in this frame for a 3-0 margin that was never threatened.

Monticello pitched four innings before retiring for Kretzer. Scotch Plains managed seven

safeties off the Dayton aces, but two double plays and a crucial strikeout by Monticello kept the Raiders from scoring.

The first inning of the contest was a long affair, as Springfield second sacker Steve Berger was spiked in the head and had to be taken for three stitches. Keith Neigel and Monticello shared the second base chores for the remainder of the contest. The Bulldogs also loaded the bases in the bottom of the first but failed to score.

Monticello picked up his third win of the campaign, while Bell and Ronnie Urquhart starred for the Dayton stickers. Bell had a single besides his long shot, while Urquhart had a perfect 2 for 2 day to up his batting average to .524.

Cranford, behind the no-hit pitching of Bob Prall, downed
